

WOMEN AS DENTISTS.

The Russian Countess who Graduated in New York Opportunities of Women.

A woman recently applied to the New York College of Dentistry, East Twenty-third street and Second avenue, for admission as a student. She was of French nationality, and brought testimonials showing that she had already practised dentistry in Brazil and New Orleans. Her application was refused.

"Is it against your rules to admit women to the college?" a reporter asked Dr. Frank Abbot, the Dean of the faculty.

"It is. We have never admitted but one woman, and I do not think we shall ever admit another. In 1871 we admitted the Countess Swiderska of St. Petersburg. Her application was supported by the Russian Minister at Washington and the British Consul in this city, and she presented credentials showing that she had already practised five years as a dentist. In consideration of that fact she was allowed to take a degree after one year's study. She went back to St. Petersburg, and is practising there with great success, I understand."

"Was there anything in her case to discourage you?"

"Well, there was. She was one of the smartest women I ever met. She was a young woman, and an enthusiast in her profession. There was no combatting her resistless energy. She was not satisfied with class instruction or with the amount of attention other students received, but was constantly besieging members of the faculty for special favors. She would call at our houses, and would apply for special instruction on points that would occur to her, and would encroach upon the opportunities of other students. She displayed amazing application and aptitude, and at the same time gave us an extraordinary amount of trouble. I am not in the least opposed to women entering the professions, but their admission to classes of male students is altogether impracticable. We have applications every term, but we have always refused them except in that one case, and we shall never make an exception in the future."

"Is there, then, any place in this city where women can be taught dentistry?"

"I do not know of any. There may be dentists who would take women into their offices and instruct them."

"Is there any reason why women should not succeed in dentistry?"

"I do not think there is. Women possess in a high degree the delicacy of manipulation called for by dentistry. Strong, steady nerves that cannot be shaken by sudden emergencies are needed, and women can display great nerve. There is a woman assistant in Dr. Hasbrouck's office on Broadway, near Twenty-third street, and there is one employed in the rooms of the Orlon Dental Association at the Cooper Institute, and I understand that no display of suffering ever interferes with the deftness and skill with which they discharge their duties. As to the business prospects of women dentists, it should be borne in mind that there is nothing in the business to create a preference for them with any class of customers. In the practice of medicine there is a large field presented, in which the services of women physicians are likely to be preferred when confidence in their skill is established."

"Are there any women dentists here?"

"I do not know of any women dentists, but there are women carrying on the business of dentistry. Mrs. Napoleon Preterre, after the death of her husband, kept up his business by employing dentists to attend to customers coming to the office. Mrs. Diffeback, in Twenty-third street, and Mrs. Steinberger, in Fifty-ninth street, have in a similar manner carried on the business established by their husbands. Such a thing will not be possible hereafter, as under the law of 1872 no one can practice save those licensed by the State Dental Society, and licenses are granted only to such as can pass an examination by the Board of Censors of the society, or who hold a degree from a college recognized by the society. If a woman should qualify herself in a dentist's office to pass the examination, which is a rigid one, she would be licensed."

"What would you advise a woman to do who wants to study dentistry?"

"I advise applicants to go to Philadelphia. There are three dental colleges in that city, and one of them is open to women. It has graduated quite a number of women dentists. Our college is the only one in New York, and we do not want women students."

Dr. Emily Blackwell of the Women's Medical College of this city says that she does not know of any woman dentist in this city. Mrs. Einstein, who studied dentistry in an office at Orange, is practising in that town. Dr. Blackwell thinks it is a profession peculiarly suitable to women, and says that a woman dentist who graduated in Philadelphia is meeting with success in Germany, and numbers among her friends Queen Victoria's daughter, the Crown Princess of Germany.

The Root Crop.

There is much to be said in favor of a field being devoted to a crop of roots, either Mangels or the larger sorts of the Sugar-beet. First it is good for the field. In the thorough culture which a root crop demands, the soil is much improved, and the good effect is felt on the other crops, all through the rotation. Secondly, it is an advantage in the distribution of labor. A field of roots will furnish employment at times when there will be little other pressing work, and in this way the farm hands can be hired by the season and kept busy all the time. In the third place, the crop itself is a very valuable one, and even with the present enthusiasm over ensilage, it is not surpassed as a fodder crop by any other. We are not inclined to think less, but on the other hand more, of the root crop from the knowledge the agriculturists are gaining upon the value of palatable food for live stock in winter. There is no better green winter food than roots.

A Pleasing Prospect.

