THURSDAY, AUGUST 14, 1884.

NOTICE TO SUBSCRIBERS.

The date printed on each paper denotes the time when the subscription expires.

We do not hold ourselves responsible for the opinions of our Correspondents.

Bureau of Industries.

The report of the Bureau of Industries for August gives a cheering account of the wheat crop of the Province.

The fall wheat appears to have made steady improvement throughout the season, and in localities where it was regarded as hardly worth saving in May, good harvests have been reaped.

The moderately cool weather and occasional rain-showers favored continuous growth and healthy maturity, and the grain is an excellent sample, being plump, hard and bright.

In a few localities it was attacked by the midge and weevil, but the extent of injury by these pests is not appreciable on an aggregate crop.

Reaping began in the south-western counties of the Province about the middle of July, and by the 1st of August the bulk of the crop was cut and much of it safely housed.

The harvest weather being very favorable, the grain has been gathered it first-rate condition.

Accounts of the spring wheat are equally good, excepting for the northern and north-eastern countries, where its growth was checked by the drought of June.

But even in these districts it promises a fair yield, while in the Lake Ontario, West Middleand, Georgian Bay and Lake Huron counties it is reported to be better than for many years.

It will be fully ripe about the middle of the month, and with a concurrence of the present weather the quality will at least equal that of the fall wheat.

The following table gives the area and production of the crops of this year and last year—the production of the present harvest being based on the estimates of 1,150 correspondents:—

Table with columns for 1884 and 1883, and rows for Acres Bushels and Fall Wheat.

The bad harvest of fall wheat last year and the comparatively good harvest of spring wheat account for the decreased area of the one crop and the increased area of the other this year.

Reports received by the Manitoba department of agriculture show that farmers are beginning to turn their attention to cattle raising in a very marked degree and the numbers will be greatly increased from year to year.

From all that can be gathered a great many calves are being reared this season by all who can at all do so.

Dairy farming is carried on as largely as the means of farmers will permit. All the butter that can be made is made and the supply is largely in excess of the consumption in the great majority of townships.

It is doubtful, the report says, if any other part of the Dominion is more favorable for dairy farming than this country.

In some of the older provinces the making season for butter and cheese may be longer, but then drouth frequently prevails, and the partial failure of the pastures results in a corresponding failure of the supply of milk.

In Manitoba, on the other hand, dried up pastures are the exception, the grass possesses the most nourishing qualities, and the rainfall is generally abundant and very evenly distributed.

The Greely Expedition.

Another chapter has been added to the eventful history of adventure and discovery in the Arctic Seas. A short time since the Telegraph informed us that Capt Schley had effected the rescue of survivors of the Greely expedition.

The expedition was sent into the Arctic regions under the command of Lieut A W Greely, being part of the plan adopted by the International Geographical Congress at Hamburg, in 1879, for the establishment of a series of circum-polar stations for scientific observations.

The American expedition was under the command of Greely, and the station he was selected to occupy was the most Northernly and difficult of access of the whole series of stations.

In a little while after Greely was appointed to the command, the Proteus, a stout vessel previously in use in Arctic navigation and chartered at St. John's was named, and on 6th of July, after a remarkably quick passage, reached Lady Franklin Bay, and on August 11th, Discovery Harbor.

On the 18th of August, the Proteus left the party to pursue their investigations, and returned home.

Arrangements had been made before the departure of the expedition that in the summers of 1882 and 1883, other expeditions should be sent out to replenish stores of the Colony and to offer relief if any occasion for it had in the meantime arisen.

The relief expedition of 1882, sailed on the steamer "Albatross" from St. John's on June 26th. The season being unfavorable for Arctic navigation, she landed stores at Littleton Island and Cape Sabine, and returned home.

Alarm began to be felt for the safety of the expedition, and again early in 1883, men were selected to be sent out as a relieving party.

The Proteus and the Yantic were sent out to give all possible assistance. The Proteus was wrecked in an ice-pack, and the Yantic was, after a variety of mishaps, obliged to return with the relief party without having accomplished the object of their mission.

No relief had thus been afforded Greely in two years, and it began to be a matter of doubt that he could make a successful retreat not finding the expected supplies.

The relief was accomplished by the good ship "Bear" which sailed from Brooklyn Navy Yard, on the 24th of April last, and she was followed by the "Alert" and "Thetis."

How successful the expedition was we all know in rescuing the survivors of the Greely expedition.

Another Bank Failure.

