New Parliament Buildings.

new Parliament Buildings in Toronto. our village. Every one appears to agree in condemning the present buildings, and it is expected OUR TORONTO LETTER that the matter will receive the attention of the Provincial Government next session. Toronto appears to be willing to secure a site in the Queen's Park, and it is proposed to sell the present buildings and grounds for a sum sufficient to erect, or very nearly was granted by the Legislature of erect, the new Houses. The Buildings Ontario (36 Victoria) to Frank Turner will be built on a grand scale, suitable for Esq, Civil Engineer, and others, for the holding the Dominion Parliament, when purpose of building the Loop Line. ting the County, this village, and the officials, both morally and physically, is that of railway connection. This is only a trifling matter, however. A good gravel road to the station, and Proctor's four horse bus would whirl passengers over to the railway station before they felt actually settled down in the vehicle. Palmer's four-horse flying express would take them down Yonge street to the city, in as rapid pleasant and convenient a manner as could be desired. This railway connection, then really does not amount to much. It should not for a moment, enter the head of those who know the truth of what is stated There are good roads leading from this village to every part of the County, and those that are not quite up to perfection, could and would easily and immediately be put in first-rate condition.

We are pleased to notice that some of our business men are alreadly actively working in the right direction. In the adjoining municipalties we have good reason to expect the support of the Reeves and Deputies at the County Board. This should be made the question in our municipal elections to put in a man who will look after our interest, and who is capable of holding his own in the County Council. This question is one of great importance to the village. Personal feelings, politics and other jealousies should be forgotten, There is considerable being said and and all unite in sending down some one written just now regarding the erection of pledged to use every endeavor on behalf of
