

NEW ADVERTISEMENTS.

Court of Revision—M. Teffy.

The York Herald. Richmond Hill, Ont.

No. 49: Whole No. 1297: Volume 25. THURSDAY, MAY 10, 1883.

Report of Minister of Agriculture.

The Blue Book containing the Report of the Minister of Agriculture is to hand. We give a few particulars from it which may be of interest to some of our readers.

In looking over it we notice that whilst the number of immigrants arriving via the St Lawrence in 1877 was only 7,743 last year the number amounted to 44,850, showing an increase of 37,000 over that period.

Notwithstanding we have already called the attention of the Editor of the Economist to the fact that he had made a serious error in charging this paper with having received amounts, taken, as he says, from the public documents of the Dominion, he repeats the charge in last week's paper.

As a rule we do not recommend Patent Medicines, but when we know of one that really is a public benefactor, and does positively cure, then we consider it our duty to impart that information to all.

It is reckoned that owing to wet seasons and other causes, the decrease in the British flocks of sheep will number 5,250,000, therefore the prospects of a large quantity being exported from the Dominion ought to be exceedingly good.

It is recommended, in the report, that the farmers change, at least to a large extent, the present long-wooled varieties, for the shorter wools of medium fineness, such as Shropshire and other Downs or Cheviots, as the wools are more marketable, and the quality of the mutton preferred.

From present indications, considerable attention will be paid to phosphate mining and shipping during the present year. The exports last year, exceeded in value of the former year to the amount of \$68,000.

The subject of Forestry is also introduced, and the urgent necessity of preserving the trees as much as possible, not only with a view to the conservation of timber for economic use, but also with a regard to the climatic influences attendant thereon, is strongly enforced.

The whole subject of forestry is certainly one deserving the attention of the community generally.

There has been a very large increase in Patent business during the past year, when compared with former years, the transactions of the office having almost doubled during the last three years.

Moved by Mr. Crosby, seconded by Mr. Savage, that the President and Messrs. Sanderson, Switzer, Nicholls and Reynolds, be a Committee on Reunions.—Carried.

Moved by Mr. Switzer, seconded by Mr. Crosby, that Messrs. Crosby, Law, Boyle, and McMahon, be a Committee on Debates.—Carried.

Moved by Mr. Law, seconded by Mr. Crosby, that Messrs. Boyle, Moodie, and Nicholls, be a Committee on Finance.—Carried.

Moved by Mr. Crosby, seconded by Mr. Savage, that R. E. Law be re-appointed Librarian at same salary as heretofore.—Carried.

Moved by Mr. Law, seconded by Mr. Moodie, that Messrs. Trench and Crosby be appointed to settle the piano debt.—Carried.

The Secretary's bill of \$4.71 was read and, on motion, directed to be paid.

A communication was received and read from the Masonic Hall Committee, in respect to one year's rent, now due them. Laid over till next meeting.

Under the cloak of Liberalism we often find a man a Tory of the most pronounced and unyielding type. Oftentimes not one particle of liberality, civil or religious, is to be found in his composition. How many such figures in the ranks of the Liberal party to day? Such cannot be said of Sir John Macdonald. Whatever be his faults, Sir John Macdonald is liberal and sound in his general views of what is best for the people's interests; he is not guided at any rate, by the purely selfish motives which inspire the actions of men who profess Liberalism in name alone.

Notwithstanding we have already called the attention of the Editor of the Economist to the fact that he had made a serious error in charging this paper with having received amounts, taken, as he says, from the public documents of the Dominion, he repeats the charge in last week's paper.

As a rule we do not recommend Patent Medicines, but when we know of one that really is a public benefactor, and does positively cure, then we consider it our duty to impart that information to all.

It is reckoned that owing to wet seasons and other causes, the decrease in the British flocks of sheep will number 5,250,000, therefore the prospects of a large quantity being exported from the Dominion ought to be exceedingly good.

The subject of Forestry is also introduced, and the urgent necessity of preserving the trees as much as possible, not only with a view to the conservation of timber for economic use, but also with a regard to the climatic influences attendant thereon, is strongly enforced.

The whole subject of forestry is certainly one deserving the attention of the community generally.

There has been a very large increase in Patent business during the past year, when compared with former years, the transactions of the office having almost doubled during the last three years.

Moved by Mr. Law, seconded by Mr. Moodie, that Messrs. Trench and Crosby be appointed to settle the piano debt.—Carried.

The Secretary's bill of \$4.71 was read and, on motion, directed to be paid.

A communication was received and read from the Masonic Hall Committee, in respect to one year's rent, now due them. Laid over till next meeting.

The Meeting then adjourned.

LOCAL ITEMS.

Go Bang for sale at the HERALD Store.

Wools, and other articles in the fancy line, just received at the HERALD Store.

Those unsightly and disease-breeding ditches, in the northern part of the village, ought to be drained and covered in.

The Reeve's proclamation should be followed out. Nothing like having the streets of the village looking pleasant and clean.

