The Estimates.

The estimates of the expenditure of the Province for the present year show a total estimated outlay of \$2,647,073. The total estimates for last year were \$2,569,293; the increase being \$87,790. A new heading of "maintenance and repairs of Government and Departmental buildings" appears, to which are transferred items which were formerly given under other heads. The amount asked for under this heading is \$38,090. Civil Government calls for an expenditure of \$178,895 as against \$190,305 in the estimates of 1883. The anticipated cost of Legislation foots up \$110,360; an increase of \$8,000; \$6,000 of which is in the item of indemnity and mileage to members, and \$2,000 in the sum voted to sessional clerks, writers, messengers and pages. The outlay on the administration of justice is fixed at \$289,001; the increase being \$5,099. Education was down in the estimates of 1883 for \$512,833; this year it is increased to \$518,496, the augmentation being mainly under the head of inspection in Public and Separate Schools, which is going to cost an extra \$5,305. The items under the heading of Agriculture, Arts, Literary, and Scientific amount to \$150,290. Hospitals and Charities \$92,669. An appropriation of \$199,259 is asked for public buildings. The amount required for public works is \$49,965. Colonization roads are estimated to cost \$122,550. Crown Lands \$79,400. "Unforeseen and unprovided" expenses will absorb the usual \$50,000. To cover sundry unforeseen expenditures of 1883 \$91,295, shows that the estimates for last year were exceeded.

The N. P. in a Nutshell.

It is stated that the Swedish turnips which we sell to the United States in such large quantities at 15 or 20 cents a bushel, return to us in the shape of pure jam, under various fruit names, at 20 cents per pound. The Globe, commenting on this fact, says this is "too good a business to remain forever an American monopoly." Which is to say, in other words, that if raspberry, apple or jam can be successfully made out of Swedish turnips, Canadians ought to do the business themselves instead of allowing the Americans to do it for them. Why, is not this the very cream and essence of the National Policy? But to carry out the Globe's suggestion, and in order to make the conversion of turnips into fruit jam a paying business it would be necessary to shut out the American article by means of the tariff. When we do that with other lines of manufacture, however, the organ sets up a frightful howl. We once heard a gentleman from Nova Scotia talk in the following strain:—"How ridiculous it is that Canadians do not realize their own natural resources more than they do. In my Province, the water-pails, tubs and wooden utensils of all kinds if we are made in Massachusetts out on lumber imported from Nova Scotia and New Brunswick. We have all the materials for this large manufacture at our own doors," continued the speaker, "yet we in blind folly employ foreign labor to make what we want, instead of making it for ourselves." This is the N. P. in a nutshell. The above was said in 1873. In 1879 the N. P. went into operation, and now Canadian lumber is being worked into tubs and water pails by Canadian hands. In the matter of jam the same argument is admitted by the Globe.

The "Algoma Scandal" is about the worst thing yet brought to light against the Mowat Government. It appears that during the Rat Portage difficulty last summer a trap was laid to see what telegrams, and possibly what letters, were passing between the Ontario Government agents at the Portage and the Members of the Government. The contents of these private telegrams were carefully copied, and are now being used to the best advantage by the Leader of the Opposition in the House, and by the organs of the party throughout the country. It may be a nice thing for the Ottawa Government to consent to send a man to a particular post-office to purport to intercept private communications passing through, but whether that was right or not does not affect the case so far as the Provincial authorities are concerned.—Truth.

On the recommendation of the Honorable the Minister of Marine and Fisheries, and under the provisions of the 15th section of the Act passed in the Session of the Parliament of Canada, held in the 31st year of Her Majesty's reign, chapter 40 and intitled "An Act for the regulation of Fishing and protection of Fisheries," His Excellency, by and with the advice of the Queen's Privy Council for Canada, has been pleased to order, and it is hereby ordered that the waters of Lakes Simcoe and Couchiching, in the Counties of Simcoe, Ontario and York, and Province of Ontario, be and the same are hereby set apart for the natural and artificial propagation of fish during the space of three years from the 1st May, 1884, John J. McGee, Clerk, Privy Council.

The Franchise Question.

