the impressive and practical discourses de-

Meantime operations of a different nature were going on outside. A large shed adjoining the church grounds was handsomely fitted up and decorated for a banqueting hall, with accommodation for two hundred and forty guests at a time. At 4 p.m., the tables were spread, and the people by the hundreds partook of the good cheer provided. This very interesting and highly appreciated part of the programme over, all re-assembled in the church, where spirited speeches and excellent music were in readiness for their further instruction and entertainment. To mention the characteristics of the addresses, and the different pieces of music rendered, even in the briefest possible manner, would take too much time and space. Suffice it to say that all was excelent and highly enjoyed by the large number of people present. At the close of the evening portion of the entertainment, an address and purse of money were presented by the congregation to the Rev. Mr. Mac-gillivray, who was Moderator of Session during the vacancy. Mr. Macgillivray re-sponded in suitable terms, after which the entertainment closed.

THE GREAT CAUSE OF HUMAN

MISERY.

We have recently published a new edition of Dr. Culver-well's celebrated Essay on the RABIGAL AND FERMANENT CELE (without medicino) of Nervous Debility, Mental and Physi-

vous Debility, Mental and Physical Incomeity, Impediments to Marriage, etc.

13° Price, in a scaled envelope, only 6 ceats, or two postage statups.

The celebrated author, in his admirable Essay, elecarly demonstrates, from thirty years successful practice, that therming consequences may be radically cured without the dangrous use of internal medicine or the application of the knife, pointing one a mode of cure at once simple, certain and effectual, by means of which every sufferer, no marter whet his caldition may be, may cure himself cheapity, privately and radically.