Hair Nets, Invisible Nets, Hairpins, Crimping Pins, Bracelets, Beads, Jet Ear-rings, newest styles, Berlin Wools, Baskets, etc., for sale at the HERALD Store.

LACROSSE MATCH.—It is expected that a Lacrosse match between the "Stars" of Markham, and the "Young Canadians" of Richmond Hill, will take place on Saturday, 19th inst., in this village. Particulars in a few days.

THE LAW.—The game law says no person is allowed to kill water fowl, (known as Mallard, grey duck, black duck, wood or summer duck) between the 1st January and 15th of August.

IMPROVED.—The Teeswater News of last week, shows that a new hand is at the lewells. The tone of its leading articles also inclines us to the opinion that it may soon demand Government patronage from Ottawa. It only requires a little less fencing. We heartily congratulate it on its improved condition.

DINNER AND TEA.—The ladies in connection with the Presbyterian Church, in this village, purpose having their annual Dinner and Tea, in the basement of the Church, on the Queen's Birthday. Every effort will be made, and no pains spared, to make everyone comfortable and happy. Tickets to each, 25 cents; Children 15 cts. Come one, Come all.

FOOTBALL CLUB.—The young men attending our High School have formed a football club, and can be seen practising daily on their grounds. They have already been favored with a challenge from the Weston High School Club, to play in this village on the 24th inst. The Westonsians are old hands at the game, and our boys will need considerable practice to "down" them, but if they accept the challenge, we wish them every success.

PROCLAMATION.—The Reeve, Mr. John Brown, has issued a proclamation appointing Friday next, May 11th, as a tree planting day for this village. All parties willing to assist in this important work are requested to meet at his residence, corner of Yonge and Centre Streets, on Friday morning at 8 o'clock. We hope the villagers will largely turn out, as a few more shade trees planted along our streets will make this one of the prettiest villages to be found in Ontario.

ELECTION OF OFFICERS.—The Band met on Tuesday evening last, and after playing a number of fine selections on the balcony of the Grand Central Hotel, retired to the practice room, and elected the following officers:—President, C. Savage; Leader, J. Powell; Sec. T. Young; Treas., G. McDonald. This Band has the reputation of being one of the best in the county, and any of our sister villages desiring the services of a Band at any time, cannot do better than give the boys a job.

C. M. CHURCH DINNER, TEA AND CONCERT.—The Annual Dinner, Tea and Concert of the C. M. Church, of this village, will be held on the 24th inst., Queen's Birthday. We are requested to inform the public that they will find the meals provided by the ladies, all that they could wish for, as no pains will be spared to make everyone comfortable. Special attention is drawn to the Concert in the evening, which is under the supervision of Mr. F. Warrington and Mrs. Bradley, supported by Mrs. Blight and Mr. Taylor, all of Toronto. The public may rest assured that the treat in store for them will be well worthy of their patronage, and everyone should endeavor to attend.

FATALLY SCALDED.—A very serious accident occurred to a little child, eighteen months old, daughter of Mr. Samuel Agar, who lives on the 3rd Con. of Markham, on Saturday morning last. It appears that a pail of boiling water was left on the kitchen floor, probably for scrubbing purposes, and the mother having occasion to leave the room for a moment, the little child accidentally fell backwards into the water. When the mother returned she was horrified to find what had happened, and immediately rescued the child. Dr. Wilson was sent for but could do nothing to save her, as she died from the effects on Sunday morning. When the clothing was removed, the scald was found to be so deep that the skin peeled off her back and the blood flowed freely.

A NEW PAPER.—The first number of the World—the Bceon Printing and Publishing Co., publishers and proprietors, and E. H. Macpherson, Editor and Manager—is received. The World makes a good appearance, being neatly and well printed, free from Yankee quack advertisements, such as St. Jacobs Oil and Warner's Safe Cure, and if the Manager knows when he is well off he will steer clear of this class of advertisements as much as possible. In its introductory remarks it sets out with the determination of taking no part whatever in political matters. Its aim and object will be to further public interests as much as possible by leaving political matters to be derived from other sources than the local paper. We sincerely trust it may succeed, as there is room for it.

LOCAL ITEMS.

TREE Planting is becoming quite an institution all over Ontario.

PROROGATION.—It is expected that Parliament will be prorogued on the 18th inst.

We call attention to the change of firm of Messrs. Bethune, Moss, Falconbridge and Hoyle. See advertisement.

The fence in front of the Presbyterian Church and Manse is undergoing improvement. Mr. Moodie is doing the much needed reformation.

AT LAST.—The farmers around here have commenced their spring work at last, and seeding is now the order of the day. It seems to be the general opinion at present, that the Fall Wheat looks a little better than the average, and equal to the average.

AMUSING.—Grip has a good thing in last week's issue. The political "bad boy and his pa." The boy is represented by Dewdney and Sir John as the pa. Grip keeps up its character well, and requires only to be seen and read to be appreciated.

We commend the following to agitators of church societies, which we take from an exchange. "A mum social will be held at the residence of—on the evening of Tuesday next. Silence to be kept for one hour after entrance, under the penalty of 5 cents, collection to be taken up during the evening."

