TEMPERANCE REFORM.

We are glad that temperance principles are advancing among all classes of people. We believe in moral suasion as far as it is successful, and where moral suasion is no use we believe in legal prohibition. We believe in uniting all classes in the great work of Temperance reform—the rich and poor, the great and small, the young and old, the clergy and laity, the prohibitionist and moderate drinker—as far as they are willing to advance its principles. There has been a society formed in Toronto, with Rev. D. J. McDonnell as its president and other good, sound men as officers, the aim of which is to unite the influence of all who are desirous of seeing Intemperance driven from the face of the earth, regardless of their opinion as to prohibition or the moderate use of liquor, so long as they discountenance intemperance. The societies object is the prevention and suppression of intemperance. This society has issued four pledges on cards, to any or all of which they invited signatures, which are as follows:

1. I hereby agree not to treat or be treated to intoxicating liquors so long as I hold this card.

2. I hereby agree not to drink intoxicating liquors during business hours, except at meals so long as I retain this card.

3. I hereby agree not to drink as a beverage any intoxicating liquors stronger than wine or beer, and then only in moderation, so long as I hold this card.

4. I hereby agree not to drink as a beverage any intoxicating liquors so long as I retain this card.

A note is also printed on this card as follows: This card is to be returned to the secretary in the event of the holder wishing to discontinue his pledge.

This is as it should be. The narrow idea that all who are not total abstainers are enemies of the cause of temperance is a very erroneous one, and should be banished forever. Though we may prefer to see persons totally abstain, and no doubt their influence would be greater, yet there are many good men, and true men who would exert all their energy for the banishment of the foul curse, but who cannot see the evil of a temperate use of liquor. The Temperance cause cannot afford to do without these men and we are glad to see that the leaders in the cause are waking up to this fact. Then by all means gather them in and let us have their influence.

### ECCLESIASTICAL DIFFICULTIES.

The Christian Church in all ages has had its troubles and the present seems to be no exception. During the past few years very few branches of the church have escaped some internal or external dissensions a fact which is very much to be deplored. The Methodist church is not more exempt from these little difficulties, one of which is the resignation of one of its most devoted, earnest, and sincere men—a man of deep thought, sound judgment and great usefulness—one who was destined to rise high in the church—Rev. R. H. Smith, Chairman of British Columbia District. We trust, however, that the course he has taken and his changed views on the much disputed point of "eternal punishment" will not hinder his usefulness in the world.

Another, and perhaps more serious trouble, is to be found in Bloor Street church, Yorkville, where Rev. Dr. Hunter has been pastor during the past three years. We have to confess that we are not surprised at trouble when this man tries to wield his sovereign dictum. According to the public press some serious changes are laid against this prelate who uses every policy, at the entire sacrifice of principle to be popular. He is undoubtedly a clever man, but ability is not all that is required in a minister of the gospel. When a man, much more a minister, will stoop so low as to wilfully misrepresent and falsify for filthy lucre, and threaten members of his congregation who happen to let out facts in their true light with libel suits for \$5,000, we say the sooner any church is rid of such a man the better. The Methodist Church made a great mistake, one which it now sees, in taking this wanderer back after his return from Chicago three years ago. The course of his action then was sufficient guarantee of the unsettled principle of the man. We speak the more decidedly concerning the Dr., as we happened to know more about him than a good many others, and have long been convinced of what a good many are now finding out, that W. J. Hunter will not prove a very helpful adjunct or great credit to any branch of the Christian church.

**SOME OF OUR REASONS FOR SAYING SO:**  
Because all driving men say so.  
Because we have taken 50 first prizes within three years at Provincial, Industrial and Local Fairs.  
Because we have taken the prize for the best collection of work at Richmond Hill and Yonge Street Agricultural Fair, May 24th, 1881.  
Because we employ none but the best workmen.

### EDITORIAL NOTES.

IN NORTH WATERLOO yesterday Mr. E. W. B. Snyder of St. Jacobs was nominated as the Liberal candidate to run for the seat made vacant by Mr. Springer's resignation. The convention was largely attended and very harmonious.

NORTH ONTARIO was won by the Conservatives by a small majority. This result was unlooked for as Mr. Bigelow was understood to be a strong man and well known in the riding, while his opponent was comparatively without personal influence. It is quite likely the Liberals have suffered through too much confidence in the popularity of their own candidate.

THE coal-owners of Pictou are alarmed for their privileges, and they have issued an urgent appeal to their employees to stand by the government and the coal duties. This is a good instance of the way in which an unjust tariff works. The men who profit by it will not scruple to use all their power and influence to have its justice perpetuated, no matter how the people are taxed. The sugar washers of Montreal who cleared a round million and a quarter in one year and the cotton lords of Cornwall and Hochelaga who have been paying themselves dividends of fifty and sixty per cent., will also be found to rally to the support of a tariff which enables them to earn such enormous profit on their business.—World.