Probably there will be an understanding of some sort between the leaders of both parties at Ottawa and Toronto on a question of such general importance as this. If females are to be given the franchise at all—and that must come some day—let the wives and the mothers, the mothers especially, be given a fair share of influence. They have interests at stake such as unmarried women have not, and they are quite as likely to guard as well those interests. In case of man and wife there is not much difficulty in regard to the matter of property qualification, if the two are treated as two male partners are now treated in case there is a sufficient amount of property,—give each a vote.

The Hamilton Spectator remarks that the News doesn't want to see the floods of the South introduced into Canada. The Spectator is right. But the floods in the South are not, as the Spectator seems to suppose, the result of the American system of Government. They are caused by the reckless destruction of forests. Canadians are doing their utmost to destroy forests, and unless we at once take measures to protect the trees at the headwaters of our rivers we will have floods as disastrous as those of the South in a few years. There is no question of greater importance before the Canadian people. It is a question which will not wait. We must act at once, or in less than ten years a great part of the country will be under water in the spring time, parched by drought in the summer, and exposed to extremes of cold in the winter.

We perceive by the papers that it is more than likely the intention to again protest the Election of Mr. W. H. Hamuel. It is very unwise and injudicious on the part of our Reform friends to subject Mr. Hamuel to another expensive protest especially as the Conservative candidate was elected by an increased majority at the last election. The Advocate published at Cooks town says:—He must not be asked to undergo the expense of another protest, and advises the circulating of a subscription list with the object of raising a sum sufficient to meet the expense of the protest.

One of the telegrams sent to the Hon. Commissioner of Crown Lands from the Government Agent, was for the purpose of informing the Minister that his Agent was bargaining with the local paper to support Ontario's claims in consideration of \$500 is cash, to be paid down. Another Agent telegraphed that he was on his way up the lakes from the Portage. He wanted \$1,500 of public funds.

A Great Source of Evil. Every farmer will admit that one of the most destructive evils to good crops is that of worms or parasites that prey upon vegetable life; any species of worms infest the lands system and are productive of much suffering and ill health. Freeman's Worm Powders will effectually rid the system of this trouble, are pleasant to take and contain their own catarrh.

Vaughan Council.

The Municipal Council of the township of Vaughan met at the Town Hall, on Tuesday, the 12th day of Feb., 1884, at 10 o'clock. The Rev. in the chair. Members present, Messrs Cook, Reaman, Malloy and Elliott. The minutes of the last meeting read and on motion approved. The following petition was presented:—From Donald Weston and 18 others, asking to have part of lots 17 and 18 in the 7th lot, taken from School Section No. 17, and annexed to School Section No. 9. Moved by Mr. Elliott, seconded by Mr. Malloy, that the Treasurer pay the following accounts:—To D. Todd, for bolts, weighing 37 lbs., \$2.22; T. Ridden for putting in same, 1.50; and charge the same to District No. 2.—Carried. Moved by Mr. Reaman, seconded by Mr. Cook, that the clerk be and is instructed to notify the trustees of S. S. No. 17, that there is a petition presented to this Council to take 96 3/4 acres from S. S. No. 17, and annex it to S. S. No. 9.—Carried. The following By-Laws were passed:—By-Law No. 458, making appropriation for roads and bridges for the present year. By-Law No. 463, apportioning the interest accrued from the Clergy Reserve fund. By-Law No. 464, apportioning the interest accrued from the Municipal Loan Fund. By-Law No. 465, appointing Messrs. John Lahmer and John Nuttall, Auditors. By-Law No. 466, appointing Fence Viewers and Pound Keepers. The Council then adjourned until Tuesday, the 11th day of March next, to meet at 10 a.m. J. M. LAWRENCE, Clerk.

Do Not be Duped.

A recently advertised and highly puffed remedy for deafness has lately been expunged as an unmitigated fraud. No so with Hagar's Yellow Oil, none name it but to praise. John Clark, of Millbridge, testifies that it cured him of deafness.

Conviction Against E. Kinz Dadds Quashed.

