Pendulum-A good Investment t Capt. Howard-London Death Hate-de., de.

The pendulum of the new clock in the Chicago Board of trade building weighs 750 pounds. The dials are 10 feet 10 inches in diameter.

An Eng ishman who lately visited Antwerp Caunedral declares that Ruben's masterpiece, .. The Descent from the Cross," is such a wonderful picture that it is worthy of Miss Thomson, the painter of the "Roll Call."

It is proposed in England to provide the sinews for war with Russia by raising the tax on patent medicines. The Daily News thinks there is a sort of poetic propriety in making patent medicines furnish the funds with which to kill people by other means.

According to the Revue des Maladies de l'Enfance sixty per cent. of the children born in Russia die before the age of 5 years. Less than one-half of the males reach the age of 35, and a third of these are unfit for mulitary service, either through constitutional debility or from not having attained the requisite stature.

M. de Lesseps relates that on the occasion of his marriage, the day of the opening of the Suez Canai, November, 1869, his father-in-law handed him 100,000 francs as a present to his wife. At that time, he adds, Suez Canal shares were selling at 250 francs, or 50 per cent. discount. He invested the present in these shares, on which he realized 1,500,000 francs.

The Grand Duke of Hesse has just paid to the lawyers of his morganatic wife, Mme. de Kalomine, the first quarterly installment of the 20,000 marks he had agreed to allow her annually. Mme. de Kalomine, through her lawyers, has indignantly refused the payment, adding that he should be ashamed to offerher a pecunlary recompense, and that she does not wish him further to annoy her with letters or offers of money.

had as poor luck in fine arts as in stocks. side, and the host of painful affections, Having been ruined on the Vienna Bourse, he has sold his picture gallery, which was supposed to be very valuable. But only the most meagre prices—a few dollars its superiority over every known remedy. each-were obtained even for works by Rembrandt, Teniers, and Rubens; perhaps it would be better to say works attributed to those masters.

Considerable sensation, according to the London Truth, has been excited in Vienna society by the announcement of the betrothal of Prince Lichtenstein to the daughter of a merchant in the city, such a marriage being regarded as a mesalliance by the austere purists of the court of Austria. This Prince was formerly well known in London, and his first wife was Miss Fox, the adopted daughter of Lady Holland.

Capt. Howard, with Gen. Middleton, is a native of Connecticut. He served in the war of the rebellion and also five years in the regular army, where he had considerable experience in Indian warfare. He is a brave, cool-headed soldier, thoroughly familiar with army life, and he is also a very skilful machinist, possessing a complete knowledge of the mechan sm of a Gatling gun.

Sir John Lubbock told a story in his recent speech at Shrewsbury, says the St. James's Gazette, which can have no personal application to himself. It was about a traveller who revisited a New Zealand village and inquired after a friend, a leading Maori Liberal and a member of the local Peace Society, it is believed. The reply was discouraging. "Ah," said the village chief, with resignation, "he gave us so much good acvice that we had to put him to death mercifully."

Messrs. Ellis, Lever & Co. of Manchester present a remarkable contrast to the ordinary English trader. The firm has a marked dislike toward Russia, being from an English point of view preeminently patriotic. They received an order for 25,000 tons of steam coal to be delivered in Russian ports. They declined to supply the coal, Mr. Lever answering, "I declined to a sell a ton of coal to Russia at any price." This would look very selfsacrificing, but it may be safely predicted that with the aid of the huge advertisement which the refusal has given the firm they will be amply recouped by increased Jingo patronage.

One of the boldest of the French charlatans—the Widow Noel—has lately been fined and imprisoned for trickery. Not content with prescribing nostrums, she used to insist upon residing with her patients, whom she thus robbed at her leisure. Her last victim was a man with heart disease. She remained with him for sixty days and received her board and \$350. Her chief medicament was an "ointment" made by boiling bull pups for nine days in a mixture of red earth, and for this foul stuff she charged \$4 per pot. Strange to say, seven witnesses of good character testified to the efficacy of the woman's remedies.

