NEW ADVERTISEMENTS.

THIS PAPER may be found on file at Geo. Advertising Bureau 10 Spruce St. where advertising contracts may be made for it IN NEW YORK

CATARRH,
CATARRHAL DEAFNESS—HAY FEVER
A NEW HOME TREATMENT.

Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nose and eustachian tubes. Microscopic research, however, has proved this to be a fact, and the result of this discovery is that a simple remedy has been formulated whereby catarrh, catarrhal deafness and hay fever are permanently cured in from one to three simple applications made at home by the patient once in two weeks.

N.B.—This treatment is not a snuff or an ointment; both have been discarded by reputable physicians as injurious. A pamphlet explaining this new treatment is sent on receipt of ten cents by A. H. Dixon & Son, 303 West King Street, Toronto, Canada.—Toronto Globe.

Sufferers from Catarrhal troubles should carefully read the above.

Local and General.

Legal suits made at the Concrete.
Very dressy things in dress goods at the Concrete.

The favorite family grocers—Atkinson & Switzer.

WASH embroidery silks and other kinds for sale at the HERALD store.

An asphalt pavement is being put down on Yonge Street in the vicinity of Wright's Carriage Works.

Corn 10 cts. per can, Plums, 10 cts. per can, Peaches, 20 cts. per can, Tomatoes, three cans for 25 cents at the Concrete.

Quite a number of the Wanderers bicycle club, of Toronto, passed through here on Saturday afternoon last on an excursion to Lake Simcoe.

It is expected that the Markham senior base ball club will visit this place on Saturday, Aug. 2nd, to play a match with the Richmond Hill team.

The Richmond Hill base ball team was defeated by Unionville on the latter's grounds on Thursday last by a score of 46 to 5. A poor day for runs.

FOR SALE.—6,000 Mails, Empires and Globes which will do for house cleaning or wrapping purposes if for nothing else, for sale during this and the next week at 30 cents per hundred.

COME to the HERALD Book and Cheap Fancy Store for your books, stationery, embroidery, silks of all kinds and shades, Berlin, zephyr, Andalusian and Saxony wools in all colors.

SOMEWHAT PREVIOUS—We are informed that snow fell here on Saturday last. We are not prepared to state it for a fact, however, as it did not come to our observation, neither did we hear the merry ring of the sleigh bells.

Nearly all the farmers in this vicinity have been successful in getting their hay crop stored away in prime condition. Among the number are Mr. John Duncan with 70 acres and Messrs. Russell with 140 acres. They are now busy with their wheat harvest.

Picnic.—A very pleasant family picnic composed of the families of Messrs. Trench, Atkinson and Sanderson was held at Bond's Lake yesterday. We believe the occasion was the first anniversary of Mr. Will D. Atkinson's marriage. We take much pleasure in wishing Mr. and Mrs. A. many happy returns of the day.

CANNING RHUBARB IN COLD WATER.—Cut it up and prepare as for pies, fill your can or bottle and pour cold water on to overflowing, so as to exclude all air. Put on the lid tight and set in a cool place. I used some three weeks ago put up last summer. I found it perfect in flavor. It required little sugar and made excellent pies.

COINCIDENCE.—Last week we expressed thanks for a quantity of new potatoes. On looking over some copies of old HERALDS the following came to our notice in a paper of July 17th, 1874, just 16 years ago last Thursday:—"Mr. Frank McConaghy, shoemaker of this village, has the earliest and best potatoes in the neighborhood. At least our experience of the sample says so."

A FREE TRIP TO EUROPE—The Publishers of THE CANADIAN QUEEN will give a free trip to Europe to the person sending them the largest number of words constructed from letters contained in the name of their well-known Magazine, "THE CANADIAN QUEEN." Additional Prizes consisting of Silver Tea Sets, Gold Watches, China Dinner Sets, Portiere Curtains, Silk Dresses, Mantel Clocks, and many other useful and valuable articles will also be awarded in order of merit. Webster's Unabridged Dictionary to be used as authority in deciding the contest. This is a popular plan of introducing a popular publication. Every one sending a list of not less than ten words will receive a present. Enclose thirteen 2c. stamps for illustrated Cata-logue of presents and three months' trial subscription to THE QUEEN. Address—THE CANADIAN QUEEN, Toronto, Ont.

