CATARRH.

CATARRHAL DEAFNESS-HAY FEVER

A NEW HOME TREATMENT. Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nose and eustachian tubes. Microscopic research, however, has proved this to be a fact, and the result of this discovery is that a simple remedy has been formulated whereby catarrh, catarrhal deafness and hay fever are permanently cured in from one to three simple applications made at home by the patient once in two weeks. N.B.—This treatment is not a snuff or an ointment; both have been discarded by reputable physicians as injurious. A pamphlet explaining this new treatment is sent on receipt of ten cents by A. H. Dixon & Sox, 303 West King Street, Toronto, Canada.—Toronto Globe.

Sufferers from Catarrhal troubles should arefully read the above.