In London an important modification has been made in the manner of investigating the death rate. The old way was to give the entire rate of the city in lump form. The change consists mainly in the systematic redistribution into their respective districts of the deaths of persons habitually resident in them, but dying in one of the institutions. In the first quarter of 1885 the death rate of all London was equal to an annual rate of 21.5 per 1,000 of population. Under the new plan, the rate from which the foregoing figures at Fish Creek, contrary to custom, in DALLING DOLALI FD were made were as follows for the thirtyninesanitary districts of the city: The lowest were Plumstead, 14.6, Hampstead 16.3; Kensington, 16,6; Lewisham, 18; Hackney, 18.9; and St. George's, Hanover square, 19. The rates were found in London (city), 28.2; St. Saviour's, 28.7; St. Luke's, 29; St. Giles, 30.5 Holborn, 30.7; St. George's-in-the-East, 35.7.

All "Played Out."

"Don't know what ails me lately. Can't eat well, -can't sleep well. Can't work, and don't enjoy doing anything. Ain't really sick, and I really ain't well. Feel all kind o' played out, someway." That is what scores of men say every day. If they would take Dr. Pierce's "Golden Medical Discovery' they would soon have no occasion to say it. It purifies the blood, tones up the system and fortifies it against disease. It is a great anti-bilious

remedy as well. A sergeant of the 10th Royal Grenadiers kept up an exchange of shots at every opportunity with a Halfbreed in his front. Thinking him dead after a long silence, he raised himself to look, when a bullet whizzed past his ear.

"I Feel So Well."

"I want to thank you for telling me of Dr. Pierce's "Favorite Prescription," writes a lady to her friend. "For a long time I was unfit to attend to the work of my household. I kept about, but I felt thoroughly miserable. I had terrible backaches, and bearing-down sensations across me and was quite weak and discouraged. I sent and got some of the medicine after receiving your letter, and it has cured me. I hardly know myself. I feel so well."

A man belonging to ".C" Infantry School corps, turned to the right to get a cartridge from his pouch, when his lower front teeth were shot away, the bullet passing through the lip without cutting

Don't disgust everybody by hawking, blowing and spitting, but use Dr. Sage s Catarrh Remedy and be cured.

There is terrible excitement among the men composing Gen. Strange's column and hopes are expressed that the campaign will be prosecuted until every member of Big Bear's band is exterminated.

Pain Cannot Stay

Where Polson's NERVILINE is used. Composed of the most powerful pain-subduing remedies known, Nerviline cannot fail to give prompt relief in rheumatism, Baron Victor Erlanger seems to have neuralgia, cramps, pain in the back and internal or external, arising from inflammatory action. A 10 cent sample bottle of Nerviline will give sufficient proof of Try Nerviline. Large bottles 25 cents; trial bottles only 10 cents.

A member of "B" Battery, writing home, says: "The General is a very kind and solicitous for our safety and comfort, and the boys have great confidence in him."

From the Maritime Provinces

Comes a host of testimonials as to the Magic Corn and Wart cure-Putnam's Painless Corn Extractor. We select from the list of names before us that of Henry Taylor, E.q., Halifax, probably the most widely known druggist in the lower provinces. Mr. Taylor has no hesitation in stating "that in an experience of twenty years he has handled nothing that has given the universal satisfaction that Putnam's Corn Extractor invariably does." It never fails, it is painless, prompt and produces no discomfort. Beware of imitations and substitutes. Polson & Co., Kingston, proprs.

Dr. J. A. Grant, jr., in a letter to his mother says: "The poor General did feel sore over his losses, but did the best that cou'd be done, and is every inch a general. It is sad to see poor Wise and Doucet wounded, but I feel thankful it is not worse, as they ran every risk."

