

NEW ADVERTISEMENTS.
Farm to Rent—Walter Lemon.
The York Herald.
Richmond Hill, Ont.
No. 40: Whole No. 1288; Volume 25.
THURSDAY, MARCH 8, 1883.

The Result.
The result of the elections, all over the Province gives a decided loss to the Mowat Government, but we presume from our view of the case, it will be sustained by a majority of from eight to ten on a division. Most of the gain by the Opposition has been derived from constituencies being carried east of Toronto. Had it not been—which in some cases, no doubt, could have been avoided—for the loss of seven places which were held previous to the elections, by the Opposition, the Mowat Government would have gone, to a certainty, and even as it is they will have to be more careful, and not carry things with such a high hand as has been done in the past. The people have not taken as much stock in the cries about the Boundary Award, Streams Bill and Provincial Rights, as was expected. But for these cries there cannot be any doubt of what the issue would have been. West York was carried by the Conservatives by hard work. We remember the time when there was no organization of the Conservative party in West York. Every thing then went the other way, but since '76 a great change has been wrought, and it is necessary, if they wish the present state of things to exist, or improve, the Association must continue to do so, by every legitimate means. We regret, exceedingly, to state that this paper, which at least in some measure has been the means of bringing about the present success which attends the Conservative party in this Riding is not sustained as it should be. We could mention the names of several prominent men who receive the paper year after year without ever thinking it necessary to pay for subscriptions. Now this should not be, it is not fair, neither does it show a proper respect to support the party by supporting the paper. No other man in the Government ranks could have run so well as Mr. Patterson. We have endeavored all through the contest, to avoid personalities, and if anything by inadvertency or otherwise has appeared in this paper, reflecting personally, in the least on Mr. Patterson or his friends, we regret it. In the heat of a contest language is sometimes used, which on after reflection is regretted. As we have before stated the election of Major Gray was carried by hard work, and we have no reason to believe, nor do we believe—as has been elsewhere stated—that money was used to corrupt the electors by the candidate or his friends.

The *Liberal* of the 23rd of Feb. thus refers to the Major:
"It is only a repetition of the Major's action in the Parkdale tree planting business, when, because he was 'leavee,' he could not tender for a corporation contract, and therefore got another man to tender for him, allowing him a commission of five cents each, but when the trees were planted he pocketed the commission and now a lawsuit is talked of to recover the commission, which amounts to several hundred dollars. Wm. C. Patterson's veracity is unquestionable which is more than can be said of Major Gray's."

The above language we have been given to understand has not a leg to stand on, and if steps are not taken to give the author a chance of proving what he here writes he will have only to thank the generosity of the Major.

Corruption in Algoma.
At a meeting in Thunder Bay district says the *Sentinel* of that place, Judge Laid and Reeve Marks, in interesting speeches explained the result of interviews with which they had been favored by the Local Government and at which assistance was asked for an addition to the goal, enlargement of the court-house, erection of a registry office, and the endowment of a public hospital. These gentlemen also urged upon the Government the importance of a harbor to the people of the western district as well as that of the whole western country, and solicited aid by way of a substantial grant for harbor improvement. They said they were met in a friendly spirit by the Government, who promised a favorable consideration of the proposals, and indicated that they were disposed to act toward this part of the district with generosity. They seemed at the same time to think it only fair, that as a *quid pro quo* for its consideration of their wants, it should receive some assurance of support from Thunder Bay district.

The feeling of the Government in this respect was brought out by Mr. Kennedy, who remembered that the Judge had stated that the liberality of the Local Ministry would be extended to them upon certain conditions. These conditions Mr. Kennedy said he would like to hear. They might be too onerous, or they might be corrupt and offensive, whereupon Judge Laid plainly stated that the conditions referred to were those of support from their people.

Tax It.—Take a common twine string a yard long, tie the centre around the small part of a table spoon and wind the ends around the fore-fingers of either hand, and hold the fingers in the ears. Now swing the spoon until it strikes the table or some other hard substance, and you will be surprised at the results.