FIRE COMPANY MEETING.—The regular monthly meeting of the Fire Company was held in the Council Chamber, on Friday evening last, a large attendance being present. A number of By-Laws were drafted by the Committee and confirmed by the Brigade. Messrs J. A. Stewart, J. Bryson, T. Doughwaite, W. Clifford, W. Sheppard, F. Hinder, J. Platt, J. Sharp and A. Landsborough were nominated and received as Firemen, and E. Snider was received as an apprentice Fireman.

THE melancholy days have come, the saddest of the year, when married men go creeping home in trembling and in fear. Fear that his own and only, with head in whitewash bands, and broom in hand invite him in to—blister up his hands. For carpets must be beat, you know, and stoves be taken down; but "hubby" knows a trick or two—he's got to go down town.—Ez.

HOLLOWAY'S PILLS.—With the darkening days and changing temperatures the digestion becomes impaired, the liver disordered, and the mind dependent unless the cause of the irregularity be expelled from the blood and body by an alternative like these Pills. They go directly to the source of the evil, thrust out all impurities from the natural state, and correct all defective and contaminated secretions. Such easy means of instituting health, strength, and cheerfulness should be in the possession of all whose stomachs are weak, whose minds are much harassed, or whose brains are overworked. Holloway's is essentially a blood-tempering medicine, whereby its influence reaching the remotest fibres of the frame, effects a universal good.

AURORA.—Dr. Hillery will set out for a trip to the old county next week, where he will rest and endeavor to recuperate his shattered health. His brother, Dr. Hillery of Jamaica, a physician of considerable repute, has arrived, and will attend to the practice during his absence. We trust to see the doctor return with renewed health.

The Assessor has about completed his labors. His books show a remarkable increase in the advancement of our town. The assessment on real estate amounts to \$286,161; personal property, \$15,500; taxable income, \$4,550, making a total assessment of \$307,211. The books show that there are 83 dogs, 161 horses, 103 cattle, 150 pigs and 55 sheep. There are 619 taxpayers, which will entitle us to another representative at the County Council, so that voters may now begin to cast about them for a proper Deputy-Reeve.

On Saturday afternoon, 28th ult., an unfortunate accident happened to a man named Saville, a laborer in Wilkinson's & Co.'s foundry, which will disable him for life. The unfortunate fellow just returned to the machine which he was operating with some "waste" with which to clean it. The same got caught and in extracting it his right hand was drawn in and three fingers chopped off. The unfortunate fellow is left with but the thumb and first finger. He has a wife and four children depending on him for support.

WORK GIVEN OUT.—On receipt of your address, we will make an offer by which you can earn \$3 to \$7 evenings, at home. Men, Women, Boys or girls can do it. H. C. WILKINSON & Co., 195 and 197 Fulton Street, New York.

Newmarket.—CHANGED HANDS.—The Mitchell House underwent a change of proprietorship on Tuesday, 1st inst., Mr. Kerr, of Bell Ewart having purchased the property.

BOGART TOWN MILLS.—Mr. Petheram has sold his Flour Mills to Mr. John Stokes, of Bradford, for the sum of \$6000; and the new proprietor takes possession on the 15th inst. We understand Mr. Petheram intends removing to Kansas in the near future. There will be no stoppage of the Mills during the transfer.

ACCIDENT.—While Mr. N. J. Beckett, Head Miller at Denne's Steam Mills, was engaged about his work on Wednesday morning, he met with an accident of apparently serious character; but up to the hour of going to press the extent of the injury was not determined. He was found at the bottom of a bin, by Mr. Eli Denne, with a plank lying across him. The supposition is, that in stepping on a plank placed across the top of the bin, which is some ten or twelve feet deep, it must have been out of place and tipped up, causing the fall.

The North York Teachers' Association holds its regular half-yearly meeting in the Newmarket Model School, on Thursday and Friday, 17th and 18th inst. The programme of the meeting is an extensive one, and we think should be very interesting as well as profitable to those engaged in educational pursuits. A cordial invitation is extended to each teacher and friend of education to attend these meetings.

THE MARKETS. TORONTO. THURSDAY, May 10, 1883. PRICES AT FARMERS' WAGGONS.

Wheat fall, new, per bush \$1.02 \$1.03

Chancery Sale!

PURSUANT to the Judgment of the Chancery Division of the High Court of Justice, entered in a certain action of DRIGGS VS. LAUDER.

THE BUILDINGS upon the property consist of a comfortable frame dwelling house and a large frame barn, with stone stables and root cellar underneath and with a large frame shed attached.

THE SOIL is chiefly a rich clay loam and well adapted for grain and other crops; about 90 acres is in a state of cultivation.

THE Assessor has about completed his labors. His books show a remarkable increase in the advancement of our town. The assessment on real estate amounts to \$286,161; personal property, \$15,500; taxable income, \$4,550, making a total assessment of \$307,211.

On Saturday afternoon, 28th ult., an unfortunate accident happened to a man named Saville, a laborer in Wilkinson's & Co.'s foundry, which will disable him for life.
