The Treasurer.

M. P. P. for North Brant, to fill the office of Treasurer in the Provincial Government, which has been vacant for some time past, was not unlooked for. Perhaps he is the best man that could incompetent Ministry. have been got for the position: His appointment, however, is not altogether satisfactory, even among the supporters of the Government, seeing that Western a good thing he is old and weak." This Ontario has now five representatives in the Cabinet,-Messrs. Mowat, Crooks, Hardy, Pardee and Young-while East. ern Ontario has only one-Mr Fraser. wishes of his opponents. Mr. Young, a Western man, replaces Mr Wood. The Liberal party is weak in Eastern Ontario, in Dominion contests especially, and we think it very doubtful policy for the Premier of the Local Government to hive his Cabinet so much in the Western section of the Province. The three counties of Brant. Oxford and Lambton now claim five out of the six members that constitute the Government. This certainly is not treating the rest of the Province with at least consideration, and it may be ultimately the means of helping the defeat of the Mowat Administration.

The Money Question.

The World says :- "We are being Americanized when we do not wish it, by the timidity or negligence of our rulers. In the matter of money, for ed as tenants for 45 acres of lot 34, 6th con. instance, we notice that American greenbacks are supplanting our Canadian bank bills right in our own country. There are not a few Canadian banks that have failed, who all had the privilege of issu-ing notes, and we have to-day so many banks issuing notes that only a bank teller in daily practice can keep track of them. As a consequence, our bank bills are distrusted. British Columbia bank notes and the notes of banks in the mari bills right in our own country. There are not a few Canadian banks that have time provinces are "shaved" from 3 to time provinces are "shaved" from 3 to T. Cook, Isnac Chapman, Mrs Playter-10 per cent where offered out of their dogs struck off; John Downs-one dog to provinces. So are the French Canadian is that when a man travels from our Province to another, if he is wise, instead of taking Canadian back bills he proof taking Canadian bank bills he pro-vides himself with United States notes."

This state of things could be borne when we were all separated provinces Now that we are a nation, scattered over half a continent, the time has come for a gentine national bill issue. We want a Canadian note issued by the Govern-ment,—that will be good all over the the stable by the Govern-ment, that will be good all over the the stable by the Govern-Dominion, and what is more, outside of
