## TESTIMONIALS.

Messrs R. S. WILLIAMS & Son's—Gentlemen—I have much pleasure in testifying to the great excellence of your Pianos. I have put them severely to the test, and find them possessed of those qualities of tone and touch so acceptable to the true musician and lover of classical music—a charming singing tone, easily graduated from the most delicate pianissimo to every degree of loudness and fullness, and a touch which answers readily to every shade of feeling. I consider these instruments a great acquisition in musical society, and am much pleased at finding a piano which I can recommend with perfect confidence. I am, Gentlemen, yours very truly, CHAS. W. EWING, (Of London, England,) Organist of St Peter's Church, Colburn, On Toronto, Nov. 4th, 1882.

Messrs R. S. WILLIAMS & Son's—Gentlemen—Having thoroughly examined the Workmanship of your Pianos, I have no hesitation in stating that, in my opinion, they are equal to those of any others of the best Makers that I have seen. I can only speak in the same high terms regarding their musical qualities; for their fine full singing capability of tone, pleasant touch, etc., are such that there seems to be no necessity to purchase foreign instruments, when our home enterprise can produce such Pianos, and at one-third less cost. I am glad to hear that the extensive sale of your instruments shows that you are meeting with the success that I think you justly deserve. I am, Gentlemen, Your Obedient Servant, GEO. W. STRATHY, Mus. Doc.

THE TRIUMPHS OF A GREAT DISCOVERY.

The magnetic influence of gold attracts the people of every clime to our shores. Men of all nations, and speaking all the languages of civilization, are to be found congregated on our auriferous plains. Differing in all other things in their customs, habits, and religion—yet there is one point upon which their opinions coincide, Englishmen and Americans, French, Swiss, German, Swedes, Italians, and Chinese admit without a dissenting voice, that the great remedies which have been discovered forty years ago by Holloway are better adapted to the cure of diseases in this climate than any other preparations in existence. This appears, in fact, to be the experience of mankind in all parts of the world, and hence the universal popularity of these medicines. We consider, however, that the boundless confidence placed in their efficacy by the representatives of so many nations at the present time, is a striking phenomenon in medical history. Many of these people in their youth, and even at maturity, were accustomed to the use of drugs and nostrums peculiar to their several countries. These remedies were connected in their minds with associations of home, and indorsed, as it were, by their national prejudices. Yet they have been thrown aside and utterly repudiated, while Holloway's Pills and Ointment have been adopted by a common impulse throughout the world gold regions. There is only one way of accounting for this movement. It is the result of conviction—conviction grounded on personal observation and experience.

The Ointment is used with such wonderful success as a dressing for wounds, ulcers, and sore legs, and for all the external diseases and casualties to which the adventurous gold hunter is peculiarly liable, that scarcely a digger is to be found within the vast area of the gold fields unprovided with a stock of the healing, soothing, cooling preparation. The hard fare of the digger, and sometimes his habits, tend to vitiate the blood and develop running sores and purulent ulcers of the body and limbs. Bad legs, especially, are very common at the diggings, and seriously interfere with the labours of the diggers. The worst cases of this class are cured by the Ointment with extraordinary rapidity. The best method of healing sore legs and sores and ulcers generally, is by rubbing the Ointment into the inflamed parts around the orifice, first opening the pores and softening the flesh with warm fomentations. The part affected is then dressed with lint or linen saturated with the Ointment. Such is the external treatment, but it is also proper to give the patient a few doses of the Pills during the progress of the cure, as they serve to purify the blood and discharge morbid matter from the system, while the Ointment is doing its work on the surface.—The Scientific Witness.

The "BUZZ SAW" NEWSPAPER.—The May number of Lum Smith's Philadelphia Herald literally sparkles with dynamical and electrical exposures of pernicious newspapers, frauds, quacks and humbugs that infest our land to the detriment of legitimate journalism and business and the morals of our boys and girls. Editor Smith prefers serious charges against Gov. Bunn, of Idaho, and calls on President Cleveland for Bunn's removal. Anthony Comstock, Secretary of the N. Y. S. for the S. V., is again offered \$1800 to explain his connection with W. L. Allen, a notorious fraud and legally indicted blackmailer. The Texas press and officials are appealed to to drive Byron H. Van Raab, of Leon Springs, Texas, from that State. It appears that Van Raab is trying to establish a haven. Dr. W. H. Hale, publisher of "Health and Home," Washington, D. C., is again fully exposed. Algernon H. Wilcox, Tom Chichester and "Dr." Fry, all of Philadelphia, are given "Thirty Days Notice" to discontinue their demoralizing "Pennyroyal and Tansy Pill" business. Smith declares if they do not heed his warning he will arrest and prosecute them himself. The Louisiana Lottery Co. is again exposed. The stories, poetry, and puzzle department of The Herald are excellent. Smith scored his forty-sixth victory on the 21st of May, before Judge Arnold, the jury awarding Smith \$25,000 damages. The National Illustrated Magazine, Washington, D. C., May, 1885, editorially remarks: "While we should be sorry to hear of his entering the arena of politics, we nevertheless believe that Mr. Lum Smith, of the PHILADELPHIA HERALD, is better qualified for such a position than any other man. In the first place he is already one of the most abused individuals in the country, consequently he would be indifferent to the libellous attacks that are always brought against those who take part in public affairs. Secondly, as this abuse comes wholly from scoundrels whose villainies he has unmasked, such accusations are anything but detrimental to his character, being rather favorable than otherwise."