Provincial Rights.
The *Montreal Witness* thinks the result of the Ontario elections can only have the effect of still further complicating the question now at issue between the Province of Ontario and the Dominion, Ontario having only in a half-hearted manner declared that she was willing to enter into a pitched battle with the Dominion. It thinks, had Mr. Mowat's majority been largely increased, the fight against the Dominion Government would, no doubt, have been waged with a great deal of spirit, and every possible opportunity would have been taken by the Province to attack the Dominion, but though Mr. Mowat goes into office pledged to re-enact the vetoed Rivers and Streams Bill, and no doubt will do so, it is altogether probable that he will be as far as he will or can go. The disputed Boundary is, however, as matters now stand, the question that may produce the most serious results. The Dominion Government now hold the country in question, and those who have been fortunate enough to obtain licenses to cut timber are extremely fortunate men indeed. What the Ontario Government can do to prevent this it is hard to see. Had Mr. Mowat been enthusiastically supported he might have taken upon himself the very serious responsibility of forcibly taking possession of the territory in question, as the hot-heads among his supporters have long ago advised him to do. But, with only a small majority he will not proceed to such violent measures though doing all in his power to force the hand of the Dominion Government. The result of the elections has been to allow these questions an excellent opportunity to grow till they are large enough to split confederation.

The above is but a portion of the article. We are, however, inclined to think that our readers, at least that portion of them who wish well to the Dominion, are more than satisfied that the result of the elections are more than sufficient to deter Mr. Mowat from entering the disputed territory with fire and sword.

A native of Switzerland has departed this life leaving behind him a large sum of money to establish a hospital for dogs owned by smugglers; it appears that dogs are used for smuggling purposes upon the Italian-Swiss frontier. When a dog has been well trained, a little pup is tied upon his back or attached to him in some other way, when he runs for the frontier, in which run he is often wounded, hence the reason of the bequest. The party who leaves this sum for such a purpose must have been addicted to the practice of smuggling during his life, else it is to be presumed he would not have left such a great regard for the smugglers' dogs, as no others can partake of the benefits granted.

Markham.
An ample supply of the finest ice ever gathered here is being harvested from the Rouge by our local ice cream dealers, and others who have occasion to store up a stock of coolness for summer use. The blocks are of crystal clearness and nearly a foot thick. The quality of the ice is vastly better than the stuff with which the men had to content themselves last winter, and the quantity to be had for the cutting being unlimited, we may look for reasonable prices next summer.

Spring Fair.—The 1st of April of York and Markham Agricultural Societies will hold the spring fair on April 26th, and plowing match on the same day, if a good field can be procured close to where the fair is held. The place to be named next meeting of the Board. The Fall Fair will be held on Thursday and Friday, Oct. 4th and 5th on the Fair grounds, Markham village.

ATROPHIC STROKE.—On Monday last, Mrs. David Lyons, of the 4th Con. of Whitecourt, near Pine Orchard, was laid very low by a stroke of apoplexy. For some time it was very doubtful if she would recover, but when last heard from she was slowly improving.

A Modern Miracle.
AN INTERESTING CHAPTER FROM THE LIFE OF A PROMINENT GENTLEMAN.
(Boston, Mass., Globe.)

The readers of this paper were more or less amazed at a most remarkable statement from one of our leading citizens which appeared in yesterday's issue. So unusual were the circumstances connected with it, and so much comment did it occasion on the street and in social circles, that a representative of this paper was commissioned to investigate its details and verify its facts. The article referred to was a statement made by Mr. B. F. Larabee, formerly of London but now of the New York and Boston Dispatch Express Company, whose office is on Arch Street. Mr. Larabee was found by the newspaper man in his private office, and on being questioned said:

