The York Herald.  
Richmond Hill, Ont.

THURSDAY, JULY 15, 1880.

County Industrial Homes.

The Newmarket Era generously gives the REFORMER a rest last week, and addresses the question of a County Industrial Home for York. The matter was discussed at the last session of the County Council, and it was ascertained that "the grants of Townships and village Councils towards providing for the poor, decrepit, etc., largely exceeded the cost of an Industrial Home, and did not render as efficient aid to those persons, as a Home would." The County Clerk of Waterloo, where one has been established, says there was considerable opposition to it at first, but now every municipality in the County was eager to keep up the Home, not only as a humane institution, but also on the ground of economy. Middlesex has also established a Home, and effected a great saving thereby to the municipalities. Lambton is taking action, and a special Committee of the Lambton County Council visited Waterloo, and Elgin Homes. They found the relief afforded more extensive and satisfactory, "at a far less cost than it could possibly be under any other system;" and that "the amount now expended in grants by the several municipalities would give far more satisfaction both to the ratepayers and the poor;" and that "tramps and vagrants, who now throng our goals, might be sent to the Home and compelled to work for their board and thus save the expense of maintaining them in idleness."

From the experience of other Counties it would appear that York might follow their example in this respect, very advantageously, not only effecting a great saving but also getting rid of the worthless tramps and vagrants who invest the county more or less, all the year round. These characters are not only a great source of annoyance and expense to the people, but they are no doubt accountable for the losses frequently sustained through thieving and fires. A short residence at the Home, with solid hard work would either bring about a change in the habits of some of these persons, or would induce them to fight shy of this county in their weekly, monthly, or annual pleasure tours. Then, too, many persons enfeebled by age and disease, are deserving of a comfortable home, but, in many cases have to put up with what they can get through the charity of a neighbor, or by the Council paying some person a certain sum monthly for their board and lodging. In some instances these indigent persons have comfortable homes and good treatment, but others their lives are anything but pleasant, or comfortable, and the amount allotted by the Council for their maintenance is very small, when scattered amongst a great number, and given to so many different persons. A similar sum, invested in the shape of a Home would benefit not only these poor creatures, but after a short time, the expense to the municipalities would be much less. There is no danger that were things made comfortable for indigent persons, the number of such cases would greatly increase. Good management, and a fair amount of work would prevent any marked results of that nature. There will always be a certain number of indigent persons, dependent on the municipalities, and they might as well receive good comfortable homes at a minimum of cost to ratepayers. It is natural to expect a certain amount of opposition to the establishment of an institution of this sort, but we fail to see why York should not avail herself of a system which has worked so advantageously in other counties. If there are any of our readers, desirous of supporting or condemning the idea, we will be pleased to give them the benefit of our columns.

VICTORIA SQUARE.

SHOW THE CROPS LOOK.

(From a Special Correspondent.)

The crops are looking very fair in this neighborhood. Barley will be an extra good crop, considerably above the average. Spring wheat is not so promising, just about half of an average crop this year. About two-thirds of all the Fall wheat sown, was blighted with the frost, and plowed up this spring. The remainder will not average over half the usual crop. Oats are good, and promise to turn out an average crop, or slightly better. Hay is being rapidly pushed ahead. Every farmer is hard at work. The hay crop is a little below the average. Potatoes and other roots, are very promising.

Attempted Suicide.

IN MARKHAM TOWNSHIP.

Committed as a Lunatic.

On Thursday evening, July 1st, constable S.M. Brown, of Victoria Square, took down to Toronto an elderly widow named Ganton, who lived near Gormleys Corners. She had been discovered in the act of hanging herself. Mr. John McCague, J.P., of Victoria Square, committed her to goal. She is supposed to be insane, and has attempted to kill herself several times, with razors, etc. She will doubtless be sent to the Asylum.

Constable Brown had considerable trouble in taking her to Toronto, but by rare tact and management, he succeeded in getting her safely into goal. Mr. Brown makes a good officer.

A Severe Case of Poisoning.

