NEWSPAPER POSTAGE.

Petitions to the House of Commons, the Senate and Governor General are being circulated by the Canadian Press Association, and being eagerly signed by Publishers throughout the Province, praying for an amendment to the Postal Act, permitting newspapers to be sent through the Mails in the County wherein published. This is indeed a very just and reasonable request. It seems like a serious imposition to compel the Publisher of a newspaper to pay all postage on the hundred or thousands of papers he may send to his subscribers; but had the object been attained which this enactment was intended to assist in the accomplishment of, the burden would not have rested heavily on publishers, viz. to render it less difficult to collect subscriptions in advance. But in this it has signally failed as it is yet an impossibility for a newspaper to collect its subscriptions in advance, the publisher has therefore yet to run the risk of getting his subscription, which he very often loses entirely, and in such cases has now the additional loss of the postage on the paper. This is manifestly a burden on the publisher which he should not be called upon to bear, seeing the original object in laying the burden of postage on the publisher has utterly failed. Therefore the publishers of the province feel that they are only making a reasonable request in asking that the Government amend the Postal Act as to enable them to send their publications free within the limits of the county or combination of counties wherein published. And we have also cause to believe that we will have the support and influence of our member for the House of Commons, Mr. Wallace, in securing this object. We have faith that the justice of our cause will insure the granting of our prayer.

### OUR SUPPLEMENT.

With this issue of the "THE LIBERAL" we present our readers with a supplement which will be of unequalled interest to all who may have any love for that most noble animal, the horse. We are convinced that every man who reads it will have more elevated opinion of his horse, and every horse into whose Master's hand it falls, could it speak, would shout its thanks. Every new subscriber will receive one, and in addition one of Dr. Kendall's Treatise on the Horse, the most valuable work of the kind ever published.

The Winnipeg Sun says that if Premier Norquay is satisfied with the disallowance of the Manitoba and Southeastern charter, the people of Manitoba are not. The Sun takes occasion to go for the syndicate and its action towards the victims of its exactions trenchantly, and to declare that the province must and will have competition. It declares that no disallowance of the charter is the deathblow of the only hope of the province to escape from the intolerable oppression of a grasping monopoly.

Judge Cox on Saturday last refused Guiteau's application for a new trial, and the prisoner has been sentenced to be hanged on June 30, or within two or three days of the anniversary of the assassination. Efforts are still to be made before the Court in vain to avert the carrying out of the penalty, but it is not likely that they will prove successful. The prisoner was very violent in Court, and became so abusive that his mouth had to be forcibly closed.

### THE IMPERIAL PARLIAMENT.

The Imperial Parliament opened on Tuesday, and the speech from the throne indicated a much improved state of affairs both with regard to the Empire's domestic and foreign relations under the Liberal government. The program is highly characteristic of the great Liberal leader, dealing mainly with questions which effect the masses of the people.

The Imperial Parliament met yesterday. On the House of Commons reassembling in its own chamber, after the reading of the Queen's speech. Mr. Bradlaugh made application to take the parliamentary oath, but was, on motion of Sir Stafford Northcote, refused permission to do so. Subsequently the Speaker ordered him to withdraw, which

after some demur, he did.  
The newest thing in vogue to make valises is woman's skin. A young man in Toronto took three pieces of pig's hide to Currie's tannery to get tawled for a valise. The most of the process was gone through with when its peculiar appearance aroused suspicion, and upon examination it was discovered to be the skin of a young woman. The police were informed of the matter and are now on the young man's track.

The Canadian Parliament met on yesterday. The speech from the throne was long and noted principally for its eminently Sir John's utterance. Its other points of interest as to the program for the session were meagre.

### Toston.

(From our own Correspondent.)

