Leds, Oils, Turpes, Varnish, Glass in all sizes. A large stock of FURNITURE in new designs at less than Toronto prices. Usual stock of Groceries, Flour & Feed at bottom prices. P. G. SAVAGE.

The York Herald, PUBLISHED BY M. H. KEEFLER, EVERY THURSDAY.

The line we propose is much shorter than the one just described, there being some 44 miles difference. It is this line as proposed via Clarenceville and Brock Township. Now from Clarenceville we propose turning south west, crossing the Sutton branch near Mt. Albert and thence direct to Richmond Hill, keeping on the east side of Yonge street, and from there south to Toronto.

COUNTRY MERCHANTS. PROBABIILITIES.

Lakes and Upper St. Lawrence. - Moderate winds; fair weather; light snow in a few localities.

Lower St. Lawrence, Gulf, and Maritime. - Light to moderate winds; fair weather; a little higher temperature.

Cochran elected for East Northumberland defeating Dr. Mallory, the Annexation Candidate, by 53.

At the Village Council meeting last Monday evening Mr. John Palmer appeared before the council in reference to being taxed for more dogs than he owned and blamed the Clerk for the mistake and in the course of his remarks said: "It was through Mr. Teffy that he lost \$20 for sheep killed by dogs." As there were a number of ratepayers present and heard Mr. Palmer's statement we give the particulars as found in the minutes and let our readers form their own opinion. At a meeting of the council held on Dec. 20th, 1886, Mr. Palmer made application for the sum of \$18.00, being two-thirds the value for sheep killed by dogs on or about the 1st of August of the same year. Now in making application for the compensation allowed in such cases all parties have to make an affidavit the 4th clause of which reads as follows: "That I now, with in three months from the time at which the above mentioned sheep were killed, claim compensation for them at the rate of \$..... for each sheep from the Municipal Council of the..... (village or township as the case may be)." When Mr. Palmer was asked to make the above affidavit he of course refused as his sheep had been killed four months and twenty days, and on that account Mr. Palmer did not receive his money.

The Presidents.

The United States have had twenty-three Presidents, viz:- Washington, John Adams, Jefferson, Madison, Monroe, J. Q. Adams, Jackson, Van Buren, W. H. Harrison, Tyler, Polk, Taylor, Fillmore, Pierce, Buchanan, Lincoln, Johnson, Grant, Hayes, Garfield, Arthur, Cleveland, and B. Harrison. Presidents Tyler and Fillmore were married twice, Lincoln was assassinated by John Wilkes Booth, at Ford's Theatre, Washington, D.C., on the 14th April, 1865, and died about 7 o'clock the next morning having remained unconscious from the time he was shot until his death. Garfield was assassinated by Charles J. Guiteau, in the Baltimore and Ohio Railroad Depot, Washington, July 2, 1881, and died from the effects of his wound at Long Branch, N.J., Sept. 19th - 80 days from the time he was shot until his death. The political affiliations of the different Presidents were as follows:- Washington, John Adams, John Quincy Adams, Federalist; Jefferson, Jackson, Van Buren, Polk, Pierce, Buchanan, and Cleveland, Democrat; Madison and Monroe, Democratic-Republican; W. H. Harrison, Tyler, Taylor, Fillmore, Whig; Lincoln, Johnson, Grant, Hayes, Garfield, Arthur, and B. Harrison, Republican. Presidents Tyler, Fillmore, Johnson, and Arthur were elected Vice-Presidents and succeeded to the presidency by the death of the President. Grant was the youngest man ever elected President, and Garfield was the youngest at the time of his death. Washington, Jefferson, Madison, Monroe, Jackson, and Grant served two terms or eight years. Lincoln was in his second term when he was shot. W. H. Harrison's term of office was only one month. Washington died at the age of 68, John Adams at 91, Jefferson at 83, Madison at 85, Monroe at 72, Quincy Adams at 80, W. H. Harrison at 68, Tyler at 72, Polk at 54, Taylor at 66, Fillmore at 74, Pierce at 65, Buchanan at 77, Johnson at 67, Buchanan died unmarried.

Railway.