A Vermont clergyman is reported as closing a sermon recently in this eloquent strain: "After closing the mystic revival we shall go on from the man to the angel, from the angel to the archangel, from the archangel to the celestial, from the celestial to the divine and then, gathering the stars in clusters about our heads, dream out our endless dream of eternity."

THE BANK OF TORONTO.

Proceedings of the Twenty-fifth Annual General Meeting of the Shareholders Held at the Banking House of the Institution in Toronto, on Wednesday, 15th June, 1881.

The annual general meeting of the Bank of Toronto (being the twenty-fifth since the commencement of business) was held, in pursuance of the terms of the charter, at the Banking House of the Institution, June 15th, 1881.

On motion of Henry Cawthra, Esq., James G. Worts, Esq., was called to the chair.

Moved by Henry Covert, Esq., seconded by Charles Stuart, Esq., and resolved, That Walter S. Lee, Esq., and E. Strachan Cox, Esq., be appointed scrutineers for the election of Directors for the ensuing year, and that they report the result to the cashier.

The cashier at the chairman's request then read the following

REPORT.
The Directors in again meeting the shareholders for the purpose of reporting on the operations of the Bank for the year just closed, have pleasure in being able to state that a gradual but marked improvement has taken place in the leading industries of the country.

Another abundant harvest, together with a continued demand for timber and lumber at remunerative prices, have been largely instrumental in bringing about this improved condition of affairs.

The business of the Bank at the head office and branches has been well maintained, and the losses of the year have been small.

The profits, however, notwithstanding the increased volume of business, have not reached the proportion of former years, owing to the low rate of interest that has prevailed, but the Directors trust they are such as will be satisfactory to the shareholders.

During the year several accounts which hitherto were considered of a doubtful character have been liquidated to advantage; therefore the Directors have felt themselves justified in taking from the contingent account the sum of \$50,000 and adding it to the rest.

The net profits of the year, after making full provision for all bad and doubtful debts, deducting

Interest due depositors, and balance on current discounts, amount to.....\$201,165 35
To which add balance brought forward from 1880.....1,335 31
From contingent account as above.....50,000 00

\$252,500 66

This sum has been appropriated as follows:—

Dividend No. 49 3/4 per cent. \$70,000 00
Dividend No. 50 3/4 per cent. 70,000 00
Added to rest.....110,000 00
Carried forward to next year.....5,500 66

\$255,500 66

The Board of Directors cannot conclude the report without expressing their deep regret in having to record the decease during the year of their late colleague, Wm. Cawthra, Esq. In him they had a firm friend and able adviser, and they feel sure that their fellow-shareholders who enjoyed the advantages of Mr. Cawthra's friendship and acquaintance will appreciate this tribute to the high esteem in which he was held.

The Directors have pleasure in testifying to the zeal and fidelity with which the officers of the Bank have discharged their respective duties.

The whole is respectfully submitted.

(Signed),
W. M. GOODERHAM,
President.

D. COLLSON,
Cashier.

Moved by James G. Worts, Esq., seconded by George Gooderham, Esq., and resolved, That the report which has now been read be received and adopted.

Moved by James Crowther, Esq., seconded by Walter S. Lee, Esq., and resolved, That the thanks of the stockholders are due, and are hereby tendered, to the President, Vice-President and Directors for their attention to the affairs of the institution during the past year.

Moved by E. L. Bond, Esq., seconded by Alfred Gooderham, Esq., and resolved, That the polling do now commence, and that it be closed at 4 o'clock this day, but if at any time five minutes shall elapse without a vote being tendered, the poll may be closed at once by the scrutineers.

The Chairman, having vacated his seat, and James Crowther, Esq., having been called thereto, it was

Moved by Henry Cawthra, Esq., seconded by Charles Stuart, Esq., and resolved, That the thanks of the meeting be tendered to the Chairman for the manner in which he has conducted the business of the day.

REPORT OF THE SCRUTINEERS.

We, the undersigned scrutineers, appointed at the annual meeting of the shareholders of the Bank of Toronto, this declare the gentlemen undetermined unanimously elected directors for the ensuing year:—

William Gooderham, James G. Worts,
George Gooderham, Henry Cawthra,
Alex. T. Fulton, Henry Covert,

W. R. Wadsworth,
WALTER S. LEE, Scrutineers,
E. STRACHAN COX,

The new Board met the same afternoon, when William Gooderham was unanimously elected President, and James G. Worts, Esq., Vice-President.

By order of the Board
(Signed),
D. COLLSON, Cashier.

Toronto, 15th June, 1881.

Various Causes.

