A WORK FOR FARMERS.

Buttonville, June 2nd 1881. To the World Publishing Com'y, Guelph. GENTLEMEN .- Having examined a complete copy of your publication entitled the Illustrated Stock Doctor and Live Stock Encyclopadia, by T. R. Mauning, V. S. I am satisfied it must be of great value to farmers and stock breeders generally. It supplies to a very considerable extent what I have often felt the ordinary farmer required -a work in which wish a little trouble he can find a simple remedy printed in language a child can understand for every disease uni-

mals are subject to.

It contains information that he can use every day, and has nothing to do with expensive theories and tests, which are of unknown value. It will help a man to breed stock, to take care of it, and to care it in disease. The pages devoted to the history, characteristics, and merits of the different breed of horses, cattle, sheep, swine and poultry, will be found very interesting and instructive, to stockmen and farmers generally.

Yours, &c. JONATHAN SLATER. President of the Markham Farmers Club & breeders & exporter of Cotswald sheep.

Township of Markham, June 9th, 1981. The World publishing Co., Guelph.

GENTS-I have examined your work entitled Illustrated Stock Doctor and Live Stock Encyclopædia, by Dr. Manning. It treats fully and very minutely on everything pertaining to Horses, Cattle, Sheep, swine, and building to Rorses. Cattle, Sheep, swins, and poultry. Much information that I have not seen clsewhere. Another feature of the work which is to be commended is giving the cause of the various diseases so in the that by knowing we may prove the truth of the adage that "an ounce of prevention is better than a pound of care." I have no bestation in saying that any farmer having the care of stock, that this work wil prove both interesting and instructive. It is important as a work of reference and as stockraising is now superseding grain growing, the speak for your publication a large circulation.

Yours Respect., D. JAMES, D'y Reeve of Markham.

Sprirgbrook Farm, Richmond Hill. To the World publishing Co. Gue

GENTLEMEN-After examining your Book entitled Stock Doctor and Live Sock Encycloyedia I am of the opinion the it will be of great benefit to Farmers Stock Broeders in Canada.

JAMES RUSSELL. Breeder of Heavy Draugh Herses, ShortHorn Cattle, Cotswold Sheep and Borkshire Swine.

Markham, June 4th, 1881. To The World publishing Co., Guelph. GENTS, -After a careful examination of

our stock Book by Mauning, I have no hesitation in saying that every one owning stock should possess a copy. For years I have had a strong prejudice against all books sold by canvassers having known so many decep-tions palmed off on the people, but having seen a full copy of this work, and having examined it thoroughly, I became convinced thatI needed it and so does every farmer who desires to succeed. The work is extremely well arranged, and I feel confident that it and Stockl reader. The book is excellent and deserves great praise. I would advise every farmer to have the work.

Yours &c. JAMES ROBINSON.

To The World Publishing Co., Guelph. After careful examination of the Illustrated Stock Doctor and Live Stock Encyclopædia, I have no hesitation in recommending it to very farmer. It is full of the most valuable information on the management and care of all domestic animals. The careful study of this work would tell most favorably on the profits of the breeder and the comfort of his stock. Every farmer should have it

JOHN GIBSON. Ex-President Markham Farmer's Club,

Toronto, May 25th, 1881,

To the World Publishing Co., Guelph. GENTLEMEN-From what I have been able to see of your Live Stock Encyclopædia, I'm led to conclude that the work will be interesting and useful to all who are engaged in the breeding and management of the animals of the farm. Its concise and familiar style, with good and ample illustrations, impart to it a decidedly practical character such as farmers in general cannot fail to appreciate. The information which it contains on animal structure, and characteristic points and qualities of the various breeds, with the most available means either of preventing or curing diseases, seems well adapted to the pur-pose in dangerous attacks of disease among valuable animals when the services of a competant Veterinary Surgeon are not available

often be found to prevent great pecuniary los GEO. BUCKLAND. Professor of Agricul-ture, University College.

Downsview, May 31st.

To the World Publishing Com'y Guelph. GENTS,—After a hurried perusal of the Illustrated Stock Doctor and Live Stock Encyclopedia I am satisfied that it will be a most useful ad dition to any farmer's Library. J. P. Bull

Treasurer Div. Grange.

The World Publishing Com'y Guelph. I have sammined your Illustrated Stock Doctor and Live Same Encyclopedia, published by you, and find it supplies a great deal of valuable nformation in the selection and management of stock; and treats largely on the diseases to which they are subject, and points out clearly the, remedies to, be used in the various diseases, making the work to the farmer and stock raiser one of great utility.