Another bank owing to the irregularities of its cashier, has been forced to close its doors. It is a State Bank, and it appears when the last annual statement was issued, it had a capital of \$500,000, a surplus of \$66,000 and undivided profits of \$47,000.

The capital stock will probably be swept away. The depositors it is said will eventually be paid in full. The cashier's shortage amounts to \$200,000, and the Bank has \$50,000 of bad debts.

Soon after the announcement of the suspension a great crowd gathered around the Bank, but nobody was able to get inside. Policemen had to be placed on guard.

Some of the Directors, on Saturday night and Sunday, made a thorough examination of the Bank's affairs, and decided in justice to all parties not to open the institution at present.

The result of the examinations was, deposits, \$1,250,000; Call loans, \$1,100,000; good business paper, \$350,000; cash on hand, \$185,000.

The cashier has been lending money too freely on insufficient margins. It is estimated that the loss will be in the neighborhood of \$200,000. It is said that the depositors will be paid in full, and part of the capital stock will remain.

"Irregularities" is a nice word in regard to cashiers of Banks. Stealing is altogether too common, and it does not sound so nice. If some poor fellow happens to make a mistake never mind through what adversity brought about.

There is no cheseparing about terms with which to call his shortcomings, but Bank cashiers who go into the hundreds of thousands are treated with every consideration. More especially, if they only can manage to reach as far as Montreal, they and their families are admitted into first circles, and treated with marked respect in consequence of the irregularities and the fruits of the same that they happen to bring with them.

FLUID LIGHTNING.

Is the only instantaneous relief for Neuralgia, Headache, Toothache, etc. Rubbing a few drops briskly is all that is needed. No taking noxious medicines for weeks, but one minute's application removes all pain and will prove the great value of Fluid Lightning. Twenty-five cents per bottle at H. Sanderson & Sons' Drug Store.

RESCUED FROM DROWNING.

While the Annie Craig was on one of her Humber trips Saturday afternoon, Capt. Jennings noticed a man clinging to an upturned boat about a mile out from the exhibition grounds.

The captain changed the steamer's course and put out to the rescue, and it is safe to say that the trim little craft never made faster time than she did on this occasion.

The spot being reached, Capt. Jennings lowered a boat and he and his mate, Thos. Luddy, pulled out to the nearly exhausted man, whom they hoisted in and then took on board. He proved to be Mr. Best, of Cooch-Howell street, and was naturally very thankful to the gentlemen who had saved him from a watery grave.

The rescue was witnessed by a party of marks-men from Garrison common, and told a World reporter that it was one of the quickest and best managed saving expeditions on record.

Capt. Jennings and his mate are good candidates for a royal humane society medal.

MARBLE—Since the advent into Beeton of Mr. W. R. Gray, he has been doing a good business in monuments, &c. Last week he sold to Mr. John Palmer, of Richmond Hill, a monument at \$200, which is erected by Mr. Palmer in memory of his mother.

Mr. Gray is in search of more commodious premises in which to prosecute his rapidly extending business. *Bottom

TORONTO LETTER.

TERREBY FARM A BY-GONE AFFAIR.—COUNTY BUILDINGS' SITE.—OTHER MATTER.

Toronto city news is extremely dull just now, owing of course to the season of the year, and everybody who can possibly afford it spending their vacation in the rural districts or at the watering places.

But, I venture to send you some matter this week, Mr. Editor, which I believe will interest your many readers at the Metropolitan Council, of which you form a part, are numerous farms made up of wheat growing and stock-raising to help feed the myriads of people of the world.

But Toronto people have of late been learning of another addition to the noble and healthful calling of farming, namely, (a baby farm), where children of a few months old are supposed to be cared for and trained as though they were under the immediate protection of their mother.

It seems, however, according to certain matters just brought to light, that the baby farm not a thousand miles from Toronto, has not been conducted as intended, and the children were not looked after as they should be, and the consequence is the party receiving the children for adoption has been arrested, tried in the police court, and ordered to appear at the Ball Astoria on a charge of manslaughter.

It is interesting to note, in this connection, that the Metropolitan Council, in its opinion of the presiding magistrate that one little "Johnnie" died from the want of proper attention. And that's what our baby farming has ended in. But who knows, there may be others following the same occupation in Toronto?

THE METROPOLITAN CHURCH is having an addition put to its Sunday School room. It has several times occurred to my mind that no more suitable place could be found in the city than the Metropolitan block for a Court House and City Hall site. It is generally supposed, I run of that the Metropolitan Church is a majority of them at least—reside more in the northern part, and the city is growing in that direction considerably.