"Well, sir, logically I have been dead, but really I am as you see me. A little over a year ago I was taken sick. My trouble was not severe at first and I thought I felt unaccountably tired at times although I took an abundance of sleep. Then, again I had dull and strange pains in various parts of my body. My appetite was good one day and I had none whatever the next and my head pained me more or less much of the time. A while after I noticed much that was peculiar about the fluids I was passing and that a sediment, scum and a strange accumulation appeared in it. Still I did not realize that these things meant anything serious until I noticed the illness to run along until on the 28th day of October I fell prostrate while walking along Tamworth Street. I was carried home and constantly attended by my regular physician, but in spite of his skill I kept growing worse and finally they tapped my side in the vicinity of the heart, taking away forty-six ounces of water. This relieved me for the time, but I soon became as bad as before. Then I could not live more than twenty-four hours and my daughter, who was residing in Paris was telegraphed for. Still I lived along for several weeks, far more dead than alive, but never giving up hope. One night—it was on the 20th of April, I very well remember—my attendant who was reading the paper to me began an article which described my disease and sufferings exactly. It told how some severe cases of Bright's disease had been cured, and so clearly and sensibly did it state the case that I determined to try the medicine which it described. So I sent my wife to the drug store, procured a bottle of the medicine unknown to my physicians and friends, and took the first dose at 10 o'clock. At that time I was suffering intensely. I could not sleep; I had the short breaths and could scarcely get any air into my lungs. I was terribly bloated from head to foot, and the motion of my heart was irregular and painful. The first thing I was able to breathe freely; the pain began to leave me and the bloating decreased. I continued to take the medicine, and to-day, sir, I am as well as I ever was in my life, and wholly owing to the wonderful, almost miraculous power of Warner's Safe Cure. I do not know what this medicine is made of, or anything else about it, but I know it saved my life when I was given up by the doctors and had nearly been dead for weeks; that it has kept me in perfect health ever since and has cured many of my friends to whom I have recommended it. My recovery is remarkable that it has excited much attention, and physicians as well as others have investigated it thoroughly. I am glad they have, for I feel that the results of such a wonderful cure should be known to the thousands in all parts of the land who are suffering from troubles of the kidneys, liver, or heart in some of their many dangerous forms."

The reporter of the press inquired of Mr. Larabee for his very full and clear statement, and was about to leave the office when a gentleman stepped up to him and inquired if he was seeking information about Mr. Larabee's sickness and recovery. The scribe replied that he was, whereupon the gentleman said:

"And so on I, and I have come all the way from Toronto for that very purpose. Kidneys trouble seem to be alarmingly increasing all over the country, and I have a very close relative who is afflicted much as Mr. Larabee was. I have been to see the physicians of whom Mr. Larabee speaks, and I tell you sir, it is simply wonderful."

"What did they say?" asked the man of news.
"Say? Why, sir, they fully confirm everything Mr. Larabee has stated. I called at the Commonwealth hotel, where Mr. Larabee was living at the time of his sickness. Messrs. Bugh & Carter are the proprietors, and I asked them about Mr. Larabee's case. Mr. Bugh pointed to the electric annunciator and said 'Why for weeks and weeks every time that bell rang I said, 'That man the death of Mr. Larabee.' No one around the hotel ever dreamed that he would recover and when the doctors would come down from his room they would shake their heads and say there was no hope. The arrangements for the funeral were made and his recovery was simply a miracle."

"Then called on Dr. Johnson who said that Mr. Larabee's case was a very remarkable one. He was his family physician and expected his death every hour for a number of weeks and never called to see him during that time but he was prepared for it. The doctor said the recovery was due to Warner's Safe Cure, and if he had friends male or female, troubled with Albumen or any kidney troubles he should certainly advise them to use this remedy. Dr. Johnson said kidney difficulties are more common than most people think and the many symptoms which are supposed to be the result of disease of the kidneys. He said that ladies after gestation are especially subject to albuminous troubles which require prompt attention.
"I next went to see Dr. Melville E. Webb at the Hotel Cluny, for you see I was determined to be thorough in the matter. I found Dr. Webb a most clear headed and well informed gentleman, and he said:

proprietary articles with which the public have formerly been flooded. The greater includes the less, and the remedy which has been proven so valuable and has saved a life after it was brought down to death's door must unquestionably be certain in the many minor troubles which are so disastrous unless taken in time.

Richmond Hill Council.
Richmond Hill, March 5th, 1883.
Pursuant to adjournment, the Council met. The Reeve in the chair. Councilors present, Messrs. Crosby, Hopper, Pugsley, and Sanderson.
Minutes of 5th Feb. read and approved.
The Clerk read an account for coal and teaming, from A. J. Rapert, amounting to \$530, which was ordered to be paid.
The Council then adjourned to meet on Monday, the 2nd of April, at 8.30, p. m.

