NOTICE TO SUBSCRIBERS.

The date printed on each paper denotes the time when the subscription expires.

Appointments.

His Excellency the Governor General has been pleased to summon to the Senate, by Letters Patent under the Great Seal, Joseph Buldow, of St. Victor de Tring, in the County of Beauce, Esquire, and to appoint him for the Electoral Division of Leuzon, in the Province of Quebec, vice the late Honorable Christian Henry Pizer, deceased.

Department of the Secretary of State of Canada.—His Excellency the Governor General has been pleased to make the following appointments at Ottawa, 4th October, 1884, viz:—The Honorable Louis Francois Rodrigue Masson, of Terrebonne, in the Province of Quebec; to be Lieutenant Governor of the Province of Quebec on, from after the seventh day of November next, vice the Honorable Theodore Robitaille, whose term of office has expired.

On the 9th of October, 1884, Manuel Payne, of the village of Port Stanley, in the County of Elgin, in the Province of Ontario, Esq.; to be on Out Post Collector in Her Majesty's Customs.

Threshing Wheat.

An exchange has an article upon threshing wheat, stating that complaints are made as to the manner in which the threshing is done, especially with regard to splitting the kernels and mashing them up. During a year like the present, when the grain has been harvested dry and in good condition; if the wheat be any flinty and thin skinned; if threshers are not careful in setting their cylinders and having round-edged teeth for very dry grain, and unless they feed carefully, the wheat will split.

Sir John Macdonald leaving for England somewhat sudden, has given rise to various rumors and conjectures for the reasons of his going, as also going in the same steamer that carries over Mr. George Stephen, President of the Canadian Pacific Railway, makes an impression that some business in connection with the railway is one of the cause of his departure. We are inclined to think that his departure is partly private and partly of a public nature. It is said, his health the past few weeks has been one of the best, and he goes home for consultation with Sir Andrew Clark.

It is rumored in Ottawa that part of the business of Mr. Duncan McLutry in England is to complete the purchase of the Nelson stock in the Globe, and that as soon as this is done a change in the management will take place, the Hon P. Mitchell succeeding Mr. John Cameron as managing director.

Inhuman Cruelty.

It is a barbaric cruelty to torture the weak stomachs of chronic invalids with harsh purgatives and sickening drugs, when Bileo Blood Bitters will regulate the stomach, bowels, liver and kidneys in so agreeable and effectual a manner.

Temperance and Exposure.

General Wolesley, it is announced, intends to conduct the coming Nile expedition on teetotal principles. It is just as might be expected of him. The General is now admitted to be the most sagacious, and successful officer in the British Army. His good judgment and his former experience both led him that a great body of men can be kept in better discipline and better health, when entirely abstaining from alcoholic liquors, and they can much better endure the dangers and privations of a long expedition. This was abundantly demonstrated in the memorable Red River expedition in which General Wolesley was so successful many years ago—He stated at the time that it was the first of such expeditions ever attempted on total abstinence principles, and though the march was a very long and severe one, much of it through an unbroken wilderness and attended with peculiar hardships and dangers, no similar expedition was ever more successful as regards good discipline and immunity from sickness and accidents of all kinds. He has been remarkably successful in his various campaigns ever since, and in each case he has insisted on total abstinence on the part of the soldiers, always setting a personal example of total abstinence first.

Years ago the splendid success of Sir Fenwick Williams, "the Hero of Kara" was another instance of the advantages of total abstinence in connection with a great military campaign. After his brilliant success at that time Sir Fenwick wrote this important testimony:—I am indebted to a gracious Providence for preservation in very unhealthy climates; but I am satisfied that resolution, early formed, and steadily persevered in, never to take spirituous liquors has been the means of my escaping diseases by which multitudes have fallen around me. Had not the Turkish Army of Kara been literally "a cold water army" I am persuaded they would never have performed the achievements which crowned them with glory.—Truth

Progress of the North-West.

