NOTICE TO SUBSCRIBERS.

The date printed on each paper denotes the time when the subscription expires for the year.

OUR HOLIDAY!

A LARGE CROWD PRESENT.

Saturday last, the Queen's Birthday was a nice cool day, and the Directors of the Richmond Hill & Yonge Street Agricultural Society could hardly have wished for more pleasant weather.

THE ANIMALS SHOWN IN DIFFERENT CLASSES

were quite up to former years, and the Ladies' Work was far superior to anything previously shown, both in quantity and quality.

ON THE WHOLE THE DAY PASSED OFF VERY QUIETLY.

As regards liquor getting the better of those who attended the fair, only one or two that we saw being the worse of indulging in the cup that inebriates.

METHODIST CHURCH.

The Ladies of the Methodist Church were kept very busy all day supplying Dinner and Tea to the many visitors who favored them with a call.

PRESBYTERIAN CHURCH.

The Dinner and Tea supplied by the Ladies of this Church was done in their excellent style, and everything was done by the ladies to accommodate and please all the visitors.

THE CONCERT.

It would be impossible for the most fastidious to give anything, but a favorable criticism of the Grand Concert given in the Methodist Church in the evening, by the Queen Street Methodist Church Choir, of Toronto.

McC...S's Spedy Cure.

From the many remarkable cures wrought by using McC...S's Spedy Cure for Dyspepsia, Indigestion, Constipation and Aneurism of the Liver, and from the immense sale of it without any advertising, we have concluded to place it extensively on the market, so that those who suffer may have a perfect cure.

A Reliable Witness.

R. N. Wheeler, of Everton, speaks highly of Haysard's Pectoral Balsam, having seen its effects in his own case, a severe inflammation of the lungs and distressing cough, was quickly and perfectly cured, which had resisted other treatment.

Industries of Woodbridge.

The Woodbridge Machine Works.

JOHN ABELL, PROPRIETOR.

On the banks of the Humber River, southward, flowing to the great Lake Ontario, in the busy village of Woodbridge, stand the buildings known far and near as the Woodbridge Machine Works.

Established in 1843, thirty-five years have elapsed away into the great past. The first was heard at the Woodbridge Works the clang of the Smith's hammer and since then the sparks as the brawny arm of the clever workman wrought under its ringing bells, the glowing iron into the needed shape.

Not from the outset, but for many years the Works occupied the present site till 1874, the bell fire fiend, made his fiery descent upon them and in a few hours licked them with his tongues of flames from the face of the earth.

With English pluck and Canadian energy Mr Abell at once set about the task of rebuilding, and in an incredibly short space of time he had his new buildings up and equipped ready for the season's work.

Other buildings have since been added, and to-day, the works are very complete, the buildings being about as below:— Main building, 2 stories and attic, 220 x 36 feet. Boiler Shop, 40x60 feet. Foundry, 80x36; Blacksmith Shop, 56x36 feet. Paint Shop and Store-room, 100x36; large Pattern Shop; Dry House and Gas House.

Entering the main building from Pine Street the wood shop is before the visitor occupying the whole flat. Below this are, in the north end the machine shop, in the centre the Engine room, and in the south end the commodious boiler shop containing the magnificent import of English Hydraulic Riveters, two of the best of its kind brought into Canada, and one which does such work as cannot be even approached by hand-rivet, the Workman never so wisely. When it is understood that a pressure of thirty tons is exerted upon the rivet by their powerful machine, it will be no cause for wonder that the boilers of the Abell Portable Engines are ahead of all others made in Canada. A piece of boiler, consisting of two plates and the rivet, cut through the centre of the rivet, after undergoing this enormous pressure, looks like one piece of metal so compact are the joints.

The Foundry and the Blacksmith Shop lie west of the roadway into the Works, and over them are the Paint Shop and a large Store-room through which latter, pass every year thousands of dollars worth of Provincial hardware, but spreads beyond such narrow compass.

The Works are heated by steam and lighted, as is the office, by gas manufactured on the premises. Comfort for the workmen add greater safety for the Works are thus ensured.

A walk through these various shops shows them to be fitted with machinery of a high class and thoroughly adapted to do well the work for which it is designed. With good workmen, such machinery as is here seen, and proper material in every part, it is only natural that excellent manufactures should be produced, and when to these is added the personal supervision of Mr Abell, a practical mechanic of half a century's experience, the super-excellence of his goods is at once accounted for.