Election Facts.
To the Editor of the Herald.
DEAR SIR,—I feel it my duty to mention a few facts which came under my notice during the past two elections, and which may help to put all doubt out of the minds of those who have only been 'Grits,' because they believed the erroneous statements made by the party who are becoming so nearly extinct; and so weak are the ones that survive, that like the drowning man they grasp at the straws which float past them as they sink lower and lower into the depths of obliquity.
Our party is on the right path, and their workings are in unity with the welfare of the country. How much more thrifty and prosperous are all our different branches of industry under the supervision of men who work for the good of both rich and poor, and for the good of the country at large. Reformers are reaping the same benefit (from a source which they obstinately opposed) as Conservatives, and still some of them are either too blind in their own ignorance, or else they are proving 'reform' to have a different meaning from that formerly given to it, or they have shut their eyes to all that is manly and upright, and come out and vote like men for those on whom they are depending for their very subsistence. We are, however, glad to see that so many have obliterated their former views and resolved to uphold a cause which will inevitably build up our country on a foundation which will bear the weight of grand structures that are in course of erection. If all would turn out and work with the zeal which the cause is worthy of, we would not be long in dispersing the 'last remnant of that sect which call themselves reformers, but who have not shown by one act what right they have to the name. Your opponent, the 'Liberal man,' must feel small after his petty boasts he put Patterson in with so large a majority have proved so ineffectual, but as he is always crowing like a cock on a dunghill, he needs no more notice.
Yours Respectfully,
A SUBSCRIBER.

Interesting Items.
Prince Gortschakoff is dangerously ill.
General Blumenthal has been appointed Minister of War in Germany.
A sale of great violence has been experienced on the coasts of England, Scotland and Holland. Eight vessels and nineteen lives have been lost.
A case has been argued in the Supreme Court involving the right of Provincial Legislatures to impose a law stamp tax upon exhibits filed in the Courts.
It is expected that British troops will be enabled to evacuate Egypt six months hence.
One million pounds of bullion were withdrawn lately from the Bank of England for shipment to New York.
The Schleswig Holstein authorities have commenced to expel Danish subjects resident there, for refusing to serve in the German army.
Six hundred men have struck in Springfield, Ill., owing to the employment of non-union men.
The House of Lords has appointed a Committee of Enquiry into the effect of the Irish Land Act.
A terrific storm took place on Tuesday in Halifax, N. S., the drifts being the heaviest of the season.
Prof. Wiggins has left Ottawa for Halifax, to get the full benefit of the 'big blow' he predicts for the 9th, 10th, and 11th inst.

Official Changes.
The Government of Ontario have decided to appoint an Inspector of shrievalties, and John Wuestcher, registrar of the Queen's bench division of the high court of justice, is to be chosen for the office.
He will be succeeded at Osgoode hall by James S. Cartwright, now deputy registrar of the Surrogate office on Adelaide Street. Mr. Cartwright is a son-in-law of Hon. Wm. Cayley, registrar of the Surrogate office, and has proved himself efficient.
Hon. Wm. Cayley after long years in the public service in one capacity or another, will retire. He is one of the most esteemed gentlemen in the city, and of the few who go back to the dim past.
Mr. Cayley's successor is to be Gordon Brown—World.

It Pays.—In all towns where a paper is published, every man should advertise in it, even if nothing more than a card stating his name and the business engaged in. It not only pays the advertiser, but it lets people at a distance know that the town you live in has a prosperous community of business men. As the need is now so the fruit recom-pensed. Never take down your sign while you expect to do business, for it indicates that your business is poor and you are losing your grip, commercially speaking. The judicious advertiser will receive fifty dollars for every one invested in the columns of a live newspaper.

