THURSDAY, JULY 5, 1883.
 NOTICE TO SUBSCRIBERS.
 The date printed on each paper denotes the time when the subscription expires.

Hard on Canada.
 Buffalo papers say:—"If the morality prevailing in Canada is to be fairly judged by that of the excursionists who celebrate confederation by visiting the States, and fully twenty five hundred of them from Toronto, Hamilton, St. Catharines, and contiguous points, so celebrated it here, it can hardly be said that high standard claimed by Torontonians generally, who so fondly point to their quiet observance of the Sabbath, the strictness of their laws and the general easiness which characterizes everything in the Queen City on the day of rest. Buffalo boasts of a population of over two hundred thousand people, but within the year there has not been so much drunkenness, so much licentiousness, so much of everything generally condemned by Canadians, as was to be seen on our streets to-day. The lowest quarters of the town fairly reeked with Canuckism, and race week furnishes no parallel, though law and order there have heretofore been virtually suspended, to the disgraceful orgies of the infected district during to-day. What the night was, under cover of darkness, can only be fairly imagined, and would hardly suit the tastes of your readers, even if it could be dimly portrayed.

The Montreal Witness says:—"The Commission of the State of New York, appointed to devise ways and means for the formation of a national park at Niagara, have not allowed time to slip past by any means. They have already selected the land which they consider it necessary for the State to acquire in order to save the beauty of the Falls, and means will be taken to expropriate it at the next session of the State Legislature. While the Americans are so actively engaged in doing all in their power to put an end to the manifold hideous erections and extortions which mar the Falls, what has been done by Canada? The difficulties to be overcome on the Canadian side are nothing like as great as on the other, and the opportunity of doing a great good is far greater. It was a Canadian Governor General that proposed the scheme, and unless the Canadians carry out their part they will prove their unworthiness to have a clever man sent to rule over them."

Some recent evidence adduced by the Boston Courier indicates that the Maine Liquor Law, after years of trial, is not all that fancy painted it. In most of the cities and towns liquors are sold freely in drug stores instead of taverns, and the only difference appears to be that an inferior quality of liquor is sold, and the inspection of the law officers. Perhaps this incidental accompaniment of poisonous ingredients may be rather agreeable to the advocates of the law. By killing off those who persist in consuming stimulants, in time a population very limited but sober will be secured.

The gentlemen who are so anxious that we should submit our manufacturing interests to the tender mercies of the United States should learn a lesson from the closing of the shellac varnish factory at Kingston. The factory was opened in 1880, and varnish was made for the American market. In 1881 an effort was made to stop the importation of Canadian varnish into the United States but it failed, as the Customs law favored the Canadian manufacturer. Last year the tariff was changed to meet the ease, and now the varnish factory has to close.—*Mail.*

During the last month or two there has been a large increase in the importation of opium into San Francisco. The reason is, the duty is increased on and after this month to the extent of \$4 a pound. The present duty being \$6. It is said there is at present stored in San Francisco, about two years' supply of the drug, and it counts as good as gold on the market, being heretofore taken by the bankers at almost its par value. But this sudden increase of importation may create a revolution in this respect, as the bankers may not consider the value so secure to make advances on.

The Deceased Wife's Sister Bill has been defeated at its third reading, in the House of Lords, by a majority of five. It was thought that after having passed its second reading, it would have passed to its third also. It was stated by the press, that the marriage of the Princess Beatrice to the Grand Duke of Saxe-Coburg, merely awaited the passage of this measure. If so, the marriage will now have to be put off for at least a year.

There is a row in Brockton over the Finance. The Councillors had a meeting without the Reeve's consent, and ordered the books of the municipality to be re-written. The Reeve contended that they should first be examined by a Government commissioner, subsequently a public meeting was held at which the Reeve was upheld by the people.

Mr George F. Reed, agent for the Foreign Exhibition, to be held next September, in Boston, is making a tour of Canada. The exhibition, which is to consist of Foreign Arts, Products and Manufactures, is under the commendation and auspices of the Massachusetts Charitable Mechanic Association. The portion allotted to Canada is 120x60 feet.

