On Wednesday evening last, the Fire Brigade Band discoursed sweet music on the street, and we noticed that they had a new circular B-flat bass horn, which was well played. A kettle drum would add greatly to their already creditable music.

The annual picnic, in connection with the Episcopal Church of this village, will be held in Mr. Wm. Powell's grove, next Thursday afternoon, the 8th inst. The Fire Brigade Band will be in attendance, and various amusements will be provided. The ladies will have an apron table on the ground.

The Managing Committee inform us that in the report of the fair held here on the 24th May, Miss Thomas should have appeared as having received the first prize for bread. The total receipts from all sources, with balance on hand from last year, being about \$420.

Mr. Atkinson will show this week a large assortment of harvest tools, of Canadian and American manufacture, spades, shovels, ditching and stumping spades. Will also show fresh lines in felt and straw hats, ordered and ready-made clothing. Our Mr. Ball is prepared to suit the taste of the most fastidious in ordered clothing. Mr. Atkinson, not understanding our new arrangements with regard to printing the whole of our paper in our own office, handed us his change of advertisement too late for this issue, but will appear in our next.

Mr. Falconbridge, in addition to his large stock of dry goods, comprising ladies' dress goods, gentlemen's coatings and trousers, together with staple and fancy goods in great variety, announces to farmers and gardeners that he is in receipt of spades, shovels, 2 and 3 prong forks, barley forks, flat-prong forks, hoes, rakes, nails. These goods were bought direct from the manufacturers, principally from the celebrated makers, Jones, of Gananoque. Intending buyers will do well to call and see the goods. One side of our paper having been printed before Mr. Falconbridge handed us his change of advertisement, it is, therefore, too late for this issue, but will appear next week.

City Items.

The new yacht Countess of Duffin arrived in Toronto on Tuesday, when she was visited by a number of citizens, who admired her make and equipments.

We regret to learn that Rev. Canon Baldwin died at his residence, Toronto, on Wednesday last. He was connected with St. James' Cathedral for many years.

Two young boys, after attending the anniversary meeting at Elm street Church, Toronto, had an altercation, when one of them, by the name of Huggins, drew a knife and stabbed the other, named Harris, twice in the back. The assailant was arrested and lodged in the police station.—Globe.

North York.

Newmarket has a new fire engine. The Grangers of North York intend holding a grand gathering this month.

The Era says fall wheat in this Riding as a whole looks well, and that spring work had been delayed on account of the wet weather.

The usual feast of the Children of Peace will take place to-morrow, Saturday, at Sharon. Worship at eleven a.m.; dinner at half-past one p.m.

Trinity College, Toronto, and all North York will play a two days cricket match at Newmarket on Monday and Tuesday next, the 6th and 6th inst.

One day last week a pillow-cover, saturated with coal oil, and also a quantity of matches, were discovered under a dwelling on Simcoe street, Newmarket, occupied by G. M. Jones, marble cutter. The affair looks very suspicious, and it does appear to us, that with such a clue as the articles found afford, a sharp detective ought to discover something. Mr. Jones naturally enough felt greatly alarmed.—Era.

Stouffville.

Mr. Edward Wheeler, of this village, recently dug up in his garden two fish-worms, measuring respectively 14 and 15 inches.

Mr. T. A. Patterson, M. A., will lecture this (Friday) evening in this place, under the auspices of the Stouffville Literary Society.

Mr. G. McEachery, who has for some time ably filled the position of station-agent at the Stouffville station of the T. & N. R., being about to take his departure from that place, a large number of his friends waited on him, at the residence of Mr. J. Ainley, and presented him with a Gold Albert Chain, and a very eulogistic address.

Yorkville.

Some misunderstanding is said to exist between a Yorkville Magistrate and Constable, about fees. We trust the difference may be settled amicably.

Two or three beautiful fever-breeding spots require the special attention of the worthy Inspector of this Municipality, before something serious comes of it. One especially on Beverley street.

Bengough gave one of his unique lectures on Friday night last, at Yorkville, whereat he caricatured some of the local celebrities to a dot, highly delighting an appreciative audience. Councillor Wickson purchased the fac-similes at the close of the performance for one dollar and a half; we suppose for the purpose of gracing the walls of the Council Chamber.