We learn that a new catalogue for 1884, is in press and that about June the 1st, it will be issued, containing cuts of the Patent "Triumph" self, the Patent "Victory" Cylinder Compound" Engine, the Abell Patent "Star Burning" Engine, the Patent "Paragon" Separator, the "New Steam Paragon" Separator, the "Woodbridge Champion" Vibrator Separator, the justly celebrated "Victor" Double-Huller Clog Machine, the Heebner Patent Level-Tread Horse-power, and "Little Giant" Thrasher, the Abell Portable Saw-mill and 25 Horse-power Engine as well as many of the Medals won at the Chief Exhibitions of Canada. Every theaberman should send for one. It is a fact worthy of comment that every gold medal offered in Canada for Portable Engine Competition has been won by the Abell Engines and that Mr Abell has in his possession no less than twelve gold medals, (we have seen them) while no other Maker has one at all! He has also five silver medals and six bronze, including one from Sydney, New South Wales.

In 1880 and 1881 there were Scientific Tests held at the Toronto Industrial Exhibition for the purpose of actually testing the various engines shown; and in both these years the Abell Engines were completely victorious, carrying off the palm.

In fact in 1881 there was, as we say, a double test, namely: one for engines at 80 lbs. pressure, and one for engines at over that pressure. In the latter case the "Compound" won the first place, and in the former the "Triumph" in the slang of to-day, "took the cake." As to the question of economy in fuel, the "Triumph" Engine proved itself, giving out 10 horse-power, to save 140, 211, 514 and 617 pounds of wood in a day of 10 hours over its four competitors.

In 1881, the official Report of the Test showed the 10 horse-power, "Triumph," giving out 14 1/2 horse-power, to save 288, 359 and 938 pounds of wood, in a day of 10 hours over its three competitors. Grati-fied have been the report of the Engineer of the Toronto Industrial Exhibition in 1881, wherein he said:—"The boilers made by John Abell, Esq., rank first in both classes."

Mr. Abell was the first man to build Portable Engines for threshing purposes in Canada, and we think he has proved conclusively his ability to maintain the position of leader which he then fairly earned. He was also the first to introduce straw-carries on a threshing machine, and has for many years had the satisfaction of seeing his threshers passed by none, kept though competition has been in that line of manufacture.

The Level-tread power machines are made chiefly for the New Brunswick market although a few are used in the Eastern part of Ontario.

The "Victor" Double-Huller Clover machine is built in the United States by the Newark Machine Co. of Newark, Ohio, and has been both the sale right to manufacture in Canada. The Newark Co. built over 700 of these machines last year, and calculate on an out-put of 1000 this season. To show the faith they have in their Huller we copy, with Mr. Abell's permission, the first clause of the Newark Machine Co's warranty for the "Victor. It is as follows:—"We warrant our VICTOR HULLERS to be well made and well finished with good material, and against all breaks from defects in material and construction, for one season; and to stem, hull and clean us much clover seed in the same length of time, and under the same circumstances, as any other machine in the world, placed in the hands of a competent operator; and to be the most simple and easiest machine to run being built."

Sweeping, ain't it? It is a pity that last season's clover crop in Ontario was, for purposes of seed, such a utter failure. If the seed had been so efficient, like the promise of the sower, there would have been a regular boom in the Clover Huller biz.

Before closing our remarks on the Wood-bridge Machine Works and their famous manufactures we must not omit to mention that the Portable Engines are furnished with a spark arrester of Mr. Abell's invention. It is called the Patent "Double Seal Water Spark Extinguisher" and performs its work so efficiently that the Abell Engines are licensed by the leading Insurance Companies to run as near as twenty feet to barns and stacks.

For the satisfaction of our readers we append a list of the gold medals won by Mr. Abell, who is of our premier County of York, at the leading Exhibitions of the Dominion, for his Engines. Among 25 First Prizes awarded the Abell Engines are 12 gold medals, namely:— three awarded at the Provincial Exhibition, 1877; the Provincial Exhibition, Toronto, 1878; the western Fair, London, 1878; the Dominion Exhibition, Ottawa, 1879; Two at the Industrial Exhibition, Toronto, 1879; the Toronto Industrial Exhibition, 1880; the Toronto Industrial Exhibition, 1881; the Toronto Industrial Exhibition, 1882; the Toronto Industrial Exhibition, Kingston, 1882; and the Provincial Exhibition, Quebec, 1882.