Judgment was delivered on Saturday at Osgoode hall quashing the conviction recently made by G. T. Denison against E. Kinz Dadds for advertising a bear lottery. The facts of the case are well known. Mr. Dadds in his paper, the Canadian Sportsman, advertised a scheme whereby a \$20 gold watch and other prizes were to be given to the nearest guessers at the number of beans in a bottle, which was placed in the window of P. C. Allen's stationery shop. Dadds was convicted under our Canadian Act respecting lotteries, for having advertised a lottery. W. G. Murlock moved last week to quash the conviction, and the Court have done so, agreeing with his contention that the offence is not legal within the statute, and that the scheme is not one of chance but of skill. Costs were asked for against the private prosecutor, the Society for the Prevention of Vice, but they were refused.

We do not hold ourselves responsible for the opinions of our Correspondents.

Sherwood.

(From our own Correspondent)

It being some time since you have had any news from here, I take the liberty to send you a few items which may be of interest to some.

We hear a good deal from Grit politicians of depression in business throughout the country, caused by the N. P., but it does not apply to Sherwood, as everything is booming.

Our blacksmith and wagon builder are working day and night, making new outriggers and sleighs. Things also look bright at the store, and the proprietor, having to give up business on account of ill health, is giving great bargains at present.

The young people of this place had a little party to your village on Thursday evening last. Some of the boys got there with their "gals," some without them, and some sat at all, on account of being disappointed in getting their rig. We sympathize with them, but it will be all right, for they say they will have a rig of their own some day.

The Campbellites have been holding so-called gospel services in the M. E. Church here, during the past fortnight, and judging from the speaker, immersion seems to be their gospel. On Sunday evening he defied any one present to show, in the whole Bible, one instance of saving by faith without immersion. I will not attempt to quote passages this time, for they are too numerous, all through Christ's teachings, to give in a communication of this kind. On Friday he gave his hearers an account of God raising up Martin Luther to teach the doctrine of justification by faith, Calvin to teach predestination, and then Wesley to teach holiness, and that was as far as God permitted them to go; that the world was not prepared to receive any further teaching, but now they had come forward to teach the whole truth, viz. immersion. Now, the conclusion is that all who ever lived before Campbellite time are lost, or that immersion is not necessary, for if Luther's Calvin's and Wesley's teachings will not save now, it never would, and if it was sufficient until Campbellite time, it is at the present also I fail to read in the True Bible anything about a new Dispensation being ushered in during the 19th century.

In another letter I will try and give you proof, from Scripture, that they are preaching false Doctrines. Yours, &c, JEFF.

TESTON.

(From our own Correspondent)

The Oyster Supper which came off at Mr. Tuggart's Hotel on Thursday night last, 14th inst., was a decided success. Quite a number of the Reform party took an active part in the speaking. The Editor of the Ramsayville Times was the big pusher of the evening. About 125 took supper.

Teston forever! Last Friday quite a commotion was raised in our quiet little town, between the Constable of Hardscrabble and "Shorty, jr.," of this place, over a wood sawing race. The Mayor of Ramsayville bet \$5 against our old "sports" \$5 that the Constable could back-saw two cords of hard wood in less time than "Shorty" could. At 1 o'clock p.m., on the above mentioned day, the start was made, and an agreement was also made to the effect that the Constable was not to use his "Club" in breaking the half-sawn sticks in two, but this agreement was not fulfilled on the Constable's part, for at the sixth or seventh stick he was seen to produce his club, but the bystanders made him conceal it again. After this he began to lose ground, and in 2 hours and ten minutes from start "Shorty" had every stick sawed with the Constable in the rear, with a good half cord. Cheer after cheer went up from the immense crowd that was present. The Lawyer also figured conspicuously in the affair, and was relieved of a few days profits in the boot and shoe business. He "claims" the Constable is not as good a man as he took him to be. The last seen of the Cop was when picking up his saw-horse and saying he was going Ome.

The Sabbath School was re-organized here on Sunday last. Quite a large number of children, together with grown up men and women, were out, and all seemed to be willing to try, and make it interesting and profitable for the young folks.

The Zoo, I am sorry to say, is on its last feet, and is completely broken up. The animals and cages are all going to be sold in a couple of weeks. Of course a great many animals have escaped, but the most profitable ones, such as Jumbo, the Whale, &c., are still here and expected to bring high figures. The cause of the sale is that one evening the keepers being absent, some of the animals got to fighting and scared a few of them so badly that they ran away and never came back.

Ever Yours, SHORTY, SR.

Teston, Feb 20th, 1884.