H. P. CROSBY

Unionville June 2nd 1881.

Durham House Farm Newtonbrook P. O.

The World Publishing Com'y Guelph.

Gents.—I have had the pleasure of examining one of your latest publications got up in your usual creditable style,—substantial binding, good paper, beautiful and appropriate illustrations and large clear type, a work entitled flustrate is Stock Doctor and Live Stock Pacyclopeadia. Looking over the book carefully and judging of the many things contained in it which were entirely new to me, or of which I knew but little, by the few I knew well, and which I find clearly and correctly stated, I am of opinion that, it is a most useful and reliable work to every one in any way interested in any of the various kinds of stock treated of in the work. Any farmer might easily save its whole cost in the flast case of sickness happening to any of his cannals, by having such a book on hand for prompt reference, written as it is an easy flowing and perfectly intelligible manner, entirely devoid of the usual professional jargon. Besides, the book is well worth perusal apert from direct personal interest in its matter and I consider the author Dr. Manning has conterned a great boon upon every agriculturist in furnishing us with such a book, which should find a phace in every live farmer's library.

F. J. D. SMITH Breeder of Shorthorns, Cotswold and Berkshires. The World Publishing Com'y Guelph.

Brougham May 4th 1881.

Broughars May 4th 1881.

The World Publishing Cow'y, Guelph.
I have carefully examined your Illustrated Stock Doctor and Live Stock Encyclopeadia, and find it to be a practical and reliable guide with pain and specifice instructions for the treatment of stock and their discases and I think a copy of it should be inevery larmer's possession, so that he can attend to his own animals, especially when siez. We have in Dr. Manniag's book the subject of pouttry raising treated so intelligently that any person enterested can read undlearn there encourgement and not have the trouble that has sometimes existed in raising them. I am informed that other subjects have to be added to the work among them the difficult subject of Bea cauthry, when so many have tried without success. If the mystery of Bee raising were solved it would be a great benefit to those whe carry on the business to any great extent. The breeders of Clydesdale horses will all feel thankful to Mr. Clay for his valuable information which no dealt will be beneficial to us. Wishing you every success, I am, gentleman.

Lapruter and Breeder Clydesdale borses, Shorthon Cattle, Cotswool sheep, Berkshire pigs, &c.

Lorridge farm, Richmond Hill, June 4th 1881. This is to certify that I have examined Dr. Manning's Stock Doctor and Live Stock Encyclopeadia, and find it to be a Book replete with internation, and it goes therough y into the History, I and the various Diseases that Domestic animals are subject to, both as to their symptoms, Treatment, and cure and will be a addition to any farmer's Library.

ROBERT MARSH.

ROBERT MARSH.

"Caution.—Farmers all read this. On account of the reputation of Dr. Manning's Stock Doctor and Live Stock Encyclopaedia. No less than three sourious impations have been put in the field. Salesmon for Dr. Manning's works find that the farmers of Halton have been largely imposed upon there by the agents for the inferior works, claming they are selling Dr. Manning's, and the purchasers of the inferior ones are now offering them for less than half price, wishing to purchase Dr. Manning's instead. Be sure the work you purchase is published by the World Publishing Company of Guelph, that it is written by Dr. Manning, that it contains over 1.000 pages, 400 engravings, that it is recommended by all the leading freeders and stock Raisers of Ontario. Don't be imposed upon by the inferior works.

The above farm consisting of 100acres. more or less is offered for sale at a reasonable figure. Good House, frame barn and other buildings, with a prosperous young orchard.

Apply to Wm, JONES, on premises. Wm. DEVLIN, Maple P.O. or J. P. RUPERT, Maple P. O. Maple, June 11th '81.

NEWS JOTTINGS.

Quebec had an immense fire. About

nine thousand people homeless. Within two weeks three smash-ups have occurred on the Grand Trunk, one at Georgetown, one at Malton and the last at the Don on Wednesday, when an en-

gine and seven cars were wrecked. A plot to murder Hon, Mr. Forster, Chief Secretary to Ireland, is said to have

been discovered. The proposed amalgamation of the two Canadsan telegraph companies is con-demned by the Montreal press.

The jury in the coroners inquest respecting the Victoria disaster at London has returned a verdict which the public will scarcely view as sufficiently severe in its terms, as it merely censured its officers.

the careful study of this work by farmers will The torando which raged on Sunday throughout the States of Illinois, Minnesota, Iowa, Kansas and Missouri was exceptionally severe. The loss of life and property was immense. Horses, Cattle and buildings were carried through the air and dashed to pieces.