## What is This Disease That is Coming Upon Us?

Like a thief at night it steals in upon us unawares. Many persons have pains about the chest and sides, and sometimes in the back. They feel dull and sleepy; the mouth has a bad taste, especially in the morning. A sort of sticky slime collects about the teeth. The appetite is poor. There is a feeling like a heavy load on the stomach; sometimes a faint all-gone sensation at the pit of the stomach which food does not satisfy. The eyes are sunken, the hands and feet become cold and feel clammy. After a while a cough sets in at first dry, but after a few months it is attended with a greenish coloured expectoration. The afflicted one feels tired all the while, and sleep does not seem to afford any rest. After a time he becomes nervous, irritable, and gloomy, and has evil forebodings. There is a giddiness, a sort of whirling sensation in the head when rising up suddenly. The bowels become constipated, the skin is dry and hot at times; the blood becomes thick and stagnant; the whites of the eyes become tinged with yellow, the urine is scanty and high-colored, depositing a sediment after standing. There is frequently a spitting up of the food, sometimes with a sour taste, and sometimes with a sweetish taste; this is frequently attended with palpitation of the heart; the vision becomes impaired with spots before the eyes; there is a feeling of great prostration and weakness. All of these symptoms are in turn present. It is thought that nearly one-third of our population has the disease in some of its varied forms. It has been found that medical men have mistaken the nature of this disease. Some have treated it for a liver complaint, others for kidney disease, etc., but none of the various kinds of treatment have been attended with success because the remedy was not such as to act harmoniously upon each one of these organs, and upon the stomach as well; for in Dyspepsia (for this is really what the disease is) all of these organs partake of this disease and require a remedy that will act upon all at the same time. Seigel's Curative Syrup acts like a charm in this class of complaints, giving almost immediate relief. The following letters from chemists of standing in the community, where the live show up what estimation the article is held.

John Archer, Hartill, near Sheffield.—I can confidently recommend it to all who may be suffering from liver or stomach complaints, having the testimony of my customers, who have derived great benefit from the Syrup and Pills. The sale is increasing wonderfully.

Robt. G. Gould, 27 High Street, Andover.—I have always taken a great interest in your medicines and have recommended them, as I have found numerous cases of cure from their use.

Thomas Chapman, West Auckland.—I find that the trade steadily increases. I sell more of your medicines than any other kind.

N. Darroll, Clun, Salop.—All who buy it are pleased, and recommend it.

John Halkwill, A. P. S., Kingsbridge.—The public seem to appreciate their great value. A. Armistead, Market Street, Dalton-in-Farnes.—It is needless for me to say that your valuable medicines have great sale in this district—greater than any other I know of, giving great satisfaction.

Robt. Laine, Melksham.—I can well recommend the Curative Syrup from having proved its efficacy for indigestion myself.

Frickheim, Athroath, Forfarshire, Sept. 23, 1882.—I was very much pleased to see a letter recommending Mother Seigel's Syrup. I have very much pleasure in still bearing testimony to the very satisfactory results of the famed Syrup and Pills. Most patent medicines die out with me, but Mother Seigel has had a steady sale ever since I commenced, and is still in as great demand as when I first began to sell the medicine. The cures which have come under my notice are chiefly those of liver complaint and general debility.

A certain minister in my neighborhood says it is the only thing which has benefited him and restored him to his normal condition of health after being unable to preach for a considerable length of time. I could mention also a great many other cases, but space would not allow. A near friend of mine, who is very much addicted to constipation, or constipation, finds that Mother Seigel's Pills are the only pills which suit his complaint. All other pills cause a reaction which is very annoying. Mother Seigel's Pills do not leave a bad after-effect. I have much pleasure in commending again to suffering humanity Mother Seigel's medicines, which are no sham. If this letter is of any service you can publish it.

Yours very truly,  
A. J. White, Esq., 15th August, 1883.

Dear Sir,—I write to tell you that Mr. Henry Hillier, of Yatebury, Wilts, informs me that he suffered from a severe form of indigestion for upwards of four years, and took no end of doctor's medicine without the slightest benefit, and declares Mother Seigel's Syrup which he got from me has saved his life.

Yours truly,  
(Signed) N. Webb, Chemist, Calne Mr. White.
