PROBABILITIES.
 Lakes and Upper St. Lawrence.—North-west to west winds; fresh or strong during the day; generally fair and a little milder; snow flurries in some localities.
 Lower St. Lawrence, Gulf, and Maritime.—Strong winds and gales from the westward; partly cloudy and considerably colder; snow flurries in some localities.

CLARKE WALLACE gives notice of a bill for the prevention and suppression of combinations formed in restraint of trade.

THE ELECTION of Mr. Colter for Haldimand is to be protested. It is said so many acts of bribery are known to have been committed by the party of "purity" that he diffidently will be found in unseating the present member.

MR. G. B. SMITH, of East York, feels very much annoyed over a skit in yesterday's Globe under the headline "The Club-room Roarer" manifestly directed at him, and making fun of his loud voice, his boasting of the business he does, of his being "loud and fat and round." It also calls him a "Mighty roarer" when lunching at the Reform Club. The partners are also annoyed at the reference, and one of them said last night he did not think Mr. Smith deserved such treatment from the hands of the Deacon.—Toronto World of Tuesday.

He Leaves.
 The Borealis man has got sick of Aurora and we do not in the least blame him. We object, however, to his coming to West York, there are sufficient papers here already. Why did he not go farther north, say to Sutton West. The printing of the Aurora corporation cost last year \$343 63 and the Borealis share amounted to about the odd dollars and cents, the balance going to the man who runs the Borealis paper, and whose friends are in the majority in Council. The Borealis will be known in future as the Junction Comet and published at West Toronto Junction. It is whispered around that the Reeve of the Junction will be the opponent of the Doctor at the next local election.

Mr. Badgerow's Rent.
 THE COUNTY COUNCIL WILL NOT PAY HALF OF IT.
 The worthy councillors of this goodly County of York met together this morning in their luxurious chamber in the Court House, and browsed for two hours in the sunny fields of logic and eloquence. Under their dainty touch, stern facts as to roads and bridges, stocks, stones and trees, became fabric fine as a midsummer night's dream. From their garments the gentle breeze of their own bright fancy blew away the last scent of the sordid cares of the old hocksteads and to-night they will lie them to their fresdes, purified, refreshed, elevated, spiritualized for Monday's toil.
 All the members were present and the Warden was in the chair.
 It was decided that the next session of the Council commence on June 11. The original motion was for June 4, but it was represented that the farmers would be in the hay on that day, and the following week was hit on.
 The commissioners of the Industrial Home were instructed to investigate the alleged manufacture and sale of furniture and other articles by the keeper of the Home, and to report at the June session.

The toll-gate question came up. Mr. Anderson moved that the Warden and Commissioners of County Property be instructed to ascertain from each municipality in which the York roads are situated whether it would take over and maintain its portion of the roads, should the county abandon them. The object of the motion was the procuring of information as to the feeling of the rate-payers in the matter. Difficulties in getting such information properly suggested themselves readily. The only real way, it was urged, would be to submit the matter to a vote. After some discussion the motion was lost.
 A motion to pay the travelling expenses of the Council's representatives in the Industrial Exhibition Association was carried.
 Mr. Anderson gave notice that he would move "That the Council deem it to the best interests of the County to separate from the city for judicial purposes, and to build a Court House independently of the city of Toronto, as the city is making no attempt to carry out the agreement to build a Court House, but looks to the Legislature from year to year to extend the time to complete the building."
 The Council went into committee of the whole to consider the report of the Committee on County Property, Mr. Wilson in the chair. The report recommended several repairs and alterations. The seventh clause, which recommended that the Council pay one half the rent of the Crown Attorney's office, raised a tempest.
 Mr. Richardson made a vigorous speech, in which he asserted that the

offices in the county building were quite good enough for the Attorney's use, and wound up by moving that the clause be struck out.
 The chairman called for the yeas and declared the motion lost, but Mr. Richardson sprang to his feet and asked for the yeas, and the chairman reversed his decision and declared the motion carried.
 In Council Mr. Wilson moved that the clause be reinserted, but the motion was defeated.
 Mr. Evans moved that the report be amended by adding a clause abolishing all check gates that had been erected during 1888. The amendment was adopted, and the report as amended was adopted.