The population of Toronto in 1861 was 35,000; in 1871 it had grown to be 56, 000 and in 1881 it is 90,000. The chances are that it is over 90,000, in consequence of the way in which the census have been taken,

The County Council.

Opening of the June Session --- Spruce and Smiling Gentlemen representing the County.

The worthy county councillors of York assembled for their summer session, in their chamber in the court-house building, on Monday afternoon. The gentlemen looked spruce and smiling, and before the proceedings commenced had a general shake hands and a talk about the weather, the crops and things in general.

Warden Eakin called the council to order at 2 o'clock, when the following members answered to their names: M. Canning, J. D. Evans, Etiobicoke; Issac Marritt, D. Sprague, North Gwillimbury; W. H. Rowen, Cnas. Travis, R. Long, East Gwillimbury; Joseph Stokes, Chas. Hambly, Chas. Irwin, E. J. Davis, King ; Wm. Eakin, B. F. Ressor, David James, Markham; Thomson Porter, W. Cook, Isaac Nattress, D. Reaman, Vaughan; John Richardson, A. M. Secor, James Chester, Scarboro'; J. C. Lundy, L. L. Hartman, Whitchurch; Henry Duncan, I. Dollery, Joseph Watson, John Hamilton, Alex. Gibb, York; Joseph Gibson, B. Saunders, O. F. Fost-er, Yorkville; E. Jackson, Thos. Lloyd, Newmarket; W. H. Thorne, Holland Landing; Seth Ashton, Aurora; James Speight, Markham Village; W. Trench, Richmond Hill; James Dougherty, Stoutfville; John Winchester, Brockton. The absentees were: J. R. Stephenson and Wm. Henry, Georgina; John Jamieson, Whitchurch; Thos. Williamson, Markham, and Major Gray, Parkdale. The latter, being in attendance at the Niagara camp as commander of the Toronto field

battery, was allowed leave of absence.

After a few opening remarks from the warden, a number of communications and petitions were received. The communications were of minor importance. Five or six of the petitions were for a bridge over the Humber river at Scarlett road; others were for the appointment of commissioners to take the census of Woodbridge and Weston, and with a view to incorporating these villages; another was from Yorkville, to open and extended Bellair street, from Sydenham to Bloor. On motion of Mr. Winchester, the petitions in reference to Weston and Woodbridge were referred to the Committee on specalties for immediate action. The other petitions and the communications were referred to the different committee

The council rose, to give the specialties committee an opportunity to meet at four o'clock. The council resumed, when the committee reported favorably upon the matter referred to them. The report was adopted without discussion, and by-laws giving it effect were put through. W. G. Conron was named as the comssioner for Weston, and John McClure as the commissioner for Woodbridge. The expenses of this and other work in connection with the incorporation will be borne by the villages themselves.

A report was read from the county engineer on the state of the York roads. During the half year he had effected a saving of nearly \$4000, and in the next six months he hoped to save another \$4000. The season was very favorable and the road was in excellent condition. The following work was to be commenced shortly; Macadamizing the lake shore road, building a bridge at Holland Landing, constructing culverts on Yonge and Dundas streets. The report stated that the toll houses generally were in a bad and shabby state, especially No. 4 Yonge street. It recommended a new one be built in place of it.

The council rose till ten o'clock on

Tuesday morning.
Second Day. The Council met at ten o'clock Tuesday morning, the Warden in the chair.
All the members were present excepting Messrs. Chester, Davis, Henry, Jackson, Jamieson, Stevenson, Thorn and Trench. The minutes of the previous meeting

were read and approved. COMMUNICATIONS AND PETITIONS. The Warden laid on the table the report of the Public School Inspector for

South York. Mr. Duncan presented the petition of W. R. Wadsworth and 116 others praying for the incorposation of the village of

Weston. MR. WINCHESTER presented the petition of Joshua Atkinson respecting the

tollgate on the Lake Shore road. The Warden left the chair till 2 p. n.

On resuming in the afternoon. The Warden laid on the table a com-nunication from Hon. Frank Smith asking for the privilege of extending the To-ronto Street Railway line to the northern

limits of Yorkville. Also the report of the County Engineer respecting the proposed county poor-house. The report submitted plans for a building to accommodate 150 inmates, in addition to the superintendent and officers. The cost, not including heating plumbing, was estimated at \$14,000. The report was referred to the Poorhouse.

The Council then adjourned till Wed-

Committeenesday morning.