LOCAL ITEMS.
Weekly *Globe* and *Mail* for sale at the *HERALD* Store.
The *Whitby Chronicle* is offered for sale.
Farm of 115 acres to rent. See advertisement.
We want a cord or two of hard wood. Will some Good Samaritan bring it green or dry.
Friday, the 23rd of this month will be Good Friday.
Do you wish a good pen to write with? Buy Esterbrook's No 144 for sale at the *HERALD* Store.
Grip of Saturday last, came to hand Wednesday morning. Better late than never.
There are now about fifty inmates in the Industrial Home, with fresh arrivals almost daily.
Grip has a good cartoon in last week's paper. It likens the Local Election to the cutting up of the light brigade at Balacava.

ELECTED.—T. Williamson, Esq., succeeded on Wednesday last in being returned as Reeve of Markham Township, by a majority of 60. We congratulate our friend upon his success.
FAIR.—The usual monthly cattle fair was held on Wednesday last, a large number of buyers being present. The stock of cattle, sheep, etc., was also large, and prices were good.
Wiggins Storm Herald and Almanac for 1883 accompanied with a map showing the track of the great storm predicted by Professor Wiggins has been received from the publishers. For sale by all newsdealers. Price 20 cents.

DEBATING CLUB.—The Debating Club will meet in the Lecture Room of the Presbyterian Church, this (Thursday) evening. Subject for discussion, "Resolved that the pleasure of Anticipation exceeds that of Realization." We hope to see a large attendance.
CARNIVAL.—The fancy dress Carnival held on the Skating Ring on Tuesday evening last, was not very largely attended, owing probably to the very unfavorable weather. The Band was in attendance, and rendered choice selections, much to the pleasure of the young ladies and gents, who glided gracefully around to its enchanting strains.
CONCERT.—The Lacrosse boys have about completed arrangements for holding their grand Concert, in this village, on the evening of Friday, 23rd inst. They have secured some of the best talent that ever appeared before a Richmond Hill audience, and the public can anticipate a rare treat on the evening of Good Friday.

NOTICE.—The Ratepayers, and all others whom it may concern, are requested to attend a public meeting, to be held in the Council Chamber, on Friday evening, 9th inst., at 8 o'clock p. m., for the purpose of organizing a Hook and Ladder Company in connection with the Fire Brigade. This is an important meeting, and we hope to see a large attendance.
GREAT STORM PREDICTED.—Another weather prophet, E. Stone Wiggins, M. A., by name, who tells of an approaching storm on the 9th inst., of a terrific character. He says—'This will originate in the Northern Pacific on the morning of the 9th March' will strike this continent on the afternoon of the 10th, and will cross the meridian of Ottawa and over the great Canadian lakes at noon on the 11th.' Now look out for it. Wiggins also says, that the thermometer will range 5 degrees below zero all over Canada from the 5th to the 11th of March. This will be followed by a general thaw on the 16th and a big flood.

SCHOOL ENTERTAINMENT.—A literary and musical entertainment was held in the School House of U. S. S. No. 4 and 21, Markham and Vaughan, about two miles north of this village, on Friday evening last, and was a decided success, both intellectually and financially. The programme was a lengthy one, and consisted of songs, dialogues, recitations, readings, etc., by the pupils, which were executed in a very satisfactory manner, and showed they had received very careful training. Quite a number of ladies and gentlemen from a distance, took part in the entertainment, which added materially to the interest. The proceeds amounted to over \$30, which are to be applied to the purchasing of prizes, erecting swings, etc., for the pupils. The teacher, Mr. George Beynon, is deserving of much praise, for his perseverance in promoting the welfare of the children in that section.