Mr. Wilson gave notice of motion, as follows:—"That the Legislative Assembly of the Province of Ontario be requested to cause all toll-gates and the collection of toll on all roads in the County of York to be abolished; also to provide a method whereby private toll roads shall be paid for, and how the roads shall be maintained."
 Mr. Richardson gave notice that at the June session he will move that it would be in the interest of the southern portion of the Judicial County of York to have the north riding of York created into a junior county.
 The report of the Committee on Contingencies was adopted without amendment.
 This concluded the business of the session, and the Council adjourned until the 11th of June.—News

It will be soon by referring to the above that the toll-gate was once again before the County Council. We think it about time that this toll-gate question was settled once and for all time. Every year the same question comes before the Council, and every year it ends where it commences. It reflects but little credit upon the great province of Ontario that in the smaller provinces of the Dominion free trade in travel prevails, whilst the foster province of the Dominion throws such barriers upon traffic as are contained in toll-gates.
 We say to the men who compose the County Council put an end to the nuisance.

Mr. Anderson from Georgina, thinks it in the interests of the County to separate from the city for judicial purposes. We about agree with Mr. Richardson who gave notice that at the June session he will move for a division of the County; this will settle the Judicial question. By all means let the southern portion of York fight against the judicial separation without it carries a division of the County as well and make two counties.
 The Crown Attorney's claim to have the County pay for an office and office furniture suitable for his reduced taste, we are glad to perceive was lost on a division. Is it not astonishing how some get so far above the dear people whom, at one time, they claimed to be closely connected with—especially about election times.

School Board Meeting.
 Let everything be done in decency and in order; stop all smoking whilst at business. We believe it about time the Council and School Board had a room to meet in, better furnished and more cleanly kept than the one they now do business in.
 The School Board met yesterday at 1 o'clock in the Council Chamber, being the first meeting of the new Board.
 At the hour of commencing business all the members were present with the exception of Messrs. Crosby, Wilson, Duncan and Savage, these gentlemen came in before the close of the meeting which was in session until half-past three o'clock.
 The Secretary, Mr. Switzer, called the meeting to order and stated the first business would be to organize by the appointment of officials of the Board.
 Mr. Brown immediately arose and moved Mr. I. Crosby's name as chairman for the year.
 Mr. Marsh, seconded by Lynett, moved W. Trench's name as chairman.
 Mr. French moved Mr. H. Marsh's name as chairman.
 Mr. Trench stated he did not wish the position and moved that Mr. Brown be chairman which was seconded by Mr. Russell.
 Both names were put to the meeting and neither carried.
 The vote being taken again on the name of Mr. Brown which was moved by Mr. Russell, seconded by Mr. Marsh, Mr. Brown was declared chairman for another year.
 The chairman elect returned thanks for being elected to the position by such an intelligent body as the Richmond Hill School Board.
 Mr. Marsh, seconded by Russell, moved that Mr. Switzer be Secretary-Treasurer of the School Board. In making the motion the mover stated he intended no reflections on the past Treasurer, but thought the Secretary could do both positions better than the one, and the accounts would be kept in shape, so no complaints could come from the County Council of extravagance on our part.
 Mr. Switzer thought the principle of keeping the offices separate the correct one.
 Mr. Trench and Mr. Naughton also thought the two offices should be kept separate. Mr. Trench thought the two offices might be held by one person this year. Some confusion, he said, took place at the County Council meeting by the accounts of the Public School and High School being mixed. Mr. Naughton said if such were the case there should be a secretary and treasurer for each, in fact that the Union should be dissolved.
 Mr. Naughton moved, seconded by Mr. Trench, that Mr. Switzer be secretary only.
 On motion being put Mr. Switzer was appointed secretary-treasurer by the casting vote of the chairman.
 On motion the following were appointed Committee of Management:—Messrs. Lynett, Savage, and Glass.
 It was mentioned that chairs were wanted for the public school rooms. Mr. Duncan objected as no visitors went there. On motion of Mr. Marsh, seconded by Mr. Trench, it was carried that one dozen common chairs be procured.
 Minutes of last meeting were, at this juncture, read and approved.
 Communications and bills read.
 A letter from one Howell, whom nobody seemed to know, the substance of which note was enquired into by sending for the High School Master, on motion of Mr. Duncan, and satisfactorily answered. Communication from the High School Master giving the following returns of the High School for January:—Aggregate attendance 862, number on Roll 51, average daily attendance 45. From the Principal of the Public School as follows:—Aggregate attendances of three divisions 2,614, aggregate attendance of the senior division 701, average attendance 36 894, Aggregate attendance Miss Water's room 859, average attendance 45.211. Aggregate attendance Mrs. Wiley's room 954, average attendance 50.211. No of pupils enrolled 155, average attendance of three divisions 132 316. The following supplies were asked for:—A black-board for the room, and two maps of County of York for the two lower rooms.
 A L. Skeele's account against the Public and High Schools for cleaning clocks \$3; M. Teffy, for charge for public school election, \$12 66; Mr. Switzer, for advertising, &c., for public and high schools, \$4 02; T. F. McMahon, supplies for public school, \$4 50, and advertising 50c.
 It was moved and seconded that the above accounts be paid.
 Communication from Mr. Davidson, in regard to municipal grant of public school due by Vaughan, \$3 74.
 Moved by Mr. Marsh, and seconded, that the committee of management get what supplies may be required for the schools.—Carried.
 Bill for wood for high and public schools, amounting to \$112 50, was ordered to be paid.
 Mr. Duncan moved, seconded by Savage, that the Chairman, Secretary, and Naughton be a committee to look after the promotion examinations.—Carried.
 Meeting adjourned to meet first Monday in March, at 4 o'clock.

