Carringe Manufacturers, having been established for more than twenty, five years, and brilt the first light work in this section, and having equal to any, if not the best shops and facilities of any works in the Dominion, are still giving heir whole energies to the building of Light Carringos, &c. As we warrant all our work we do not sacrifice quality for price. Our rule is to buy and manufacture well so that we can sell well, at the same time making it an object for customers to buy from us, and at the same time for us to sell to them. Parties calling and seving our VARIED SPOCK—as we use every novely that is known to be good—will but be deceived when they behold the graceful sweeps and outlines of our wood-work, straight and lightness of iron-work, elegance, beauty and softness of trimming, and unsurpassed mirror like finish of painting. In o great difficulty to be surmounted in painting old work is that the cracks in the old paint on the body of a carriage show though the new surface as soon as it is re-painted. We are prepared to meet this obstacle by guaranteeing a good job; and the Spring of the year is the time to see about having your conveyances put in proper repair-it is the best kind of economy.