When the Metropolitan was built where it now stands, it was thought to be convenient for its worshippers, but so many citizens living out of the bustle of business renders matters somewhat different. No doubt the Square could be purchased reasonably and being an elegant site for the purpose, the City and County Councils would do well in making a bid for it. But in regard to the first sentence of this handsome building, the large and increasing Sabbath School demand more room, and the addition now being made will greatly aid Superintendent and teachers in their desired aim of training the young for good living. Well, the time for holding the annual

INDUSTRIAL EXHIBITION will soon be around again. Everybody has an idea of what the Semi-Centennial Exhibition was like, taking all round very fine and grand, and the management promises that the coming Semi Centennial Year Industrial Exhibition will be the finest ever held in the city. But we shall have more to say on this matter in a future issue.

Next Monday will be TORONTO'S CIVIC HOLIDAY. The number of attractions for the citizens to spend the day are very numerous, and should the day be fine, the last general holiday this summer will be greatly enjoyed.

On Saturday last the LACROSSE MATCH on the Bloor Street grounds between the Shamrocks of Montreal, and the Torontos was very exciting. There was hardly a vacant space on the spectators stand, and although bets were freely made in favor of the Torontos they lost by three straight games. The Torontos will certainly have to be on the alert or they will lose all the honors they ever gained.

THE SALVATION ARMY. The readers of the HERALD have, times without number, heard of the people the Salvation Army has caused considerable excitement in Canada, and no admirer of pluck and courage can fail to have been struck with their determination to carry out their intentions at all hazards. They have many admirers and many persecutors, the law in some instances having taken hold of them, and endeavored to drag the very life out of them, but amidst this, together with many harsh expressions from people who wish to object to their idea of conducting religion, they go on gaining strength in worshippers. In Toronto their regular meetings draw immense crowds, and instead of the Army becoming an institution of a nine-days wonder, they bid fair to become one of the wealthiest, most important and influential organizations in the city.

It is stated that they shortly intend building a new headquarters, and will contain a larger number of people than any other building in the city. In their present style of conducting religious meetings, they will in time improve, and gathering together as they are, additions of people in nearly every town in Canada, they bid fair to accomplish a large amount of work it seems impossible for the Churches to touch. It may be said of a truth, "they are the right people in the right place."

THE CROPS. The crop yield, according to the latest reports of the Bureau of Industries, is most satisfactory. The farmer's desire, that a big yield of crops, as does all the people of all callings in life other than the agriculturalist, to the farmer it means a fruitful return for his labor; to the merchant and trader it denotes financial gain and prosperity; and to the artisan, as to everybody else, it speaks of good enough and to spare in the land. And it is still gratifying to know that the adjoining Provinces of Manitoba and Quebec (despite the recent rains they have had in the latter Province) enjoy every indication of an abundant supply of root crops, and a rich harvest. All this is certainly very encouraging, and should, as no doubt it will, give to merchants and others in our cities and towns vigor for the difficulties many of them have had to encounter in Canada has had good fortune of prosperity and no person has the least desire to see the fair Dominion get into a degenerate state by financial difficulties and general depression. If the reports from farmers we hear be correct, and if the report of the Government is at all to be relied on, we may look for an excellent business time this fall, and prosperity still hold her own in the Dominion. So may it be.

Toronto, August 12th, 1884.

\$5000 Reward.

For any Testimonials recommending McGregor's Speedy Cure for Dyspepsia, Indigestion, Costiveness, Headache, etc., that are not genuine; none of which are from persons in the states or thousands of miles away, but from persons in and round Hamilton, Ont. We give trial bottles free of cost, so that you cannot be deceived by purchasing a worthless article, but know its value before you purchase. Trial bottles and testimonials given free at H. Sanderson & Son's Drug Store.

Send for the working class. Send to cents for postage, and we will mail you Free, a royal, valuable box of sample goods that money in a few days. The way of making money is a few days. Capital not required. We will accept of any order, when the time or in spare time only. The work is universally adapted to both sexes, young and old. You can earn from 50 cents to \$1.00 per week. That all who want work may test the business, we make this unparalleled offer to all who are well satisfied with the result. To pay for the trouble of writing us. Full particulars, directions, and a list of agents, will be made by those who give their whole time to it. Don't delay. Write for particulars to H. HALLERT & Co., Portland, Maine.

Richmond Hill Wants a Park.

