The Liberal.

THURSDAY, JULY 15th, 1880.

Poetry.

MY WIFIE.

'Oh! there's nane like my wifie, my dear There's nane like my ain little wife to

There's some may be fairer, but still there's Though hamelier beauty to my loving e'e. In the face of my dearie, so kindly and choerie

.My wifie's the standard of beauty to me, Oh ! there's nane like my wifie, my dear There's nane like my sin little wifie to Some lasses

courtin. years flee': My wifie gets sweeter the langer I ken her, As she tries to make earth more like heaven to me.

Oh! there's nane like my wifie, my dear little wifie. There's nane like my ain little wifie to

Some love while the sunshine beams full on the loved one-Come weal or come wee they'll be true till they dee :

Yet the first cloud of sorrew brings coldness like winter;
But trouble makes wife's love warmer to me I Oh! there's nane like my wifie, my dear

There's naue like my ain little wific to Some attract for an hour, but, oh! they soon tire me! And my heart leaps again when my wife

I see; The gravest society is dreary without her, Without her no pleasure is pleasure to

Oh! there's nane like my wifie, my dear little wifie. There name like my ain little wifie to

Name can tell but mysel the full worth of And then to reward her, on ! what can I

My heart's a' her ain, an i a've nay mear to But I'll tell her again there's nane like her to me.

Oh ! there's nane like my wifie, my dear little wifie,
There's nane like my ain little wifie to

Local aud Other Intelligence.

Haying will soon be over. Hay is a splendid crop this year.

Berrying is the order of the day. Garden Party.-A Garden Party will be given under the anspices of the Ladies' Aid of the Presbyterian Church on Saturday evening at Dr Langstaff's. The Ladies carnestly court a very large attendance. The admission fee will be 10 cents.

. Still Progressing. - The new Palmer block is still going on toward completion. It is really a very fine building, and when finished will be quite an addition to the appearance of this part of the village.

Straying. - Last Saturday noon a horse was carelessly wandering on Yonge Street, apparently looking for an owner. If our pound-keeper, who is so "exceedingly" anxious to perform his duties satisfactorily, had been around, that animal would have been impounded.

The New Churches.—Rapid progress is being made in the church building movement of this village. The Presbyterian Church has the basement windows in, and the walls will soon reach the ground floor. The walls of the Methodist Church are rising rapidly. The window frames are in, and the brickwork is being very favorably proceeded with.

Corrections .- Last week one or two typographical errors crept into the Liverat. In the account of the presentation and address to Rev. J. W. McCallum, read Mrs. Grant instead of Miss Grant. And the person who purchased the mover donated to the Methodists through Mrs. Elliott (not Mr. Elliott, as stated) was purchased by Mr Morteon, instead of Mr. Morrison.

High School Picnic.-Last Saturday a number of the young people of the village, chiefly composed of teacuers, pupils of the High School and others, went to Bond's Lake to recreate themselves at a picnic. Proctor's covered 'bus was secured and was filled inside, and some were compelled to ride on top. The party arrived at the lake about three o'clock, and although the heat was excessive, still they amused themselves at swinging, croquet and boating. At six o'clock they sat down to tea, and about half-past eight the party started for home, having spent a very enjoyable afternoon.

Personal. - Hon. Alexander McKenzie and Mr. D. Blain visited the Fatterson | Hay.... Agricultural Works on Wednesday last. They were conducted over the premises by P. Patterson, Esq., M.P.P., for West York, and expressed themselves highly pleased with the establishment and its work. Signs of an abundant harvest are making themselves manifest in the great rush of business at these works, most of the hands being employed from daylight until dark, and often a good part of the night. No doubt this rush is owing, to a great extent, to the successful competition of these works with all the leading firms of the Province, baving obtained First Prizes and Diplomas for their Implements at all the exhibitions and matches were they have competed. In point of excellence and machinery, Patterson Agricultural Works stand second to none in the

Wanted .- Last week's Markham Econ omist advertises for young men and boys to take a stand at one or two prominent unoccupied corners and spit tobacco juice, use slang and blasphemous expressions, pass remarks upon pedestrians, etc. Richmond Hill had a few juveniles who used to line the aidewalk in front of the Masonic Hall on Sanday evenings, but last Sunday evening they marched off like "good boys," which act has put a feather in their cap that will last as long as memory. If we had the kind of article that the Economist advertises for, we would ship it immediately.

Advertising .- The lack of advertising, says the Monetary Times, is one of the chief causes of business failure. There are business men who 'don't understand the value of advertising. They don't see the direct connection between advertising and the entrance of a customer, or the demand for any particular article. They also, with a self importance which is amusing, fancy their business is known to the whole com. munity, changing as that community is to an extent which they have no conception of, The principal upon which business men should act is, advertise the truth. If you have a good thing let the people know it. Furthermore, never let an advertisemen get stale.

That Professional.—A very useful and much-needed professional, who hails from Nobody-knows-where, entered our midst the other day. At first sight there would be a diversity of opinion as to his professional career. He says, however, that he is an adept in his line of art, and that his name begins with a great big W and ends with a wee, small e. It isn't weasle! Well, to make a long story short, this very useful and much-needed professional took upon himself to measure the leagth and the breadth and the height and the depth of the sidewalk last Saturday afternoon. Being satisfied with his discoveries, he decamped about 11 o'ctock on Saturday night, and has not been heard of since.

DEATH.

On Monday, July 12th, at Karns City, Penn., U.S., Mrs. H. Colbourn, formerly of Oak Ridges, age about 33 years.

CANADIAN NEWS

The new penitentiary for the Maritime Provinces, at Dorchester, is now ready for occupation and the convicts of New Brunswick and Nova Scotia will be removed to it this week.

The political friends of Hon. Hector Langevin are getting up a petition to the Queen praying that a more prominent rank may be conferred upon the gentle. man of \$32,000 fame.

The case for the defence in the Oka trial was continued at Aylmer Monday five witnesses being examined. Chief Joseph was subjected to a long and search ing cross-examination, but without damage to his testimony.

The steamer City of St. Catharines was struck by the American barge George A. Morse in Lake Huron Monday morning, and went to the bottom in less than if teen minutes. The passengers and crew, numbering about fifty, were all saved and brought to Port Samia that night by the tug Rush, which, fortunately, was near by at the time of the disaster.

There was no disturbance at Montreal Makey, the Orangemen having assem-bled in Mount Royal Cemetery at an early hour in the morning and preformed the last rites over Hackett without disfter laying the corr Mot! - Oh! dear, dearer, dearest, its er-stone of the Hacket monument the party quietly dispersed. There were large gatherings at Hamilton and elsewhere, and the day passed off peaceably.

BEWARE OF THEM .- We are informed that a number of quack dentists are travelling through the country doing very inferior work, some of which, when delivered, is utterly worthless. Parties should be aware of all such, as it is always best to get work done with regular practitioners who are known to be reliable and responsible. The public may rely upon it when a professional man or workman of any kind travels from door to door for orders, and offers to take jobs for less than responsible men can do them, there is something wrong, and if they give their patronage to such, they are sure to be deceived or cheated. This seems to be a lesson, however, which many people are flow to learn, even from experience.
