THE LOCK-UP AND SPECIAL CONSTABLE.

We, in common with every orderly and peace loving citizen, are pleased to see our Council take action once more with. regard to purchasing a site and erecting a Lock-up, and the appointment of a special constable to keep the streets clear of loafers. At the last meeting of the Councial a committee was appointed to procure a site for the Lock-up, which we hope to see gone on with immediately. It was thought advisable to take this step before appointing a constable specially to do duty in the village. Of course the Council has no authority to confer the power of constable on any person, but they can employ a legally constituted constable to perform the special duty they may require of him. We cannot however, quite fall in with the course of the Council in the postponment of this appointment until a lock-up is etected, as that will require considerable time, some months at least, and we now require the services of a constable in the streets more than any other season of the year, and the appointment should therefor be made at once. There is a large amount of petty thieving and rowdyism going on con. stantly and should put be a stop to. And especially are the services of a constable required) now to disperse the crowds of boys, shall we say, many young men, who congregate at street corners and under verandashs and sqirt tobacco juice on ladies' dresses, and pass all sort of rude and even insulting remarks on ladies who have occasion to pass by. These things are of nightly occurance, and the council should, in the interests of the village, and the ladies especially, who will be thankful, take immediate action in the matter, and no postpone it to a future time.

The Paul Pry of the Mail has discovered that Hon. Edward Blake, during his tour in the Martime Provinces, has had wine on the sideboard for the use of his guests, and thereupon paints an article which is a disgrace to Canadian journalism, and which no man would write but one whose "soul is so small that R. Jordan, Lawyers fees in Jordan vs. five hundred of its sort would find more room in a mosquito's eye than a bullfrog in the Pacific ocean." The object is to break the allegiance of the Tempperance party to Mr. Blake, but the perception of the writer must be on a par with his taste if he thinks that he can influence votes by such disreputable means. It is not long ago that the Globe was soundly rebuked by the press of Canada for trying to beemirch the fair fame of Sir Leonard Tilley, in regard to his official visit to a Halifax brewery. The Mail was then very indigant and now it is offeesive. It is a pity there is not a press court before which such offenders against social decency could be tried, and when guilty be drummed out to the tune of the Rogue's March .- Telegram.

Every man in Ontario will regard with pardonable pride the remarkable progress of his own province. While the percentage of increase in Quebec has been 14.02 New Brunswick 1244, and in Nova Scotia 13.61, that in Ontario has been 18.05; in other words, the increase of population in Ontario during the past ton years has been more than two-thirds of the increase in all the other provinces and territories put together. The total population of this province is now 1,913,-430, or within 262,000 of half the population of the entire Dominion. Ontario now becomes entitled to four more representatives in the House of Commons. The only other province which will have a change in its representation is Nova Scotia it will have one member less.

Lumbten prohibitionists, nothing daunted by the quashing of their temperance measures, have decided to again submit the Scott act to the vote of the people, and petitions are now being largely signed throughout the country in this behalf. Every procaution will be taken in this contest to carry out to the letter ali the provisions of the Act. Ex-Judge Blake is retained ses their legal adviser. There is not a doubt as to the result of the contest, as the prohibitionists have now the support, not only of all temperance people, but of all fair min the decree who believe that a mayour should at least have their wishes recognized by giving the Act of fair brial.

McCormack, the Mulmur murder, is to be extraditied.

At a banquet given by the Lord Mayor of London in honor of the Prince of Wales at which were present the King of the Sandwich Islands, Earl of Kimberley, Sir. H. Fitz-Hardinge Maxse, K.C.M.G. Sir. W. V. Whiteway, K. C. M. G., Sir John McDonald, K. C. B., and Hon. O. Mowatt, Q. C., the Prince of Wales and the Earl of Kimberley each complimented Canada in most eulogistic terms.

The Irish Land Bill passed the House of Commons by an overwhelming majorty and it is thought the House of Lords will not dare, in the face of its clean sweep in the Commons, to bring very much pressure on it or attempt to mufilate it, though they are making a fierce

Correspondence.

To the Editor of the Liberal.

Fermit me to insert a few lines in your valuable paper concerning the Garden by the late Charles Earl Lawrence, to his son William Henry Lawrence; thence somewhat off the track, as he writes about the late Charles Earl Lawrence; thence Easterly along the Northerly Limit of said Lot 6 chains and 62 links, to the what he either really knows nothing of, or wilfully misrepresents. It is not correct that \$75 were taken, or that \$00 set down to tea. and as for some being displeased, it don't happen to concern them, as it was an entirely private affair, and the church had nothing to do with it. We consider it, therefore, a piece of exceedingly bad taste on the part of that individual to interfere as it was neither his business, nor that of the cource, as no one had anything to do with it but one family except some who were kind enough to assist on the evening of the hat to what was understood in the hat of the place of beginning.

This property contains over eight across of land, and a frame Woolen and Carding to be erected thereon. the profits only would be given to the minister, and it any one wants to know what is madaby one of of these, parties, let them get one up and they will have a good idea. Hoping, therefore, that your correspondent, who is a little to foud of gossip, will avoid meddling in other people's business, and thus desist from showing his ignorance and bad taste,

I am yours, de, ONE WHO WAS THERE.

Teston, August 2nd 1881. RICHMOND HILL COUNCIL.

Pursuant to adjournment the Village Council met in the Council chamber Lorne Hall, on Monday evening, 1st inst. The Reeve in the chair. Members present Messrs Redditt, Pugsley, Sanderson, and Duncumb.
