The home-bred article is certainly numerous and urgent enough without any accessions from abroad, but it appears that so long as we import our Governors they will import hungry relatives. It was matter of notoriety and complaint under the Dufferin and Lorne dispensations that impecunious Britishers and Irishmen, of aristocratic pretensions, had only to land in Ottawa with letters of recommendation to my lord's pipe-bearer to be immediately provided for at the expense of the Canadian taxpayer. Lord Lansdowne we trust is not following in the footsteps of his predecessor in this respect. We hear, however, that a recent arrival from England was promptly put upon the pay list on the recommendation of Lord Melgund, whose intervention in such affairs ought to have been resented by any Minister with a proper sense of selfrespect. The Canadian office-seeker is not a very admirable personage, but he at least is one of us, and if there be any favors going he ought to have the preference over arrivals by the latest steamers. - World.

MARKHAM, Feb. 20th .- The Post Office here was entered on Wednesday night. The office was completely ransacked, the letters in each mail department being overhauled and every drawer in the building searched. Nothing was stolen not even a 3 cent stamp, as the postmaster had secured all in a safe at his r esidence.

out of 2,000 patients treated during the pass six months, fully ninety per cent, have been cured of this stubborn malady. This is none the less sturding when it is remembered that not five per cent, of patients presenting themselves to the regular practitioner are benefited, while the patent uncideness and other advertised cures never record a cure at all. Starting with the claim now generally believed by the most scientific men that the disease is due to the presence of living parasites in the tissue. Mr Dixon at once adapted his cure to their extermination—this accomplished, he claims the Catarrh is practically cured, and the permanency is unquestioned, as cures effected by him four years ago are cures still. No one clse has ever attempted to cure Catarrh in this manner, and no other treatment has ever cured Catarrh. The application of the remedy is simple, and can be done at home, and the present season of the year is the most favourable for a speedy and permanent cure, the majority of cases being cured at one treatment. Sufferers should correspond with Messrs A H DIXON & SON, 3:5 King street, west, Toronto, Canada, and enclose stamp for their treatise on Catarrh.—Montreal STAR.