"I had been for eight months unable to work, and felt as though I would as lief die as live through indigestion and Dyspepsia. I weighed at the time of getting a bottle of McGregor's Speedy Cure, 130 lbs. used 3 bottles, and now weigh 165 lbs. McGREGOR'S SPEEDY CURE has brought me around." So says Wm. F. H. Hamilton, G. to H. Sanderson & Sons, Duiz Store and get a free trial bottle or the regular size for fifty cents and one dollar.

Caution.

We all who are afflicted with a cough or cold to beware of opiates and all medicines that smother and check a cough suddenly, as serious results surely follow. Hagar's Pectoral Balsam loosens and breaks up coughs and cures in a safe and effectual manner.

THE RISK.—The Skating Bink was well attended on Saturday night last, and the ice was good, but the very soft weather during the fore part of this week, prevented it from being open. Jack Frost has again struck the land however, and made the ice in its usual excellent condition, and those wishing for a good skate can be accommodated by going up to the Rink.

NEWSPAPER READERS CAN often and easily do a friendly and encouraging act to publishers, such as many would do cleverly do when it is suggested. When a business advertisement attracts attention and leads to business correspondence or personal intercourse with the advertiser, kindly mention the paper in which you saw it. Such references are often alike encouraging to the Advertiser and the Publisher. "Then seatler seeds of kindness," of this class, dear reader, about a paper too modest to do more than throw out a friendly hint in regard to the matter.

PICTURESQUE CANADA.—Parts 27 & 28 of this work are to hand. The character of the work is well sustained. It will be a splendid book when bound, and we warrant to say that the majority of subscribers will be well pleased that they have laid out their money in so worthy a manner. The parts treat on eastern and central Ontario and southeastern Quebec. The plates in the parts are as follows:—"Buy of Quinte from above Stone Mills"; "Entrance to iron ore Mines, Madoc"; "Madoc and iron ore Mines"; "A view in Belleville"; "Charles street, Belleville"; "Barley Harvest"; "Lake of the mountain, Picton"; "Lake of the Isles, Thousand Islands"; "Kingston from Barriefield"; "Among the Thousand Islands"; "Head of Greavadier and Sport Island and near Alexandria Bay"; "Bottom Pass"; "The River-side, Brockville," etc., etc.

A. O. F. VISIT TO WOODBRIDGE.—A number of the members of Court Richmond A. O. F. Lodge, of this village, drove over to Woodbridge on Friday night last, to attend a concert and supper given by Court Star Lodge, of that place. About one hundred members of the various lodges of Toronto, accompanied by a large number of ladies, arrived by special train at 7:30 p.m. The Concert consisted of vocal and instrumental music, readings, etc., and was highly appreciated by the large crowd present. After the Concert, the visitors adjourned to the Commercial Hotel, where supper was served in first-class style, for which mine host, Mr. Gilmour, is particularly noted. After doing ample justice to the good things provided, short addresses were delivered by several of the Toronto brethren, who urged the necessity of every man enjoying good health, connecting themselves with some benefit Society, such as the Forerunners, also the good financial standing that body now holds, and the large increase of members every year. The visitors left for home about 1:30 a.m.; all seemingly well pleased with the evening's enjoyment.

LEAP YEAR PARTY.—The young ladies and gentlemen in Markham intend having a grand leap year Party, in the Town Hall, in that place, on Friday evening, 22nd inst. A number of parties of this kind have taken place there during the winter, and each one was successful, but judging from the names of the Committee this one Friday night, will head the list. HOLLOWAY'S OINTMENT AND PILLS.—These remedies are unequalled throughout the world for bad legs, wounds, foul sores and ulcers. Used according to directions given with them there is no wound, bad leg, or ulcerous sore, however obstinate or long standing, but will yield to their healing and curative properties. Many poor sufferers who have been patients in the large hospitals under the care of eminent surgeons, and have derived little or no benefit from their treatment, have been thoroughly cured by Holloway's Ointment and Pills for Granular swellings, tumours, scrovy, and diseases of the skin there is nothing that can be used with so much benefit. In fact, in the worst forms of disease, dependent upon the condition of the blood, these medicines, used conjointly, are irresistible.

