Eight Building Lots for Sale on Centre Street East, only \$10 each, 15 per cent. down for pick of the lots. Also Two Houses, 5 rooms, on Richmond Street.
BR. LANGSTAFF.

A BLAZE.

At "The Liberal" Office.
A terrible fight between the elements, but water comes off victorious and the fire succumbs after going about \$500 worth of damage.

A somewhat serious blaze occurred in the building in connection with THE LIBERAL office on Thursday afternoon of last week, at about 3 o'clock. The fire, when first discovered, was in such an advanced stage that all who witnessed it felt certain that it would be impossible to save the building, but to the exceeding promptitude with which the fire brigade, with their complete equipments, were at the scene of action, and the noble determination and undaunted fortitude with which the men faced the raging fiery elements, are due to the fact that the building is only damaged to the extent of less than \$300, and that it was one of the grandest firemen's victories we have ever seen achieved. In this latter statement all who witnessed it unanimously concur. The fire originated in a summer kitchen, which it completely destroyed, and burst through into the dining room, destroying all the furniture therein and completely devastating the room. The wind being in the quarters in which the fire originated, the dense smoke was driven into the body of the house, which was so completely filled that for some time it was impossible to enter the building. This smoke was largely caused by some coal tar igniting during the progress of the fire, but the report that has been so largely circulated that the fire was caused by the tar is entirely without foundation, though it was stated by one of the household, before they knew to the contrary, that they supposed it was caused by the tar, which was in course of preparation for use. The fire, however, originated at least twelve feet from where there was any tar or even a stove. Its origin, therefore, seems to be, for the present, wrapped in mystery. The entire cooking utensils and kitchen apparatus, together with a quantity of vegetables, carpets, clothing, tools, and other things, many of which belonged to Mrs. John Walker, and had been placed there a day or two previous, were completely destroyed. The damage to the building amounts to nearly three hundred dollars, and the damage done to the furniture, stock, &c., much of which was damaged in the saving (but an allowance for the circumstances must be made) will amount to between three and five hundred dollars. The damage done to the printing department was the least, which, apart from the demoralizing of a couple of windows for the saving of the type, which was all removed from the office, and the knocking into pie of a portion of one of the newspaper forms, which had just been taken off press, was very slight, and only stopped its operation while the fire was in progress. Our store we expect to have in operation in a few days, but the dwelling will require several weeks to put into a state of repair. The building was insured in the Royal Ins. Co., of Liverpool, Eng.; there was no insurance on plant and presses, stock or furniture.

OUR THANKS.
We gratefully tender our thanks to the various departments of the fire company for working so nobly and faithfully, and with such good results, and were it in our power we would gladly put them in a more tangible form. We would also remember those citizens who faithfully did their part in removing furniture, stock, &c., and the High School boys come in for a large share of our gratitude, nor would we forget the little fellows who played their part well, and if they will only bring back the jack-knives, pencils, pen holders, &c., we will not say anything about the candies.
We are inclined to think it would only be a matter of policy for the Royal, as well as the companies that carry the risks on the Dominion and Grand Central Hotels, both of which would almost certainly have come had they not, by a mighty effort, saved this office, to recognize and encourage the bravery, which saved them many hundreds of dollars, by dealing liberally with the noble Richmond Hill Fire Brigade.

A WRONG OPINION.—Many a dollar is paid for prescriptions for some disease that never troubled the patient, and when the sole difficulty was worms, which a few of Freeman's Worm Powders would remove. These Powders are pleasant, safe and sure, contain their own cathartic and are adapted for children or adults.
A WONDERFUL RESULT.—A single bottle of Dr. Low's Pleasant Worm Syrup has frequently destroyed from 100 to 200 worms. It is pleasant to take—no other cathartic being required. Tape worms have also been removed by it, of 15 to 35 feet in length. It is effectual for all varieties of worms afflicting both children and adults.

A DETECTIVE'S EXPERIENCE.

