The Orange Bill.

The Liberal press is strong against Sir John because he did not coerce the French wing of the party into voting for the Orange Bill. The Bill was introduced as a private measure, and it will become the Liberal party or its press to say anything against Sir John.

Not that they care a rap for the Orangemen, but it is nuts for them to crack to have something to abuse Sir John Macdonald through. We are sorry for the good of the country, that things are as they are, as the Orangemen, having been denied what they consider their rights, will not tamely submit, and in connection with this, we notice that Frank Jones, ex M. P. for North Leeds and Grenville, has been requested by a large number of Orangemen to lecture through Ontario on Orange incorporation and the circumstances connected with the introduction of the Bill into the Dominion Parliament, and its defeat.—Com.

Canadian Railways.

The Blue book, containing statistics of the various railways in Canada, has been distributed.

The total number of miles of road in active operation ending 30th of June last, was 7,530 ending 7,260 at the corresponding date a year before, showing an increase of 270 miles. The number of miles of road under construction has increased by 483 miles. The amount of capital invested is down as \$415,611,810.

An average amount of money invested per mile of \$36,903. Narrow gauge roads had decreased by one half during the year, having been changed to standard gauge. The total number of passengers was 9,352,335, showing an increase of about thirty-four per cent. The amount of freight carried was an increase of about twelve and a half per cent. The total earnings of all railways is put down at about twenty-nine million dollars, and the expenses at about twenty-two and a half million. The Grand Trunk and Great Western Companies own 2,164 miles of road, the Intercolonial 840, the Canadian Pacific 865, and the Canada Southern 329 miles.

The Montreal Star says the principal difference between the two great political parties in Canada, seems to be that the one is led by Sir John Macdonald, and the other is not. In view of the Reform Bill just introduced by the Premier, one cannot help thinking what a magnificent leader he would have made for the Liberals, if fate or accident or something for which he is not responsible, had thrown him into the other camp. It is a sweeping and liberal measure, and if carried in its present shape, will extend the franchise almost as far as it can be extended with safety. There are very few details in the Bill that the Liberals can with any consistency oppose, and Sir John has not left much room for extension.

The proposed franchise is more extensive than that of the United States, at the same time that it is discriminating, for the Premier recognizes the fact that while there are plenty of men who are not fit to be trusted with a vote, there are many women who are in every way fit for the privilege. About the only people remaining unfranchised will be the brewers of wood and the drawers of water, the people who have a very insignificant stake in the country, minors, officially recognized lunatics and married women.

From an abstract of statements of Fire and Inland Marine Insurance Companies, laid before Parliament for the past year, it appears that on the 31st of December last, eight Canadian, seventeen British, and four American Companies were doing business in Canada. The net cash received for premiums during the year by the eight Canadian companies, amounted to \$1,009,308; gross amount of policies new and renewed, \$124,123,715; net amount at risk at date, \$152,564,079; amount of losses during the year, \$771,348. British Companies, net cash received for premiums, \$2,914,124; gross amount of policies, new and renewed, \$321,466,133; net amount at risk at date, \$339,520,054; net amount of losses incurred during the year, \$1,890,822; net amount paid for losses, \$1,768,444. American Companies, net cash received for premiums, \$287,815; gross amount of policies, new and old, \$32,454,518; net amount at risk at date, \$34,772,345; net amount of losses incurred during the year, \$156,363; net amount paid for losses, \$162,899.

First Rate Evidence.

"Often unable to attend business, being subject to serious disorder of the kidneys. After a long siege of sickness, tried Burdock Blood Bitters and was relieved by half a Bottle." Mr. B. Turner of Rochester, N. Y., takes the pains to write.

The Suez Canal.

The Pall Mall Gazette thinks the Suez Canal of far less importance to Great Britain than has generally been believed. The Board of Trade has decided that the advantages, if any, are so small as not to have proved a stimulus to trade between Great Britain and India and the Gazette says that freights have not been lowered by it. There has been a saving of one per cent in insurance since the canal was opened, but that is due, probably, not to any advantages offered by the Canal, or reduction of danger on the route, but to the substitution of steam for sails. On the other hand, British trade has suffered serious loss by the change in the route of commerce. Goods which formerly went to England for re-shipment to India, are now sent to Mediterranean ports.

A trade of \$5,000,000, annually, has sprung up between Mediterranean ports and the East, the commissions and profits of which have been lost to British merchants; and much of the freight has been lost to British shipping. The Gazette thinks England cannot have "a supreme commercial interest in keeping the Canal open." At the same time, it would be very dangerous to let it fall under the control of a naval or mercantile rival. Possibly England's commercial, prophetic instinct was right in looking with disfavor upon the Canal in the first place. She seems compelled to guard a work which does no material good, and to keep it out of the hands of rivals, lest it may do her material harm.

