Persons who use ice taken from ponds of impure water should first boil the ice to purify it from the germs that otherwise will destroy the health.

Draped with Crape.

On Thursday morning of last week the door of the office of the Markham Economist was observed to be draped with crape. No one was dead within, however, but some evil-disposed Tories, who felt good over the election of Mr. Williamson as Reeve, thought they would have some fun, but the Economist did not feel funny.

What would You Do.

"What would you do if you were I and I were you?" tenderly inquired a young swell, of his lady friend, as he escorted her home from church. "Well," said she, "if I were you, I would throw away that vile cigarette, cut up my cane for firewood, wear my watch chain under my coat, and stay at home nights and pray for brains."

Lacrosse Concert.

The Young Canadian Lacrosse Club will hold a grand Concert in the Masonic Hall, on Good Friday evening, when Mrs. Bradley, of Toronto, one of the most talented vocalists of the day, with other foreign and local talent will assist in carrying out one of the best programmes of the season. Tickets 25 cents: Reserved seats 55 cents.

A Difference.

Eggs at this season of the year are a precious come-at-able, comestible. But while the hen fraternity generally make a strike just about Easter, and demand higher prices, it is seldom that there is such a marked difference in the price in so short a distance as was last week when one establishment in town knocked them down at 23 cents and another at 18 cents.

Wiggins' Storm.

The great Storm foretold by Professor Wiggins which was to sweep over Canada from the west to east on Sunday was not by any means a success. There was a brisk breeze blowing part of the day from north of west, but not by any means as heavy as some gales we have had during the season. As far as this vicinity is concerned Wiggins' storm was a failure, though we believe in some sections they had heavy snow and high winds.

Safe-blowers at Work.

A determined but unsuccessful attempt was made on Sunday morning by burglars to break open the safe in Eagle's hotel Weston. Holes had been drilled in the safe, and a broken bar, a twisted "jimmy," and a brace and bit, which were found lying on the floor, were sufficient evidences of the efforts made to force the door off. There were \$800 in the safe, and Mr. Eagle thinks that the burglars must have been aware of that fact. High Constable Jones was notified, and a county constable have been sent out to arrest any suspicious-looking parties. The event has caused considerable excitement among the villagers.

Easter and Birthday Cards.

Easter will soon be here with its halloving recollections. It is exceedingly pleasant to receive from one's friends some token of remembrance at these seasons of festivities. One of the most pleasant customs of our day is the custom which prevails so largely, and is fast becoming more and more popular everywhere, of sending at Christmas, New Years, and Easter cards with appropriate designs and mottoes to friends. This year the custom will prevail more largely than ever. The finest stock of Easter and Birthday cards that has ever been exhibited north of Toronto may now be seen at THE LIBERAL Depot.

Venoror for March.

He predicted that the month would be an unusually stormy one, especially on the 4th and 5th and again on the 10th and 12th, with tremendous snow drifts in the Western States. 17th to 20th general heavy snow and rain storms with a further heavy blow on the 27th. The end of the month will be full of snow, sleet, wind and rain, and the month will be one of the stormiest experienced in a long period of years and there is a probability of great destruction of life and property. The storm period of the 10th and 12th will undoubtedly be severe and wide spread, but the heavy rain and wind storm on the 27th to 30th may cause the greatest harm, particularly towards New York and the middle seaboard.

A Fraud Exposed.

A man named Michael Hackett, of Newton Brook, has been canvassing Vaughan and West York for assistance to pay his doctor bill, representing that he is being sued for \$129.00, and in some instances \$150.00, by the executors of the late Dr. Reid. He has been rather successful in collecting money, a number whom we could name being already victimised. The public is cautioned not to give him anymore help under the above representation as all he is being sued for is \$29.00, which is not one half of the regular fee. Previous to putting the account in court the executors offered to take four or five cords of good wood and give him a receipt in full. He wrote a very abusive letter to the executors and they not wishing any further trouble put the matter in the court.

An Admonition.

THE LIBERAL man would, in all sincerity admonish those who contemplate making a sudden descent on natures consolidated beverage to take the precaution to make one of the following arrangements: Pick a soft spot either on the ice or on your physiological development on which to alight, descend gradually, say on hands and knees first, &c., or carry a pillow with you on which to make the descent. The writer having neglected these precautions on an occasion of this kind, a few weeks ago, his perambulations are consequently somewhat circumscribed, and the sanctum boasts an extra piece of furniture in the shape of an editor's cane, the combined duties of which are to uphold an injured back, strengthen a sprained limb and to drive away invaders of the sacred precincts who want to pour their grievances into the editors ears.

The Grand Jury's Presentment.

The grand jury, in making their usual presentment to the judge at the conclusion of business Saturday, said that they were sorry that the cases of petty larcery had not been disposed of by the magistrate before whom they were arraigned and saved the expense of a jury. They expressed very strongly about the condition of the court house in regard to the accommodation, light, air and ventilation. In visiting the public institutions they found in the hospital 200 patients receiving good treatment. In the jail were 107 prisoners, in the asylum 711 patients, in the Mercer reformatory 173 inmates, in the central prison 299 men, all busily employed; and in the Parkdale home for incurables 57 patients most comfortably provided for. They expressed their regret at the loss the court had sustained through the death of Judge McKenzie.

Beware of Imitations.

Since Dr. Thomas' Electric Oil has become celebrated, a number of unprincipled persons have been endeavoring to palm off Electron and Electric Oil for the genuine Dr THOMAS' ELECTRIC OIL. Beware of these similar named articles. If their originator had any faith in the healing properties of their own, and not try to sell them on the reputation of another; but as they know their preparation have no merit, they resort to the most unprincipled means of selling them by getting a name as near as possible to Electric. We therefore ask the public when purchasing to see that the name Dr. Thomas' Electric Oil is on the wrapper and the signature of NORTROP & LYMAN, the proprietors for Canada, on the back.

The Dublin authorities are chagrined by the flight of Egan, the evidence of whose direct complicity in numerous crimes is said to be rapidly accumulating.

Woman's True Friend.

A friend in need is a friend in deed. This none can deny, especially when assistance is rendered when one is sorely afflicted with disease, more particularly by those complaints and weaknesses so common to our female population. Every woman should know that Electric Bitters are woman's true friend, and will positively restore her health, even when all other remedies fail. A single trial always proves our assertion. They are pleasant to the taste, and only cost fifty cents a bottle. Sold by R. E. Law, Richmond Hill, and T. A. Hewitt & Co., Thornhill.
