TESTIMONIALS.

MESSANS. R. S. WILLIAMS & Son's.

GENTLEMEN - I have much pleasure in testi ying to the great excellence of your Pianos. I have not them severely to the test and find them possessed of those qualities of tone and touch so need to the true musician and lover of classical music - a charming singing tone, easily gradue sted from the most delicate pianissimo to every degree of loudness and fulness, and a touch which answers readily to every shade of feeling.

I consider these instruments a great acquisition in musicial society, and am much pleased at finding a piano which I can recommend with needed confidence.

Genes. Having thoroughly examined the Workmanship of your lianes. I have no hesitation in stating that, in my opinion, they are equal to those of any others of the best Makers that I have seen. I can only speak in the state high terms regarding their musical qualities; for their fine full singing capability of some pleasant touch, &c, are such, that there seems to be no necessity to purchase together instruments, when our house enterprise can produce such Pianos, and at one—hird Jess cust. I am glad to hear that the extensive sale of your instruments shows that you are meeting with the manages that I think you in thy deserve.

Perhaps the most extraordinary success that has been schieved in modern medicine has been attained by the Dixon freatment for Catarrh. Out of 2,00% patients treated during the past six months, fully ninety per cent. have been sured of this stubborn melady. This is none the less starting when it is remembered that not five per cent. of patients presenting themselves to the regular practitioner are benefitted, while the patent medicines and other advertised curve inversecond a cure at all. Starting with the claim now generally believed by the most scientific men that the disease is due to the presence of living parasites in the tissue. Mr. Dixon at once adapted his cure to their extermination—this accomplished, he claims the Catarrh is practically cured, and the permanency is unquestioned, as cures effected by him four years ago are cures still. No one else has ever attempted to cure Catarrh in this manner, and one other treatment has ever cured Catarrh. The application of the remedy is simple, and can be done at home, and the present season of the year is the most favourable for a speedy and permanent cure, the unsignity of cases being cured at one treatment. Sufferers should cyrrespond with Messrs A H DIXON & SON, 3 % King street, west, Toronto, Canada, and enclose stamp for their treatise on Catarrh—Moutreal STAR.