The result of the recent elections for the county of Monaghan is as follows:—Healy, Home Ruler, 2376; Monroe, Conservative, 2011; Pringle, Liberal, 270. Healy addressed a large crowd after the election, and said he had little doubt that before many years were over every farmer in Ireland would be owner of his own holding.

English Female Iron-Workers.

Some months ago the Record printed an account of the labors of the female iron-workers in "The Black Country," near Birmingham, England, based on the observations of Mr. Samuel S. Baldwin. Controversy having arisen as to the correctness of the statements of the Record, the matter was referred by a correspondent to the editor of the Westminster (Eng.) Evening Star. The Star, after republishing the article from the Record, adds the following comment:—"We may state that representatives of this journal have recently made diligent inquiries, have visited the 'homes' of the people and conversed with them about their work and their earnings, and have recorded their experiences, which are practically the same as those of Mr. Baldwin. We rather think, indeed, that that gentleman has over-stated the great earnings of a family of nail or chain makers. Instead of four and a half dollars clear weekly income, three and a half would be nearer the mark, and the prospect for the future points to a still further reduction. Our black country female slaves are engaged in a hopeless struggle with machinery, the price of hand-maid chain and nails naturally sinking as machinery improves. Yet, with the prejudices which is born of an hereditary connection with the trades, they cling to the forge, and appear to regard hovels as their natural homes, black smiths' work as a perfectly regular female employment and starvation wages as fair remuneration."—*Philadelphia Record.*

Cricket Match.
 A cricket match was played between the Victoria Square and Buttonville Clubs, on the grounds of the former, on Monday, July 2nd, the Vics playing 22 of the latter. The Vics won the toss and went to the bat with Forester and Frisby bowling. The way the balls came in seemed to puzzle them, none of them making a stand, and were all disposed of with 11 runs. The Vics then took hold of the willow, and it looked as though fate was against them too, as the first two wickets fell without scoring any, and with 22 men on the field eager to grab the ball should it take a notion to go their way, made things look pretty blue for the Vics. Forester and Braithwaite came to the front and made a noble stand, but Fierheller getting in a rusty ball, Braithwaite dropped out with a well played score of 12. He was replaced by T. Frisby, and the hitting became free and heavy, and when Forester retired he had 63 runs to his credit. Frisby played on steadily, and succeeded in putting together 24 runs. These were the only important stands made, and when the last wicket fell the score stood 117. The Vics again took the bat, but with the exception of Fierheller, failed to make a stand and when the last wicket crashed the score stood 28, making a total of 39, leaving the Vics masters by 1 innings and 78 runs.

The following is the score:—

VICTORIA SQUARE.	
C. McKenzie, c Fierheller	0
E. Frisby, b Fierheller	12
W. Braithwaite, b Fierheller	12
J. Forester, b Kennedy	63

A Hearty Recommendation.
 Jacob A. Empey, of Cannanora, states that he has taken Burdock Blood Bitters with great benefit in a lingering complaint, and adds that he would gladly recommend it to all.

Board of Education.
 The School Board met. Present, Messrs. Marsh, Switzer, Brown, Boyle, Teffy, Duncan, Trench, Savage, Crosby, and Rev. J. Campbell. Minutes of last meeting read and adopted.

A number of communications were read. Mr. Teffy, seconded by Mr. Brown, moved that Mr. McBride's account, amounting to \$5.49 less 28 cents for postage on Entrance Exam papers, be paid.—Carried.

Moved by Mr. Teffy, seconded by Mr. Duncan, that the secretary state to Miss Hamilton that the Board are dissatisfied with her leaving the school on the 19th and 20th and following two days, without acquiring due notes, and without the consent of the Board.—Carried.

Mr. Switzer, seconded by Mr. Trench, moved that the first assistantship for the High School be offered to Mr. Coody, at a salary of \$500 per annum, for the last term of this year, duty to begin with the term, and, if he does not accept, make the same offer to Mr. Scott, another applicant.—Carried.