AURORA
We understand Robt. Trench and family will leave Aurora Wednesday next for Manitoba. They have resided here for a number of years, during which they have gained the esteem of the people. We hope to see them return in a few years, with sufficient of this world's goods, to live in peace and comfort.
Al. Proctor bought an entire outfit—horse, outfit and harness, a short time ago, which now grace the Livery Stable. It is a handsome turnout.
John Cobb, Hiram Dunham and Mary Marshall received their sentence from Judge Boyd in Toronto, on Monday, for robbing a R. R. car and receiving the stolen property. Cobb gets three months in the common jail, Dunham three months in the common jail, and Mary Marshall one month in the common jail. The results does not meet with very general approval in this neighborhood. The principal offender by the above gets a much lighter sentence than old Hiram. The former's first appearance before the Judge accounts for the difference. We understand Cobb admitted stealing about \$1000, and for the he is supported during the remainder of the cold weather. It is pretty hard upon the people who have spent time and money in bringing the guilty to justice.
Henry Harris, our old and respected contractor, again left last week for sunny, balmy Florida, where now the golden oranges are being gathered, and the air is heavy with the incense of flowers, the magnolia and the jessamine. The words even in themselves, have a fascinating sound. But are these people more fortunate and happier than we who sit here beside the fire, awaiting the opening of spring, and the blessed beauty of the month of May, which as a tonic to the mind and a hope to the heart, reaches to full development only in this latitude? We hope Mr. Harris may meet with more prosperity than even his sanguine expectations may have pictured.
—BORNALIS.

HOLLOWAY'S OINTMENT AND PILL.—Notable Facts—Intense heat augments the annoyances of skin disease and encourages the development of febrile disorders; therefore the more they can be removed by these detergent and purifying preparations. In stomach complaints, liver affections, pains and spasms of the bowels, Holloway's ointment, well rubbed over the affected part, immediately gives the greatest ease, prevents congestion and inflammation, checks the threatening diarrhoea, and averts incipient cholera. The poorer inhabitants of large cities will find these remedies to be their best friend when any pestilence rages, or when from unknown causes eruptions, boils, abscesses, or ulcers, point out the presence of taints or impurities within the system, and call for instant and effective curative medicines.

The Firemen of St. John, N. B., will celebrate the anniversary of the landing of the Loyalists by a day's sport and a torch-light procession in the evening.
The American Peerless Dictionary, published by H. C. Wilkinson & Co., New York contains a large amount of information pressed into a small compass, but so well arranged and indexed as to be easily referred to. In addition to the Dictionary proper, it contains a large collection of Words, Phrases, Proverbs and Quotations from the Ancient and Modern Languages; lists of Scripture proper names, of American Geographical names, of Aborigines used in writing and printing, and many additional words now in general use that are not found in other Dictionaries. Early one hundred pages are devoted to miscellaneous information on matters pertaining to the science of language and on a variety of subjects connected with the early history of our country for the formation of the Constitution and the present administration of government in its varied departments, the status of the Army and Navy, the public lands, the production of the revenue, &c. In fine there is brought together in this book and ready for use a variety of information concerning the country and government that every one ought to know.—*Western Christian Advocate.*

MARRIED.
NORON—POWER.—At the Methodist Parsonage, on the 25th inst., Miss Julia E. Noron, Esq. of Hiller, Prince George, to Miss Sarah P. Powell, of Young Street, East of Galloway.
ORMEON—PEARSON.—At the parsonage, Unionville by the Rev. W. H. Hughes, on the 22nd ult., James Wesley Ormeon, to Emma M. Pearson, of St. Catharines.
DEATH.
SEVERN.—On Monday, 5th inst., at her late residence, Clark Street, Riverside, Margaret, the beloved wife of George Severn, in the 53rd year of her age.

BARS FOR THE MILLION!
Fox Chase's Balsam of Shark's Oil
Positively Restores the Hearing, and is the Only Absolute Cure for Deafness Known.
This Oil is abstracted from peculiar species of small White Shark, caught in the Yellow Sea, known as Charchodon Ronchelet. Every Christian fisherman knows it. Its virtues as a restorative of hearing were discovered by a Buddhist priest about the year 1830. He was so cured, and returned a remedy that will enable you to hear like anybody else, and whose curative effects will be permanent. You will hear 'HEARING' as usual—that for over 300 years no Deafness has existed among the Chinese people, and bottles charged prepaid, to any city address at 25c. per bottle.
Hear What the Deaf Say:
It has performed a miracle in my case. I have no hearing noise in my head and hear much better.
I have been cured by this.
My deafness held a great deal—think another bottle will cure me.
My hearing is much benefited.
I have received untold benefit.
My hearing is improving.
It is giving good satisfaction.
Have been greatly benefited, and am rejoiced that I saw the notice of it.

NEW ADVERTISEMENTS.