Such a record is unique, and we congratulate the Province of Ontario, the County of York, the village of Woodbridge, and Mr. Abell upon his glittering splendor.

UNIONVILLE.

(From an Occasional Correspondent.)

GRAND LACROSSE TOURNAMENT.

A grand Lacrosse Tournament took place here on the Queen's Birthday, the following teams competing for the beautiful Silver Cup valued at \$20.—Checkers, of Beaverton; Markham, of Markham; Young Canadians, of Richmond Hill and Unionville of Unionville. After some delay the Young Canadians and Unionville Club faced each other on the field. Each Club was manned by its respective Captain, and the game started at 11 a.m. After some fine throwing and admirably fine checking and dodging by each side, game was scored by Pugsley making a fine throw through the Unionville goal, scoring the first game for the Young Canadians. Time two minutes.

The men fled again into position, and immediately on the face of Powell secured the ball, made a good run, and sent it through the Unionville flags, thus scoring the second game for Richmond Hill in 15 seconds. Thus ended the match as it was decided that the Club winning 2 games out of 3 should be considered the victors. It is only fair to add that the Unionville boys are only beginners, but for all that they show the making of a fine team, with practice.

The second match was between Markham and Beaverton. The ball was fired at 12.40, Beaverton senting the ball, and after some good play sent it through the Markham goal. Time 3 minutes.

After a short time for rest, both Clubs went to work in good earnest, and some fine play on each side was noticeable, the ball flying from end to end in splendid style. The Checkers secured the ball, and after some severe playing another game was won for Beaverton. Time 30 minutes. After a lapse of 45 minutes, the Beaverton and Richmond Hill Clubs went to work, and it was quickly seen that the Beaverton team had the advantage both in size and weight. The Young Canadians, though like midgets beside their opponents, showed good pluck, and kept the ball rapidly moving over the field, but it was, however, secured by one of the Checkers, and sent between the flags after an hour's play.

A short lapse ensued, after which the rubber was again flying around the grounds, the Young Canadians making it very warm for their opponents, but the ball again got in the vicinity of the flags, and was quickly tapped through by the Checkers, in 1 hour and 20 minutes, thus winning the cup. The people of our village, are of the opinion that the Young Canadians can defeat the Beaverton team, and are anxious to see them again meet on better and fairer ground.

Unionville, May 26th, 1884.

LOCAL ITEMS.

OUR Woodbridge and Teston Correspondence will be found on the third page.

Now is the time to get a supply of Cotton—Cheaper than ever—at The Cheap Cash House.

REMEMBER the Court of Revision to-morrow (Friday) in the Council Chamber, at 2 o'clock, p.m.

THE CHEAP CASH HOUSE is noted for Newest Styles in Hats, Ties, Gloves, etc.—Sneath & Grennan.

MET.—The Vaughan Township Council met on Tuesday last. The minutes will appear in our next issue.

FOR THE best value in Tea, Sugar and other Groceries The Cheap Cash House takes the lead.—Sneath & Grennan.

LECTURE.—Next Sunday evening, Rev. Father Egan will give a lecture in the R. C. Church, in this village, at 7 o'clock p.m. The choir will give vespers.

FOR SALE.—Mr. A. Arnold, of Thornhill, has a valuable Dark Bay Blood Horse, two years old, for sale. The same animal took the 1st prize at the Spring Exhibition, held here on the 24th. See advertisement.

A. F. & A. M.—Richmond Lodge No. 23, A. F. & A. M. will meet in their lodge room, Masonic Hall, in this village, on Monday evening next, June 2nd, at 8 p.m. Election of officers and other important business will take place.

CONFIRMATION.—His Grace Archbishop Lynch, will be in Thornhill on Thursday, June 5th, to administer the Sacrament of Confirmation. The ceremony will commence in St. Luke's Church at 10 o'clock a.m.

ICE CREAM.—Messrs Brown, Savage and Pogue have opened out their Ice Cream Parlors for the coming season, and almost every evening you can see them well filled with the youth and beauty of the village, who hanker after this delicious mixture.