Since our last article on Railway we have been studying the different routes up and are convinced that if the C. P. R. would run their proposed line of railway from Sudbury Junction via Richmond Hill instead of via Clarenceville they would not only have a much shorter line but would not be running parallel with either the Midland or Northern lines, and they would also have a much more level part of the country to build through. The line of railway from Sudbury Junction to Toronto via Clarenceville is surveyed and proposed runs about as follows: From Sudbury it runs south-east to French River, crossing the river west of the French settlement, and then almost direct to Byng Inlet, a village situated on the Magnetawan River five miles from its mouth. From there it runs south east to Parry Sound, a town of 2,000 population and County Town for the Districts of Parry Sound and Muskoka. From there it runs nearly south to Bala, on the Muskoka River, and keeping nearer the Muskoka Lakes than the Georgian Bay. From Bala it turns in a more easterly direction until it crosses the Northern about four miles south of Gravenhurst, when it again turns south crossing the Midland near Thorah or Beaverton and then again at Uxbridge. From Uxbridge to Clarenceville it runs in all directions as that part of the country is very rough and Uxbridge is elevated so much higher than Clarenceville that they would have to build some twenty-three miles of railway to reach a place hardly twelve miles distant. The line we propose is much shorter than the one just described, there being some 44 miles difference. It is this line as proposed via Clarenceville and Brock Township. Now from Clarenceville we propose turning south west, crossing the Sutton branch near Mt. Albert and thence direct to Richmond Hill, keeping on the east side of Yonge street, and from there south to Toronto.

UNNECESSARY WORRY.

It was getting late when the girl said shyly: "You look worried about something, Mr. Harkinton." "I am," he replied, "I have in my pocket a \$50,000 package of government bonds which I foolishly forgot to deposit to-day, and - and aside from that I - love you so devotedly. Miss Schermerhorn, I am afraid to learn my fate." "As for the bonds, Mr. Harkinton," replied the girl, with a business air, "papa has a safe in the house; and regarding the other matter, why - why, I think so many of us are apt to borrow trouble, Mr. Harkinton."

Our Washington Letter. (From our own Correspondent.)

Senator Quay is the observed of all observers, and his brilliant management of the Republican campaign places him away in front among party leaders. His methods were derided by hosts of people, but the cause is judged by the effect, and his efforts have the seal of success. He is now in Washington, undoubtedly for the purpose of watching the Congressional returns. The House will be desperately close, whichever party wins, and Quay does not desire his party to be left. While he has not announced his purposes, the conference between him, Gen. Dudley and Gen. Mahone was for the purpose of ascertaining if Virginia could not be counted for the Republicans. This would have relieved New York of its importance in the electoral college, and cooled the ardor of the New York politicians to own the earth. New York has controlled the last two administrations, and would not be loath to rule another.

Wheat Prices.

Thinking that the cause of increasing prices in wheat and flour would be of interest to our readers we give below a portion of an article found in Monday's Mail: "Mr. Pillsbury, of Minneapolis, who owns the largest flour mills in the world, has just issued a confidential circular in which he gives his reasons for believing that before the next harvest flour and wheat prices will reach a much higher level than at present, independent of speculation. Dealing first with the two States - Minnesota and Dakota - in which his own enormous purchases of wheat are chiefly made, he shows that about 72,000,000 bushels were ground in the United States between September 1, 1887, and September 1, 1888. This total made about 17,000,000 barrels of flour, of which not more than 5,000,000 barrels were exported, leaving about 12,000,000 barrels for home consumption. The highest estimate of the last crops of Minnesota and Dakota is 65,000,000 bushels. Accepting this figure, Mr. Pillsbury shows that of the quantity mentioned only about 44,000,000 bushels will be left as a supply for the mills between Sept. 1 last and Sept. 1, 1889, as against 72,000,000 in the preceding year. At the rate at which they are grinding at present the mills that are running on Minnesota and Dakota wheat will at the end of thirteen weeks of this season have left a supply of only 22,500,000 bushels for the rest of the year up to next September, or a little less than one-third per week of the supply they have been using for the past ten weeks. By further calculation he shows that at the outside the supply of flour during the first eight months of 1889 will be about 500,000 barrels per month, as against an average supply of 1,000,000 bushels per month for the sixteen months preceding January 1 next. In these calculations, Mr. Pillsbury says, he has made no allowance for the poor quality of much of the season's crop, and he does not believe, moreover, that the winter wheat millers will be in a position to supply the deficiency." Mr. Pillsbury also states that the crops in Europe are far below the estimates that any Government is willing to give out. Europe calculates on receiving 100,000,000 bushels from the United States and 8,000,000 from Canada, whereas they will not receive sixty per cent of these amounts. Even on the basis of their exaggerated estimates of their own crops and of those of Canada, Russia, the United States, India, and other countries a shortage is inevitable, but when their own actual wants and the supply of exporting countries are taken into account the deficiency is enormous.

