HISTORY OF BRITISH COLUMBIA.lumbia, by Hubert Howe Bancroft, unset of this author's works in 39 volumes can now be obtained separately, complete what was so lately a vast wilderness, with only the crudest materials to work with, and make of it a complete and finished parrative, as Mr. Bancroft has done, interweaving with the more substantial political and industrial develop ments those pleasing incidents and romantic episodes connected with the wild and roving life here encountered. Mr Bancroft's pictures, in this volume, are drawn largely from life. Visiting the country in person he came into close contact with the old retired officers of the Hudson's Bay Company, most of whom have now passed away. From their experiences he not only obtained a large mass of information which other wise would have passed out of existence, but he was enabled to fill his work with vivid life and detail which in no other way could have been possible. Besides being a masterpiece of historical investi gation, it is full of that thrilling interest which attaches to the subjugation and settlement of wild countries, which here have not their parallel in history. CATARRH.

CATARRHAL DEAFNESS-HAY FEVER A NEW HOME TREATMENT.

Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nose and custachian tubes. Microscopic research, however, has proved this to be a fact, and the result of this discovery is that a simple remedy has been formulated whereby catarrh, catarrhal deafness and hay fever are permanently cured in from one to three simple applications made at home by the patient once in two weeks. N.B.—This treatment is not a snuff or an ointment; both have been discarded by reputable physicians as injurious. A pamphlet explaining this new treatment is sent on receipt of ten cents by A. H. Dixon & Son, 303 West King Street, Toronto, Canada.—Toronto Globe.