A public meeting, in accordance with a largely signed requisition, was held in Lorne Hall on Tuesday evening last.

On motion the Reeve, Mr. J. Brown, was called to the chair and Mr Keefer requested to act as Secretary.

Mr Brown in taking the chair, felt that the object of the meeting was well known and that it was not necessary for him to occupy the time of the meeting in discussing the question. He read the requisition.

Mr Lawrence thought it was necessary to move a series of resolutions. 1st—Whether we should have a park; 2nd—The location and 3rd—To ask the Council to pass a By-Law to purchase the same.

Moved by J M Lawrence, seconded by P G Savage, that in the opinion of this meeting a Public Park is desirable for Richmond Hill, if the same can be obtained at a reasonable price and in a suitable location.—Carried.

Mr McMahon thought some reasons should be given for buying. Mr Boyle expressed his views and thought some information should be given to the meeting, before action was taken in the matter.

The Reeve thought the park should be in the hands of the corporation. He preferred this to a private company. Mr Hopkins and others thought that five acres was all that was required.

Mr Harrison said that he signed the requisition, but that through some mistake his name did not appear. He was in favor of having a park, and had been advocating the same for years. He thought for present purposes, the property lately belonging to the Davidson estate was a desirable place.

Mr Lawrence said that Mr Atkinson was willing to sell the property he had for either \$500 or \$650.

Mr Skeels thought it would be better to appoint a committee to look around the village and see what lot could be got, and let the committee report the same.

Mr Palmer said that 17 acres could be bought for \$100 an acre, and he thought it better to purchase it. The one mentioned he thought would not be much better than the one now used.

Moved by Mr McConaghy, seconded by Mr B. Redditt, that Messrs. Lawrence, Savage, Pugsley, Brown and Skeels be a committee to ascertain upon what terms a suitable lot could be obtained, and report to a meeting this night week.—Carried.

The meeting then adjourned, to meet at the same hour and place on Tuesday evening next, 19th inst.

No Vacancy in West York.

To the Editor of the Herald. Sir,—In your issue of last week, I notice a paragraph to the effect that I had received a militia appointment, and that West York was about to be vacated. Having redeemed West York, I purpose holding it for my party, and having regard to the prosperity of my country, I deem it advisable to remain at my post, and fight the organized hydra at present in power.

Recent events must have made it plain to every honest man in Ontario, that all the bribery, recent treachery and rascality in the Local House was on the side of the Government and their supporters. The Opposition, to their credit be it said, stand before the public as upright honest and honorable men, who will be in a position to meet their supporters without a spot of stain upon their character, and may confidently appeal to and receive increased support from the Electors.

I am, Sir, Yours very truly, JOHN GRAY, Parkdale, Aug. 11th, 1884.

Can Deafness Be Cured?

Mr John Clark, of Millbridge, Ont., declares it can, and that Hagar's Yellow Oil is the remedy that cured him. It is also a specific for all inflammation and pain.

Personals.

Miss Gertrude Harris, of Niagara, is on a visit to her parents in this village. Mrs Scott, of Harris is on a short visit to relatives in the neighborhood. Mrs. Moore, of Montreal, is in the village at present, visiting relatives and friends.

Mr. Murphy, of North Toronto, is spending a few days visiting at Mr. Geo. Newberry's. Rev. Father Teofy, of St. Michael's College, Toronto, was up on a short visit to friends here this week.

Mr. Wm. Hopper, of Lansing, Mich., is at present visiting relatives in this village, and is the guest of Mr. Robt. Hopper. Messrs H. Wiley and R. Durham, of Toronto, are spending their days with relatives and friends in the village.

Mr. John Powell, of this village, and her sister Mrs Metcalf, of Patterson, left on Saturday last for a few weeks' visit to relatives and friends in Morrisburg.

Mr. Joseph Hall, successor to Mr. John Brown, has arrived in the village, and will take possession of the Ontario House on Monday morning next. Success to him.

Mr. John McBride, Head Master of our High School, was in town for a short time last week, and was in town on Saturday evening for Owen Sound, Arnott and other places for the remainder of the holidays.

The Rev. Mr. Rose, of Manchester, England, preached in the Presbyterian Church here on Sunday last morning, and owing to a large congregation on each occasion. We understand that he will accept of a call to either here or at Elira. He preached with great acceptance.

Woman's Weakness. Much of the weary weakness peculiar to females is caused by irregularities that can be promptly remedied with that Excellent Regulating Tonic, Burdock Blood Purifiers.

