ON A TOUR.

(CONTINUED FROM LAST WEEK.)

"Let patience have her perfect work," and time will smooth over all the vexations" flesh is heir to." We are all like children; time heals nearly all our disappointments, the only difference being the sorrows of childhood are forgotten in a few minutes or hours, while we require a little more of the healing balm." However, we scarcely needed to exercise our patience over our four days' delay, as we managed to enjoy rather than endure

The Ss. 'Campana' of the Collingwood & Lake Superior Line, and the ' Pacific' of the Great Northern Transit Co.'s Line -wrongly reported Georgian Bay Transportation Co. last week-arrived on Sunday, and we had to inspect them on Mon- perance have donated \$100 to assist the day, and pass our opinion on them. They friends of the Scott Act in the repeal campassed our examination very creditably, paign in Halton. though, and we give them privilege to run on any inland waters. In fact, the 24th, the lowest point that has yet been Campana is supposed to be fit to sail the reached. Offers of 351 were made, but waters of the" stormy deep, " as she is an iron vessel of ocean build, the first of the kind brought to these waters. She isnot a daisy exactly, these black iron hulks being little suggestive of beauty-but an A 1 boat, just the article for these northern lakes, her length is 252 ft., beam 36 ft., but not so high as many less pretentious boats. There are no others of ocean build running from Collingwood, but the Pacific and Atlantic of the local line are fine boats, the Pacific surpasses all other boats but the ocean-built steamers. The C. P. R. boats of Owen Sound are built in the same style as the Campana, two of them being slightly larger, and lighted by electricity. There is quite a rivalry between the Campana and these boats, both being the faster accordingly as you 'get it' from their respective sympathisers. However, it is claimed the Campana has made the best record yet on its last trip down, making the distance between Pert Arthur and O. S. in thirty-five hours, the best time of the C. P. R. boats being

thirty seven and a half hours.

The Collingwood and Lake Superior line of boats and the C. P. R. boats run direct from O. S. to Port Arthur, merely calling at the Sault, and making the passage in less than two days. Those who desire a quick trip, and are auxious to save time, will find it to their advantage to take this line, but excursionists whose object is pleasure, but not time, will find the boats of the Gr. Northern Transit line to be what they want. Take the Atlantic or the Pacific to the Sault and enjoy yourself, if you do not, blame us for it, or else conclude that that kind of enjoyment is not your forte. These boats take in the beauties of the far-famed North Channel which the through line boats miss by running south of the Man- FIRE BRIGADE MEETING. itoulin Islands. The scenery from the time the North Channel is entered is one ever varied and ever beautiful. Those that have seen both this and the Thousand islands give the preference to the July 25th. North Channel. The scenery here is not so quiet as that of the Thousand Islands, though it can hardly be called majestic, yet it is bold enough to be very attractive to those who see it for the first time. Those that can take advantage of a Mack inaw trip, get one hundred miles extra sailing, and see the beauties of the Mackinaw Straits for the same fare-\$15, from Toronto for return tickets. Pardon me mentioning prices, but this is excursion time, and, to intending pleasure seekers, I would like to say this is emphatically the cheapest and most enjoyable trip on the continent. For those desiring a shorter trip, the same line can furnish accommodation, in a 70 miles' run to Parry Sound, "the pleasure-seekers' paradise."

One word more. If this should meet ed. the eye of any intending excursionist, our advice is; take the benefit of the trip. Do not sit in the smoking-room, where the air is blue, and play enchre or cassino ed. half the time, and then blame everybody and everything for being dull the remainder of the time.

But we are delaying again, the boat is whistling and crowds are getting aboard, for it is the first Mackinaw excursion of the dark blue sea."

Farmers are threatened with a new veration and loss by the appearance in the mangel wurzel of a sme'l white maggot of voracious appetite.

Judge Rose has decided that the members of the Salvation Army do not infringe the laws by beating the martial drum to rouse the torpid feelings of those whom they seek to convert. Major General Middleton, C. B., the new

commander-in-chief of the Canadian Militia, reviewed on Tuesday last the officers and men of the Infantry School. He spoke in terms of praise of both. Three Prescott ladies, while picking berries, were astonished and frightened at

the appearance of a bear and two caus. The brave women fled home, leaving beaud both their lunch and bernes. Thompson Smith & Son's new saw mill in Stouffville has been purchased by the Parry Sound Lumber Co., and will be removed in

a few days to its northern home. This means a great financial loss to Stouf. ile. Four boys were arrested in Parkdale on Monday evening, July 21st, and lodged in the station, for throwing stones at a train. On Tuesday they were brought before Justice Wingfield and Reeve McMath and fined \$10

The Saturday cheap excursions on the Northern are being taken advantage of by hundreds. Eve y case reported of reduction of fares by Railway Companies has been followed by a great increase of travelling, and a corresponding rise in the Co's receipts.

Baby farming is again exciting horror and dismay in Toronto. This system of pretending to look after babies in wholesale fashion is nothing but a slaughtering of the inuocents. Starvation and filth are found by the proprietors to be the most effective weapons for hurrying off the little ones.

The meeting then adjourned.

From our own Come bondeni. Harvesting has commenced in this locality. The fall wheat is an extra good crop, with the exception of a few odd fields. The spring crops are also very heavy and are ripening very fast, which will hurry some of our slow farmers, as we have some of them in our neighborhood. We are surprised to notice in looking over the fields that the farmers who have purchased self-binders are a great deal behind, and those who have to bind by hand have lots of time to go to see the self-binders work; we cannot account for the drawback.

We presume those of your readers who have travelled through our little village have noticed that we have no public house of accommodation. We would venture to say that it would not be usually necessary, except on some particular occasions. For instance, a short time ago two respectable young men were driving along; they were overtaken by a verv heavy shower of rain, and the night being very dark, they were obliged to seek for shelter, which they would have had, but for an old gentleman who came out and ordered them out of their place of refuge. I do not think it christian-like for a man to disoblige others for fear of disobliging himself.

I am glad to learn that some of our young men are exchanging sweet-hearts; we do not wonder at it, as some of the old ones are getting pretty shaky.

Entrance Examinations.

To the Eulto: of TEE LIBERA

Sig,-I noticed in last week's LIBERAL you credit Richmond Hill School with having passed several candidates at the recent Entrance Examaination, who, I am given to understand, reside at Maple, and other places, and who have never attended the Richmond Hill Public School.

Would you be kind enough to throw some light on this subject, for, if I have been correctly informed, the report is misleading to the public, and unfair to other schools.

Yours, de., INQUIRER.

Maple, July 29th, '84.

[We published the report verbatim, as sent to us by Mr. McBride, the Head Master. We can only say that the pupils referred to above had been attending the High School in Richmond Hill, and not the Public School. Why they were not so reported, Mr. McBride will have to explain. - En.

Mrs. A. Nelson, Brantford, writes: "I was a sufferer of chronic dyspepsia for eleven years. Always after eating, an intense burning sensation in my stomach, at times very distressing, caused a languid feeling, which would last for several hours after eating. I was recommended by Mr. Popplewell, Chemist of our city, to try Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, and 1 am thankful to say I have not been better for years; that burning sensation and languid feeling has all gone, and food does not lie heavy on my stomach. Others of my family have used it with best results.'
