DEATH OF REV. DR. RYERSON.

It is with regret that our readers will learn of the death of the venerable Dr. Ryerson, which took place on Sunday morning. With his death ends one of the busiest and most useful lives that will adorn the pages of Canadian history. He was borne in Charlotteville, county of Norfolk, Ont., and was 79 years of age. He was the son of Col. Joseph Ryerson, a U. E. Loyalist, and had five brothers, four of which are ministers of the gospel. He entered the ministry of the Methodist church at twenty one years of age. A portion of his early ministry was spent in this county where he labored earnestly in the cause to which he had devoted his life. During his ministerial career he preached over ten thousand sermons. He was first editor of the *Christian Guardian*, which was established in 1829. He was a prolific author, and was appointed delegate to the British Conference on several occasions. He obtained the charter for the Upper Canada Academy, which has now developed into Victoria University, of which he was first President. For thirty two years he occupied the position of Superintendent of Education, and to no other man of the present or past does our country owe so much for the efficiency of our school system. While holding that position he visited many of the leading countries of Europe with a view to increase the efficiency of the system of education, of which he has seen the abundant fruit. He received the title of Doctor of Divinity in 1841 from Middleton University, Conn., and in 1881 the degree of L. L. D., was conferred on him by Victoria University. He was elected first President of the General Conference of the Methodist Church of Canada. As a Preacher, a Statesman or an Educationalist, he was without a peer, and his honored name will ever lead the list on the roll of fame, and Canada can look back with pride upon the name of Dr. Ryerson as one of her noblest sons.

A deputation of leading reformers from West York waited upon U. S. Howland, at the Imperial Bank Board Room, yesterday, to lay before him the decision of the Convention held on the 10th inst., and requested him to accept the nomination of West York for the Commons. We go to press too early to give any report of the result of the interview.

Mr. Hardy's bill to amend the Jurors' Act provides that the number to be selected from the Jurors' rolls for a jury list shall be a number of grand jurors that the county selectors have determined to be requisite for the year, and of petit jurors for the superior and inferior courts, the number theretofore determined to be requisite for the year by such selectors, with one-fourth the number thereof added thereto. It also provides that such selectors shall be paid \$4 per day for but four days unless the list contains more than 500 names, when they are to be paid for one additional day but no more.

Mr. Gladstone is being accused of acting discourteously to the Queen. It seems that he does not play the courtier like his distinguished predecessor, and that he devotes his time to preparing legislation for the country instead of spending it in flattering her Majesty and making her think that she yields unlimited power. Mr. Gladstone is always doing something wrong, according to his opponents, and if we are to believe all we hear of him he must be a very bad man. The queer thing is that Parliament should persist in standing at the back of such a bad man, and the people should insist on having him at the head of affairs. He was never a favourite of the Queen.

Communications.

TOO GOOD TO KEEP.

To the Editor of the Liberal.

MR. EDITOR.—I think the Ham that was lost on the road home from Woodbridge Fair, by the boys of this town, was rarely ever found, or if found, lost again, or you would have heard of the free ride of one of our Municipal officers. It was a free ride, a dear ride, a quick ride and a never to be forgotten ride. It was as follows: He and wife and baby took the train for Bradford to visit his wife's mother and sisters. On the way up they got excited over a crazy woman, on board the same train and forgot to get off at Bradford, but went on to Sault Ste. Marie 8 miles further (a free ride) then got off to find themselves in a place where nobody lives, all alone, on a cold winter's night. There they stand on a Saturday

night. What shall we do? Walk back 8 miles? Can't be done. Poor baby, she'll perish with cold. What's that coming? Nearer, still nearer it gets. It proves to be a section man, with the lorry, or hand car. They make enquiry and find that there's nobody living here, can't hire a rig to take them back. Finally they hire the section men for \$3.00 to take them 8 miles 20 cents a mile, the lorry should have been 3 cent per mile. All aboard, and they are off. One of the men, no doubt a father, took pity on the babe and muffled and wrapped his big coat around them. There they go, sailing along nicely, feet lagging over the dash. 2 miles are gone over, when one of the men exclaims, What's that! They all look, and it flashed in their minds, it was a train. They stopped the lorry, and got off into the deep snow and cold night. "Get down into the ditch," is the order given, and all obey.—Mother and baby, Municipal officer, and Section men Mother, anxious about Baby, who is hungry, hush-a-by, On Charley the snow is deep. At last the train goes by, and they reach their destination much to the joy of their friends.

