The country is now in the midst of its ice harvest and Richmond Hill is not an exception. The people of our village are taking advantage of the excellent condition of the ice to lay in their store for the sum her. prominent among whom, 13 "mine host," Mr. Palmer, who, apparently intends making provision for supplying the cooling draught during the scorchers of July and August. The ice is in a very fine condition for har-Vesting.

Li-Ouor Tea. The Li-Quor Tea Company, of London, England, has established its Ric mond Hill agency at Mrs. Harrison's, opp. site the Masonic Hall. It is not necessary for us to say anything concerning this company' mode of doing business. Though we have never tri-ed their teas, their testim mials are of an unexceptional characeer, as d the books given with the tea, (a \$1 volume with every three pounds.) are without doubt, very valuable

Bankrupt Stock.

An anction sale of bankrurt stock is being conducted in Lorne Hall. We know noth ing as to the reliability of the men or their goods, as they have not seen fit to call on us. We would, however, remind the pub is that there are many bankrupt counters in the country as well as bank-Large ! runt stock and it is well to know from whom your are buying and what you are buying. Our own mercinants are reliable men, and perhaps these may be. We simply give this saution to the public which we trust will neither injure the setters, if they are reliable, nor those who may be tempted to buy.

Disappointed. dany of our villagers were disappointed last Tuesday night on account of the raio, which prevented a large number from going at to the Missionary meeting at Patterson. Their disappointment, however, was somewhat alberiated when they learned that the Rev. Thomas Crosby, whom they were anxions to hear, was also detained, through univor lable circumstances, in Kingston, and was not present on the occesion. Rev. Mr. Addison, however, is endeavoring to secure the services of Mr. Crosby for another occasion, we may therefore yet have the pleasure of hearing him.

Bengough on Caricature.

On Friday night Richmond Hill enjoyed a rare treat in the form of a he ure J. W. Bengough the talented editor of Grip. Specking for ours Ives, our fit sides have scarcely yet recovered from the furious osci. lations through which they passed and edi tors can general v stand more shaking than most people, being accostomed to it, and the crowd not les freely yielded to the inevitable rears of laughter. Mr. Bengough's remarks on the rise and development of the art of Carica ure with his exceedingly practical illn trations interspersed, rendered the en-tertainment exceedingly entertaining. The house was one of the best we have seen it Richmond Hill, being litera lyp taked inside and out-ide (about the door), the two-fol ? attraction being the popularity of the lector r and the worthy cause. Mr Beng ugh made some happy local hits which were thoroughly appreciated. As a caricaturist he is anapproactial c. The financi-I result is as follows:—Proceeds \$81, exceuses \$85, net profits profits for High School library of Recrence Fund \$46. We congratulate the High School Teacher and Pupils on the unqualified success of their enterprise,

The Printer.

A printer is a most curious being H. may have a bank and quoins, and not be worth a penny-have small caps, and have neith r wife or children. Others may run fast, but he gets along swift at by setting fast He may be making impressions without eloquence, may use the lye, without offending and he telling the truth. While they cannot stand while they set, he can set standing and even do both at the same time-use fur niture, and yet have no dwelling-may make and put away pie and never see pie, much less eat it, during his life—be a briman being and and a devil at the same time-may presi a great deal, and not ask a favor .- may han-He a shooting iron, and know nothing about a cannon, gun or pistol-may spread sheets it cont being a house wife; he may lay his form on a bed and yet be obliged to lie on the floor; he may use a daggar without shed ding blood, and from the earth may handle stars (\*\*\*); he may be of a rolling disposit ion, and yet never desire to travel. He may have a sheep's foot and not be deformed; never be without a case, and know nothing abut law or physic; be always correcting his erro.s. and growing worse every day; may have em braces without kissing; may have his form locked, and at the same time be free from gaol, watchhouse, or office.

Eglintou.

The Anniversary tea meeting of the Eglinton Methodist Church took place on Thursday evening, Rev Mr. Manning presiding. The teachers and pupils with their friends, to the number of about 250 were present. Tea was served from six to eight o'clock, after which a musical pro gramme, which included selections from "Belshazzar" and "Esther," was finely rendered by the choir. During the intermsssion an interesting reading was given by Miss Ferguson. The proceeds go to the Sabbath School.

Toronto.

By actual count the attendance at all the city churches, on Sunday last was about 58,200, including all the services. It is very difficult, on this basis, to arrive at the number of church-goers, but it may be estimated at from 35,000 to 40. 000, or from 40 to 46 per cent. of the

Another cowardly outrage on a woweman, took place on Saturday morning I'wo men broke into the house of Mr. Peter Cruden, on the Kingst n-road. Mr. Cruden was absent from home his wife being alone. The two ruffians attempted to outrage the lady, but she fought them vigorously, screaming so loudly the scoundrels beat a retreat On the return of Mr. Cruden to the house he instantly informed County Constable Bedley, who, accompanied by Constable Elliott, searched for the men. A rough named Lynch was arrested on suspicion. A few applications of the the lash to such characters would have a beneficial effect.

Parkdale.

The shops of The Toronto Bridge Company at the junction of King-street and the railways were on Saturday night lit with the electric light, and attracted quite a number of people drawn thither by the brilliantly illuminated windows. The light in use is the Brush, three in each shop, and for such practical purpos es its superiority was acknowledged b all. The workmen say that when a little steadier and tone down by a c vering of muffled glass it will beat day-light.

It is understood on good authority that two leading firme intend ptrchasing land for the purpose of erecting each for then selves large and commodious warehouse in close proximity to the station of the Puebec and Ontario Radway, to be used for storing all kinds of grain, for direcshipment ro the seaboard. It is also the intention of certain parties to establish lumber yards in the same locality.

From " The Times".

Editor of the Times :- The veterinary department in your valuable paper is al ways read by me with great interest and I value the information received from it a hundred fold more than the small amount paid for the paper One year agyou published a letter from Dr. John Bates, relating the wonderful success he had in coring spavins and sphuts with Kendall' Spavin Cure, and his alludin to using it now in his practice for severa human ailments on account of the suc coss he has always had with it. The above statements from so prominent a Physician gave me great fanh in its eth ca y, and as I had been affleted for you s with rheumatism and hip joint lameness so bad that I could hardly waik at times, I procured a bottle and it has completely cored me. I wish to proclaim it to all the world as the most wonderful discovery ever made for the benefit of affleted mer as well as for the poor horse, for which it was first used. As this remedy must be of incalcuable value to the world, I write this letter to express my thankfulness to you for ever mentioning it in your columns and to ask another favor in behalf of my fellow men who are afflic ed in body, that you continue to make known to the world, the great value of Kendall, 8 Spavin Cure for both man as well as beast.

Respectfull yours, ARNOLD PARKER.
