CATARRH-A NEW TREATMENT.

CATARRH—A NEW TREATMENT.

Perhaps the most extraordinary success that has been achieved in modern medicine has been attained by the Dixon -freatment for Catarrh. Out of 2,000 patients treated during the past six months, fully ninety per cent. have blen cured of this stubborn malady. This is none the less scartling when it is remembered that not five per cont. ad patients presenting themselves to the regular practitioner are benefitted, while the putson treatment across the results while the putson treatment across the results while the putson treatment across the stating with the claim new generally believed by the most recentific men that the disease is due to the presence of living pransites in the tissue. Mr Dixon at once adapted his cure to their extermination—this accomplished, he claims the Catarrh is practically cured, and the permanency is unquestioned, as cures effected by him four years ago are cures still. No one else has ever attempted to cure Catarrh in this manner, and no other treatment has ever cured Catarrh. The application of the remedy is simple, and can be done at home, and the present senson of the year is the most favourable for a speedy and permanent cure, the majority of cases being cured at one treatment. Sufferers should a rrespond with Messer A H DIXON & SON, 3 6 King street, west, Toronto, Canarh. Moatreel Stan. Canada, and enclose stamp for their treatise on Catairh.—Montreal Stan.
