

PHILADELPHIA.

BY "CARLOS."

The question as to whether the Exhibition will be open or closed on Sundays is not yet finally decided by the Centennial authorities.

ADMISSION FEE.

The price of admission will be fifty cents, payable in one or two installments, and admitting to everything that is to be seen during the time the visitor remains within the enclosure.

"EXTRAS" ON THE GROUNDS.

Rolling chairs will be kept at stations within the principal buildings for the convenience of visitors desiring to use them.

FACILITIES FOR LOCAL TRANSPORTATION.

In addition to the facilities of access afforded by the different passenger railway companies and the steamboat company on the Schuylkill, a number of cars will be run between the city and the grounds by the Exhibition Transfer Company.

LOCALITIES FOR LOCAL TRANSPORTATION.

Localities in the buildings can be determined by the columns supporting the roofs, which are both lettered and numbered, those in the main building being lettered from north to south, and numbered from east to west.

HYDRAULIC MACHINERY.

An annex to this building for hydraulic machinery will contain a tank 144 feet long, 60 feet wide, and 8 feet deep.

THE SYSTEM OF AWARDS.

Adopted by the Centennial Commission is original, and appears to be one that will give satisfaction.

EVENTS OF THE SEASON.

The following special events are to occur during the Exposition: Opening ceremonies, May 10th; grand ceremonies on the Fourth of July; harvesting display in Bucks county in June and July; trials of steam plows and tillage implements in the same place in September and October.

USEFUL RECEIPTS.

BISCUITS.—Take some of the bread dough in the morning, as much as would make a loaf of bread, add one cup of butter, mix well, and make into biscuits, let rise, then bake.

LEMON CAKE.—Half a cup of butter, two lemons of cream of tartar, three cups and a half of flour, one teaspoonful of soda, the grated rind of a lemon, bake in two pans.

SOFT WAFFLES.—Boil two gills of rice quite stiff, mix with it three gills of flour, a little salt, two ounces melted butter, two eggs beaten well, and as much as will make it a thick batter, beat it till very light, and bake it in waffle-irons.

KEEPING MILK SWEET.—A simple and effective remedy for the prevention of milk turning sour in summer time consists in adding to each quart fifteen grains of bicarbonate of soda.

SALAD DRESSING.—Mix the yolks of two raw eggs in a basin with one teaspoonful of salt, whisk them well, then add one teaspoonful of made mustard, three table-spoonsful of vinegar, one of tarragon, and one of Chili vinegar, add a little sugar and cayenne, and bottle tight for use.

TO WASH WHITE STRIPPED STOCKINGS.—Make a jelly, the night before it is wanted, of the best yellow soap; wash the stockings in warm water with a little salt in it, using the jelly instead of soap; rinse in clear water, also with a little salt in it; wring as dry as possible, and dry quickly.

FUR DAMP CLOSETS AND CAPS.—Those which generally mildew, a trayful of quick-lime will be found to absorb the moisture and render the air pure, but of course it is necessary to renew the lime from time to time as it becomes fully saturated.

THE USE OF LORAX IN EUROPE for washing is well known, the addition of a large gallon of borax, instead of soda, to ten gallons of water being sufficient to save half the quantity of soap.

TAKE a goblet with the foot and stem broken or cut off, so that the bowl will be perfect; take coarse red lannel, the redder the better; stitch it neatly round the bowl or goblet, so as to cover it completely on the outside; dip it in water so as to wet it through.

A VERY pretty and cheap rug may be made from old pieces of worn cloth, delaines, worsteds, etc., by cutting them into strips three-fourths of an inch wide; then cut them into strips of the same width or small cord sewed through the middle of the strip, taking stitches about half an inch long.

How a Lady Gets on the Street Car.—Did you ever observe the manner in which a lady gets on and off the street car? What deliberation of movement, what daintiness as to where she steps, and with what important stride she at last settles herself in her seat.

THE credit of mankind it may be observed that this arrogant and unlimited empire of babyhood has not been submitted to tamely and without partial effort to control or modify its oppressive authority.

Our Climate.

It is a stereotyped subject of complaint. The Equinox consider it too cold within the tropics, and the blocks of Guinea find it too sultry at the equator, nor is there any intermediate latitude with which the people thereof are entirely satisfied.

Beef Tea, and How to Prepare It.

First let us take that probably most useful of all invalid's preparations—viz., beef-tea. The quickest and best method of preparing it is as follows: Take one pound of good lean beef, cut it up into little pieces, pour over them a pint of cold water, and add a little salt.

A POPULAR SUCCESS!

DEPEW'S Medical Victory.

A GREAT BLOOD PURIFIER AND Health Regulator.

NO MEDICINE EQUALS IT. DON'T FAIL TO PURCHASE IT.

Possessing most Astounding Curative Properties hitherto unknown, and only obtainable in the Medical Victory.

Its Properties are such as to rapidly insure Sound Health and Long Life.

The best scientifically prepared medicine in America.

Pleasant to the taste, and warranted free from anything injurious to the constitution of either sex.

Read the certificates of wonderful cures given by Dr. Depew's Medical Victory.

DR. DEPEW, OF PARIS, FRANCE, an eminent physician, is the discoverer of this Great Blood Purifier.

For the cure of Scrophulous, Rheumatic, Salt-rheum, Eczema, Scald-head, Eruptions of the Skin, Itch, and Liver Sore of all kinds, Boils, Humors in the Mouth and Throat, Swelling of the Feet, Eruptions on the Head, and Pimples or Blotches on the Face.

It is a Gentle Regulating Purgative, as well as a Tonic, &c.

A Perfect Renovator and Invigorator of the System.

One Bottle of Depew's Medical Victory will convince the most incredulous of its curative properties.

Sells by Druggists and Dealers. ADDRESS: Sills & Co., BATH, ONTARIO.

A Most Powerful Drink.

Did you ever hear of Sir Andrew Wallace seizing a man that was drunk and putting him out at auction? Squire Wallace was a captain in the military service, after the training was over, and just before the men were dismissed from parade, he took a guard with him and made a prisoner of Pat Swenson, who was a most powerful drinker.