I hope the next time they travel with a lunatic lady they will keep their wits about them and not go to Sault Ste. Marie.

Yours
CRANBERRY MARSHVILLE
INTERESTING INKLINGS.
CANADIAN.

Sir Hugh Allan has been summoned to appear before the police magistrate for failing to provide fits escapes for the Gazette building.

A warrant has been issued for the arrest of Dr. Orton, M. P., for failing to attend before the Ottawa Police Magistrate and give evidence in the Griffiths bigamy case.

A horrible fatality occurred at Montreal on Saturday. A man named Cooney attempted to force off the man-hole plate of a boiler before the steam was exhausted, with the result that the escaping steam and water literally parboiled him, from which he died shortly after. A man who rushed to his assistance was severely scalded.

KENDALL'S SPAVIN CURE.

The most successful remedy ever discovered as it is certain in its effects, and does not blister. Read Proof below.

Kendall's Spavin Cure.

New Hamburg, Ont., Dec. 28th, 1881.
Mr. F. H. McCallum, Dear Sir:—The bottle of Dr. Kendall's Spavin Cure, bought of you last summer, gave me the utmost satisfaction and performed a wonderful cure upon a mare 10 yrs. old belonging to me, which was badly spavined for ten years. She was so lame that I could hardly get her to move. The lameness is entirely gone after using half a bottle of the cure, and she is like a young horse again.

Yours truly, J. F. ROTH

FROM THE ONEONTA PRESS, N. Y.

Chester, New York, Jan. 6th, 1881.
Early last summer Messrs. B. J. Kendall & Co., of Kingsburgh Falls, Vt., made a contract with the publishers of the Press for a half column advertisement for one year setting forth the merits of Kendall's Spavin Cure. At the same time we secured from the firm a quantity of books, entitled Dr. Kendall's Treatise on the Horse and its Diseases, which we are giving to active paying subscribers to the Press, as a premium.

About the time the advertisement first appeared in this paper, Mr. P. G. Schermerhorn, who resides near Collier, had the spavined horse. He read the advertisement, and concluded to test the efficacy of the remedy, although his friends laughed at his credulity. He bought a bottle of Kendall's Spavin Cure and commenced using it on the horse according with the directions and he informed us this week that it effected such a complete cure that an expert horseman, who examined the animal recently could find no trace of the spavin or the place where it had been located. Mr. Schermerhorn has since secured a copy of Kendall's Treatise on the Horse and its Diseases which he prizes very highly and would be loth to part with at any price provided he could not obtain another copy. So much for advertising reliable articles.

Kendall's Spavin Cure.

ON HUMAN FLESH.
Thousands of trials on Human Flesh has proved beyond a doubt that Kendall's Spavin Cure has sufficient strength to penetrate the virtue to cure the worst cases of Rheumatism, corns, bunions, frost bites or any bruise cut or lameness which are not affected, at the least by ordinary treatment. It does not blister but on the contrary removes all soreness.

Kendall's Spavin Cure.

St. Johns, P. Q., Oct. 27th, 1881.
Dr. J. B. Kendall & Co., Gents:—I have used your Spavin cure with great success on spavins, curbs and splints. I know it to be a good remedy for ringbones, bone spavins, cuts, galls and all kinds of lameness and many other difficulties about the horse. One of my men sprained his ankle very badly. I applied Kendall's Spavin Cure and I never saw anything work like it. It was better in a few days. I know it to be good for man as well as beast. I procured one of your Treatises on the Horse, by mail, for 25 cents and I think it was the means of saving me one hundred dollars on one horse that I treated according to the direction given in your book for displaced ribs.

Yours truly, WILLIAM J. PEARSON

Kendall's Spavin Cure.

Sent address for illustrated circular which we think gives positive proof of its virtues. No remedy has ever met with so qualified success to our knowledge, for heat and muzz.

Price \$1 per bottle, or 6 bottles for \$5. All druggists have it or can get it for you, or it will be sent to any address receipt of price by the proprietors, Dr. B. J. KENDALL & CO., Kingsburgh Falls, Vt.