A TRIFLING PIMPLE ENDANGERS A MAN'S LIFE.

One day last week Mr. George Soules, baker, of this village, noticed a very slight swelling or pustule on the back of his hand. He did not think it was a serious matter, but squeezed it, and probed it with a pin until it became inflamed. A few days after its first appearance he put in an hour or so in the hay-field, and while there must have poisoned the sore with some weed, or Paris Green. On Wednesday morning he was seriously ill, the left hand, arm and side had swollen to an alarming extent, and it was feared his life was endangered. He was also attacked with inflammation of the bowels and pleurisy. Towards evening, however, we learn that he had improved somewhat, and his many friends will be pleased to hear there is hopes of his recovery.

His youngest child is also seriously ill with a disease resembling Cholera Morbus.

We hope it will not be long before we have the pleasure of seeing George once more on the street in his usual health and vigor.

MILLIKEN.

(From our own Correspondent.)

The hay season is getting pretty well over. A liberal supply of rain in June, and fine growing weather, have greatly improved the hay crop, and as the weather for hay-making has been very fine, the quality will be above the average.

The Spring wheat has not improved much, and has generally the appearance of being a light crop.

The Fall wheat and barley are ripening fast, and will soon be ready to harvest. Oats have a fine appearance, and are likely to be an abundant crop.

The Potato crop has been very plentiful, but the Paris Green has done its work, and the crop is likely to be good.

Many of the readers of the HERALD will be sorry to hear that Mrs. Milliken, of Milliken Hotel, is very poorly, not being likely to recover. A number of our old respected pioneers, have passed away of late.

NEWMARKET.

(From the Newmarket Era.)

MARRIED AND SINGLE.—The married and single men of Newmarket, had a cricket match the other day, and the double men beat the single fellows by a very large number of runs.

SHEEP THEFTS.—During the past two or three weeks several farmers in surrounding townships, have lost young Lambs. We understand Mr. J. Johnson of the 7th of King, and Mr. Y. Demie, jr., of Whitechurch have lately been victimized. This kind of petty larceny is becoming a growing evil, and some pretended pedlars are suspected of committing these depredations. Farmers should be on the look out for them.

ANOTHER HORSE STOLEN.—On Monday last a sorrel horse, about 15 hands high, one hind foot white, and star in forehead, was stolen from the pasture of Mr. Henry Moulds, Lot 25, in the 5th Con. of Whitechurch. Track of another horse, having three shoes on, was discovered next morning about the premises. No further traces have been obtained of the guilty thieves. This horse stealing business is becoming of quite common occurrence, and as far as possible, people should be on their guard in the hope of discovering these nocturnal visitors. We would advise special notice to be taken of all persons seen travelling during the night in order to enable wrongdoers to be more readily traced.

From the Reformer

ENTRANCE EXAMINATION.—Sixty-seven candidates presented themselves at the examination here on Tuesday and Wednesday, for entrance to the High School. This is the largest number, we believe, ever entered at any examination for admission to our High School, and speaks well for the growing popularity of the school.

SUCCESSFUL.—The picnic held here by Rev. Father Harris and his congregation realized something over six hundred dollars, clear of all expenses. The votes on the watch alone, were told, amounted to the sum of two hundred and ninety dollars, Miss Haskett, of Newmarket being the owner of the prize. The object of the picnic was for the erection of their new school house.

A man named Patrick Connors, employed by Mr. H. Hulse, Newmarket, was kicked in the stomach by a horse, one day last week, and died shortly after, from the injury. The horse belongs to Hulse, and is a noted kicker. Deceased was aware of this. He leaves a young wife, and three small children.

FATAL AMUSEMENT.—On Saturday, the daughter of John Hobson, near Uxbridge, was swinging in the barn. Her father came in, and in a playful manner, pointed a pitchfork at her, withdrawing it as she swung came forward. Unfortunately while he was so engaged the door behind him swung to, striking the end of the fork handle as the swing came forward, and one of the prongs entered the child's body a distance of two or three inches, causing a fearful, and it is feared, fatal wound. The little sufferer, who apparently lies in a critical state. The father was overwhelmed with anguish at the tragical ending of what he intended to be an innocent plaything.