STRUCK BY A BRICK.—A Gallanough, who lives at Thornhill, was passing the old Globe office yesterday morning when a brick from the front wall, which the workmen were tearing down, fell on his head, inflicting a ugly, but not dangerous, scalp wound. The old gentleman's injuries were attended to in Urquhart's drug store, and the contractors who are pulling down the building were notified of the accident, and will take measures to prevent such occurrences in future.—Wednesday's Empire.

RUNAWAY.—As Mr. Harry Hopper was driving into the village yesterday on a load of hay, the bolt attaching the whiffletrees to the tongue broke, allowing them to drop on the horses heels and frighten them. They ran down Centre Street to Yonge Street where they came in contact with a telegraph pole, which had a stopping tendency, when they were easily captured, little the worse for their run. Mr. Hopper was pulled off the load when they started but was not hurt.

PLEASANT TIME.—The residence of Mrs. Wm. Powell was a scene of mirth and pleasantness last evening, when this hospitable lady tendered an evening's entertainment to the members of the Fire Brigade Band. The boys were there in full force and after they had partaken of the many good things provided, enjoyed a musical programme and a generally social time, after which they returned home, much pleased with their evening and highly praising Mrs. Powell's generosity.

ANOTHER RESIDENT GONE.—It is with much regret we have to-day to announce the death of Mrs. Sarah Young of typhoid fever after an illness of four weeks. Mrs. Young was born in the township of Vaughan on the 14th April, 1843; she leaves three children, one boy and two girls. It is just about ten months since the death of her late husband, the much esteemed Alexander Young. Her remains were conveyed to the Presbyterian burial ground at 2 o'clock to-day; the Rev. Mr. Percival conducted the funeral obsequies.

AUGUST WIDE AWAKE.—For several years Wide Awake has from time to time given some beautiful stories of a highly fanciful nature from the pen of Miss Mary E. Wilkins; one of the best appears in the August number, entitled "The Princess Rosetta and the Pop-Corn Man," with seven illustrations by Garrett. Another charmingly fanciful story in the same number is by Susan Coolidge and is called "Three Little Candles." As a contrast come "The Hat of the Postmaster," another Nassau story by Mrs. Fremont, "Cy Hops's Victory," the story of a Canadian Indian boy at school, by H. C. Chipman, and Miss McLeod's Aedean tale, "The Story of Bloody Creek." Perhaps one of the best things in the number is a short paper by Louise Stockton, "A Game of the Senses," in which she suggests the development possible to the senses through the using of them. The "helpful article" is by Mrs. Sallie Joy White, on "The Visiting Mender," though the small girl of the household may prefer "Home-made Furniture for Doll Houses" by Mrs. Shapleigh. There is a fascinating group of Lily articles: "The American Water Lily" by Grant Allen, "The Queen Lily" by Amanda B. Harris, and a poem, "Water Lilies," by Frances L. Mace. "The last of the Wampanoags" by Pamela McArthur Cole, gives an account of a family directly descended from Massachusetts, that lives in Lakeville, Mass., with the portrait of the Princess Teweleska. "The Confessions of an Amateur Photographer," by Alexander Black, relates to "Dark Deeds"; the photograph, "A Lake Party," by Prof. Newton, is very beautiful. A delightful illustrated literary paper is contributed by Mrs. Frances A. Humphrey, entitled "Early Days of Lady Anne Lindsay," the author of "Auld Robin Gray." Mr. Ward's Serial, "The New Senior at Andover," which is attracting so much attention, is well worthy the interest it excites; while the extravaganza, "The Quest of the Whipping-Boy," is good "light reading." "Men and Things" as usual gives good original anecdotes and talks, and the "Margaret-Patty Letter" is worth the while of young people who are careless of grammar and spelling in conversation and letter writing. The Prize Anagram, "The Perplexities of a Crynaegle," is translated in this number. Wide Awake is \$2.40 a year. D. Lothrop Company, Publishers, Boston, Mass.

The Toronto and Weston Street Railway.

"The Weston, High Park and Toronto Street Railway Company, limited," is applying for incorporation under the Ontario Street Railway Act.