Z. E. LUTHERAN CHURCH SOCIAL.
 Vellore, Feb. 6th, '89
 Please note the following in your valuable paper and oblige,
J. LAHMER.

The ladies of the Zion E. Lutheran Church, 4th Con., Vaughan, propose holding a social at Mr. Lahmer's on Tuesday evening, Feb. 12th. Entertainment will be given both musical and literary. Proceeds in aid of the Church fund.
Our Washington Letter.
 (From our own Correspondent.)
 Now the winter's wind, ever searching for forgotten paths, sighs and moans through the whiskers of Blaine's enemies. Inside the Normandie, the man from Maine softly taps the letter from General Harrison in his inside pocket, and nurse his triumphant wrath. He watches in the bright figures of a vigorous foreign policy, doubts shall be in all men's mouths, and, best of all, long delayed, supreme revenge. Such things may be. The Secretaryship of State is his, and the entire Cabinet bids fair to be of his selection.
 Indeed if Senator Allison declines the Treasury portfolio, Mr. Blaine will be the only really great Republican in the next Cabinet. Latent calculations on all prudent Republicans, such as Sherman, Edmunds, Everts, Depew, or even the younger men, Quay and McKinley. To save his Cabinet from the accusation of being composed of one great man and an assorted collection of small men, General Harrison must look towards Senator Allison with considerable solicitude. In the meantime, Senator Allison has his own interests to consider. A Cabinet position is a dangerous thing for a politician, a candidate to lose and Senator Allison looks forward to 1892 with fond hopes. It was stated last night that he was in consultation with Mr. Blaine. He answers the suggestion that unless he accepts Iowa will be unrepresented in the Cabinet, by proposing the name of Mr. Clarkson.
 But General Harrison demands a really thoroughly known man, in whom the people, not the politicians, of his party, have implicit confidence. Without Senator Allison in the Treasury considerable delay may occur in securing a man. The other members of the Cabinet selected are Gen. Russell A. Alger, of Michigan, for Secretary of War, and Thomas C. Platt, of New York, and John W. Wadsworth, of Philadelphia, who will divide the Postmaster-Generalship and the Navy portfolio between them. Mr. Platt probably getting the former, where the spoils are greater. This leaves the Warme Miller party out in the cold, although that eminent oleomargarine statesman may accept the office of Commissioner of Agriculture, and thus by the organization of that Bureau as a department become a Cabinet officer. A Pacific coast man will probably be Secretary of the Interior, and General Harrison will follow Mr. Cleveland's example and select his Attorney-General from the South, let us hope with better results than attended his predecessor's selection.
 General Alger is only a name to most people and he represents merely the wealthy men of his State. Mr. Wadsworth is likewise unknown except as a wealthy Philadelphia advertiser. Mr. Platt represents the "boss" system as it flourishes in the great State of New York. These three men in an eminent degree, represent the spoils. Some one must represent the people of the country from Maine to Dakota, and it is no wonder that General Harrison looks with longing eyes toward Allison and cries "Save me Cassius, or I perish."
 Oblivious to the prayers of certain preachers the preparations for the inaugural ball go on right merrily. The souvenir programme is the most beautiful ever issued and the most elaborate. The tickets are also out, together with the complimentary invitations. Eighty-five invitations were issued to the last inaugural ball, but it is supposed that even fewer will be issued this year. The pressure for places in the inaugural procession is simply astonishing. Of course the attendance of the general public from near by cities like New York and Philadelphia will be greatly regulated by the weather. If it is a prospect on March 3rd of being fine the next day, even the concentrated railroad facilities will be unequal to the task of carrying all the people from central points in the east. On the 3rd trains will leave New York for Washington every quarter hour, and it is probable that these trains if made into one solid stream would cover 75 miles of track. Thus a feeble idea of the immensity of the prospective crowd may be gained.
 Mr. Bayard is making a desperate effort to lay the entire blame of the Saramon affair upon the shoulders of Consuls Sewell and Blacklock, but he is now so hopelessly involved in contradictory statements that whatever he might say on the subject could carry very little weight. Poor Mr. Bayard. The least Clerk in his office, annoyed by debt and in fear of discharge, having to face a host of angry creditors, is more happy and more beloved than thou.
 Feb. 1st, 1889.