We have to thank our friends in Yorkville for their promised aid and assistance in the shape of subscriptions. We beg to inform them that they must not forget that we do advertising as well, and have the best job office in the Riding. Mr. Kirkpatrick, saddler, has kindly consented to forward subscriber's names. Will our friends in other parts of the East and West Ridings go and do likewise.

Markham Village. Nothing new here, except one of the minor satellites of the "big push," newspaper organ.

A hen belonging to Mr Wm Randle, on the rear of the 7th Con Markham, has just hatched a chicken with four legs. Mother and child are both doing well.—Economist.

There was a newspaper published here last week which says the Centennial exhibition, at Philadelphia, was opened May 10, 1876. According to that, the show must now be running over 100 weeks. Wonder if there is anybody now living who was at the opening?

On Saturday last, the 20th ult, at mid-day, two dogs of the Newfoundland breed, worried eight superior Cotswold sheep, belonging to Mr R G Armstrong, importer and breeder, all from imported stock. Four were killed and four badly wounded. Two competent judges examined the sheep and valued the loss at \$165. The dogs were caught in the act by Mr J Raymer and C Cook, who just arrived in time to save the whole flock, 37 lambs and 24 ewes, for some of which Mr Armstrong paid \$82 each. The loss as it will be severe on both owners of dogs and sheep. Parties owning dogs caught in the act of worrying sheep are liable for amount of damage sustained.—Economist.

Woodbridge.

The Presbyterians of this place held two parties last week, realizing upwards of \$100 therefrom.

Mr Wm Bell, the temperance lecturer, "talked" to a Woodbridge audience, on the 20th ult.

Commercial.

There has been but slight alterations in the market prices of produce during the week. We will endeavor, next issue, to give a more complete commercial report than now appears.

DR. BRIGHT'S PHOSPHODYNE. (OZONIC OXYGEN.) ONLY ONLY ONLY. The New Curative Agent, and only Reliable Remedy for Nervous and Liver Complaints.

This Phosphatic combination is pronounced by most eminent physicians of the Medical Profession to be unequalled for its power in replenishing the vitality of the body, by supplying all the essential constituents of the blood and nerve substance, and for developing the muscular and functional system to the highest degree.

It is agreeable to the palate, and innocent in its action, while retaining all its extraordinary properties; and as a specific, surpassing all the known therapeutic agents of the present day for the speedy and permanent cure of Nervous Prostration, Debility, and all its Sequelae, Consumption (in its first stage), Headache, Irritability of the Stomach, General Debility, Impaired Sight and Memory, Indigestion, Nervous Pains, Intemperance for Study or Improvised Blood, Insomnia, Nervous Debility in all its Stages, Lassitude, Premature Decline.

And all morbid conditions of the system arising from whatever cause. The action of the Phosphodyne is twofold—on the one hand it increases the principle which constitutes nervous energy, and on the other the most powerful blood and flesh generating agent known; therefore, a marvellous medicine for the aged and infirm, and all broken-down constitutions. It quickly improves the functions of assimilation to such a degree, that where for years an emaciated, anxious, cadaverous and semi-vital condition has existed, the flesh will rapidly increase in quantity and firmness, and the whole system return to a state of robust health. The Phosphodyne acts electrically upon the organization, for it induces a positive current to generate that human electricity which renews and rebuilds the system, and restores the nervous, membranous and organic systems. It operates on the system without exciting cars or thoughts upon the individual as to the process. It moves the lungs, liver, heart, kidneys, stomach and intestines with a harmony, vigor, yet unobtrusive unobtrusive in all their actions.

Dr. Bright's Phosphodyne

IS SOLD ONLY IN CASES AT 108. ED. BY ALL CHEMISTS AND PATENT MEDICINE VENDERS THROUGHOUT THE GLOBE.

BRIGHT'S PHOSPHODYNE engraved thereon (white letters on red ground), and that the same words are also blown in the bottle. Every case bears the trade mark and signature of Patente.