Moved by Mr. Campbell, seconded by Mr. Savage, that Mr. McBride be heard as to time of closing the High School term.

Mr. Campbell, seconded by Mr. Brown, moved that the Secretary be instructed to procure a High School Manual for the use of the Board.—Carried.

The Board then adjourned.

AURORA
 Colonel Norman MacLeod, of Oak Ridges, arrived home from Winnipeg, on Tuesday morning of last week.

William Baldwin, Esq., brother of Robert Baldwin, who gave the name to the class of politics known as the "Baldwin Reformers" died at Deer Park, last week, at the advanced age of 75 years.

WOMAN'S TRUE FRIEND.
 A friend in need is a friend indeed. This none can deny, especially when assistance is rendered when one is sorely afflicted with disease, more particularly to those complaints and weaknesses so common to our female population. Every woman should know that Electric Bitters are woman's true friend, and will positively restore her to health, even when all other remedies fail. A single trial always proves our assertion. They are pleasant to the taste, and only cost fifty cents a bottle. Sold by R. E. Law.

WESTON.
 Weston High School sends sixteen candidates to the Intermediate examination, which commenced yesterday.

A fairly-attended and successful private basket picnic was held in Geddis' Flats, a little above the village. Mr. May, lumberman, was the originator of the affair. The party spent a pleasant afternoon.

Bucklen's Arnica Salve.
 This Salve is in demand for Cuts, Bruises, Itch, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. Sold by R. E. Law.

HOLLOWAY'S PILLS are the medicine most in repute for curing the multifarious maladies which beset mankind when dry, sultry weather suddenly gives place to chilly, drizzling days. In fact, these Pills offer relief even if they fail of proving an absolute remedy in all the disturbances of digestion, circulation, and nervous tone which occasionally oppress a vast portion of the population. Under the genial, purifying and strengthening powers exerted by this excellent medicine the tongue becomes clean, the appetite improves, digestion is quickened, and assimilation is rendered perfect. These Pills possess the highly estimable property of cleansing the entire mass of blood; which, in its renovated condition, carries purity, strength and vigor to every tissue of the body.

The Butter Question.
 The following, taken from the Mail on the butter question, may not come amiss to some of our readers:—

The butter trade is one of which we very seldom hear a good word spoken in Toronto. If we may judge by the opinions expressed by parties who from time to time have gone into the business on a large scale, the profits have not been sufficient to line their pockets very richly.

A recent issue is now about to open. In one point it opens well; there are no overlying stocks of inferior goods which must be sold for grease on hand; all offered in the previous season has been got off, and we are done with it. By the experience which it has brought back, and the resolves which that experience has infused into the minds of dealers, should be laid to heart by our country merchants. We do not mean that they are to be turned on their heads upside down and placed upon an entirely new footing. But we have no hesitation in saying that, for the present at least, prices will not act upon the policy:—"Touch not, taste not, handle not," unless that they will buy none other than good butter at any price, unless to sell as grease. Now there is nothing so general as the remark that it is more apt to buy heedlessly than butter; to refuse to take it, and at the highest price too, is, we believe, a deadly insult to the ladies who make it, and one which is sure to be punished by the loss of their custom for the many articles of dry goods which they, in their mistaken modesty foolishly believe are needed to set off their own charms and those of their sweet little darlings also. The strength of butter has fallen to 15c, and some of our country merchants are not relying on a profit on their butter to meet a forthcoming account; but let him charge himself with the loss on it as an addition to his accounts. And let him not mix good and bad qualities, for by so doing he will destroy the good or bring them down to the level of the bad. Nor let him make up his mind that "it will pay to hold." Butter is more apt to be sold than almost anything he can lay his hands on, and it is very improbable that he will this year find people buying it in hopes that prices will have advanced by the time the goods shall have reached their consumer. Outside markets are now being watched, and it is known that in butter as in other goods we must sell as cheaply as our competitors if we are to find buyers.