Bond's Lake.

Pic-Nics.—HAYING.

From our own correspondent.]

The Picnic season has now fairly opened again. Merry maidens and dashing young men of a similar temperament, are frequently to be seen camping out in the grove, for a few hours, and taking tea under the trees, nice and convenient for the caterpillars and slugs to get mixed up with their eatables and drinkables too, for that matter. The caterpillars and the big black tumblebug, are the most democratic animals that creep or fly, or hit you in the eye. They have no particular regard for beauty, and the most delicate, gentle and fawn-like creature, is just as apt to jump up from her seat and make a frantic grab at something on her neck, as a woman who is as homely as sin. But tumble-bugs and slugs are not caught so easily. They just generally glide down out of the way of the hand, and lodge some where between the shoulder blades, and then—but its just too awful, to imagine what happens after that. No words can describe the looks of horror that comes over a young lady's countenance, and the settled agony and despair which tortures her fellow's soul. After making a fool of himself generally for about three minutes, by hitting her on the back with the water, or pouring cold water down to drown it, and nuzzling the caterpillar under his breath all the while, he goes for another girl. The caterpillar is removed, and everything is lovely for a while. Its astonishing how much solid comfort there is in sitting down watching other folks dance until they look as if they had been working for three hours at the old fire-engine, you used to have at Richmond Hill. There is also considerable fun in taking a row around the lake, getting splashed with water, and having to pay \$3. for the boats when you get to shore. Then you can walk along the shore, tumble down and roll into the water, get your feet wet, etc. Croquet also causes an immense amount of amusement, though where there is anything to be so tickled about in the game is very hard to see. But a person can console themselves by remarking that it takes very little to amuse some people.

I notice that Richmond Hill sends up a very good share of the young folks to these entertainments. Aurora, King, and Stouffville are also represented very frequently, and I think the finest looking young ladies come from Aurora, but of course, that is only a matter of taste, and some people hold different opinions, I have no doubt. There was quite an emigration from Richmond Hill on Saturday afternoon last,—High School scholars, I heard,—and they played croquet and went out for a row on the Lake. They rowed considerably, and the fellows thought they rowed too much when they came to settle the bill, and the girls thought there was too much row somewhere. They were inclined to dispute the amount, but after a little talk, the bill was settled. I am pleased to hear that they did not do, as was done at a picnic I once heard about. The fellows wouldn't pay some trifling charge, and stayed around disputing the thing for an hour or so. The ladies were eager to get home, but they could not get away until the debt was paid, as the landlord wouldn't let the rigs go, so they took up a collection and paid the amount. Pretty small piece of work wasn't it. Well I am glad the Hill High School boys had more manliness. Some folks were saying, that they did allow that kind of a collection to be taken up, by the ladies, but I guess its not so.

Haying is progressing and a good portion around here is safely stacked or disposed of. The other crops are looking very fair.

Mr. Ball, the genial landlord of the large and fashionable Lake View Hotel, has quite recovered from the arm-breaking accident. He is now in good trim for talking politics, or attending to a picnic party.

FARMERS' CLUB.

A well attended and interesting meeting of the Farmers' Club was held at Victoria Hall, Unionville, on Tuesday last, the 29th ult. The subject for discussion, "Stock Raising," was very ably opened by Capt. W. Rolph, an effort that proved to be one of the most interesting yet delivered at the Club. Messrs Jennings, Gibson, Trun, Armstrong, Forster, Ferguson, Lawson, Slater, and others took part in the discussion.

Mr. Rolph, seconded by Mr. Jennings, moved that the following committee be appointed to answer the questions submitted by the Agricultural Commission both to the Township and to this Club, namely:—Messrs. Forster, Gibson, Crosby, Ferguson, Jennings, Eakin, Cowson, Armstrong, Slater, and the mover.

Mr. Gibson, seconded by Mr. Ferguson, moved that a vote of thanks be and is hereby tendered to Capt. W. Rolph for his able dissertation on stock raising.