Catarrh-A New Treatment Perhaps the most extrarordinary success that has been achieved in modern science has been attained by the Dixon Treatment of catarrh. Out of 2,000 patients treated during the past six months, fully ninety per cent. have been cured of this stubborn malady. This is none the less startling when it is remembered that not five per cent of the patients presenting themselves to the regular practitioner are benefitted, while the patent medicines and other advertised ourse never record a ours at all. Starting with the claim now generally believed by the most scientific men that the disease is due to the presence of living parasites in the tissues, Mr. Dixon at once adapted his cure to their extermination; this accomplished the catarrh is practically cured, and the permanency is unquestioned, as cures effected by him four years ago are cures still. No one else has ever at-tempted to cure catarrh in this manner, and no other treatment has ever cured catarrh. The application of the remedy is simple and can be done at home, and the present season of the year is the most favorable for a speedy and permanent cure, the majority of cases being cured at one treatment. Sufferers g'iould cor-respond with Messrs. A. H. DIXON & SON, 306 King-street West, Toronto, Canada, and enclose stamp for their treatise on oatarch.-Montreal

It is impossible to avoid admiration of these volunteers and militia who fight like veterans, and stand hardships with much more equanimity than "old soldiers" Lisplay.

No smoker who has ever used the Myrtle Navy tobacco for, say a month, ever relinquishes it for any other brand. Its flavor is rich and full, and it never burns the tongue or parches the palate. It is, in fact, the ne plus ultra of smoking tobacco.

Seventy miles of telegraph line between Medicine Hat and Fort Macleod have been constructed. A railway over the same route will be constructed in August.

Young Men !- Read This. The Voltaic Belt Co., of Marshall, Mich. offer to send their celebrated Electro-Voltaic Belt, and other Electric Appliances on trial for thirty days, to men (young or old) afflicted with nervous debility, loss of vitality, and all kindred troubles. Also for rheumatism, neuralgia paralysis, and many other diseases. Complete restoration to health, vigor and manhood guaranteed. No risk is incurred as thirty days' trial is a lowed. Write them at once for illustrated pamphlet free.

Gen. Middleton says he led the advance order to inspire cougrage in the men going to their first battle.

When you visit or leave New York City, save Baggage Expressage and Carriage Hire, and stop at the GRAND UNION HOTEL, opposite Grand Central Depot. 600 elegant rooms fitted up at a cost of one million dollars, 21 and upwards per day. European plan. Elevator Restaurant supplied with the best, Horse cars, stages and elevated railroads to all cepo:s. Families can live better for less money at the Grand Union Hotel than at any other first-class hotel in the City.

The Toronto General Trusts COMPANY,

27 & 29 Wellington St. Fast, TORONTO.

President-Hon. EDWARD BLAKE, Q C., M.P. Vice-President-E. A. MEREDITH, LL D. Manager-J. W. LANGMUIR,

Directors-Hon. W. McMaster, Hon. Alexander Morris, B Homer Dixon, Amelius Irving, William Ellos, William Mulock, M. P., Geo. A. Cox, William Gooderham, J. G. Scott, Q. C., James J. Foy, A. B. Lee, James Maclennan, Q. C., J. K. Kerr, Q. C., T. Sutherland Stayner, W. H. Beatty and Robt. Jaffray.

The Company acts as Executor, Administrator and Guardian, and receives and executes Trusts of every description. These various positions and duties are assumed by the Company, either under Deeds of Trust, Marriage, or other settlement executed during the life-time of the parties, or under Wids, or by appointment of the Court.

The Company also untertakes the investment of money in Real Estate mortgage securities ; collecting and remitring the interest for a moderate charge It will either invest the money as agent in the usual way; or should the investor prefer, it will for an extra charge guarantee the principal and the prompt payment of the interest on fixed days, yearly or halfyearly. Mortgages thus guaranteed and taken in the name of the investor, are the safest class of investment, and specially commend themselves to Trustees, as well as to Municipal Corporations and Public Companies desirous of establishing Sinking Funds

The Company also acts as agents for the collection of interest or income, and transacts financial business generally, at the lowest rates.

