Necessity for Economy.

The opinion seems to be pretty gener. ally circulated and believed that before long the Ontario Government will find it necessary to practice the strictest economy. If there is any reason to suppose that such will be the case, and there seems to be, it seems sensible to advocate a reduction of expenditure immediately, before the surplus is expended, and direct taxation resorted to. While not ton, Victoria Square; (2nd by society) in favor of the abolition of the Legislature, if direct taxation had to be resorted to in order to carry on this branch of Government, we believe there would derson. undoubtedly arise a strong cry for its abolition, and its existence might prove of short duration. Sooner than let matters reach this state, and be compelled to fight for very existence, those who have control of the finances should retrench immediately in every possible direction. There are many propositions being made as to how this might be effected. The Telegram advocates the abolition of the office of Lieut-Governor which costs the country a good many thousands per year. Other journals are in favor of holding sessions every two years, instead of yearly as at present. This could easily be managed, and a handsome saving effected. A number Hill. of papers strongly censure the Government for supporting the Upper Canada College. But if we can believe the offidoes not support it. The institution 2nd (by society) Robt Marsh. has been self-supporting for a good many years. We have not seen any good reason advocated yet, why biennial sessions would not answer as well, or better than annual. Without advocating the abolition of the office of Lieut-Governor, we do not think such action, if considered necessary, and carried into effect, would Boynton; P W Boynton. cause a revolution, or seriously interfere with the legislation. If some of the retrenchments referred to were effected, there would certainly be less ground for so much talk about too expensive Gov--

lative Assembly. Canadian Govern-

Many opposition papers kindly undertake to lecture the Conservative journals about their being two enthusiastic over the bargain made regarding the build- 1880, Wm McClure; Robt Dorsey. ing of the Canada Pacific Railway, before the details are made known. This is all very well, and no doubt quite Dorsey. proper. But the papers which tender this advice should be careful not to condemn the bargain before they know what they are condemning. The leading journals and men of the Opposition have come to the conclusion, that the best way to build this railway is by a company. If all but the obscure sheets, who have no opinions worth recording, at any rate, are agreed on this point, then they can only find fault with Sir John's bargain when they become acquainted with the particulars. We Foster. believe there is a general feeling of satisfaction at the thought that this load has been lifted off Ontario, for on On. Toronto, half dozen packages Waterloo J McIntosh and Son. THE NEW CHURCHES, -The roof of Collection of curiosities, N Strickland; Miss the Presbyterian Church is all slated, and the brick work is about completed. Work has been commenced on the inside the flooring etc., being rapidly pushed ahead. The C. M. Church roof is being slated, and the brick work is nearly finished. Both these buildings are grand structures, and with the English Church, gives this village the lead in Canada for beautiful and grand Churches. There has been some little diffi culty experienced in getting enough men to push the buildings ahead as fast as desirable, but things are taking a better shape just now, and the work is advancing rapidly.

LARGE DROVE .- On Saturday last two Sabbaths of January, or January Messrs. Pugsley & Co. took down Yonge Street a drove of cattle numbering 260 head. The drove centained many fine looking animals. Some 25 head were left in this village. The remainder were taken to Eglington. A large number will be shipped to England and the remainder will be sold to a distillery firm in Toronto, to be fattened for shipment. Over \$10,000 was expended in purchasing the animals.
