Free Trade.

From the Park River Gazette, Dakota.

"When we hear our Canadian-Americans calling for "free trade" we wonder they come to this country if free trade possesses such superior advantages. We know the rule has worked exactly the other way. Why it was only about two or three years ago that Canadian government took the matter under dvisement, with a view of heading off the emigration to the United States, No country in the history of the world has increased in population, produce and general prosperity as the United States has under a protective tariff." The slap contained in the above ought not to be lost upon those who have any egard for their country,

According to the news Domesday Book of England, about two-thirds of the land of England and Wales is held by 10,207 owners, of whom 16 proprietors outside of London were returned in 1873 as either holding more than 50,000 acres, or having estimated rentals of over \$500,000 a year. They were:

THE Council of the Township of Etoblooke at its last meeting instructed the Clerk to notify Mr. Jamicson, of Toronto, that he must remove his large pictorial boards from the highways of the Township as they scare the horses and are dangerous to public travel This is certainly a step in the right dithese advertising signs as a public nuisence, not only in the way of scaring horses but also in attracting the attention of the drivers which sometimes results in serious collisions, and when near railroad crossings might cause the loss and more legitimate means of advertising than uniling signs on to public and private property, demoralizing and destroying it .- Woodbridge News.