The Ottawa Citizen says:—"On October 2nd, the first agricultural exhibition held in the North-West was opened. The Regina Leader published on that morning in a congratulatory article, informs its readers that \$1,500 had been offered for competition and that there had been 600 entries. At a private view the editor saw five specimens of grain, threshed and in sheaf, all sorts of roots and vegetables, horses, cattle and sheep. Mr. Cavan, of Indian Head, sent a carload of Berkshire pigs and sheep—thoroughbreds. The ladies department was filled with "a multiplicity of works of art and usefulness." The sports were to include horse and pony races. In the evening there was to be a dinner at which two hundred people were expected to sit down. Similar exhibitions are to be held at Moose Jaw and Qu'Appelle. In another part of the paper we learn that Mr. F. J. Hunter, the local manager of the Bank of Montreal, who is, by the way, an old Ottawa boy, entertained at the bank the Hon. Donald A. Smith, Mr. W. J. Buchanan, general manager, and Mr. Alfred Brown, of Montreal, one of the directors of the bank. Accompanied by Bishop Anson they drove around the town. Some four or five months ago Mr. Donald A. Smith and J. W. Smithers, were driven round Regina, and the rest of the party saw the young city about the same time:—"They were one and all astonished at the progress Regina has made and the work of solidity which she bears for so young a town; they made many enquiries as to the future of the town and as to the prospects of the settlers both in the town and the country, and they expressed very favorable opinions as to the future of the young City of the Plains, about which so much has been written—true and untrue. They appear to take a great interest in Regina, and district, probably because—from the effects of recent visits we have had from eminent men—the truth has not yet been set forth in full and misrepresentation."

Looking a little farther down the same column we see that the Rev. E. A. Stafford, well known in Ottawa, had delivered a lecture in the Regina Methodist Church, on the "Universal Boy." Under the correspondents' column we see letters from settlers expressing themselves well satisfied with the land. Mr. Daniel Sutherland, formerly of Nova Scotia, says:—"It is the finest country I have seen and better than any I saw at the places where I stopped. I met other settlers who told me that Mr. O'Brien had made them the same settlement. They are well pleased with the land and so am I, as I consider it a beautiful place. In those popular letters there is plenty of grain, hay, water, and first-class land, and it is only about nine miles from Pilot Butte station, eight miles from the Qu'Appelle Valley, and about sixteen miles from Regina."

I am leaving in a few days and am going to look at the Hill Farm on my way down, have heard a great deal about that farm. I am going to Halifax to make business arrangements which I require to see about, and am going to bring my family up to settle here in the spring."

It would seem that in Nova Scotia as in Ontario, they have people who for partisan purposes traduce the country. This honest settler adds:—"When I am in Halifax I will be sure to let all my friends know what this country really is, so that they may get their eyes opened. You may be sure there will be plenty more settlements come here in the spring from Halifax. We don't have any country down there to compare with yours."

Next spring we look forward to a great immigration to the North-West, and now especially that Sir David Macpherson has entered on such a wise policy regarding branch railways, we expect to see an astonishing progress in that region of inexhaustible agricultural wealth.

Weather Probabilities.

Fortelling the weather is a useful science, but relieving the effects of its sudden changes is a better one. Hagar's Pectoral Balsam cures coughs and colds, incident to sudden changes.

A Remarkable Recovery.

A council of doctors declared Mrs. Adelaide O'Brien, Exchange St., Buffalo, incurable. Her liver was badly disordered, she vomited green mucus; could retain no food; skin yellow and full of humors. She was rapidly sinking, but Burdock Blood Bitters cured her.

Orillia vs. Richmond Hill.

YOUNG CANADIANS WIN THE SILVER CUP

From time to time the past few months a desire has been expressed in different quarters, for a match to be played between the Richmond Hill and Orillia Lacrosse Clubs. This was consummated by a match played on Saturday last on the Aurora Park grounds, for a beautiful Silver Cup, given by some of the citizens of that place. The ball was faced about 2 o'clock, the first game being taken by Richmond Hill in about 2 1/2 minutes; the second was very strongly contested and lasted 57 minutes, which was also won by Richmond Hill; the 3rd and 4th games were taken by Orillia in 27 and 21 minutes respectively; and the fifth and last game was won by Richmond Hill in 9 minutes. Both sides were very evenly matched, except as regards weight, which was much in favor of Orillia, this team being comprised of some of the best men that could be got in the north, and not confining themselves to Orillia, but taking in other places. The Young Canadians, of this village, deserve praise for the manner in which they sustained their reputation in defeating such an able club, as also having a referee appointed by their opponents, who favored, when possible, those that appointed him. The band of the 12th Battalion York Rangers discoursed sweet music during the time of the play.

At the conclusion of the match, the Cup was presented to the Captain of the Young Canadians in a few remarks by the referee, on behalf of the Committee, which was acknowledged in a few well chosen words by Captain Puseley. The Silver Cup is a regular beauty, and we would say that the Aurora Committee deserve great praise, for giving such a handsome trophy, as there is no doubt but that it cost fully the amount—if not more—than was advertised.