MILBURN'S AROMATIC QUININE WINE fortifies the system against attacks of ague, chills, bilious fever, dumb ague and like troubles.
 The third page of the Toronto DAILY MAIL is noted for "Want" advertisements. If you want a buy or sell anything. If you want a situation, or a mechanic, a business, make hinery, lodgings, if you have lost or found anything, or if you want to find out where anyone is, advertise in the Toronto DAILY MAIL and read the advertisements on the third page of that paper. The charge is two cents a word each insertion. Address THE MAIL, Toronto, Canada.

Worth Reading.
 One of the most delightful of Susan Coolidge's stories, "Who ate the Queen's Luncheon?" once the February Wind AWAKE, with a beautiful frontispiece by Garrett. Another short story as singularly humorous, a valentine story, is entitled "The Apple of Discord," and will entertain all the grammar school boys and girls; it is by Georgiana Washington. "Princess Mayblossom" by Annette Lyster, with its eight pictures, is a daily fairy story. "Children in Italian Sculpture," by Mabel F. Robinson, is a model art-paper for young people, interesting pictures. The serial stories by J. T. Trowbridge and Margaret Sidney are very popular for family reading—a genial happy home element pervades all; Phrosie's "dragons" are irresistible. "The Tupper Children" is a short story of the old war-days by Miss A. G. Plympton, full of dash and fun. "Forty-eight Hours a Day" will interest all astronomically-minded young folks and their elders as well. "Nonsensical Animals" is very amusing and affords a hint for home-entertainment. "An Old-Fashioned Boat" is an interesting chapter in the progress of invention, by Ernest Ingersoll. Mrs. Sallie Joy White in her chapter on "The Use of the Oven" tells how pot-tees are baked in the Boston public schools. Mrs. Godard Orpen gives the history of the famous Spanish crowns pearl "Pelegrina." Prof. Sturt, in his geological series, describes some of the gnawings of "The Tooth of Time." In the new department, "Men and Things," are all sorts of good original anecdotes and breezy "short talk." The poems of the number are many and good, the Ramona, Post-Office, Puzzle and C. Y. F. K. U. sections very full and entertaining. Only \$2 40 a year. D. Lothrop Company, Boston.

A Good and a Blessing.
 A boon and a blessing to mankind in Hayard's Yellow Oil, the great pain destroyer and healing remedy for external and internal use. Yellow Oil cures all aches and pains, rheumatism, lame back, sore throat, croup, deafness, cramps, contracted cords and lameness. Procure it of your druggist.
 If you want to buy or sell a Farm, advertise in the Toronto WEEKLY MAIL. That paper reaches 100,000 farmers' homes every week, and your advertisement should meet the eye of someone who wants to purchase. Advertisements of this class are inserted in the Toronto WEEKLY MAIL for Five Cents a word each insertion, or Twenty Cents a word for five insertions. Address THE MAIL, Toronto, Canada.

