# TESTIMONIALS.

Messrs R. S. WILLIAMS & SON'S, Toronto, April 12th, 1881.

GENTLEMEN—I have much pleasure in testifying to the great excellence of your Pianos. I have put them severely to the test, and find them possessed of those qualities of tone and touch so acceptable to the true musician and lover of classical music—a charming singing tone, easily graduated from the most delicate pianissimo to every degree of loudness and fulness, and a touch which answers readily to every shade of feeling.

I consider these instruments a great acquisition in musical society, and am much pleased at finding a piano which I can recommend with perfect confidence.

I am, Gentlemen, yours very truly,

The most loyal, careful, faithful and truthful of observers whom it has ever been my good fortune to know—the late Dr. Parkes, of Netley—began life as a physician in London, and would have risen, I have no doubt, had he remained there, to be one of the first physicians of the metropolis; but his health was not good, and he went down to Netley. He was an earnest lover of truth, and this question of alcohol exercised his mind continually, and he tried in various ways and shapes to bring the question to such a test that even the most sceptical might be convinced by the result of his experiments. He performed this one amongst others. He got a number of soldiers of the same age and of the same type of constitution, living under the same circumstances, eating the same food, breathing the same atmosphere, and he did this that the experiment might be fair; and he divided the soldiers into two gangs—an alcoholic gang and a non-alcoholic gang—and he engaged these two gangs in certain works for which they were to be paid extra. He watched these gangs and took the result of their work, and it turned out that the alcoholic gang went far ahead at first. They had buckets of beer by their side, and as they got a little tired they took beer, and the non-alcoholic gang were in an hour or two left nowhere; but he waited and watched as I told you, and as the experiment went on the energies of the beer-drinkers speedily began to flag, and do what they would, before the end of the day the non-alcoholic gang had left them far behind. When this had gone on for some days, the alcoholic gang begged that they might get into the non-alcoholic gang, that they might earn a little more money; but Dr. Parkes in order to make the experiment clenching and conclusive, transposed the gangs. He made the alcoholic gang the non-alcoholic gang, and vice versa, the men being very willing to trade themselves to the experiment, and the results were exactly the same. The alcoholic gang beat the non-alcoholic gang at the starting, and failed utterly towards the end of the day. This is the most conclusive and, I think, by far the most crucial experiment that I know of upon this question of the relation of alcohol to work. With this I will set aside this question by saying, from personal experience and from experiments most carefully conducted over large bodies of men, it is capable of proof beyond all possibility of question, that alcohol, in ordinary circumstances, not only does not help work, but is a serious hinderer of work.

### AN ALARMING DISEASE AFFLICTING A NUMEROUS CLASS.

The disease commences with a slight derangement of the stomach, but, if neglected, in time involves the whole frame, embroiling the kidneys, liver, pancreas, and, in fact, the entire granular system, and the afflicted drags out a miserable existence until death gives relief from suffering. The disease is often mistaken for other complaints; but if the reader will ask himself the following questions, he will be able to determine whether he himself is one of the afflicted:—Have I distress, pain or difficulty in breathing after eating? Is there a dull, heavy feeling, attended by drowsiness? Have the eyes a yellow tinge? Does a thick, sticky, mucous gather about the gums and teeth in the mornings, accompanied by a disagreeable taste? Is the tongue coated? Is there pain in the side and back? Is there a fullness about the right side as if the liver were enlarging? Is there constiveness? Is there vertigo or dizziness when rising suddenly from a horizontal position? Are the secretions from the proper glands highly colored, with a deposit after standing? Does food ferment soon after eating, accompanied by flatulence or a belching of gas from the stomach? Is there frequent palpitation of the heart? These various symptoms may not be present at one time, but they torment the sufferer in turn as the dreadful disease progresses. If the case be one of long standing, there will be a dry, hacking cough, attended after a time by a rusty sputum. The most advanced stages of the skin assumes a dirty brownish appearance, and the hands and feet are covered by a cold, sticky perspiration. As the liver and kidneys become more and more diseased, rheumatic pains appear, and the usual treatment proves entirely unavailing against this latter agonising disorder. The origin of this malady is indigestion or dyspepsia, and a small quantity of the proper medicine will remove the disease if taken in its incipient stage. It is most important that the disease should be promptly and properly treated in its first stages, when a little medicine will effect a cure, and even when it has obtained a strong hold the correct remedy should be persevered in until every vestige of the disease is eradicated, until the appetite has returned, and the digestive organs restored to a healthy condition. The surest and most effectual remedy for this distressing complaint is "Seigel's Curative Syrup," a vegetable preparation sold by all Chemists and Medicine Vendors throughout the world, and by the proprietors, A. J. White, Limited, 17, Farringdon Road, London, E. C.

Market Place, Pocklington, York, October 2nd, 1882.

Sir,—Being a sufferer for years with dyspepsia in all its worst forms, and after spending pounds in medicines, I was at last persuaded to try Mother Seigel's Curative Syrup, and am thankful to say have derived more benefit from it than any other medicine I ever took, and would advise any one suffering from the same complaint to give it a trial, the results they would soon find out for themselves. If you like to make use of this testimonial you are quite at liberty to do so.

Yours respectfully,

(Signed) R. Turner

Seigel's Operating Pills are the best family physic that has ever been discovered. They cleanse the bowels from all irritating substances, and leave them in a healthy condition. They cure constiveness.

St. Mary street, Peterborough, November 29th, 1881.

Sir,—It gives me great pleasure to inform you of the benefit I have received from Seigel's Syrup. I have been troubled for years with dyspepsia; but after a few doses of the Syrup, I found relief, and after taking two bottles of it I feel quite cured.

I am, Sir, yours truly,

Mr. A. J. White, William Brent, Hensingham, Whitehaven, Oct. 16th, 1882.

Mr. A. J. White,—Dear Sir,—I was for some time afflicted with piles, and was advised to give Mother Seigel's Syrup a trial, which I did. I am now very happy to state that it has restored me to complete health.—I remain, yours respectfully,

(Signed) John H. Lightfoot  
15th August, 1883.

Dear Sir,—I write to tell you that Mr. Henry Hillier, of Yatesbury, Wilts, informs me that he suffered from a severe form of indigestion for upwards of four years, and took no end of doctor's medicine without the slightest benefit, and declares Mother Seigel's Syrup which he got from me has saved his life.

Yours truly,

(Signed) N. W. Wh., Chemist, Calne, September 8th, 1883.

Dear Sir,—I find the sale of Seigel's Syrup steadily increasing. All who have tried it speak very highly of its medicinal qualities; our customers describe it as a "Godsend to dyspeptic people." I always recommend it with confidence.

Faithfully yours,

(Signed) Vincent A. Wills, Chemist-Dentist, To Mr. A. J. White, Merthyr Tydfil, Preston; Sept. 21st, 1883.

My Dear Sir,—Your Syrup and Pills are still very popular with my customers, many saying they are the best family medicines possible.

The other day a customer came for two bottles of Syrup and said "Mother Seigel" had saved the life of his wife, and he added, "one of these bottles I am sending fifteen miles away to a friend who is very ill. I have much faith in it."

The sale keeps up wonderfully, in fact, one would fancy almost that the people were beginning to breakfast, dine, and sup on Mother Seigel's Syrup, the demand is so constant and the satisfaction so great.—I am, dear Sir, yours faithfully,

(Signed) W. Bowker, To A. J. White, Esq.