The objects of the company are:
Constructing, operating and maintaining double or single lines of street railway in Toronto, West Toronto Junction, Weston and the township of York, to purchase, lease, exchange or acquire by gift or otherwise any real or personal property, and any rights or privilege which the said company may think necessary or convenient for the purposes of its business, and to construct any buildings or works necessary for the purposes of the said company. And to amalgamate with any other company.

The chief place of business will be at Toronto.

The amount of the capital stock of the company is to be \$100,000.

The number of shares is to be 1000, and the amount of each share \$100.

George Gurd, James Haverson, V. B. Wadsworth, J. S. McMurray, A. D. Perry, L. L. McMurray are to be the first directors of the company. The solicitors are Perry & Reeves.

CATARRH and ASTHMA were not so readily controlled and cured before T. A. SLOCUM'S OXYGENIZED EMULSION OF PURE COD LIVER OIL came into the market. Every druggist is pleased to handle it for they all know its value. For tightness of the chest and difficult breathing it has no equal.

SOCIETY NOTES.

Father John Teefe, of Toronto, is visiting his parents in this village.

Miss Annie McLaughlin, of Woodstock, is visiting at Mr. F. McConaghy's.

Mr. John Palmer is attending the races being held at the Woodbine, Toronto.

Dr. Opie Sisley, of Ellesmere, was the guests of Mrs. Sterling on Sunday last.

Mrs. Benton, of Toronto, has been staying with her sister, Mrs. Robt. Holland.

Miss Sadie Morgan has gone to Port Dover to spend a few weeks with relatives there.

Mr. Emerson Porter, of Simcoe, and Mr. L. C. Kiddell, of Midland, were visiting in this place on Tuesday last.

Toronto.

Sir Thomas Galt, Chief Justice of the Court of Common Pleas, has been duly sworn in as Administrator of Ontario during the absence of Sir Alexander Campbell in Europe.

Messrs. Robert Hay, ex-M. P., and Walter Cassels, two of Toronto's best known and most respected citizens, are ill and not likely to recover. Both gentlemen are over eighty years of age.

The Post-Office authorities have notified the public that papers left on the top of street letter boxes are not by such acted posted. Only such as are put inside the boxes are regarded as posted, and the carriers pay attention to those placed outside only when it is convenient for them to do so.

At last the city authorities have selected a couple of places where boys and may bathe, clad only in nature's garb, without the risk of arrest as disorderlies. One is a sand bar on the west end of the island, the other a sand bar near the foot of Bathurst street. The order now will probably be to arrest the curious spectators as disorderly.

It was again rumored that Dr. Wild had resigned the pastorate of Bond street Congregational Church and would go abroad, but the rumors were not traceable to a reliable source. The congregation has unanimously resolved to provide the doctor with an efficient assistant at a good salary and the utmost harmony prevailed.

Mr. Alexander Alcorn Macdonald, who was united in marriage to Miss Annie Charity Ballantyne Leitch, daughter of the late George Leitch, the well-known railway contractor of Balsam Lake, leaves with his bride for the "Polynesian" for Liverpool and will proceed thence to Breslau, Germany, where he will pursue his studies for two years longer.

William Griffen, of Wilton avenue, had to perform the painful duty of burying his son and his father, who were both drowned at Bolton. The little fellow, while standing on a log at the river's edge, fell in, and the aged grandfather at once made a brave but unsuccessful attempt to save him. Willie was eight years of age and his grandfather in his 79th year.

The Rest provided at the Island by the Young Women's Christian Guild is rapidly filling up. At the meeting of the Guild discussed the work of the Consumers' League of the New York association of ladies, formed to discontinue late shopping. This League makes notes of establishments which provide the best accommodation for their employees and patronizes only those establishments.

FROM OUR EXCHANGES.

The tollgate recently moved from Lee's Hotel to the west side of Jane-street, Junction, was burned on Saturday night. The fire is supposed to have been the work of an incendiary.

Nominations were made on Monday for the vacancy in the Town Council, Junction, caused by the resignation of Councilor Peacor. These gentlemen were nominated: A. McFarlane, J. H. Hoover, J. D. Booth. The election will take place on Monday next.

Certain members of the Dominion House objected to the circulation of printed copies of Mr. Taylor's Alien Labor Bill among the people, because it might give offence to the Americans. In view of the fact that the Americans are trying all they can to give offence and annoyance to Canadians, the considerate and deferential attitude of these members is as 'umble as Heep's.