On motion the Club adjourned to meet at the Franklin Hall, Markham, on the 31st of August next, at 2 o'clock p.m. Subject for discussion, "Preparing the soil for seed and the best kinds of Fall Wheat to sow." Mr. Anthony Forster to open the discussion.—Economist.

WESTON.

ANOTHER ROBBERY.—Thursday evening, Mr. George Stimpson, a farmer living in Etobicoke, about two miles from Weston, had his pocketbook, containing a cheque for \$415, on the Bank of Commerce, besides several other large notes and valuable papers stolen. Mr. Stimpson has stopped payment of the cheque and notes. No clue to the thief as yet.

The steamer City of St. Catharines was struck by the American bark Geo. A. Morse, in Lake Huron Sunday morning, and went to the bottom in less than fifteen minutes. The passengers and crew, numbering about fifty, were all saved, and brought to Port Sarnia by the tug Dash, which, fortunately, was near by at the time of the disaster.

LOCAL ITEMS.

Sum of money found. See Adv't

Hanlan Fly Paper at J. Brown's

St. MARY'S CHURCH.—Service will be held in St. Mary's Church, Richmond Hill, at 11 o'clock, a. m., next Sunday, instead of 3 p. m.

A Car load of fresh Salt, at J. Brown's

The new Churches are being pushed steadily ahead, if somewhat slowly. The work is being well done.

Mr. James Brackin, and J. Clubine, school teachers of Chatham, are spending their summer holidays in this village. James is looking well, and seems to enjoy life in Chatham.

COUNCIL MEETINGS.—Vaughan Council meets on the 15th inst, to-day. Richmond Hill Council meets on Monday evening 26th inst.

Berry picking is now the proper thing and our Grocers are receiving large quantities of sugar.

To LET.—The dwelling house and Tin Shop, now occupied by Mr. C. Mason. For terms, apply on the premises, or at Gamble's Boot & Shoe Store, next door.

FIRE ENGINE.—The members of the Fire Company are requested to be on hand at Browns Driving shed, and take the new engine out for practice, on Friday evening next.

SCHOOLS.—Our Schools are closed for the summer holidays, and the teachers are away seeking recreation, in various parts of the County.

The I. O. G. T. Lodge, has a string band in connection with the institution, comprising talented artists on the cornet, alto, tin-whistle and mouth organ, accompanied by the Lodge organ.

HIGH SCHOOL PIC-NIC.—A number of the pupils attending the Richmond Hill High School picnicked at Bond's Lake on Saturday afternoon last, and had a very good time,—so they said. Croquet, boating, fishing, etc., formed the amusement.

MASONIC.—Mr. James Reynolds, of the firm of Reynolds & Newton, and Worthy Master of the Richmond Hill Lodge, A. F. & A. M., left here on Tuesday morning last, to attend the meeting of the Grand Lodge at Guelph, where it is now in session.

TIMOTHY.—Mr. Simon Proctor handed us a stalk of timothy, which stands 6 ft 8 in high. It was picked out of a field near Kettleby, where the grain averaged a remarkable height. The stalk can be seen at this office.

In another column will be found a communication from one of the hands recently employed in the Liberal Office, in which the writer defends himself and his fellow workmen against the unjust, untrue and entirely uncalled for reflection on these young men, made by the Editor of the Liberal, and a printer in his employ.

FOOT RACE.—We clip the following from the Mail of Tuesday. One of the contestants referred to used to live in this village:—A 100 yard foot race was run at Markdale yesterday morning, the contestants being A. Speers, cattle dealer, and John Wilson, agricultural implement agent. Speers won easily by about five yards.

BARN RAISING.—On Saturday afternoon last Mr. Harding, who lives about half a mile south of this village, on the east side of Yonge Street, made a "bee," and raised the frame of a new barn, 60x40 ft. Sides were chosen. John Powell was captain on the north side, with Wm. Marsh and Wm. Kerr as assistants, and 20 men. Wm. Palmer was captain on the south side, with Wm. Vanderburg as assistant, and 25 men. The north beat the south side by a good half hour. An excellent supper was provided for these present.

