

Horrible Scene at a Danish Execution.
The entire country was thrilled by a general feeling of horror when the papers at Copenhagen recently brought the details of the execution of a criminal in a provincial place the previous day. According to the Danish law, criminals condemned to death suffer the last penalty of the law by decapitation by means of an axe, the block being placed at some conspicuous point as near as possible to the place where the murder was committed. A man condemned to death was to be executed yesterday morning, and, as usual, a large crowd of people from the surrounding districts had assembled round the spot, only one constable being present to keep order. When the usual formalities were gone through, the criminal laid his head on the block, but the eye and the hand of the executioner, who had been drinking heavily the previous day, were uncertain, and the stroke fell over both shoulders, the criminal uttering a smothered cry of pain. The executioner wrenched the axe out of the wound, wielded it again, and struck the criminal high up on the back of the head; again he wrenched the axe out of the wound, and succeeded at last in cutting the head off. The crowd rushed to the headless trunk, some to try to catch some drops of blood, which the peasants think has some kind of magical effect to cure certain diseases, others to satisfy their morbid curiosity; in fact, a horrible and disgusting scene took place, several men and women fainting. Every one agrees that such a disgraceful spectacle must never more take place in Denmark; and the Minister of Justice has already, with praiseworthy speed, declared his intention to bring in a short bill providing for execution by means of the guillotine, and within the precincts of the prison.

A High Opinion.
Capt. John J. Dawson, late of the British Army, residing on Love street, between Mandeville and Spain, this city, says he used St. Jacobs Oil with the greatest possible advantage when afflicted with rheumatism.—*New Orleans Times Democrat.*

Why are the top bunches in a box of raisins like hens in a hay-loft? They are the upper layer.
Natural petroleum, deprived of its color and disagreeable odor without distillation and the aid of acids or alkalis, is what the Carboline is made from. As now improved and perfected it is a beautiful preparation, and performs all that is claimed for it as a hair restorer.

Some people object to the practice of feeding the waiter, but does not the smiling morn tip the hills with gold?
Testimonial from Mr. W. S. Wisner, of J. O. Wisner & Son, Manufacturers of Agricultural Implements:—
Brantford, Ont., July 28th, 1882.
J. N. Sutherland, Esq.: Dear Sir—I take pleasure in bearing testimony to the efficacy of your Rheumatine. Last spring I was completely disabled with Rheumatism, and tried various remedies, baths, etc., and finally heard of your cure. I purchased and used three bottles of it and it effected a complete cure, for I have not had a return of the disease since.
Yours truly, W. S. WISNER.
VEGETINE has never failed to effect a cure, giving tone and strength to the system debilitated by disease.

The traveller in England always notices a singular anomaly—the weather is always wet and the people are always dry.
The Very Latest News.
"Have you heard the latest news?" said one city swell to another. "No, do tell me what it is." "Well, I have at last got rid of my corns by one trial of Putnam's Painless Corn Extract, and I know yours were even worse than mine were, I couldn't pass without telling you to get a bottle at your drugist's. I'll guarantee it will fix 'em completely." It is sure, prompt and painless, taking the corns out at once. Sold every where. Beware of substitutes and imitations.
Take Ayer's Cherry Pectoral to stop our Colds, Coughs and Bronchial Affections before they run into Consumption that you can not stop.
Calino is in deep mourning, "Have you lost someone?" a friend asks. "Alas, no; it is my lease which has just expired!"
Electric Oil not Electric Oil. The two words have very different significations, as will be seen by reference to Webster. The Electric Oil has no claim to Electric properties only by the picture on the wrapper, which looks like begging the question. The popularity of Briggs' Electric Oil is such as to induce unprincipled persons to appropriate all the law will allow them to do. The proprietors of the original Electric Oil have no claim to the words Electric or Thomas; but to the words Briggs' Electric they do lay claim, by right, as they have made them of value to themselves.

