RICHMOND HILL, Sept. 2, 1875.

MEDICAL ATTENDANCE ON PAUPERS.

For some time past the members of the Markham Council and the Medical Practitioners in the vicinity seems to have been at loggerheads respecting the payment of fees for medical attendance, etc., on paupers residing in the township, and receiving aid therefrom. The Council having, at different times, refused giving any remuneration whatever for such services, the M. D.'s have determined to cut off the supply of "camomile, soothing syrups, etc." and reserve their healing powers for the benefit of those who are able to "foot the bill." At the formation of the York Medical Association a resolution was adopted by the members pledging themselves not to attend anyone in the municipality of Markham, belonging to the class known as "indigents" without an order from the Council. While we approve of all municipal bodies practising the strictest economy, yet it seems rather hard for the medical men to supply medicine, and, in many cases the more common necessities of life without any hope of remuneration, and still harder to refuse attendance on their fellow creatures in distress because they are not in possession of ample funds to pay for such services.

There is no doubt, in the class of patients referred to, a large percentage who are continually suffering from some "imaginary illness," and who, if they were allowed, would have a doctor in constant attendance, and the latter would certainly have no objections providing he was sufficiently recompensed for his services. There are some of the disciples of Aesculapius with a limited practice who would only be too willing to attend such patients, and there would be a danger of the ratepayers being imposed upon by having some rather heavy bills to liquidate without receiving any benefit therefrom. No doubt, the drain this class of patients would make on the township exchequer, was what the councillors had in view when they decided not to grant any remuneration for medical attendance. But, there are cases of real distress and sickness which calls for proper attention, and when properly attended to the parties giving such attention should be sufficiently paid for their services.

The matter could be very easily arranged if the two parties at variance would meet and fix a tariff, which, we believe, could be done satisfactorily to all concerned, and when the Council received intimation of a case requiring medical aid an order could be given on a practitioner for medicine, attendance, etc., and he would be able to give the case such attention as it might require, with the surety that his services would be properly remunerated.

CONSERVATIVE DEMONSTRATION.

One of the greatest political gatherings ever held in this part of Ontario took place at Markham Village, on Wednesday last, on the occasion of the first annual Picnic of the Liberal Conservative Association. From about ten o'clock a.m. vehicles of all kinds came pouring into the village from north, south, east and west, until there must have been at least 5,000 people in the town. The visitors from Richmond Hill and vicinity occupying some ten or twelve conveyances, formed into procession headed by the Richmond Hill Fire Brigade Band, arriving in the village about twelve o'clock, noon, when they proceeded to the Railway Station, here a large gathering was congregated awaiting the arrival of the special train from Toronto, with the Honorable gentlemen on board who were expected to do the "speaking." At one o'clock a note of warning from the engine bell announced that the train was close at hand. The crowd, by this time, had become immense, and on the train coming to a standstill deafening cheers were given in honor of the distinguished party. A great deal of disappointment was felt when it was found that the Honorable Sir John A. Macdonald was not among the arrivals. A carriage was in waiting to convey the Honorable to the picnic grounds, and a procession was formed led by the brass bands, three in number, when they proceeded through the village. Two beautiful arches were erected on the main street, nicely decorated, one opposite the Wellington Hotel, and another at the north end of the village. Other decorations of a similar nature, although on a smaller scale, were made by private individuals who wished to show their political sympathies.

The Demonstration, as far as a picnic was concerned, was rather a failure, very few seemed to have made any provision for the wants of the inner man, the consequence was a general raid on the

hotels, which seemed to have been expecting a siege and were fully prepared for the onslaught. Arriving at the Wellington Hotel the Honorable guests were entertained to lunch by the Committee and some of the more prominent members of the Association, after which they proceeded to the large agricultural hall which was filled to excess. The following Gentlemen occupied the platform:—Hon. Dr. Tupper, M. P.; Hon. M. C. Cameron, M. P.; Hon. Wm. Macdougall, M. P.; Hon. T. N. Gibbs, Mr Brown, M. P. P. Order having been called, A. Barker, Esq., Chairman, in a few appropriate remarks introduced Hon. Dr. Tupper, who was received in the most cordial manner. The Honorable Gentleman expressed his pleasure at meeting such a large assembly of electors of this section of the country, and also his regret at the absence of his esteemed friend and colleague Sir John A. Macdonald, who, he believed, was detained through sickness. He then proceeded to speak in the highest eulogistic terms of the Honorable leader of the Opposition, whom he characterized as one of the greatest statesmen on the American Continent. This eminent gentleman, in a speech of two hours duration, which was listened to with the strictest attention, dwelt on the different political questions of the day, particularly on the great Pacific Railway Scheme of the present administration, the contractors of which he fully believed to be in league with the directors of the Northern Pacific, which would ultimately result in the Canadian Pacific becoming a total failure.