A correspondent to the Meaford Mirror gives the following information: "The Jesuit quest being a live one, I know it will interest your readers to have a list of the countries from which that order has been expelled, and the year or years when said expulsions took place. I quote from Rev. Dr. W. M. Blackburn's History of the Christian Church, published A. D. 1879: France in 1594, 1764, 1831, 1845; Venice, 1607; Holland, 1708; Portugal, 1759, 1834; Spain, 1767, 1820, 1835; suppressed by Clement XIV., 1773; expelled from Belgium, 1816; Russia, 1820; Austria, Sardinia and other states, 1808; Italy and Sicily, 1860; and finally suppressed in Germany in 1872."

THE TRUE ANSWER.

One of the students at Davidson College, who was too lazy to do anything right, was in the habit of cleaning out his lamp chimney by running his finger down it and twisting it around. After he had cleaned it out in this particular manner one day not long ago, a fellow student took it up and carried it to the residence of one of the professors with the inquiry:
"Why is it that this chimney is smoked just up to this point and no further?"
The learned gentleman entered into an elaborate and scientific explanation why it was, arguing with great lucidness, and citing various authorities to show the correctness of his reasoning. When he had finished the student said to him:
"No, sir, you are wrong."
"Why is it then?" inquired the professor.
"Because the fellow's fingers were not long enough to reach any farther," replied the student.

DEATH.

CASELY.—In the Township of Markham, on Sunday, July 20th, Jane, wife of Mr. Clement Casely, in her 70th year.

YOUNG.—In Richmond Hill, on Wednesday, July 23rd, Mrs. Young, relict of the late Alex. Young, in her 48th year.

OUR WASHINGTON LETTER
(From Our Own Correspondent.)

Senator Allison, who is chairman of the Senate committee on Appropriations, has just made a statement which cannot fail to have an important effect upon several bills now pending. Mr. Allison says the appropriations for the present fiscal year make a total of \$460,000,000, while the estimated receipts, including those from the Post Office department, are only \$450,000,000. This statement, which does not include any appropriation for the new dependent pension law, has opened the eyes of the party leaders to the fact that it is necessary to call a halt on appropriations. It is thought that this showing will be certain to defeat the River and Harbor and the Fortification bills, and it will unquestionably put the ship subsidy bills, which have already passed the Senate, in jeopardy.

And that is not all. It has caused the sugar men to begin a fresh fight in the hope that the Senate may decide to restore the duty on sugar in the tariff bill. Quite a respectable number of Senators have been in favor of doing it anyway, and now that it can be shown that the Government needs the revenue, thus raised, there is no telling what the outcome may be.

A letter from Senator Frye to Secretary Blaine, criticizing the latter gentleman's reciprocity idea, as far as it relates to admitting sugar free from Cuba and Porto Rico, was made public here this week, and it attracted a great deal of attention. Mr. Frye says that Spain would not allow us to send anything free into Cuba in return for admitting her sugar free, or if she would, he requests Mr. Blaine to furnish him with a list of what we might send to Cuba free. Mr. Frye seems to have discovered a weak spot in the reciprocity armor.

What a condition the political fences in the Congressional districts throughout the country must be in, when the number of "pairs" in the House reaches the unprecedented number of 122. Verily, he who would get a Congressional nomination must take off his coat and hustle for it, even if the thermometer does dance around in the nineties.

The Senate is still undecided as to what it will do with the Federal Election bill. The republican caucus held this week agreed, by a vote of 25 to 3, to change the Rules of the Senate so as to cut off debate after "a reasonable time." This was regarded as a preliminary step toward the passage of the Election bill, and was considered necessary by the party leaders in order to prevent the threatened democratic filibustering against the bill; but as only 29 out of the 47 republican Senators attended the caucus, and two of them voted against changing the Rules and two declined to vote, it was decided to defer the matter to a later caucus at which it was hoped there would be a larger attendance. It is claimed that there are five republican Senators who will vote against the bill, but this must be taken with a grain of allowance.

Mr. Harrison must have been waiting for the silver bill; at any rate he signed it almost as soon as he got it. By the way, there are some very quiet whisperings to the effect that certain prominent Senators who had indicated their intention of what the conference committee would report, made a great deal of money by speculating in silver. Of course such a thing might easily have been done; the difference in the price of silver two days before the conference report was adopted and upon the day it was made public was several cents an ounce; but I am not prepared to make the positive statement that it was done.