His successful undertaking and escape from an impending fate.
(Buffalo, N. Y., News.)
One morning several years ago, just as the dull gray light was beginning to show itself in the east, a small band of men might have been seen deployed about a house on Ferry street, in Buffalo. There was nothing special either in the dress or appearance of the men to indicate their intention, but it was plain that they had business of importance on hand. Suddenly a man appeared at one of the windows, took in the situation at a glance, and, swinging himself out with powerful quickness, scaled the roof of the house. The man was Tom Ballard, the notorious counterfeiter; and armed to the teeth and fully realizing his situation, he defied justice and the officials below him. Some of the officers, knowing the desperate character of the man, proposed to shoot him until he was killed, but one of the number promptly protested, and declared that if his brother officers would assist him to ascend he would capture the man alive. Accordingly he began the difficult and dangerous task, and succeeded in bringing his prisoner to the ground in safety.

The man who accomplished this task was Mr. Thomas Curtin, the present superintendent of the city police of Buffalo, N. Y. Mr. Curtin is a man who is known by every prominent detective and policeman in America, and he stands pre-eminently in the front rank of his profession. Quiet and gentlemanly in appearance and manners, he possesses a courage, combined with marked physical power, that makes him the terror of evildoers and the pride of law-abiding citizens. Few people can realize, however, the trials, exposures, and even privations to which the members of every municipal police and fire department are exposed. Compelled to be on duty at uncertain hours, subjected to the most inclement weather, and often necessitated by the nature of their duties to protracted undertakings, they endure a nervous and physical strain that is terrible. Such was the experience of Mr. Curtin in former days; and it is not surprising that he found himself suffering from a mysterious physical trouble. In relating his experience to a representative of this paper he said:
"At times when I was on duty I would feel an unaccountable weariness and lack of energy. My appetite was also uncertain and my head seemed dull and heavy. I did not fully understand these troubles, but supposed, as most people suppose, that I was suffering from malaria. I tried to throw off the feeling, but it would not go. I thought I might overcome it, but found I was mistaken, and I finally became so badly off that it was almost impossible to attend to my duties. I have known any number of men in the police and fire departments of this country who have been afflicted as I was, and I doubt not there are to-day hundreds similarly troubled who, like myself, did not know the cause, or really what ailed them."
"Your present appearance, Mr. Curtin, does not indicate much physical debility," said the interviewer as he looked at the 220 pounds of bone and muscle standing nearly five feet eleven inches in height before him.
"O, no; that is altogether a thing of the past, and I am happy to say that for more than a year I have enjoyed almost perfect health, although I now realize that I was on the road to certain death by Bright's disease of the kidneys and traveling at a very pace."
"How did you come to recover so completely?"
"That is just what I want to tell you, for I believe it may be of great service to many others in my profession, who may possibly hear of it. I began the use of a popular remedy at the earnest solicitation of a number of friends in this city, and found to my great gratification that I began feeling better. This feeling continued and I gained in strength and vigor until now I am perfectly well—and wholly through the instrumentality of Warner's Safe Cure which I believe to be the best medicine for policemen, firemen, railroad men or any other class of people exposed to danger or a change of weather, ever discovered. Since my recovery I have recommended it everywhere, and never knew a case where it failed either to cure or benefit. I would not be without it under any consideration, and I am positive it is a wonderfully valuable and at the same time entirely harmless remedy. Indeed, I see that Dr. Gunn, dean of the United States Medical College of New York, indorses it in the highest terms."
"So you experience little difficulty in the execution of your duties now, Mr. Curtin, do you?"
"None whatever. Our department was never in better condition than at present."
"And do you never have any fear of some of the desperadoes whom you have

been the means of bringing to justice."
"Not in the least. Such men to not try to retaliate, partially because they have not the courage, but oftener because they respect an officer who does his duty." The policemen, firemen, letter carriers and other public employees of this country have a particular interest in trying life. When therefore, a simple and pure remedy that can sustain the health of all such men is found, it should be cause for great congratulation, especially when recommended by such a man as Superintendent Thomas Curtin, of Buffalo.