Advancing years, care, sickness, disappointment, and hereditary predisposition—all operate to turn the hair gray, and either of them inclines it to shed prematurely. AYER'S HAIR VIGOR will restore faded or gray, light or red hair to a rich brown or deep black, as may be desired. It softens and cleanses the scalp, giving it a healthy action. It removes and cures dandruff, and humors. By its use falling hair is checked, and a new growth will be produced in all cases where the follicle are not destroyed or the glands decayed. Its effects are beautifully shown on brashy, weak or sickly hair, on which a few applications will produce the gloss and freshness of youth. Harmless and sure in its operation, it is incomparable as a dressing, and is especially valued for the soft lustre and richness of tone it imparts. It contains neither oil or dye, and will not soil or colour white cambric; yet it lasts long on the hair, and it keeps it fresh and vigorous. For sale by all dealers.

August Flower.

The immense sale and great popularity of Green's August Flower in all towns and villages in the civilized world has caused many imitators to adopt similar names, expecting to reap a harvest for themselves at the expense of the afflicted. This medicine was introduced in 1868, and for the cure of Dyspepsia and Liver Complaint, with their effects, such as Sour Stomach, Costiveness, Sick Stomach, Sick Headache, Indigestion, Palpitation of the Heart, vertigo, etc., etc., it has never failed to our knowledge. Three doses will relieve any case of Dyspepsia. Two million bottles sold last year. Price 75 cents. Samples 10 cents.

"Dobyn's Sore Cure" is the only Catarrh remedy that does all that is said of it. There is no risk in ordering a box. Send for descriptive circular to C. Pomeroy, 84 King-st. West, Toronto, Ont.

A LARGE VOLUME would scarce contain all the many testimonials we have received from sufferers of both sexes, in praise of the great Medical Pill Remedy. \$1.00 per packet by mail. Ask your druggist for it, or send to Hugh Miller & Co., Toronto.

Ask your dealer for "Castorine" Machine Oil and see that the barrel is branded "Castorine" as none other is genuine.

An honest medicine is the noblest work of man, and there is no remedy that is more justly meritorious in "curing the ills that flesh is heir to" than BURDOCK BLOOD BITTERS, The Great Blood Purifier and System Renovator. It cures Liver Complaint, Dyspepsia, Scrofula, Kidney Complaints, and all troubles arising from impure blood, constipated bowels, or disordered secretions, and is the best Nerve and Tonic in the world.

Mr. Gladstone, premier of England, brilliant scholar, one of the most finished and impressive orators of his age, at present holding in his hands the destinies of the greatest empire upon which the sun sets, a man of transcendent ability in every department of learning, and moreover, a thoroughly practical man of business, purchased a Wainzer Sewing Machine some few years back in England, and his wife has since recommended these highly improved instruments to a number of her friends. Ladies should not fail to see the Wainzer "C" and "F" machines and have one on trial, before purchasing any of the older fashioned machines in the market depot.

As a health renewer BURDOCK BLOOD BITTERS acts like a charm. In Malaria, Bilious Complaints, Scrofula and all disorders of the Blood, Liver and Kidneys, this great combination of Vegetable Medicines proves a certain specific. A few doses regulate the bowels, and as a restorative Tonic it has no equal. Trial bottles 10 cents.

BURDOCK BLOOD BITTERS is not a Whiskey Stimulant or fancy drink to pander to the depraved appetite of the intemperate, but a pure vegetable life-giving Tonic and regulator of the secretions. It acts promptly on the bowels, the Liver, the Blood and the Kidneys, purifying and giving tone to the entire system. Try a sample bottle which costs only 10 cents, large bottles, \$1.00.

Use "Castorine" Machine Oil for all kinds of machinery. It is also excellent for harness and leather, making it water and weatherproof. For sale by all dealers.

THE QUESTION SETTLED.—Those eminent men, Dr. Jas. Clark, Physician to Queen Victoria, and Dr. Hughes Bennett, say that consumption can be cured. Dr. Wistar knew this when he discovered his now widely-known BALSAM OF WILD CHERRY, and experience has proved the correctness of his opinion.

Manufacturers of Reapers, Mowers and Threshing Machines prefer "Castorine" Machine Oil to any other. It will outwear Lard, Seal or Elephant, and is warranted not to gum. For sale by all dealers.

The proprietor of BURDOCK BLOOD BITTERS challenges the world to produce the record of a medicine that has achieved a more wonderful success, or better credentials in so short a period of time as has this great Blood Purifier and System Renovator. Its cures are the marvels of the age. Sample bottles 10 cents

Manufacturers of Reapers, Mowers and Threshing Machines prefer "Castorine" Machine Oil to any other. It will outwear Lard, Seal or Elephant, and is warranted not to gum. For sale by all dealers.