On Tuesday the 23rd ult., the N. P. was condemned in a small village called Pappelville, by four of its leading townsmen. For the last few years (since '76) one gentleman has had a great desire to make a robe of some kind, but as the N. P. has raised the price of all furs he thought it best to wait a short time longer. On Monday last, it being so cold in that region that he could not stand it any longer, next morning the four commenced trapping the country for cats. The hides of these animals were to make this beautiful robe. They started at day break and trapped along the roads and concessions till they arrived at Toston with two horses, a long farmer's sleigh, four men (one a flying dutchman), three guns four butcher knives and a yellow dog. Our villagers thought at first sight that they were a gang of savages, but as they came nearer a person could make out who they were. The first we noticed was the flying Dutchman who carried a double-barrelled blunderbuss. Next to him was Happy Jack, who had enough knives to start a hardware store; this gentleman was the dresser. Slim Jim and the other gentleman, whose name I did not catch, were the drivers of the gang. From what I am told, about twelve cats were got between two from a man at Maple and eighteen from a cat dealer in Carrville. Since their visit here the old cats have held a meeting and a motion passed that the next time they came around here they will be run.

### KENDALL'S SPAVIN CURE.

The most successful remedy ever discovered is certain in its effects, and does not blister. Read Proof below.

#### Kendall's Spavin Cure.

New Hamburg, Ont., Dec. 28th, 1881.  
Mr. F. H. McCaldin, Dear Sir:—The bottle of Dr. Kendall's Spavin Cure, bought of you last summer, gave me the utmost satisfaction and performed a wonderful cure upon a mare 19 years old belonging to me, which was badly spavined for ten years. She was so lame that I could hardly get her to move. The lameness is entirely gone after using half a bottle of the cure, and she is like a young horse again.

Yours truly, J. F. ROTH  
FROM THE ONEONTA PRESS, N.Y.

Early last summer Messrs. B. J. Kendall & Co., of Enosburgh Falls, N.Y., in a circular with the publishers of the Press for a half column advertisement for one year setting forth the merits of Kendall's Spavin Cure. At the same time we secured from the firm a quantity of ointment, called Dr. Kendall's Spavin Cure, for the treatment of Disinfectants, which were giving to advance paying subscribers to the Press, as a premium.

About the time the advertisement first appeared in this paper, Mr. F. H. McCaldin, who is a dealer near Collier, had a spavined horse. He read the advertisement, and concluded to test the efficacy of the remedy, although his friend laughed at his credulity. He bought a bottle of Kendall's Spavin Cure and commenced using it on the horse according with the directions and was informed us this week that it effected such a complete cure that an expert horseman, who examined the animal recently could find no trace of the spavin or the place where it had been located. Mr. Schermerhorn has since secured a copy of Kendall's Treatise on the Horse and its Diseases which he prizes very highly and would be glad to part with at any price provided he could not obtain another copy. So much for advertising reliable articles.

#### Kendall's Spavin Cure.

##### ON HUMAN FLESH.

Thousands of trials on Human Flesh has proved beyond a doubt that Kendall's Spavin Cure has sufficient strength to penetrate the vitæ and cure the worst cases of Rheumatism, gonorrhoea, frost bites or any bruise cut or laceration which are not affected in the least by ordinary liniment. It does not blister but on the contrary removes all soreness.

#### Kendall's Spavin Cure.

St. John's P. Q., Oct. 27th, 1881.  
Dr. J. B. Kendall & Co., Gents:—I have used your Spavin cure with great success on spavins, corns and splints. I know it to be a good remedy for ringbones, bone spavins, cuts, galls and all kinds of lameness and many other difficulties about the horse. One of my men sprained his ankle very badly. I applied Kendall's Spavin Cure and I never saw anything work like it was better in a few days. I know it to be good for man as well as beast. I procured one of your Treatise on the Horse, by mail, for 25 cents and I think it was the means of saving me one hundred dollars on one horse that I treated according to the direction given in your book for dislocation.

Yours truly, WILLIAM J. TEARSON.

#### Kendall's Spavin Cure.

Send address for illustrated circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for best and man.

Price \$1 per bottle, or 6 bottles for \$5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, Dr. B. J. KENDALL & CO., Enosburgh Falls, N.Y.