Preliminary to the passage of the bill making an appropriation to pay 636 additional clerks for the Pension office, the House indulged in an acrimonious discussion during which the charge that Commissioner Ream favored a certain firm of pension attorneys because of his being under financial obligations to its head, was brought up again by Representative Cooper, who first made the charge and offered a resolution authorizing an investigation, which resolution has not yet been acted upon by the Committee on Rules to which it was referred. Commissioner Ream should himself ask to have this charge investigated; it has been twice made on the floor of the House and published throughout the country, and nothing but a rigid investigation will satisfy the disinterested people of the country.

There seems to be a hitch in the tariff program in the Senate. The bill being the "unfinished business" might have been called up any day of this week, but it has not been, and people are beginning to ask why?

The correspondence between the State Department and Great Britain on the Behring Sea controversy, which the Senate by resolution has called for, is said to be of such a nature that Mr. Harrison will decline to make a portion of it public until some conclusion is reached in the negotiations now going on.

July 18th, 1890.

Saved From a Snake by her Dog

While gathering dandelions in the woods near her home a few days ago little Mary Buckham, the 15-year-old daughter of Hiram Buckham, a well-to-do farmer in the upper part of Northampton county, was chased by a huge snake, and was only saved from its fangs by the timely interference of the family dog. The little girl had gathered a handful of flowers when a huge whitehead snake darted out from the trunk of a fallen tree.

The child ran toward the farmhouse with the writhing serpent in hot pursuit. Just before reaching home the snake was at her heels, and her mind was almost gone. The big family bulldog jumped the yard fence, and started to the rescue. The snake fastened its fangs in one of the dog's hind legs and coiled itself around his body. The dog succeeded in getting hold of the snake's throat, and then the conflict for life was soon over. Since the occurrence the girl has been troubled with nervous prostration.

The snake when measured was over eight feet long, and its larger body was more than a man's fist.

"See here," said an angry house wife, "I thought you had me eight pounds of ice yesterday?"
"You can't fool me," said the woman; "I had it weighed and there was only five pounds."
"Well," was the crushing rejoinder, "don't the tongs weigh anything?"

"John," said Mrs. J., "you were talking all night in your sleep about a jack-pot. What is a jack-pot?" John (scornfully)—"You know what a jack-rose is, I suppose? Well, they can grow in pots, can't they?"

TURKEY RED embroidery cotton and embroidery silks in all shades for sale at the HERALD Store.

It costs you nothing to try it, and a radical cure is yours. Write for details. Free Post Office. Address: H. G. ROOT M. C., 188 West Adelaide St., Toronto, Ont.

ST. LAWRENCE CANALS.
RAPIDE PLAT DIVISION.

NOTICE TO CONTRACTORS.

SEALED TENDERS addressed to the undersigned, and endorsed "Tenders for the St. Lawrence Canals," will be received at this office, until the arrival of the Eastern and Western mails on Wednesday, the 23rd day of July next, for the construction of a lift lock, weirs, etc. at Morrisburg, and the deepening and enlarging of the Rapide Plat Canal. The work will be divided into three sections, each about a mile in length.

A map of the locality, together with plans and specifications of the respective works, can be seen on and after Wednesday the 23rd day of July next, at this office, and at the Resident Engineer's Office, Morrisburg, where printed forms of tender can be obtained.

In the case of firms there must be attached to the tender, the actual signatures of the full name, the nature of the occupation and residence of each member of the same, and further an accepted cheque on a chartered bank in Canada for the sum of \$6,000, must accompany the tender for Section No. 1, and an accepted cheque on a chartered bank in Canada for the sum of \$2,000 for each of the other sections.

The respective accepted cheques must be endorsed over to the Minister of Railways and Canals, and will be forfeited if the party tendering declines entering into contract for the works at the rates and on the terms stated in the offer submitted. The cheques thus sent in will be returned to the respective parties whose tenders are not accepted.

This Department does not, however, bind itself to accept the lowest or any tender.

By order,
A. P. BRADLEY,
SECRETARY
Department of Railways and Canals,
Ottawa, 13th June, 1890.