True, you may be in a miserable condition—you may be weak, pale and nervous. You cannot sleep at night, nor enjoy your waking hours: yet, why lose heart? Get a bottle of Burdock Blood Bitters. It will restore you to health and peace of mind.

Markham.

The Economist in writing of the Meeting of the Farmers' Club, held lately at Markham, says the attendance of members was most wretched. The discussion at the Club was opened by Mr. John Pike, the subject being "Tree Planting." He favored the referred to the desirability of improving the appearance of farms by tree planting, and said he has an orchard of eight hundred trees—apples and pears—of his own planting.

Mr. Jennings gave some very useful and practical information on the subject. Mr. Slater recommended the planting of shade trees along the highways. Mr. Hoover, Reeve of Pickering, said the Council of the Township of Pickering had prepared a by-law upon the subject. He was in favor of the Act and thought it a good thing to secure uniformity of planting trees on the highways, and to ensure protection to them after being planted. Messrs. Strickler, Forster, and others advocated the passing of municipal by-laws to carry out the Act. Mr. Forster as a Councillor asked for an expression from the Club to lay before the Council of Markham Township. Mr. Gibson, President, was opposed to Government action in the matter, and would advise the Markham Council not to pass a by-law to carry out the Act. The next meeting will be held at Victoria Square on Tuesday, 29th inst.

He is a beautiful bay 8 years old, stands 17 hands high on short legs, with big bone of superior quality, superior action and great muscular power, and full of bodily substance. Modern Type's sire is the noted Stallion, Topman, bred by Mr. Geo. Wilson Whiteside, Aird, Scotland, sire, Wonderful Dam, by Sanson. Topman has won prizes too numerous to mention. AURORA.

The first spring fair under the auspices of the N. Y. Ag. Society took place in Newmarket, on Wednesday last week. There was a fair attendance of visitors and exhibit of stock.

Harry Hartman's fine young Erin Chief mare met with a mishap a few days ago, which has confined her to the stable since. In some way she threw herself in the stall and ran a rusty nail a considerable distance into her leg. Dr. Rogers was called in and dressed the wound.

Mr. Wamsley, ginger beer manufacturer, of Bradford, has located in Aurora, at the South end—where he intends pushing his calling to the utmost extent during the summer months.

T. Clarkson, of the 6th Con. King, has a couple of very prolific sheep. During the past two years they have together given birth to no less than thirteen lambs, perfect in every particular. Who can beat it. The same sheep have taken a number of prizes.

Young horses, from the popular old stock now day create considerable interest. John Dunning of our town has a colt which is catching the eye of many. He is a Bismarck, by a Wallace mare, coming two years old, and already weighs 1,600 lbs. He stands about 16 1/2 hands high, bay, and has a good general appearance. The animal can be seen almost any day exercising in the town.

A monstrosity was sold to one of our butchers, a few days ago, in the shape of a calf. The top part of its head was all agog, the upper jaw twisting around to one side and the tongue protruding out the other. The animal had but one eye. It was raised by John Peteh, of Whitechurch.

A Fine Hit.

When the proprietors of Burdock Blood Bitters put this renowned medicine on the market, they hit it exactly. They hit dyspepsia, indigestion, and liver and kidney complaints a hard blow, from which they will never recover.

HOLLOWAY'S OINTMENT AND PILLS—Sure Relief.—The weak and enervated suffer severely from nervous affections when storms or electric disturbances agitate the atmosphere. Neuralgia, gouty pang, and liver pains, very distressing to the sufferer, may be readily removed by rubbing this Ointment upon the affected part after it has been fomented with warm water. The Pills taken occasionally in the doses prescribed by the instructions, keep the digestion in order, excite a free flow of healthy bile, and regenerate the impoverished blood with richer materials resulting from thoroughly assimilated food—wanting which the sufferer must inevitably sink into feebleness and the delicate find it difficult to maintain existence. Holloway's Ointment and Pills are infallible remedies.

A \$200.00 Bible Reward.

The publishers of Rutledge's Monthly offer twelve valuable rewards in their Monthly for May, among which is the following:—We will give \$20 in gold to the person telling us which is the shortest chapter in the New Testament Scriptures (not the New Revision) by May 10th, 1883. Should two or more correct answers be received, the reward will be divided. The money will be forwarded to the winner May 15th, 1883. Persons trying for the reward must send 20 cents in silver (no postage stamps taken) with their answer for which they will receive the June Monthly, in which the name and address of the winner of the reward and the correct answer will be published, and in which several more valuable rewards will be offered. Address, RUTLEDGE PUBLISHING COMPANY, Easton, Penna.