Hon. M. C. Cameron followed, meeting with a flattering reception from the audience as leader of the Opposition in the Local Legislature. The Hon. gentleman dwelt more fully on the political situations in Ontario, showing the inconsistency of the present administration in their dealing with measures to which they were entirely opposed while in opposition; concluding a speech of three quarters of an hour, the Hon. gentleman took his seat, amidst thunders of applause, and was followed by the Hon. Wm. Macdougall and the Hon. T. N. Gibbs, the latter gentleman, in a vigorous speech, showed the incapacity of Mr Cartwright, as Finance Minister, to deal with matters concerning the finances of our country.

As the speeches in full will be found in a supplement which we issue with this week's HERALD, it is unnecessary to enter any further into the remarks made by the gentlemen present.

At the conclusion of the addresses votes of thanks were tendered to the speakers, amidst great cheering, when the procession re-formed and a large number accompanied the gentlemen to the station. Thus ended a day that will long be remembered by the electors of East York.

The Premier arrived at Ottawa on Tuesday last. Addresses were presented to him, to which he replied.

THORNHILL has organized a brass band, under the leadership of Mr Andrew Spaulding, of Patterson.

The annual Picnic, in aid of the Roman Catholic Church Mission, will be held in Mr Seager's grove, Thornhill, on Thursday, the 16th inst.

An Agricultural Exhibition will be held in Orangeville on the 30th September and the 1st of October. \$2,000 will be distributed in prizes.

We would call the attention of parties who are desirous of investing in freehold property, to the advertisement of "Chancery Sale," in another column.

The annual Exhibition of the City of Toronto Electoral Division Society will be held on the Exhibition Grounds on Tuesday, Wednesday, Thursday and Friday, September 28, 29, 30, and October 1st.

CATTLE FAIR.—The Cattle Fair, which is held in one village on the first Wednesday in every month, was very well attended on Wednesday last. The show of cattle on the ground was very good, but, owing to the scarcity of buyers, they soon began to decrease, the farmers driving them home again, and but few cattle changed hands.

FIRE.—Last Tuesday night, between 11 and 12 o'clock, a fire broke out in an old frame building on Arnold street, in the west side of the village, occupied by an old couple named Boodle. Mr Wm. Sanderson was the first to discover the fire and arriving on the spot succeeded in getting the inmates out, barely in time to save their lives. The origin of the fire is unknown, but no doubt was the result of an old Bond's Lake veteran named Conner, who took an active part in the "spree," he (Conner) at the same time getting his "grog locks" a little scorched. Most of the furniture belonging to the old couple was saved. Our Fire Brigade turned out en masse, but, owing to the scarcity of water, did not bring their engine into play.

L.I.—The late discovery of gas made at Newmarket has turned out to be something serious, the good people of that town having come to the conclusion that they are in possession of a fortune in "oil," and boring operations are to be commenced immediately. Some few years ago the inhabitants of "Hogg's Hollow" got excited in something the same way and the bright prospects induced them to "go under about 1500 feet, and there—well—the oil didn't appear, and they stopped boring. We know a few individuals in that section who would be willing to give their experience in oil matters, gratis, which we have no doubt would be beneficial to the Newmarketites and would amply repay the expense of a visit to that romantic spot; if they could get no information there, they might try Hicadford, they "had it" there also.

THE CLERGY RESERVE FUND.

To the Editor of the York Herald.
DEAR SIR,—The rate payers in this Union School Section, outside of the Village of Richmond Hill, are very anxious to know, from some of the authorities of the Township of Vaughan and the Village of Richmond Hill, what disposition is to be made, this year, of the interest arising from the Funds heretofore known as Clergy Reserve Funds;—perhaps you can give some information on this very important matter, or put your readers on the "accent."

The last two weeks of fine weather has about brought the harvest labors to a close. Never in this part of the country have the crops been harvested in a better condition. In the fore part of the season considerable wet weather prevailed and it was feared that irreparable damage would be done to the fall grain before it could be housed, but, fortunately, the state of things did not last very long and the present fine weather has lasted long enough to put all danger past.

SERIOUS ACCIDENT.—Last Monday evening, between 5 and 9 o'clock, an accident of a serious nature happened to a man named George Stephens, a blacksmith, a resident of Lansing. It appears that he, in company with another "brother smith," had arrived in the village in the afternoon, where they proceeded to "imbibe," and in the course of the evening struck up a horse trade. The animal they received in exchange had been pasturing for some time at Mr Palmer's and was, consequently, a little frisky. Stephens, however, thought he was capable of driving home, and leaving his companion drove as far as Mr Palmer's gate when the horse "bolted" into the gateway throwing the driver out on the street, in the fall he received some severe cuts about the forehead and remained insensible for some time after he was found. Dr Langstaff was summoned and dressed the wounds. We understand he is fast recovering.
