THE HERALD.
RICHMOND HILL, NOV. 24th, 1876.

LOCAL.

Mr. W. A. Sanderson of the firm of
Sanderson & Sons, was on a visit to the
Centennial week before last.

A magistrates' court was held in the
court room last week, at which several
parties were fined for non-payment of
taxes.

Prohibition Temple, I. O. G. T., pur-
pose placing a watering trough at the
roadside in Carville, for the accommoda-
tion of the travelling public, which will
be money well spent.

Myrtle's Centennial Crystal cement
for repairing glassware, lamp chimneys,
china, porcelain, ivory, etc., is highly re-
commended by those that have used it.
For sale by C. E. Sheppard, and at THE
HERALD Book Store.

The Crystal Lodge entertainment on
Monday evening last, was well at-
tended and successful throughout. On
account of the dampness of the evening,
several performers who were expected
from a distance were not present, but
the programme was well filled in by
local talent.

There are about eighty of the inhabi-
tants of this village, without sidewalk
accommodation, and whenever they wish
to get to the main street they have to
encounter a wade through the mud. We
refer to Centre street west and
Church street; there ought at least to be
a decent plank walk leading to the
Methodist parsonage.

Those lamp glasses that never brake
according to some folks ideas do not
seem to keep up their character as a
gentleman informs us that having bought
one of them he was surprised to find the
other night that after the lamp was
lit the glass burst scattering the
pieces all over the room. The thickness
of the glass making it more dangerous
when it breaks to any person that may
be in its vicinity.

The Miner family held forth to a very
full house on Tuesday night, at the
Masonic Hall. Upon the whole the en-
tertainment was well worth the money
charged. Several of the pieces were
encored. The finale "the regular army,"
seemed to take immensely with the
youngsters as also the part entitled "cat
and dog," drew down thunders of ap-
plause. At the end of the proceedings
"God save the Queen" was very oppor-
tunately given by our village band.

On Monday and Tuesday our Public
School was inspected by D. Fothering-
ham, Esq., Public School Inspector for
the Northern Division of York. Mr.
Fotheringham expressed himself highly
pleased with the state of the several de-
partments in general, and also compli-
mented the pupils on their very good be-
havior, which was such as to greatly
facilitate the work of examining; and
cause his visit to be a pleasure rather
than a duty forced to be performed.

November 22, 1876.

To the Editor of The Herald.

SIR,—I was very much pleased with
the reply Mr. Harrison made to inquiries
made by me in a former number of your
valuable paper, and take this opportunity
of thanking the trustees for their kind-
ness in furnishing the desired informa-
tion.
Yours, etc.,
A FRIEND OF TEMPERANCE.

RICHMOND HILL, Nov. 22, 1876.

To the Editor of The Herald.

SIR,—Can you give your readers any
information as to what our Local Dunkin
Act Committee are or have been doing?
The Local Committees of other places
in this county have held meetings, and
made arrangements in their respec-
tive localities for the coming
campaign. Our Local Committee
was instructed by the Central Committee
to give Richmond Hill a thorough canvass.
Go to work, gentlemen; the tem-
perance people are anxious to see or hear
of your doing something in that direc-
tion. By so doing you will begin to
think that the Dunkin Act question in
this county is not all talk. The people
are getting wearied and disgusted with
the whole matter so far as the county of
York is concerned. Other counties take
the question up, act at once, and while
we are considering it, they go earnestly
to work, and the first thing they know
another Dunkin Act banner of victory
is hung to the breeze. Then up and
work for our opponents are working
night and day, and this county is in too
close proximity to the city of Toronto,
for committees appointed to work, to be
taking their ease.

A SUPPORTER OF THE DUNKIN ACT.

THAT FIFTY DOLLAR FENCE.

To the Editor of The Herald.

