Only one-fourth of the consulates have been filled by Republicans, although the salaries average \$2,500 per annum. In the third class only three out of twenty-four have been filled. The salaries in this class are \$1,000 per annum and fees. There have been no changes in the eighty-five consulates of the smaller

When President Harrison selected that large, loose jointed individual, whose retirement from politics had been supposed to be final, for his Secretary of the Treasury and brought him again before a public that had long forgotten bim, the small fry Republican politicians were unqualified in their delight. There was to be, they thought a good old fashioned, take-everything, in-sight administration of the Treasury department. But a change seems to have come over the Secretary since he was Senator. A NEW DEPARTURE IN MEDICINE.

The four greatest medical centres of the world are London, Paris, Berlin and Vienna. These cities have immense hospitals teeming with suffering humanity. Crowds of students throng the wards studying under the Professors in charge. The most renowned physicians of the world teach and practice hore, and the institutions are storehouses of medical knowledge and experience. With a view of making this experience available to the public the Hospital Remedy Co. at great expense secured the prescriptions of these hospitals, prepared the specifics, and although it would cost from \$25\$ to \$100 to secure the attention of their distinguished originators, yet in this way their prepared specifics are offered at the price of the quach patent medicines that flood the market and absurdly claim to cure every ill from a single lottle. The want always felt for a reliable class of domestic remedies is now filled with perfect satisfaction. The Hospital Remedies make no unreasonable claims. The specific for Catarrh cures that and nothing else; so with the specific for Bronchitis, Consumption and Lung Troubles: Rheumatism is cured by No. 3, while troubles of Digestion, Stomach, Liver and Kidneys have their own cure.