GARDEN PARTY.—A Garden Party in connection with the Presbyterian Church, will be held at the residence of Dr. Langstaff, on Saturday evening next. Raspberries and Ice-cream will be supplied in abundance. Admission 10 cts. The Doctor has a very good lawn for an entertainment of this kind, and if the weather is fine, those who purpose attending may confidently anticipate enjoying a very pleasant evening. The grounds will also be illuminated. Proceeds are to be applied towards the Building Fund of the new church.

THE CROPS.—In Wednesday's GLOBE we find telegram reports of the crops from various parts of the country, from which, as a whole, everything looks hopeful. The points from the County of York, are thus given:—[100 being the average crop.] Spring wheat 50. Fall wheat 50. Spring wheat 100. Barley 120. Oats 110. Peas 120. Hay 100. Potatoes 100. Corn 90. Roots 100. Apples and other fruit 170. Area fall wheat below average. Spring wheat, oats, barley and peas above average. Corn, hay, potatoes, and roots, about average.

NEWMARKET.—Fall wheat 100. Spring wheat 65, damaged by rust. Oats, peas, and barley more than average, 130. Hay 80 to 100. Potatoes 120. Corn and rye, very little grown. Roots, prospect good, 110 to 125. Fruit below average, 60 to 75.

KILBURN.—Fall wheat 90. Spring wheat 100. Barley 100. Oats 110. Peas 110. Hay 100. Potatoes 110. Roots 90. Apples 90. Other fruit 80. Area about average.

KESWICK.—Fall wheat 75. Spring wheat 70. Barley 90. Oats 100. Rye 100. Hay 100. Potatoes 100. Corn 80. Roots 100. Apples 90. Other fruits 100. Fall wheat above the average. Spring wheat below the average. Oats, potatoes, barley, rye at average.

MARKHAM.—Fall wheat 100. Spring wheat 110. Barley 100. Oats 100. Peas 110. Hay 100. Corn 100. Roots 90. Apples 90. Everything is looking well.

Mr. Joseph Bogart, County constable of Newmarket, was fortunate enough to get the statutory reward of \$20, in Toronto, on Wednesday, for the capture of a horse thief. Wm. Fagan, of Markham, was the culprit, and he received one year in the Central Prison at hard labor. Mr. Bogart is a good and energetic officer. More power to his elbow.

Interesting Letters.

The LIBERAL and Its Late Employees.

To the Editor of the Herald:

Sir,—In the Liberal of the 1st inst, there is a lengthy communication, written by a certain Prof. Amos, who arrived in this village, and secured employment at that office, a week or so ago. This Amos very conceitedly praises himself in the article, and very contemptuously tries to injure the character of the hands recently employed in the same office. These hands quit work because the wages did not suit them; they could not work for such a trifling sum as their employer wished. The Prof. (Amos) arrived and at once slipped into the job, at very low wages, of course. He is aware that he has not acted very manly, and naturally seeks to publicize the hands he has so privately reaped considerable advantage from. True to his foxy nature, and his face clearly indicates his vulpine character, he pretends that it is in sorrow, he has to point out the defects in the character of the late employees, and yet malice is plainly evinced all through the letter. He says the hands got most unbearable, and the proprietor had to discharge them. As one of the hands alluded to I characterize this statement as a downright lie hood. There was never such a word as "discharged" used while we were working in the Liberal Office. And more, we had not quit work for over one week, before Prof. Amos and the proprietor of the Liberal personally requested each one of us to go back. Does not this show that the Professor is telling an untruth when he says we got most unbearable and were discharged. He also states that the hands were only some four, three, and two years at the business. This is also untrue, as my brother Edward is now in his fifth year. I will be two years at the trade on the 7th of August, and the last apprentice came six weeks after me. The wages, Mr. Editor, that we were paid were so small that no man who professes to be what the Liberal man does, should ever have had the face to give us. They were about sufficient to keep us in shoe-leather,—if we took particularly good care of our shoes. The wages in Richmond Hill have formerly been \$1.50 per week, for apprentices, and a raise of 50 cents every six months. The Liberal man and his foxy-looking Professor are the few persons who ever attempted to cut wages down.