Vaughan Council.

The Municipal Council of the Township of Vaughan met at the Town Hall, on Tuesday, the 13th Nov., at 10 a.m. Members present:- The Reeve, and Councillors A. Russell, I. Reaman, G. High and P. Devins. Moved by Mr. High, seconded by Mr. Devins, that the Treasurer be authorized to pay the following claims for sheep killed by dogs or on being twice driven: Michael Oster, 2 hams killed, 5 sheep killed and 2 sheep damaged, \$42 65; Jacob Brown, 2 sheep damaged, \$6 65. - Carried. The Council then adjourned to meet on Friday, the 14th of December, 1888.

At the Police Court in Toronto on Saturday last Annie Fargetta a married colored woman, pleaded that she did not know that she was carrying a revolver on her person until arrested for drunkenness and searched at the police station. Her ignorance availed her not, and she will have to pay the usual \$20 fine.

One Good Point

Out of the many possessed by Burdock Blood Bitters it that may be taken at all seasons of the year, and by either young or old. In this way the three busy B's are always at work and doing good.

Reliable Remedy for Rheumatism.

Procure a bottle of Haysard's Yellow Oil from your medicine dealer, and use according to directions. It cured Ida Johnston, of Cornell, Ont., of that complaint, and she recommends it as a sure cure. For 25 years it has never failed to give satisfaction.

A Narrow Escape.

People who are exposed to the sudden changes of our northern climate have little chance of escaping colds, coughs, sore throats and lung troubles. The best safeguard is to keep Haysard's Pectoral Balsam at hand. It is a quick relief and reliable cure for such complaints.

Worth their Weight in Gold HOLLOWAY'S Pills & Ointment

This incomparable Medicine has secured for itself an imperishable fame throughout the World for the alleviation and cure of most diseases to which humanity is heir.

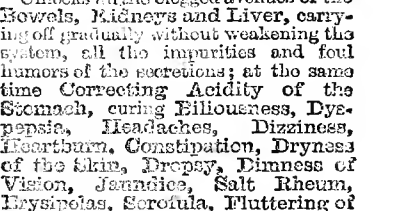

The Pills

Stomach and Bowels. Increases the secretory powers of the Liver, braces the nervous system, and throws into the circulation the purified elements for sustaining and repairing the frame.

The Ointment

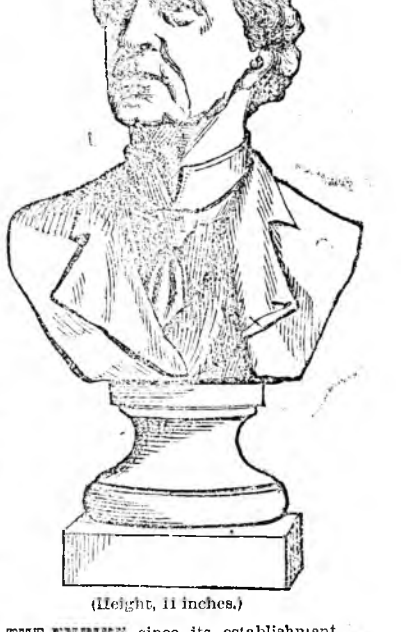

Will be found invaluable in every Household the cure of Ointment, Head, Tumors, BAD LEGS, OLD WOUNDS, COLDS, Coughs, Sore Throats, Bronchitis, and all disorders of the Throat and Chest, as also Gout, Rheumatism, Scalds and other kind of skin diseases.

THE KEY TO HEALTH.

Unlock all the clogged passages of the Bowels, Kidneys and Liver, carrying off gradually without weakening the system, all the impurities and foul humors of the secretions at the same time. Correcting Acidity of the Stomach, curing Flatulency, Dyspepsia, Headaches, Dizziness, Heartburn, Constipation, Dryness of the Skin, Dropsy, Blisters of Vision, Jaundice, Salt Rheum, Erysipelas, Eczema, Itching of the Face, Nervousness, and General Debility; all these and many other similar Complaints yield to the happy influence of BURDOCK BLOOD BITTERS.