Heads the List.

Richmond Hill heads the list in the County High Schools at the recent Educational Examinations for non-Professional Second-Class Certificates:—RICHMOND HILL.—E Miller, grade A; J S Gray, grade B; F McConaghy, grade B; F E Grant, grade A; J E Tyndall, grade B.

WESTON.—J B Kaiser, Grade A; NEWMARKET.—W Lloyd, grade B; R E Lewis, grade B.

Send for the working class. Send to cents for postage, and we will mail you Free, a royal, valuable box of sample goods that money in a few days. The way of making money is a few days. Capital not required. We will accept of any order, when the time or in spare time only. The work is universally adapted to both sexes, young and old. You can earn from 50 cents to \$1.00 per week. That all who want work may test the business, we make this unparalleled offer to all who are well satisfied with the result. To pay for the trouble of writing us. Full particulars, directions, and a list of agents, will be made by those who give their whole time to it. Don't delay. Write for particulars to H. HALLERT & Co., Portland, Maine.

LOCAL ITEMS.

CHURCH Hymn Books for sale at the HERALD Book Store.

WE HAVE to now receipt of a copy of the Statutes of Ontario, for 1884, for which we beg to tender thanks.

ST. MARY'S.—Service will be held in St. Mary's Episcopal Church, in this village, on Sunday next at 11 a.m.

MEETING.—The semi-monthly meeting of the Fire Brigade, will be held in the Council Chamber on Friday evening next, 15th inst.

LACROSSE and other Balls; Cretonne and Java Canvas, Tinsel, etc., etc., in endless variety at the HERALD Book Store. Call and see the large and well selected stock.

NEW SCALES.—The enterprising landlord of the Dominion House, in this village, Mr B Brillinger, is erecting a new weigh scale in front of his premises. They are called Rean's portable weigh bridge, and manufactured at Mount Albert. These scales are considered to be the best and most simple that are now in the market. Mr J Kinnee, of Teston, is the agent for this section.

RECEPTION SERVICE.—A public reception service will be conducted in the Methodist Church, in this village, next Sunday morning, 17th inst., when about fifty persons who were received on trial at the close of the special services last winter, will be admitted into full membership with the Church. Several adults will be baptized. An appropriate sermon will be preached by the pastor, Rev. W. R. Barker.

TREES.—Mr. R. W. Phipps recommends the silver poplar as the best tree for giving all round results. It is, he says, easily propagated, and of very rapid growth. Within twenty years after planting it often produces trees of sixty or seventy feet in height, sixty feet in spread, and with a trunk more than three feet through at the base. One such tree, to Mr. Phipps knowledge, lately yielded four cords of firewood. When sawn and polished it is of a handsome light yellow color, with a beautiful waving grain.

TORONTO CIVIC HOLIDAY.—Monday next, 18th inst., is Toronto's Civic Holiday, and dozens of excursions and other ways are offered to the citizens for spending a pleasant day. The Young Canadian Lacrosse Club, of this village, have made an offer to play the 2nd twelve of the Torontos, in the city on that day, but they do not intend to accept, on account of having other matches to play about the same date. Has Richmond Hill decided not to have a Civic Holiday? The time is it hand, if they intend doing anything.

LEG BROKEN.—On Friday evening last, Mr. James Gregg, of Patterson, came to this village, accompanied by his little boy, for the purpose of seeing the Lacrosse Club have a practice game. Shortly after the play had commenced, two of the players, Messrs. Derry and Powell, were having a close dash up the field for the ball, and Mr Gregg, thinking his little boy would get hurt made an effort to save him, and just as he had lifted the child from the ground the players accidentally struck him on the breast, knocking him with full force on his side, and breaking his left leg below the knee. The break was very painful. Dr Wilson was immediately summoned, and set the limb in a careful manner. The affair was purely accidental, and no person is blamed. Mr Gregg is doing as well as can be expected under the skillful care of Dr Wilson, although the pain is somewhat severe, and we trust soon to hear of his recovery.

MEAN ACT.—It seems to be the habit of a large number of parties who frequently pay visits to the burial-ground in this village, to deprive the graves of flowers that have been planted thereon, and also to boquets which decorate them during the warm summer days. We have been requested to speak about this annoyance, and trust that one notice will have the desired effect. If parties who so often frequent the cemetery, have the slightest respect for themselves, they would not be guilty of doing such a mean and contemptible act, as to rob the graves of beautiful flowers that have been planted there, in memory of those who have gone before and "passed over the valley of the shadow of death," by sorrowing relatives and friends, who indicate by placing these mementos there, that the name of the departed is ever near and dear to them. It is very pleasant for parties (especially children) to take a walk through the cemetery, but this can surely be done without stealing the flowers from off the graves.