Amos also states that the elder brother acted as foreman, but destroyed the material in the office. This is also false, as I am the elder of the two. My brother was foreman, and if he destroyed the material why did the Prof. urge him to go back to work again, and when Edward said there was not work enough for two foremen, Amos said he would willingly stop work, and give him the job. That looks as if Edward destroyed the material, I suppose. Amos says the journeyman printer is the best paid mechanic in the world. Amos here shows glaring ignorance, but I will let it pass. The printers get fair wages; and first class hands get first-rate wages, but in other trades wages are equally good, and in some much better. Every intelligent person knows such to be the case. If wages are so very good, why does the inimitable Prof. work for such small wages,—a trifle above his board; hardly enough to keep him in dye for his fascinating but infinitesimal mousetrap and hence some days the mousetrap is red, and again, when he makes a draw of money, the mousetrap suddenly and mysteriously assumes a very dark hue, then it gets brown, and occasionally blue. There must be something wrong. I think it will be found that the Prof. is not far short of what is called "a regular botch." The Prof. cowardly enough did not dare to malign us, until he thought there was no opportunity for us to defend ourselves. My brother and I were in Toronto when the slander appeared, and at the very hands and feet of the Prof. But I have heard a great many persons strongly condemn the cowardly and malicious falsehoods written by the Prof, since I came back to the village, and it is in response to repeated urging that I now answer the letter. I don't think the Prof. could really do any person any harm, but he has evidently tried to. Mr. Mann, who formerly owned the Liberal office, and employed both Edward and the foxy Professor, stated that Edward was a more suitable hand than Amos, who had been some nine years at the business. My brother had had some three years at that time. Mr. Mann also said that Edward would make a far better printer than Amos ever would. This he told to two of our business men, and they are willing to state so to-day. This shows that other men, good, practical and experienced printers do not hold the same high opinion of the Prof. as he does himself.

The "Gloomy" Editor of the Liberal kindly condescends to give us poor boys some good advice. He needs all the good advice he can get hold of, to keep himself straight. If he had always acted more in accordance with the rules of morality, he would have been more highly respected in Richmond Hill and vicinity than he now is, and when he attempts to give advice to other persons, he would not have reminded one so forcibly of "Satan rebuking sin." I consider it very impertinent for a person of his character to thrust his advice upon me,—advice which would only be applicable to a degraded character, and which circumstances would appear to render quite suitable to the author of it. I will give him a little advice, for his own benefit, as well as his hands.

1st.—Do not have the audacity to ask your hands to work overtime, as repeatedly as I have done, (holidays included), without any compensation.

2nd.—If you consider your hands dishonest, do not leave them alone for days together, with the full management of your extensive candy and taffy shop.

3rd.—Do not misrepresent matters to your hands, in order to induce them to work for low wages.

The article was evidently intended to prevent the hands that "struck" from getting employment. But the Liberal man and the amiable Professor will be delighted to learn that two of the hands have secured steady employment, one at Newmarket, and the other in Toronto. The latter is making about double the wages that the gallant (save the mark) Professor draws. I have already had several situations offered, and will accept one when convenient.

So the Prof. and the Gloomy Editor can go on in their pure, and righteous way, seeking to injure and malign all that do not suit their rather fastidious taste, and happily, blind to their own trifling impurities by reason of their over-empowering conceit.

Thanking you Mr. Editor, for your space, I remain yours very truly,  
W. D.  
Richmond Hill, July 13th, 1880.

The Prisoner George Bennett, now lying under sentence of death at the gall, is in excellent health and apparently good spirits. He does not seem at all to keenly feel the awful position in which he is placed. He occupies the larger portion of his time in scribbling, being engaged in writing an autobiography.

The Glorious Twelfth.

A GENERAL CELEBRATION.

