To the high priced American Instruments.

### TESTIMONIALS.

MESSRS. R. S. WILLIAMS & Son's.

GENTLEMEN—I have much pleasure in testifying to the great excellence of your Pianos. I have put them severely to the test, and find them possessed of those qualifies of tone and touch so acceptable to the true musician and lover of classical music—a charming singing tone, easily graduated from the most delicate pianissimo to every degree of loudness and fulness, and a touch which answers readily to every shade of feeling.

I consider these instruments a great acquisition in musicial society, and am much pleased at finding a piano which I can recommend with perfect confidence.

I am, Gentlemen, yours very truly,

CHAS W, EWING, (Of London, England,)
Organist of St Peter's Church, Coburg, On Mrssrs R. S. Williams & Sons—

Toronto, Nov. 4th, 1882.

Gewrs—Having thoroughly examined the Workmanship of your Pianos, I have no hesitation in stating that, in my opinion, they are equal to those of any others of the best Makers that I have seen I can only speak in the same high terms regarding their musical qualities; for their fine full singing capability of tone, pleasant touch, &c, are such, that there seems to be no necessity to purchase foreign instruments, when our home enterprise can produce such Pianos, and at one-third less cost I am glad to hear that the extensive sale of your instruments shows that you are meeting with the success that I think you justly deserve.

I aw, Gentlemen, Your Obedient Servant,

GEO. W. STRATHY, Mus Doc.

#### COMPLIMENTARY.

The Minister of Militia was head of a department of war which had no organised war departments. Transport, commissiarat and medical staffs had all to be organised out of raw material. The public knows very little, of how all this was managed; they only know that the result showed that in the stomach, a feeling that has been detailed as a faint "all gone" sensation; and that at whatever cost the work was expeditiously done. The man who was at the head of the Militia Department in this crucial period was the Hon. Joseph Phillippe Remi Adolphe Caron, B. C. L., Q. C.— Contrary, it appears to aggravate the feel-

Just the Thing.

The educational department has completed arrangements for the establishment of training institutes at Kingston and Hamilton, and accordingly announces that such institutes will be opened on September the lie may have heart, and the patient fears that the such for the property of the such for the such fo in high schools.

By brider in Council passed on the 22nd proprietors, A. J. White (Limited), of September, 1882, it was provided that persons holding 2nd class provincial certificates would not be eligible for appoint- disease, and drives it, root and branch, out ment as assistant masters in high schools, of the system This order was suspended from year to year, but by a new regulation it is now confirmed. It is provided, however, that may tencher who, on the 11th day of July, 1885, was employed as an assistant in a high school or collegiate i stitution, shall be deemed a legally qualified assistant for such high school, but for no other until he has passed the examinations herein prescribed at a training institute.

Holders of a first-class, non-professional certificate, will also, hereafter, get their professional standing at a training institute. Provision will be made for allowing atten-

lieu of actual atlendance. The examina-tions will however be obligatory.

Under the Regulations of the Education Department parts I and II and the 2nd book of the old Ontario readers cease to be authorized for use in the public schools after the 1st August, The 3rd, 4th, and 5th eaders may be used until the 1st January, 1886, but no longer. The authorization of the Royal Readers and the Gage readers reader inclusive, and the tablet lessons of condition. They cure costiveness. part I will be ready for the opening of the schools in August.

The regulations respecting public and The regulations respecting public and high schools are being consolidated, and will be distributed along with the new possible. school acts about the middle of August.

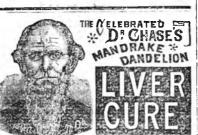

Perhaps the most extraordinary success that Perhaps the most extracedinary success that has been achieved in modern needleine has been attained by the Dixon Mentment for Catarrh. Out of 2,000 patients treased during the past six months, fully ninety per cent, have been cured of this stubbern malady. This is none the less startling when it is remembered that not five per cent, of patients presenting themselves to the regular practitioner are benefitted, while the patient modicines and other advertised cures never record a cure at all. Starting with the claim now generally believed by the most scientific men that the disease is due to the presence of living paresities in the tissue. Mr Dixon at once adapted his cure to their externimation—this acomplished, he chains the Catarrh is practically cured, and the permaneck is unquestioned, as cures effected by him four years ago are cures still. No one clse has over attempted to cure [Catarrh in this manner, and no other treatment has ever sured Catarrh. The application of the rendey is simple, and can be done at home, and the present season of the year is the most favourable for a speedy and permanent cure, the majority of cases being cured at one treatment. Suffered should correspond with Messers a H DIXOs & SON, 3 5 King street, west, Toronto, Canada, and enclose stamp for their treatise on Catarrh.—Montreal Stara:
