People east of Aurora are agitated over what may turn out to be a narrow escape from being buried alive. A boy named Silas Lyon, 17 years of age, only son of Mr. Henry Lyon, of the 4th con. of Whitchurch, was taken ill on Sunday Nov. 9th with inflammation of the bowels, and as was supposed, died on the following Saturday. The funeral was appointed to take place on Tuesday. The friends of the deceased assembled and the service had begun, before the removal of the body, when signs were noticed indicating that life was not yet extinct. The funeral was postponed till Thursday, by which time the painful suspense in which the family now live, will doubtless have been turned into either joy or bitter disappointment. - Globe.

Grand Panorama.

The name of J. Veary has become a household word in three continents. Not only is he a dealer in pleasure, but he is also a straight forward man of business. He makes it a point to keep all his promises. Consequently those who pay a visit to his zoographicon may rest assured of a rare treat. This vast panorama is painted on 40,000 feet of canvas; it includes views of celebrated paintings, magnificent scenery stirring scenes of the Franco-Prussian war, illustrations of Bunyan's Pilgrim Progress, and 30 startling pictures based on T. S. Arthur's celebrated 'Ten nights in a Bar-Room.' The Zoographicon is praised and recommended by the Press and Pulpit as being a full fund of instruction, geographical, artistic, historical and moral. This most pleasing panorama will be exhibited in the Temperance Hall on Monday and Tuesday evenings, Nov. 24th and 25th. Admission 20 cents; children 10 cents. Doors open at 7; to commence at 8. A grand matinee will be given on Tuesday at 4.30 p. m. Children 5 cents. Do not forget the date.

CANE-At Newmarket, on the 15th Nov., Ambrose M. Cane, aged 28 years, 9 months and 6 days.

Great results are speedily accomplished by the leading alterative, Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure. Indigestion ceases, biliousness disappears, constipation gives place to regularity of the bowels in consequence of taking it. Ladies suffering from complaints peculiar to their sex experience long wished for relief from it, and impurities in the circulation no longer trouble those who have sought its aid. Give it a trial and you will not regret it.

BUREAU OF INDUSTRIES.

The report of the Bureau of Industries for November deals chiefly with the grain and root crops of the Province, and gives tables of produce based on 1,250 returns made to the bureau on the 25th of October. These tables show that the harvest of grain crops has been even more bountiful than appeared by the estimates of the 1st of August, and form a gratifying contrast to the tables of last year's harvest. The quality of the grain, too, is generally excellent, being plump, hard and heavy. Barley, however, was badly discolored by age, and receive free, a costly box of goods which suffered from the drought of June and him.

July. The total yield of peas is 13,691,607 bushels, or 3,000,000 bushels more than last year, while the average per acre is 24 bushels or 4.3 bushels more than last year. The quality is of unvarying excellence, little or no damage having been

done by the bug.

Beans and corn, which were in an unpromising condition at the end of July, made a surprisingly good recovery in August, and steadily improved to maturity. The yield of the former is 292,044 bushels, and of the latter 12,936,889 bushels, being an average of 23.8 and 74 bushels per acre respectively. Last year both crops were destroyed by the early promote its cause in any way. I hope

one, especially potatoes, mangolds and I clip from the Perth Expesitor. The carrots. Turnips suffered to some extent from the August drought, but they are now fighting the Scott Act in Lanark of good quality.

The clover midge has been very destructive on all fields from which a first crop of clover was taken, but where fields | fulminations hurled from that town were pastured until the beginning or middle of June the seed was unharmed, Fruit trees are in a healthy condition

and have made a good growth of new wood, but with the exception of apples the crop of the season has been less than an average.

The area of fall wheat sown this year appears to be somewhat less than last year, but the land at seed time was in a much better state of tilth and the young wheat has made a vigorous growth.

R. C. Bruce, druggist, Tara, says: "1 have no medicine on my shelves that sells faster or gives better satisfaction than Dr. Thomas' Eclectric Oil, and the sale is constant'y increasing, the past year be- Editor, the world is surely awakening to ing the largest I have ever had. One customer was cured of catarrh by using distillers prefer total abstinence to mod three bottles. Another was raised out of bed, where he had been laid up for a long time with a lame back, by using two bottles. I have lots of customers who would not be without it over night."

AYER'S Hair Vigor

restores, with the gloss and freshness of youth, faded or gray hair to a natural, rich brown color, or deep black, as may be desired. By its use light or red hair may be darkened, thin hair thickened, and baldness often, though not always, cured.

It checks falling of the hair, and stimulates a weak and sickly growth to vigor. It prevents and cures scurf and dandruff, and heals nearly every disease peculiar to the scalp. As a Ladies' Hair Dressing, the Vigor is unequalled; it contains neither oil nor dye, renders the hair soft, glossy, and silken in appearance, and imparts a deficate, agreeable, and lasting perfume,

MR. C. P. BRICHER Writes from Kirby, O. July 3, 1882 : "Last fall my hair commenced falling out, and in a short time I became nearly baid. I used part of a bottle of AVER'S HAIR VIGOR, which stopped the falling of the hair, and started a new growth. have now a full head of bair growing vigorously, and am convinced that but for the use of your preparation I should have been entirely bald."

J. W. Bowen, proprietor of the McArthur (Ohio) Enquirer, says: "AVER'S HAIR VIGOR is a most excellent preparation for the hair. I speak of it from my own experience. Its use promotes the growth of new hair, and makes it glossy and soft. The Vigor is also a sure cure for dandruff. Not within my knowledge has the preparation over failed to give entire satisfaction."

MR. ANGUS FAIRBAIRN, leader of the celebrated "Fairbairn Family" of Scottish Vocalists, writes from Boston, Mass., Feb. 6, 1880; "Ever since my hair began to give silvery evidence of the change which fleeting time procureth, I have used AVER'S HAIR Vigor, and so have been able to maintain an appearance of youthfulness - a matter of considerable consequence to ministers, ora-tors, actors, and in fact every one who lives in the eyes of the public."

Mrs. O. A. Prescott, writing from 18 Elm St., Charlestown, Mass., April 14, 1882, says: "Two years ago about two-thirds of my hair came off. It thinned very rapidly, and I was fast growing bald. On using AYER'S HAIR Vigor the falling stopped and a new growth commenced, and in about a month my head was completely covered with short hair. It has continued to grow, and is now as good as before it fell. I regularly used but one bottle of the Vigor, but now use it occasionally as a dressing."

We have hundreds of similar testimonials to the efficacy of AVER'S HAIR VIGOR. It needs but a trial to convince the most skeptical of its value.

He turns out immense quantities of liquors, and, from a pecuriary point of view of selling, would like all the people of Canada to be "drinking characters." He, however, is wiser than he preaches when he gets down to business at home. In his distillery he will have no "drinking characters." He has set up a small private prohibitory school of his own, and will there "fetter the liberty of his subjects." While preaching that his liquors are beneficial and necessary to the well-being of the community; and that it would be an act of despotism to prevent their use, he turns on his heel and practically informs his employes that his words are a snare and a dillusion. Rev. J. Ossian Davies rejoiced in this motto-"Gospel Temperance." He was very proud of the little badge of blue which he always wore, not because he was very anxious to advertise his abstinence in a Pharisaic manner, but because it helped the wavering and the weak ones around him: A publican once asked au abstainer, "Why do you wear that ribbon?" "I will put you a quesaion," said the abstainer, "why do you put a sign-board above your door?" "Oh," said the publican, "to sell my beer." "Then," said the abstainer, "I wear this ribbon to show you that I don't want your beer.