CHAMPIONSHIP LACROSSE MATCH.—The first Championship Lacrosse Match ever played in this village, will take place on the fair grounds to-morrow (Friday) afternoon, 15th inst., between the Excelsior Club, of Brampton, and the Young Canadians (Champions) of this village. The match will be for the Western District Championship Medal for Ontario, and the excitement which it is creating both here and in Brampton, is something beyond limit. All parties are invited to witness this game, as it is expected to be the most interesting match ever played in Richmond Hill. The Brampton people intend running an excursion, comprising between two and three hundred, and we may indeed anticipate a big day. Considerable money has already been put up on the result of the game, with the Y. C's a little in the favor. The following are the names and position of the players that will represent the Young Canadians, and who will struggle earnestly and manfully to keep the medal in Richmond Hill:—Goal, J McConaghy; Point Defence, W E Wiley; Cover Point, Tefonung, W Mager; Defence Field, T. Young, J Piper, C Skeels; Home Field, G Derry, B Brown, A Pugsley; Cover Point Home, S S Seale; Point Home, C Savage. The ball will be faced at 2.30 p.m. A Grand Stand will be erected for the accommodation of spectators. Admission to grounds 15 cents.

LOCAL ITEMS.

MISS CAMPBELL will resume her classes in music after the 1st of Sept. See advertisement.

DESTROYING WEEDS.—It is a good time now to go over the pastures, to see that no foul weeds that will flavor milk or poison cows are creeping into them. At this season of the year, when drouth is apt to shorten the grass supply, cattle will eat weeds that they would avoid at other times. Cheese and butter are often injured and cows sicken and dry in their milk, when eating in July and August some noxious weeds as wild carrot poison, hemlock, wild cherry, lobelia, ragweed, Mayweed, and the like, occasioning many times more loss than the labor of exterminating them.

ACCIDENT.—We have been informed that a serious accident happened to a young man who was working at Mr. Jonathan Brillinger on Lot 21, 2nd Con of Markham. On Monday afternoon last, Francis Bice was standing with his back to the threshing machine and whilst so doing, his smock was caught by the bolt of the tumbling shaft which wound his clothes so that he was taken once around by the machine before it was stopped. The upper part of his clothing being torn in fragments, his arms bruised, and a cut on the back of his head. Doctor Lewis Langstaff was sent for, when he was removed to Mr. Fred Elliott's where he is being well taken care of. It will be three or four weeks before he will be able to do any work. The accident might have been more serious, and it only shows how careful every one should be who has anything to do with machinery.

HOLLOWAY'S PILLS.—Sudden transitions from heat to cold, or from raw inclement weather to oppressive climates, favor the development of manifold diseases, which may in many instances be checked and removed abortive by an early resort to these purifying, regulating and strengthening Pills. This well-known and highly esteemed medicine affords a safe and easy remedy for almost every constitutional wrong which unhealthy climates, rapid changes, or dietetic errors, can engender, and effectually removes any weakness self-indulgent habits may have induced. In all conditions of the system bordering on disease such as are indicated by apathy, listlessness, and restlessness, Holloway's Pills will prove especially serviceable in beguiling the vivacity of mind and body appreciated by both sound and sick.

A Branch of the Central Bank of Canada has been opened at No 765 Yonge street north, Toronto, under the management of Mr R T Montgomery, late of the Federal Bank.

ADVICE TO MOTHERS. Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send for a bottle of Miss WINSLOW'S SOOTHING SYRUP FOR CHILDREN TEETHING. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Miss WINSLOW'S SOOTHING SYRUP FOR CHILDREN TEETHING is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

The St. John Freeman, founded by the Hon. T W Anglin, has ceased publication.

MARRIED.

HOLMES-HOLLADAY. At the residence of the bride's mother, Temperance street, Aurora, by the Rev. P. G. Robertson, on the 9th of August, George Thomas Holmes, of the city of Cleveland, State of Ohio, to Miss Via York, of the town of Aurora, County of York, Province of Ontario.

DEATH.

DEATH.—At Markham, Sunday morning, the tenth instant, Mr Eben Burk, postmaster.

THE MARKETS.