The play was witnessed by a large concourse of people, many going from this place to give encouragement to the young men who have, during the past summer, so ably and so well sustained their reputation, as well as the reputation of the Hill, in defeating every club with which they were brought in contact. When we come to consider the smallness of the places from which is drawn such clever and smart players, and then take in contrast such places as Brampton, Orangeville, Fergus and Orillia, the wonder is not that the Young Canadians and their friends should feel elated at their success, but that they should so modestly bear themselves under the well-earned laurels that have been placed upon them.

Considerable money changed hands on the result of the match. Mr. O'Neil, of the Ontario Club Toronto, acted as Referee, and Messrs. Holliday and Betts, of Aurora, as Umpires.

The Cup is now on exhibition in the window of Mr. A. L. Skeele's Jewelry Store, in this village. In connection with this we copy the following from the Mail of Monday. It is possible that the desires and wishes of the citizens of Orillia as expressed in the letter, may be met at no distant day:

By telegraph to the MAIL. ORILLIA, Oct. 12.—On Saturday we were defeated by the Young Canadians, of Richmond Hill, but it was a close shave, and we would like to have another try at it before the season is over. The citizens of Orillia will put up a cup worth fifty dollars for competition between these two teams, and be played for in Orillia. We will pay all the expenses of the Hill team's coming here and play them for the cup and championship of the North. They can name any day after the 20th, and we will be only too glad to accommodate them.

Yours, etc., E. C. MOORE, Secy, Orillia, L. C.

Orillia, Oct. 12, 1884.

LASKAY.

(FROM OUR OWN CORRESPONDENT)

Your not having heard from me of late would doubtless lead you to suppose that I was at Kinghorn or Vellore. I am not, however, at present, as I am located at Laskay, and put up at the Beaver House. I was absent from here a short time during vacation, but in future my items will be more frequent than in the past.

One week ago last Sunday evening, "Omaha" received the mitten from an English lass who lived on Mill Street, and the poor fellow took it very hard. He has the sympathy of all the village. The items which appear in the Liberator from here, are composed by three of our townsmen, viz.:—a miller, a wool-peddler and a hod carrier.

"Happy Frank" is becoming very popular around here. A few Sunday evenings ago he commenced to shoot off his mouth at a Church door, but was soon discommodated by "Omaha" who gave him away very badly.

A few days since our town was thrown into a state of great excitement when it became known that a person had been found lying in a bush a short distance east of here. Your correspondent visited the spot and viewed the person, when it was found to be one of the "dudes" who was asleep. When asked what brought him there, he said he frequently visited this place to have an afternoon sleep.

The boys around here had a big racket on Saturday evening last at the store in the hollow. The party that took the most prominent part in the affair was dude number one and a young man whom a dog treed on a fence up 6th avenue, a couple of weeks ago. Being a late hour when the row commenced, it was thought advisable to adjourn it until next Saturday night, when a big reception will be given in honor of the winner. In the meantime I advise the constable to have an extra hand to give him a lift.

A conundrum, who is PETER PAD, Laskay, Oct. 15th, 1884.

HOLLOWAY'S OINTMENT AND PILLS.—Though the rheumatism and neuralgia, through the former disease removed, attacks persons of all ages, and the latter ruthlessly selects its victims from the weak and delicate, the persevering use of these remedies will infallibly cure both complaints. After the affected parts have been diligently fomented with hot brine, and the skin thoroughly dried, Holloway's Ointment must be rubbed in firmly and evenly for a few minutes twice a day, and his Pills taken according to the printed directions wrapped round each box of his medicine. Both Ointment and Pills are accompanied by instructions designed for the public at large, and no invalid, who attentively reads them, can now be at any loss how to doctor himself successfully.

A CURE FOR DRUNKENNESS.—There is a perscription in use in England for the cure of drunkenness by which thousands are said to have been enabled to recover themselves. The recipe came into notoriety by the efforts of Mr. John Vine Hill, commander of the Great Eastern Steamship. He had fallen into such habitual drunkenness that his most earnest efforts to reclaim himself proved unavailing. At last he sought the advice of an eminent physician, which he followed faithfully for several months, that at the end of that time he had lost all desire for liquor, although he had been for many years led captive by a most debasing appetite. The recipe, which he afterwards published, and by which so many other drunkards have been assisted to reform, is as follows: Sulphate of Iron, 20 grains; magnesia, 40 grains; peppermint, 44 grains; spirits of nutmeg, 4 drams. Dose, one tablespoonful twice a day.

LOCAL ITEMS.

THE CHEAP Cash House is giving 18 lbs bright Sugar for one dollar.

PARTIES will confer an obligation by remitting amounts due this office.

COUNCIL.—Our village farmers will meet in the Council Chamber on Wednesday evening, 22nd inst., at 8.30 p.m.