MASS MEETING.—The mass meeting advertised to be held in the Temperance Hall, Monday evening last, in this village, for the purpose of hearing about the Scott Act, was very thinly attended, in consequence of meetings being held in other places. It was therefore thought advisable to postpone the meeting until next Monday evening, and moved by Mr. J. H. Sanderson seconded by Mr. Wm Harrison, "that the meeting adjourn till Monday evening, 2nd of June, and that notice be given in the Churches on Sunday to that effect." The motion being put before the meeting was declared carried.

SAD ACCIDENT.—A sad accident happened on the farm of Mr George Reddit, just north of the village, on Saturday morning last, about 11 o'clock, whereby a promising young man, brother to the owner of the farm by the name of Thomas H. Reddit, in the sixteenth year of his age, met with a sudden death. There was no one present with him at the time, but it appears he was rolling land when the team of horses must have backed up causing him to fall backwards, the roller consequently going over him, and crushing the young life out of him almost instantly. He was buried on Monday last, in Aurora at 2 p.m. The sympathy of the community is with the friends of the deceased.

WOOL.—The patronage of the farming community is respectfully solicited at the Humber Valley Woollen Mills, where they may have their wool manufactured in its purity into any style they may desire. Messrs Abell, Collins & Smith have purchased from Messrs Keys & Hallett, the Woodbridge Mills, with the intention of establishing a permanent business, and trust that the wool growers of the surrounding country will give them a liberal support. Every kind of woollen goods manufactured, and all warranted to be first-class. Now, while the price of wool is low in the markets, is the time to have it made up for home use and realize its full value. See my advertisement.

HOLLOWAY'S OINTMENT.—Sores, Wounds, Ulcerations, and other diseases affecting the skin, are capable of speedy amendment by this cooling and healing unguent, which has called forth the loudest praise from persons who had suffered for years from bad legs, abscesses, and chronic ulcers, after every hope of cure had long passed away. None but those who have experienced the soothing effect of this Ointment can form an idea of the comfort it bestows by restraining inflammation and allaying pain. Whenever Holloway's Ointment has been once used it has established its own worth, and has again been eagerly sought for as the easiest and safest remedy for all ulcerous complaints. In neuralgia, rheumatism and gout, the same application, properly used, gives wonderful relief.

Spring Cleaning. Every good housewife will renovate the entire house at least every Spring and Fall. Our systems often need renovating also. It is better to make pure and there is nothing better to make pure and stronger than Burdock Blood Bitters, preventing diseases incidental to the season's changes.

GOLD for the working class. Send 10 cents for postage, and we will mail you Free a royal, valuable box of sample goods that will put you in the way of making more money in a few days than you could possibly at any business. Capital not required. We will start you. You can work all the time in your own time. The work is universally adapted to both sexes, young and old. You can easily earn from 10 cents to \$5 every evening. That all who want more may test the business, we make this unparalleled offer: to all who are not well satisfied we will send \$1 to pay for the trouble of writing us. Full particulars, directions, sent free. Fortunes will be made by those who give their whole time to the work. Great success absolutely sure. Don't delay. Start now. Address BRISSEAU & Co, Portland Maine.

Rest And Comfort To The Suffering. BROWN'S HOUSEHOLD PANACEA is no equal for relieving pain, both internal and external. It cures Pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache, Lumbago and any kind of a Pain or Ache. It will most surely quieten the Blood and Heat, as its acting power is wonderful. Brown's Household Panacea, being so well known at the great Fair Bazaar, and of double the strength of any other Elixir or Linctus in the world, should be in every family ready for use when wanted. As it really is the best remedy in the world for Croup in the stomach, and Croup in the lungs, and as it is sold at 25 cents a bottle.

A Painful Occurrence.

Some of the most painful sufferings that afflict mortals occur from rheumatism. Either the acute or chronic form may be eradicated from the blood by an early use of the grand purifying system renovator, Burdock Blood Bitters.

A Victim of Missplaced Confidence.

The individual who places trust in many of the claims of advertised remedies is often sadly disappointed, but the array of facts regarding the honest virtues of Burdock Blood Bitters are indisputable. It positively cures diseases of the blood, liver and kidneys. Investigate the proofs and testimonials.

A Bad Infirmity.

The loss of the sense of hearing is both annoying and dangerous. Those suffering from deafness should try Haysard's Yellow Oil according to directions. This invaluable household remedy cured John Clark, of Millbridge, Ontario, restoring his hearing in one week.

ADVICE TO MOTHERS.