SIR,—I observe in the last number of
THE HERALD, Mr. Harrison has taken
to task a former correspondent, who
seems to be rather inquisitive about the
cost of a "rough one" built around the
new Temperance Hall. The inference
to be drawn from what Mr. Harrison
says, is that the Trustees are alone re-
sponsible to the members for a detailed
statement of the expenditure connected
with this "beautiful and commodious
structure." Now, Sir, I take exception
to this opinion seemingly expressed by
Mr. Harrison, and assert that the public
have a right to know money contri-
buted by them has been spent, without
making a personal appeal to the Treas-
urer. Being a subscriber, I would en-
quire (which can be answered through
THE HERALD) how it is that in an ex-
penditure of fifty dollars, the principal
item is one which only amounts to two
dollars and sixty cents? Mr. Harri-
son endeavors to explain the mystery
by stating that this amount consisted of
several items, among which were the
dining room furniture and heating ap-
paratus. His attempt to make people
believe that the furniture spoken of
formed a considerable portion of this
mysterious fifty dollars, is like a drown-
ing man grasping at a straw, especially
when it is generally known that the
whole furnishing consisted of a half-dozen
rough, unplanned boards arranged
on cross-sticks, as a kind of a temporary
table, and benches and chairs borrowed
from every available source in the village.
The latter item is probably more correct,
and especially if we add the cooking
apparatus used in "serving up" the
Trustees' Report, which, judging from
the flavor, was a "little overdose." Or,
peradventure, some of the Trustees in
their "unsophisticated simplicity," may
have accidentally put some of their paint
and glass bills in with the "etceteras."
In conclusion, I would observe that
the system is bad where the Trustees
are supplying of material, as it gives
a chance to surmise, especially when
there is so much mystery in connection
with the transaction. However, I hope
Mr. Atkinson will act on Mr. Harrison's
suggestion, and in the next issue of
THE HERALD furnish the public with a
detailed statement of all receipts and ex-
penditures connected with the new Hall.
Yours, etc.,
SUBSCRIBER.

P. S.—To lessen the liabilities, I
have enclosed a small sum with name,
addressed to Mr. Atkinson, which he is
at liberty to make known to the temple.

THE TEMPERANCE HALL.

We copy the following extract from
an article in the Canada Casinet in re-
ference to the dedication of the new tem-
perance hall:

"The splendid new Good Templars
Hall at Richmond Hill, York County, was
dedicated on Wednesday first inst., at-
tended by very interesting services. The
Hall is one of the neatest, best ar-
ranged and best finished, of any of the
kind that we know of in Canada, and it
is certainly very creditably to the spirit
and enterprise of the Good Templars of
that village. The hall is a very com-
modious one, well finished, neatly paint-
ed, and surrounded by good grounds
well fenced, the whole making a very
tasty appearance from the outside. In
side the arrangements are excellent.
The finishing is done in good style, the
walls being ornamented with some ap-
propriate mottoes, and decorated with
pictures, everything having been done to
make the place as attractive as possible.
The building and ground cost, we under-
stand, nearly \$1,200, the most of which
has already been provided for."

The first instalment of trees for the Lon-
don boulevards has been planted in the
Borough Road.

An official of Durham Cathedral, in
examining the new marble pulpit, designed
by Sir Gilbert Scott, recently found that
an amethyst, one of the precious stones which
were inserted in the structure, had been re-
moved, apparently by the aid of a knife.
Inquiries are being made.

The Jockey club has had a big scandal
before it, coming out of the Midland
Counties. A horse has been run in a
number of races to which it was not entitled,
and under several names. It was carefully
planned to hide its identity, and "a pot of
snoozy" has been won with it.

PROBLEMS.

Each of two men, A and B, desired to
sell his horse to C. A asked a certain
price, and B asked 50 per cent more.
A then reduced his price 20 per cent,
and B his price 30 per cent, at which
prices C took both horses, paying for
them \$148. What was each man's
asking price?

A machinist sold 24 grain drills for
\$125 each. On one half of them he
gained 25 per cent, and on the remain-
der he lost 25 per cent. Did he gain or
lose on the whole, and how much?

A goat is fastened to the top of a post
4 feet high, by a rope 50 feet long.
Find the circumference and area of the
greatest circle over which he can graze.

Answers are solicited to the above.

City Items.

We regret to learn that the Messrs
Hamilton & Cos' foundry was burnt to
the ground on Tuesday. The foundry
formed a block bounded by four streets;
the loss is estimated at \$250,000,
covered by insurance to the extent of
\$40,000; by the loss of this foundry,
several hundred workmen will be thrown
out of employment, and this at the
approach of winter is very hard. It is
said there was no fire in the place where
it first broke out, therefore, it is but
natural to suppose that the place must
have been fired purposely.

EPPE'S COCOA.—GRATEFUL AND
COMFORTING.—"By a thorough knowledge
of the natural laws which govern the operations
of digestion and nutrition, and by a careful ap-
plication of the fine properties of well-selected
cocoa, Mr. Epps has provided our breakfast
tables with a delicately flavored beverage
which may save us many heavy doctors' bills.
It is by the judicious use of such articles of
diet that a constitution may be gradually built
up until strong enough to resist every tendency
to disease. Hundreds of subtle maladies are
floating around us ready to attack wherever there
is a weak point. We may escape many a fatal
sift by keeping ourselves well fortified with
pure blood and a properly nourished frame."