One trial of Mother Graves' Worm Exterminator will convince you that it has no equal as a worm medicine.
A Good Introduction.—J. Kennedy, a merchant in Dixie, about three years ago introduced Haygard's Peppermint Balsam to his customers by trying it in his own family for Coughs and Colds. Being pleased with results, large sales followed, and it is now the favorite remedy in that neighborhood.
ANOTHER WITNESS.—A. Chard, of Sterling, testifies to the efficacy of Haygard's Yellow Oil, which he used for a badly injured knee joint. It is the great household remedy for inflammation, pain, soreness, lameness, etc., and is used both internally and externally with infallible success.

BAD DRAINAGE.—There is nothing more productive of disease in a neighborhood than bad drainage. Open the culverts and sluiceways and purify the locality. The obstructions in the human system may be remedied in a similar manner by Burdock Blood Purifiers, which opens all the outlets of disease through the Bowels, Liver and Kidneys.

A QUERY ANSWERED.—People often ask when is the best time to take a blood purifier? We answer, the best time is now. Burdock Blood Purifiers does its work of purifying, regulating and toning the system at all times and all seasons. Purity in all things is always in order when required.
Geo. Dodge, Sr., a well known citizen of Emporium, writes that one of his men (Sam Lewis) whilst working in the woods so severely sprained his ankle that he could scarcely get home, but after one or two applications of Dr. Thomas' Electric Oil, he was able to go to work next day.
Indiscretions in diet bring on dyspepsia and irregularity of the bowels. But only wholesome food, and if the trouble has become permanent—as it is very prone to do—try a course of Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure. The combined effects astonish and delight the sufferer, who soon begins to digest well, regain functional regularity and improve in appetite; the blood becomes pure and good health is restored.

SIXTY-THIRD YEAR.
ANNOUNCEMENT EXTRAORDINARY!
Great Reduction in Price.
"THE SATURDAY EVENING POST"
\$2.00 a Year for Single Copy;
—OR—
\$1.00 a Year in Clubs of 10—
Now is the time to raise clubs for the coming year.

We are determined to get a very large list of new subscribers, and in order to do so we will receive subscriptions at ONE DOLLAR A YEAR, in clubs of TEN.
And, as an inducement to each of our subscribers to send a club, we will give a gratis copy for every club of 10 at \$1.00 each. Remember, we will not send a single copy for less than \$2.00; and in order to get the reduced rate, one must send at least ten subscribers. We cannot send a less number for less than \$2.00 each.
Think of it! 10 copies of THE POST one year, with one extra for sending the club, making 11 copies, for \$10.00.
As to THE POST, there are few in this country, or any other country who are not familiar with it. Established in 1821, it is the oldest paper of its kind in America, and for more than half a century it has been recognized as the leading Literary and Family Journal in the United States. For the coming year we have secured the best writers of this country—Europe, in Prose and Verse, Fact and Fiction.
A record of over sixty years of continuous publication proves its worth and popularity. THE POST has never missed an issue. Its fiction is of the highest order—the best original Stories, Sketches and Narratives of the day. It is perfectly free from the degrading and polluting trash which characterizes many other so-called literary and family papers. It gives more for the money, and of a better class, than any other publication in the world. Each volume contains, in addition to its well-edited departments, twenty-five first-class serials, by the best living authors, and upwards of five hundred short stories. Every number is replete with useful information and amusement, comprising Tales, Adventures, Sketches, Biography, Anecdotes, Statistics, Facts, Recipes, Hints, Cautions, Poetry, Science, Art, Philosophy, manners, Customs, Proverbs, Problems, Experiments, Personals, News, Wit and Humor, Historical Essays, Remarkable Events, New Inventions, Curious Ceremonies, Recent Discoveries, and a complete report of all the latest Fashion, as well as all the novelties in Needlework, and fullest and freshest information relating to all matters of home and personal adornment, and domestic matters. To the people everywhere it will prove one of the best, most instructive, reliable and moral papers that has ever entered their homes.
We trust those who design making up clubs will be in the field as early as possible. Our prices to club subscribers by the reduced rate are so low that if the matter is properly explained, very few who desire a first-class literary paper will hesitate to subscribe at once, and thank the gettup of the club for bringing the paper to their notice. Remember, the gettup of a club of 10 gets a free copy of the paper an entire year.