THANKSGIVING DAY.—The Governor-General has proclaimed Thursday, Nov. 6th, as a day of general thanksgiving throughout the Dominion.

If you want cheap Wall Paper go to Savage. A lot more to be sold at Cost.

STINGY.—A man who will borrow a local paper to read when he is perfectly able to buy one, is so stingy that he will talk through his nose to save wearing out his teeth.

COMPLETE.—The fall and winter stock is now complete at the Cheap Cash House, and will be sold at prices never before offered in Richmond Hill. Call and inspect the stock, and take advantage of the bargains offered. See new advertisement.

COOL.—The autumn leaves are falling; slowly falling to the earth. The little children cluster; snugly cluster round the hearth. The hapless duce now shivers, as his duster he puts on; and wonders when his overcoat can come from out the pawn.

BIG STOCK.—The People's Store has on hand a large stock of furniture at lowest prices, window glass all styles and out to order, groceries, flour and feed, at bottom prices. A large stock of wall paper which will be sold at cost. Savage intends to sell cheap. Read his new advertisement.

CREDIT SALE.—There will be offered by Public Auction at Lot No. 18, 3rd Con. of Markham, on Monday, Oct 27th, a large quantity of valuable Farm Stock, Implements, etc., the property of Mr. Isaiah Willmot. Terms.—All sums of \$10 and under, cash, over that amount 12 months credit will be given on furnishing approved joint notes. Sale to commence at 1 o'clock. S. M. Brown, Auct.

HAVE A look at those all wool Grey Flannels for 25 cents at The Cheap Cash House.

DRINKS.—A significant warning to beer drinkers comes from Canton, Ohio, where, in a saloon, a young man recently "mixed drinks" by taking "one glass of whiskey and two beer." While drinking the second glass of beer he was noticed to gasp for breath, and his head fell forward on the counter. Removed to a kitchen adjoining the saloon, he "reclined on some old carpets, and in a few minutes was a corpse." It is added that at an autopsy by two physicians his death "was found to have been caused by the fermentation of the beer in his stomach, causing the formation of carbonic acid gas, which caused a paralysis of the heart, lungs, and brain." The victim was also described as "an unusually healthy and vigorous young man."

WOODBRIDGE FAIR.—The annual Exhibition of the West York and Vaughan Agricultural Societies, was held at Woodbridge on the 14th and 15th. The total number of entries largely exceeded in some classes any previous year. The weather for the occasion was very fine, and everything was done by the Directors and Members of the Association to make the result a success, and to give parties who attend full value for their money. West York Fall Show is always looked forward to by many as one of the most pleasant events of the year. We notice the Mayor and a number of other prominent gentlemen from Toronto, took in the last day, being met at the station by the Woodbridge Band and escorted to the residence of N. C. Wallace, Esq., M. P. for West York, where they enjoyed the hospitalities of their genial entertainer. We hope to have the prize list by next week for our readers.

LADIES if you are in need of a handsome Mantle go to The Cheap Cash House.

TAKE A BOOK.—We would call attention to the fact that the year has closed some time ago for the distribution of books from the Mechanics' Institute Library, and as yet, no tickets have been issued or nothing done to commence on a new year. We think if the Directors would push this matter, that all the old members would renew their tickets for another year, and a large number of new names added. The Library contains over a thousand volumes of select and wholesome literature, and now as the long winter evenings are almost upon us once more, the young people of the village should begin to think of self-improvement, and they cannot invest a dollar better or in a more profitable way, than by going to the Librarian, Mr. R. E. Law, and purchasing a ticket for the coming year, and which will also enable the Institute to pay its indebtedness for the past year for periodicals, etc.

HIGH SCHOOL.—On Tuesday last Mr. McBride received from the Minister of Education a circular, from which it appears that, upon further consideration of the results of the Intermediate Examination, the Examiners have awarded the Intermediate Standing to ten additional pupils of our High School. The Minister was induced to allow this standing on account of a very general impression that the standard of marks for Intermediate pupils was not to be raised in 1884. We give the list of successful candidates, as finally revised: Class II.—E. Miller, A.; F. E. Grant, A.; J. S. Gray, B.; F. McConahy, B.; J. Tyndal, B.; A. P. Latta, B.; J. W. Walker, B. Class III.—A. McLaughlin, C. A. Coombs, W. A. McCague, C. Forrester, W. J. Grant, I. Norman, J. A. W. Watt. Intermediate.—J. E. Stoutenburg, A. M. Burns, F. Brown, B. Page, J. Palmer, J. Watson, B. Rutherford, I. Wells, A. Kirby, J. Stump, D. McKay, E. Law.
