How is it you do not give us any Maple items. Have you fallen out with the harness-maker, or is he too busy selling plows and other hardware. The village is going ahead this summer very fast; three fine brick houses and three frame dwellings. Mr. Jacob Smith has sold the house and lot occupied by the Rev. M. Fawcet as a Methodist Parsonage to Mr. Bailey, yeoman of King, who is coming to live in our village and retire from agricultural pursuits.

Mrs. Matthews and daughter are going to Winnipeg, Manitoba, and have rented their very nice residence to the official board of the Methodist Circuit, for two

years as a parsonage. Patterson & Bro. had a new binder out last week, and tried it on the farm of Mr. Jas. Oliver. All who saw it work, pronounce it the best binder they have ever seen. Mr. Oliver unhitched the traces of one horse and let the other draw it alone, which it did very easily in a heavy crop of oats.

Court of Revision, Judge McDougald presiding, sat in the Masonic Hall here. on Wednesday last, when several voters were placed on the list, and several were struck off.

Dr. Orr's man has left two potatoes on exhibition in the P. O. weighing 3 of a pound each; he says, 'beat them who can', the effect of John A. doing away with also prepared to do all kinds of blackpotato bugs as he promised.

to deliver a lecture here about the mid- and on the most reasonable terms. dle of October.

Cricket seems to have about died out

Permit me again to occupy your colunins in making a few observations upon things in general or passing events. All will be willing to admit that we have had a beautiful summer of moderate heat, with its sunshine and showers; the earth has brought forth abundantly, which should gladden our hearts, especially the tiller of the soil. The heat of the last few weeks has been very oppressive. Flies have increased amazingly and are no respectors of persons or things, ever active no matter how often repulsed they come 167, King St. East, Toronto, to the attack again. Milk-men and maids are often in consternation how to extract the fluid without some serious mishap.

Harvesting may be said to be over and seeding commenced. Soon the grain market will be opened, as Mr. Dennie is making preparations, and Mr. Nash, his buyer, expects to be hero in a few days.

The buildings, of which we spoke about in our last or previous letter, are now reaching completion, and adds materially to the looks and prosperity of the village. Others are being commenced, and ere the winter comes a few more may be added; and yet there is room.

In conversation the other day with a fellow probationer, whose physiog gave evidence of a hard life, from an over indulgence in that which destroys the noblest of God's creatures, our conversation soon merged into the merits and demerits of the Scott Act. 1 am glad to say on this point our views did not differ, as he remarked it was what was needed to save the fallen, and close the door by which the youth of our land are being beguiled into the pitfalls of drunkenness and vice. All efforts heretofore of restriction, moral sussion, licenses and the like having failed to keep within bounds this unhallowed traffic, nothing short of prohibition can do the work; and while upon this point allow me to commend you for the recent article which appeared in vour editorial columns a few weeks ago, in reference to the lacrosse match between the Brampton and Richmond Hill clubs. If such proceedings continue to characterise such gatherings, it must come into disrepute by all right and proper thinking people; responsibility rests somewhere and should be attended to.

Our mail courier continues to be a great favorite with the ladies, as their frequent interchange of thought would indicate. Being of a genial and kind disposition, and a trained servant of the P. O. Department, they can, I suppose, place implicit contidence in him as a keeper of secrets. Winter is coming and we are a little suspicious.

We noticed among those present at the Court of Revision our old friend, Mr. G. Willson, P. M. of Teston, who has just returned from England, after several months' visit to his friends there, as also, it has been remarked, to attend the sitting of Privy Council in regard to the Boundary Award Question. Be that as ic may, we are not prepared to say, whether or not. He must, with the Conservative party, admic by the decision of that Court that Mr. Mowat and the Reform party in this contention are the true custodians of the interests of the people of glorious old Ontario.

JEFFERSON.

From Our Own Correspondent.

Harvesting is about finished in our neighborhood and things are looking fine after the refreshing shower at the beginning of the week. If the price of grain was in propertion to the yield, the farmers say they would be happy The self binders have done good work for some of them this harvest.

Our store is proving a great accommodation to the neighbors, who, in the busy time, have their needs supplied close at |

The Great French Lction The Face.

It conceals the evidence of age. One application will make the most stubbornly red and rough hand beautifully soft and white. Impossible to detect in the beauty it confers any. artificial character. It cures Greasy Skin, Freckles, Wrinkles, Pimples, Black Head, Crow's Feet, Blotches, Face Grubs, Sunburn, Tan, Ringworm, Chapped Hands, Sore or Chapped Lips, Barber's Itch, Tetter, &c. It frees the pores, oil glands and tubes from the injurious effects of powders and cosmetic washes. By its use all redness and roughness are prevented; it beautifies the skin and will make it smooth, soft and white, imparting a delicate softness; producing a perfectly healthy, natural and youthful appearance.