Newmarket.
 Fall wheat is beginning to head out in some localities. The frequent showers and warm weather has induced a rapid growth, and backward fields have picked up wonderfully. Warm dry weather is now very much needed, in order to prevent rust. Spring crops are looking very thrifty, excepting in very low ground, where the wet has been too much for it. With fine weather an average crop all round may be looked for. The yield of hay will be very large, and some trouble will be experienced in curing it unless fine weather soon sets in.

ACCIDENT.—Mr. Amos H. Wilson, of Sharon, met with a severe accident on Monday. He was carrying a bunch of shingles on the roof when he slipped and fell to the ground, the shingles following him. He was very seriously injured, but no bones were broken.

ON DIT.—That the Royal Hotel is about to change hands if the required "spouducks" are forthcoming—\$5000.

THE LASSON CASE.—It will be remembered that the young man Lasson, tried before Judge Boyd at the County Court, was charged with the charge of larceny. On Thursday the case of the illicit milk came up at the Criminal Court before Judge Oaler, and through the able defence of his legal adviser, Robt. Moore, Esq., Mr. Lasson was proved innocent of any of the charges preferred against him, the Judge ordering a verdict of "Not Guilty" to be brought in without even going to a jury. It is generally remarked that throughout the case Judge Oaler's decisions were prompt and sound, giving unexceptional satisfaction.

ANOTHER REAL ESTATE SALE.—One day last week Mr. James Cassidy struck a bargain with Mr. Wm. Elvidge for the property occupied by Mr. Chas. Elvidge, at the corner of Main and Mill streets, for \$1100. Mr. Cassidy intends, as soon as possible, to remove the large machine shop (part of which is occupied by Mr. Robt. Fulton, as a carriage shop), at the rear of the lot to the corner on Main street, where it will be occupied by his extensive marble works.—*ERA.*

The worst Scrofulous Sores, the most indolent Tumor, and the most foul Ulcer known, may be cured by the combined use of Burdock Bitters and Burdock Healing Ointment. Ask your Druggist for these infallible remedies.

Mental Indolence.
 There are two sorts of understandings, one which hinders a man from ever being considerable, and the other commonly makes him ridiculous—I mean the lazy mind and the trifling, frivolous mind. The lazy mind will not take the trouble of going to the bottom of anything; but, discouraged by the first difficulties (and everything worth knowing or trying is attended with some) stops short and contented itself with easy, and consequently superficial knowledge, and prefers a great degree of ignorance to a small degree of trouble. These people either think or represent most things as impossible, whereas few things are so, by way of excuse for their laziness. An hour's attention to the same object is too laborious for them; they take everything in the light in which it first presents itself, never consider it in any different view, and in short, never think it through. The consequence is that when they come to speak on these subjects before people who have considered them with attention, they only discover their own ignorance and laziness, and lay themselves open to answers that put them in confusion.—*Farm and Fireside.*

A Vexed Clergyman.
 Even the patience of Job would be becoming exhausted if he were to be wretched and endeavoring to interest his audience while they were keeping up an incessant coughing, making it impossible for him to be heard. Yet how very easy can all this be avoided by simply using Dr. King's New Discovery for Consumption, Coughs and Colds. Trial Bottles given away at R. E. Law's Drug Store.

Woodbridge Jottings.
 (From our own Correspondent.)
 The 1st of July passed off very quietly here. The Foresters turned out in the morning and marched in procession to Christ Church, where a sermon was preached (suitable for the occasion) by the Rev. O. P. Ford. The Church was comfortably filled. After service they again formed in procession and marched back to their Hall where they dispersed, to take a rest for the next day.

The proceedings of the 2nd were opened at about 11.61 a. m., by the Artillery firing off a salute with their cannons, and kept up a steady fire for about 30 minutes. They then took a rest until daylight, and then commenced arousing the villagers from their quiet slumbers. The morning turned out fine and warm, with a soft inclination to rain, but only a few drops fell. About 7 a. m., the village was all astir, all bent on having a general good time. In the morning trains from Toronto brought in large crowds of visitors, also the train from the north brought a great many. We had two picnics. The Foresters, which was held in the Agricultural grounds, and the Bolt Works, from Toronto, combined with the Good Templars, which was held in Plynter's grove, a little west of the Station. Both parties opposed one another for all they were worth, and each had a good share of patronage. I believe, I believe, that they should have had, by the way the programmes were carried out. It is always the way in a small place, when two parties want to run the whole show, one is sure to be out of pocket.