A MONSTER GATHERING IN HAMILTON—THE BURIAL OF HACKETT AT MONTREAL.

The celebration on Monday of the anniversary of the "the glorious twelfth" was general throughout the Dominion, but the largest assemblage of Orangemen was at Hamilton, which included two lodges from Buffalo. About 20,000 persons were assembled in Dundurn park, where the usual speechifying took place. The speeches were preceded by the presentation of an address to Mr. H. Gibber, Grand Master of O. Y. B. of British America; Mayor Bennett, Mr. Parkhill, M. P. P.; Mr. W. J. Gibson, Mr. H. Gibber, the Chairman, Mr. James Peart, District Master of Hamilton; Mr. Peter Stewart, a Montreal Y. B.; Mr. Harwood, Deputy Grand Master of the "Prentice Boys, and Mr. D. Jamieson, Grand Master of the True Blues, followed, when the audience dispersed to take part in the games. The body show created a great deal of amusement. Mrs. Jenkins got the 1st prize, Mrs. Corry the 2nd, and Mrs. Holmes the 3rd. The Don Mount Star Band took the first prize for the band competition, and Prof. Hand's magnificent display of fireworks in the evening ended a very successful celebration.

THE DAY AT MONTREAL.

The Orangemen of Montreal, in order to avoid giving offense to their Roman Catholic fellow-citizens, went to Mount Royal Cemetery at 7 o'clock a. m., and interred the remains of their unfortunate brother-Hackett. The body was found to be well preserved. Mr. Alex. Grant, County Master, said that the funeral of their murdered brother having already taken place with Orange honors, it was not necessary that anything further should be done, except for him to thank the brethren for their presence, and to express the fervent hope that such an occasion will never call them together again. The grave was then closed in and some orange lilies planted on it. The foundation stone of the monument to be erected to the memory of the deceased was then laid, and the 100th psalm sung, when Bro. Grant sketched the history of the events that led to the murder of deceased. Messrs McKay, Hamilton and others, also addressed the brethren present, who dispersed about 10 o'clock. During the afternoon, the "Prentice Boys" hung the Union Jack and flag of their Order from the window of their hall, which elicited hostile remarks from knots of persons who gathered in front of the building. The Chief of Police and Ald. McCord ordered them to be removed, which was done. The Orangemen are commended for the modest manner in which they conducted their ceremonial.

THE DAY AT WOODBRIDGE.

The anniversary of the Battle of the Boyne was celebrated here by the Orangemen and Young Britons of the West Riding of York. In addition to the lodges here there was one lodge from the sixth line of York township, headed by the Newtonbrook band, one lodge from Purpleville, with the Teston band, and several lodges from Orangeville and vicinity, numbering in all about 600. Speech-making, interspersed with music, was indulged in at the Orange Hall. The original intention of having an entertainment in the grove was upset owing to an accident happening the train bringing the contingent from the north, by which they were delayed several hours. On their arrival they were met by all the assembled lodges, escorted by the Woodbridge band, and escorted to the hotels, where refreshments were provided. Later on a Procession was formed, and after a number of evolutions the large assemblage quietly dispersed.

The Highland Creek Orangemen had a grand celebration. About a dozen lodges took part in the walk. A number of the brethren from this section went down.

THE DAY ELSEWHERE.

The anniversary was celebrated with the orthodox procession and speeches at Lacabre, Huntington, Q., Strathroy, Cobourg, Trenton, Shelburne, Kingston, Ottawa, Port Hope, St. John, N. B., Belleville, Pt. Perry, London, Brantford, St. Catharines, Fredericton, N. B. and other places.

Dr. Tanner, of Milwaukee, is at New York, undergoing a forty days fast. He has already completed some 15 1/2 days. A number of physicians are watching him, and so far there have been no authoritative statements that he took any kind of food. He drinks but little water. His pulse is about 98. The Doctors fear he will go out of his mind, and suddenly die when in that condition.

THE MARKETS.

TORONTO:

WEDNESDAY, July 14, 1880.