WORTH READING.
 HOLLOWAY'S OINTMENT AND PILLS—As winter advances and the weather becomes more and more inclement and trying the earliest indications of ill-health must be immediately checked and removed, or a slight illness may result in a serious malady. Relaxed and sore throat, quinsy, influenza, chronic cough, bronchitis, and most other pulmonary affections will be relieved by rubbing this cooling Ointment into the skin as nearly as practicable to the seat of mischief. This treatment, simple yet effective, is admirably adapted for the removal of these diseases during infancy and youth. Asthmatic invalids will derive marvelous relief from the use of Holloway's remedies, which have wonderfully relieved many such sufferers, and re-established health after other means had signally failed.

North Toronto.
 The annual S. S. teachers' meeting of Charles St. Presbyterian Church was held Monday night, and there was a full turnout. The secretary's report showed a marked improvement in the number and attendance. The S. S. missionary receipts for the year amounted to \$313, being over \$100 in excess of last year. The re-election of the able Superintendent, Mr. W. E. Wiley, and the energetic Secretary and Treasurer, Mr. F. N. W. Brown, shows that the school know they have the right men in these offices. Mr. H. Ferguson was elected as librarian. This cause is in a very satisfactory condition, the pastor and people all pulling the same direction.
 R. E. Comp. John Fisher installed the following officers of York Chapter, No. 62, on Thursday night, 17th inst.—Ex. Comp. J. W. Hull, Z; John Burke, I. P. Z.; Wm. Boif, H.; Geo. Reeves, J.; Comp. R. F. Williams, S. E.; Geo. Garrett, S. N.; Ex. Comp. John Fisher, Treas.; Comp. J. H. Mackenzie, P. S.; Geo. Brown, S. S.; Joseph Madden, J. S.; Ex. Comp. John Addome, Master of Ceremony; Ex. Comp. Hodgins, J. McCarter, Lumberstone and Comp. Joseph Francis, Master of Veils. Among the visiting companions were:—R. E. Comp. C. W. Postlethwaite, District Superintendent; R. E. Comp. T. F. Blackwood; Ex. Companion W. S. Robinson, Wm. Best, B. Allen, Geo. Vair and other members of St. Paul's Chapter, Ex. Comp. K. Oliver, King Solomon's Chapter.

U. sections very full and entertaining. Only \$2 40 a year. D. Lothrop Company, Boston.

Worth Reading.
 One of the most delightful of Susan Coolidge's stories, "Who ate the Queen's Luncheon?" once the February Wind AWAKE, with a beautiful frontispiece by Garrett. Another short story as singularly humorous, a valentine story, is entitled "The Apple of Discord," and will entertain all the grammar school boys and girls; it is by Georgiana Washington. "Princess Mayblossom" by Annette Lyster, with its eight pictures, is a daily fairy story. "Children in Italian Sculpture," by Mabel F. Robinson, is a model art-paper for young people, interesting pictures. The serial stories by J. T. Trowbridge and Margaret Sidney are very popular for family reading—a genial happy home element pervades all; Phrosie's "dragons" are irresistible. "The Tupper Children" is a short story of the old war-days by Miss A. G. Plympton, full of dash and fun. "Forty-eight Hours a Day" will interest all astronomically-minded young folks and their elders as well. "Nonsensical Animals" is very amusing and affords a hint for home-entertainment. "An Old-Fashioned Boat" is an interesting chapter in the progress of invention, by Ernest Ingersoll. Mrs. Sallie Joy White in her chapter on "The Use of the Oven" tells how pot-tees are baked in the Boston public schools. Mrs. Godard Orpen gives the history of the famous Spanish crowns pearl "Pelegrina." Prof. Sturt, in his geological series, describes some of the gnawings of "The Tooth of Time." In the new department, "Men and Things," are all sorts of good original anecdotes and breezy "short talk." The poems of the number are many and good, the Ramona, Post-Office, Puzzle and C. Y. F. K. U. sections very full and entertaining. Only \$2 40 a year. D. Lothrop Company, Boston.