So I believe the Good Templars are considerably out, whilst the Foresters are \$127 ahead, but neither of the parties need try to get up another celebration in Woodbridge. There were two concerts in the evening, one in the Orange Hall, by the Foresters, and the other in the Agricultural Hall by the Bolt Works Band. Both were well patronized, and everything passed off quietly.

About 400 people visited our village that day. The Richmond Hill Band gave us lots of good music throughout the day, and too much praise cannot be given them, as they played very well.

The 12th of July is going to be celebrated here on a large scale. Come and see us on the glorious 12th.

Woodbridge, July 4th, '83

LOCAL ITEMS.
 The Public Schools in this village will close for summer vacation, on Thursday, 12th inst., and re-open on the 3rd of September.

The monthly meeting of the Fire Company will take place on Friday evening next, 6th inst. A full attendance is requested.

CONFIRMATION.—Confirmation services were held in the Episcopal Church in this village, and also in Thornhill, on Tuesday last, by the Lord Bishop of the Diocese. About a dozen candidates received the rites of confirmation.

EXAMS.—There were some fifty candidates wrote at the Entrance examination, held in our High School on Thursday and Friday last. The Departmental exam is now going on, and will continue until noon on Saturday next.

THE PRICHO held at Bond's Lake, by a number of ladies and gentlemen from this village, on Monday last, Dominion Day, was in every way a success. Boating and other amusements formed the programme for the afternoon. The party returned home in the evening, after having spent a pleasant time.

RETURNED.—Our volunteers returned home from camp at Niagara, on Tuesday afternoon last. The majority of them were very warm, dusty, and tired, and, judging from their appearance, one would naturally think that camping out is not a very desirable life. They all seemed glad to get back to their "Home Sweet Home."

CATTLE FAIR.—The monthly cattle fair was held in this village on Wednesday last. Unfortunately there was not many buyers from Toronto present, but our village butchers, Messrs. Pugsley and Hopper, secured some very fine animals. The stock of beef and young cattle was large, and prices were about the average.

A GOOD TIME.—The ladies in connection with the Episcopal Church, in this village, intend having a Strawberry and Ice Cream Festival, at the residence of J. Brown, Esq., on Saturday evening next, 7th inst. The Richmond Hill Band will be in attendance. Tea served from 6 o'clock. No pains will be spared to make everyone happy. Proceeds in aid of Church spire. Tickets, 25 cts.; children 15 cts.

GOODS AT COST.—Reynolds is now carrying on a grand clearing sale of summer goods, and is offering prints, dress goods, ready-made clothing, regatta shirts, lace curtains, hats, etc., etc., at cost prices. It is bound not to carry any summer goods over, and the public may depend on getting great bargains. Give him a call and see for yourselves. Look out for his new advertisement next week.

ENJOYMENT.—The proposition made by the HERALD some weeks ago, in reference to Bond's Lake being a pleasant spot for picnics, etc., seems to have taken a strong hold upon the young ladies and gentlemen in our village. A large number of pleasure seekers have already paid it a visit, and picnics seem to be the general topic for conversation. We have been told that two or three more are being arranged, and will take place shortly.

BURGLARY.—The Grand Central Hotel, in this village, was entered by a burglar on Tuesday morning last, about 3 a. m. The thief secured an entrance through a window in the room behind the bar, and ransacked the till in the morning and marched in procession to Christ Church, where a sermon was preached (suitable for the occasion) by the Rev. O. P. Ford. The Church was comfortably filled. After service they again formed in procession and marched back to their Hall where they dispersed, to take a rest for the next day.

LOCAL ITEMS.
 The Riverside Fire Brigade went to Oshawa on Monday last, to compete in the hose race, and were defeated by the Trenton Brigade.