(From our own Correspondent)

According to arrangements made at the district meeting held at Brampton in October, the P. M. Church in this village and the C. M. Church Teston will both be one circuit when the union takes place. The good Pastor and some of the members wanted to hold a union quarterly meeting with Teston, and it would have been done, only a good brother, who is a calm and reasonable man, and who would become of the "Collection." If this is done, we are from such narrow-contracted men.

The Little Old Man had a number of years stolen from his promise one night last week. Peas tracked the thieves a good way, but at last got off the scent. S. M. says they were stolen for a wedding dinner. I think some of them would be rather tough for the Little Old Man says one of them was 12 years old.

The incorporation question is steadily moving. The best coach Station in Ontario, is owned by Mr. D. McMillen, of this village. The saw-mill will soon be in running order again and then, everything will hum.

Manhood Suffrage.

We observe that Sir John A. has again introduced his bill for assimilating in all the provinces for the Dominion Parliament. We hope he will see the desirability of an adopting manhood suffrage, coupled with registration and residence. Give a man a vote and you will elevate him in his own estimation—you will make him a better man with a higher appreciation of his manhood. Give him a voice in making the laws of his country and he will more cheerfully obey—he will be a truer patriot, for he will feel that he belongs to a country which has a care for him, wherein his manhood is respected, and he is valued for his moral and intellectual worth, and not for the land he owns, the money he has in the bank, or the amount of his income. Trust the people and give them their rights, and the stability of Government and the safety of the nation will be more fully secured, for there will be then no cause for discontent, Doubt them, and withhold from them their rights, and discontent will be chronic, and if its suppression is attempted by force, it will culminate in revolution and bloodshed. Manhood suffrage will do away with much of the expense that is now incurred by courts of revision on account of the property qualification and will avoid much sweating as to the value of property, which to those who hear it, has all the appearance of jealousy and cannot be otherwise than demoralizing. Give the franchise to all men but those who are imbeciles or criminals, say we.

Mr. Costigan had tendered his resignation in the Ministry for personal reasons, but afterwards decided to withdraw it.

MARKHAM.

A report is in circulation that one of our hot-keepers intends introducing a billiard table into his house. This rumor must be without foundation, as our license commissioners have wisely made it a rule that no liquor license shall be granted to any hotel which has a billiard room in connection.

AGRICULTURAL MEETING.—The directors of the E. K. York Agricultural Society will meet at the Franklin House, Markham, on Tuesday, the 26th inst., at 10 o'clock a.m. The officers of the Markham Township Society are invited to attend. Important matters will be discussed.

MASQUERADE CARNIVAL.—The carnival on the rink Thursday night was well attended. Masqueraders were somewhat scarce, but several very handsome costumes were to be seen. The costume of a young lady from Richmond Hill, dressed to represent Winter, was perhaps the best. The ice was good and the skaters enjoyed themselves to the full.

SIXTY-FIFTH ANNIVERSARY.—At his residence in Vaughan, Mr. Ross, father-in-law of the Rev. J. Camichel, King, recently celebrated the sixty-fifth anniversary of his marriage. He is eighty-seven years old, while Mrs. Ross is in her eighty-first year. Sixty of the relatives, representing three generations, were present to congratulate the venerable couple. Mr. Ross, who was born at Niagara, was the son of a soldier in the famous Queen's Militia Band. He saw service himself having been in a militia regiment during the war of 1812, and was present at the defence of Toronto when attacked by the Americans. When a boy Mr. Ross gathered his washwood where St. James' cathedral now stands, and tread a path on the ground occupied by the Union Station. He has many interesting reminiscences of Madry Little York. Both he and his venerable partner retain all their faculties and are in vigorous health.

Hear Lusk, the distinguished German Liberal, whose sudden death in New York a few weeks ago called forth so many expressions of regret, was struck during his visit to America with the prodigality with which the people of this continent are wasting their magnificent forest resources. Accustomed to the rigid German system of forest preservation, he was amazed at the want of regard for the future interests of the country displayed in reckless destruction of timber in every hand without any effort for its replacement. According to the rule which prevails in Germany, no tree can be destroyed for any purpose unless another is planted to replace it. The book in which and Pennsylvania emphasizes the present necessity for such measures as will stop the destruction before even worse results ensue.