Vegetine
Dyspepsia, Kidney Complaint, General Debility, Nervousness, Headache, Faintness at the Stomach.
Acadian Mines, N. S. June 11, 1880.
II. R. Stevens, Esq.—Dear Sir: I consider it a duty I owe to invalids in general to testify to the great good Vegetine has done for me. I had suffered for years from various diseases; in fact, my whole system appeared to be affected; was unable to stand erect, and scarcely able to walk. I tried almost everything I saw recommended without receiving any benefit. I had several doctors and used their medicines, but they gave me up, saying that there was no cure for me.
About this time my sister-in-law recommended Vegetine to me (two bottles of which had cured her of *Dyspepsia*). I tried it, and before I had finished taking the first bottle, was able to do my housework, which I had not been able to do for several months. I have taken Vegetine for *Kidney Complaint*, *General Debility* and *Nervous Headache* with equally good results. Have recommended it to neighbors, and know it to have effected some wonderful cures. My husband has taken it for *Faintness at the Stomach* or *Dyspepsia*, and he says "there is nothing as good as Vegetine."
Yours truly, Mrs. J. W. SCOTT.

Dyspepsia, Nervousness and General Debility.
Cincinnati, O., April 9, 1877.
Mr. H. R. Stevens—Dear Sir: I have used several bottles of Vegetine for *Dyspepsia*, *Nervousness* and *General Debility*, and I can truly say I never had a remedy so sure in its effects, therefore I may recommend it to all sufferers.
W. L. BELL, Walnut Hills, 41 Court-st.

General Debility and Nervousness.
Brockville, Ont., Mar. 24, 1880.
Mr. H. R. Stevens, Boston, Mass.:—
Dear Sir—I have been greatly troubled for a number of years with *General Debility* and *Nervousness*, and after using two bottles I find myself very much relieved and I most cheerfully recommend Vegetine to all who are troubled as I was.
T. SHERWOOD.

JOHN MACDONALD & CO.
WHOLESALE IMPORTERS OF
DRY GOODS, WOOLLENS, CARPETS AND FANCY GOODS,
TORONTO.

The Reasons Why They are Enabled to Sell Cheaply:
They buy all their goods for Cash, thereby being enabled to purchase from manufacturers direct, and not from dealers.
They buy at the very lowest prices, and get the cash discount.
They buy in very large quantities, getting the additional allowance given to large New York and Chicago buyers in European markets, and also by manufacturers in this country.
They buy all their goods by expert department buyers, who, buying for their special rooms only, bring to bear on all lines bought, great attention, knowledge and expertness.
Doing a large trade, they are able to make the rate of expense low, which would be impossible in a smaller trade, and selling largely, are satisfied with a small profit.

Confederation Life Association.
President—SIR W. P. HOWLAND, C.B., K.C.M.G.
Vice-Presidents—HON. WM. McMASTER AND WM. ELLIOT, Esqs.
The Directors have great pleasure in recognizing the growing popularity of the Association in the largely increased volume of new business.
The profit results for the past quinquennium have given the greatest satisfaction to our policy holders.
These profit results have created some jealousy on the part of interested parties, who have adopted the questionable means of attacking this Association through the columns of *The Insurance Times* of New York, and by the circulation of that periodical and reprints and other anonymous communications, at evidently considerable cost to the persons claiming to be interested friends of our policy holders.
These self-constituted public benefactors no doubt fancied they were safe, but the Directors know them, and to-day a writ for libel has been issued against the first batch of three, who will be afforded ample opportunity to prove their slanderous statements or take the consequences. The others will have attention in due course.
This Association can afford to submit to the fullest investigation, and the directors are prepared to give good reason for any act of theirs which may be called in question.
As the statements made against the Association will be dealt with before a Court of Law, the Directors, for the present, simply state that in every essential particular the charges made by *The Insurance Times* and circulated in this country, are untrue.
J. K. MACDONALD, Managing Director C. L. A.
Toronto, December 11th, 1882.