A TABLESPOON of saltpetre, dissolved in a pailful of water and sprinkled on cabbages, will keep off the worms and not injure the cabbage. It will also free your cucumber and squash vines from the striped bug and borer, if occasionally poured on the earth.

RICHMOND HILL P. O. SAVINGS BANK.—The following are the returns of the Bi-monthly Hill P. O. Savings Bank, for the year ending 30th June:—
 Total deposits to 31st Dec. 1882.....\$205,545
 Deposits for 1st-half of 1883.....11,998
 Total amount of cash deposited about.....\$217,543
 M. TREFY, Postmaster.

N. YORK UNIFORM PROMOTION EXAMS.—In future, promotions in the Public Schools in North York will be uniform, and will take place twice a year. One exam will be held during the first week in March, and one in the first week of November. The Inspector assisted by two competent persons, not engaged in Public School work, shall be constituted a Central Board, for the purpose of preparing exam papers for the pupils, and conducting these exams. This will take a great responsibility off teachers, and prevent pupils being promoted from one class to another before they are competent to take up the work of the class. The County Council, at its June session, unanimously agreed to furnish \$50 towards the cost of the next exam, and expressed a desire for the introduction of this uniform test of efficiency in all the schools of the county. In consequence of this change, there will be no promotions in the Public Schools in Richmond Hill till November, when written exams will be held from Second class to Junior Third; from Junior to Senior Third, and from Senior Third to Fourth class.

ROYAL READERS.—We have been favoured by specimens of "the Royal Readers," published by James Campbell & Son. "Of making many books there is no end," is an old saying that is especially true at the present time. It is frequently urged that the changes in our school books are too frequent, and that the slight changes in the matter which they contain do not justify the rapid succession with which the books follow each other. We think, however, that an examination of the advance sheets of the Royal Series will convince any one that the change is not contemplated simply for the sake of change. A great deal of educational skill is displayed, both in the order and contents of the books. There is an easy gradual ascent from the simpler to the more difficult parts of the books, as well as good literary taste displayed in the selection of the reading material which they contain. The notes and questions appended to the more advanced parts of the books will be of great assistance in enabling the pupil to thoroughly master what he reads. We wish the enterprising publishers every success in their undertaking to supply our schools with such a series of books.

MESSRS. Palliser, Palliser & Co., of Bridgeport, Ct., the well known architects and Publishers of standard works on architecture, have lately issued a sheet containing plans and specifications of a very tasteful modern eight-room cottage with tower and also with the necessary modifications for building it without the tower, and with but six rooms if desired. In its most costly form, the outlay is estimated at \$3,000; without the tower it has been built for \$2,500; and if only six rooms are included, the cost may be reduced to \$1,700 of \$2,000. Details are given of mantels, stairs, doors and casings, cornices, etc. The publishers have found it the most popular plan they have ever issued, and state that it has been adopted in more than five hundred instances in their knowledge. The same firm issue Specifications in blank, adapted for frame or brick buildings of any cost; also forms of building contract, and several books on modern inexpensive, artistic Cottage plans which are of great practical value and convenience to everyone interested.

My Mother
 Has been using your Burdock Blood Bitters as a liver remedy, and finds them very efficacious. Chas. L. Ainsworth, 41 Vance Block, Indianapolis, Ind.

Burdock Blood Bitters
 Cures scrofula, erysipelas, salt rheum, piles and all humors of the blood. Cures dyspepsia, liver complaint, biliousness, constipation, dropsy, kidney complaints, headache, nervousness, female weakness and general debility, when used in time.

MARRIED.
 CANAVAN—LESTER—On Wednesday, 4th inst., at the Church of the Redeemer, Toronto, by the Rev. Benjamin Jones, M. A., assisted by the Rev. E. Horace Menden, R. A., of Aurora, John Canavan, Esq., of Virginia Caroline, second daughter of Mr. W. H. Lester, of Her Majesty's Customs, Toronto.

A Wonderful Change.
 Rev. W. E. Gifford, while pastor of Christ Church, Bothwell, suffered from chronic dyspepsia so badly as to render his life almost a burden. Three bottles of Burdock Blood Bitters cured him.