The third annual meeting of the shareholders of this Company was held at its offices, 27 and 29 Wel lington-screet, east, Toronto, on Monday, 11th inst. The chair was taken by the President of the Company, the Hon. Eiwerd Blake, Q. C., M. P. A large num. ber of the shareholders were present, including Mr. E. A. Meredith, the Vice-president; Hon. Wm. Mc-Master, Messrs. William Eliott, William Gooderham, T S. Stayner, Robt. Jaffray, Sheriff Jarvis, J. G. Scott, Q. C., J J. Foy, Q C., J. D. Ed, ar. M. P., J W. Lan muir, J. N. Lake, Arthur B. Lee, J. K. Kerr Q. C, James Scott, &c, &c.

Mr. J. W. Langmuir, the Manager of the Company, was appointed Secretary, and read the

THIRD ANNUAL REPORT OF THE TORONIO GENERAL TRUSTS The Directors of the Toronto General Trusts Co

beg to submit their third annual report together with the accompanying financial statements, showing the results of the Company's business for the year ending

The Directors have again to congratulate the shareholders on the continued and growing success which has attended the Company's operations in every branch of its business during the past twelve months. The substantial increase in the work done by the Company in its capacity of trustee, executor, administrator, and other offices of a kindred character is specially satisfactory, as it furni hes conclusive evidence that the Company, as it becomes better known, is steadily and rapidly growing in public

One of the principal objects in establishing the Company was to enable it, in the public interests, to accept and execute these various responsible office; it being beyond all question that the security and permanency which a wealthy and responsible corporation aff rds, alike to the parties creating the trust and to the beneficiaries, are infinitely pr ferable to the uncortain security of any individual trustee. It is, therefore, most kratifying to your Directors to be able to report that the Company is so satisfactorily fulfilling the objects for which it was called into existence, and that in so doing it is laying the foundation of a large and rapidly increasing nusiness.

The profit and loss statement herewith submitted shows in detail the revenue of the Company for the year and the sources from which it was obtained It will be observed that not only has the entire amount incurred for preliminary expenses been wiped out, but that all commi-sions and charges paid for obtaining the Company's investments, including the balance due for these services for the two preceding years, have been fully liquidated After the settlement of all outstanding do bis as well as the current office expenses, there remained a sufficient amount at the credit of profit and loss to enable your directors to declare a dividend of 8 per cent. per annum on the paid-up stock of the company, besides placing the sum of \$11,000 to the reserve account, and carrying forward to the credit of profit and loss the sum of

At a special general meeting of the shareholders, held on 5th December last, it was decided to make application to the Lleut-Governor in Council for the issue of letters patent to the Company, conferring extended powers upon it, especially in dealing with securities as agent, and, in accordance with this application supplementary letters patent issued to the Company on the 7th day of January, 1885.

The directors have much pleasure in recording their -nuire ratisfaction with the manner in which the Company's business operations have been conducted furing the year by the mana: er and his assi-tante. EDWARD BLAKE, President.

Toronto. 4th May, 1885.

In moving the adoption of the report Mr. BLAKE congratulated the shareholders on the remarkable and uniform progress of the Company's operations, he also dre + attention to the largely incressed numher of trust estates which had been placed in charge of the Company during the past year and expressed the belief that the more the business and powers of the Company were understood by the public the more it would be availed of in its capacity of trustee, ex-

The resolution was seconded by Mr. MEREDITH, the Vice-President.

Resolutions of thanks were passed to the President, Vice-President, and directors, as well as to the manager and staff for their careful and diligent discharge of their duties during the year.

The following shareholders were elected directors for the ensuing year, viz :- Hon, Edward Blake, Q C., M.P.; Hon. Wm. McMaster, Senator; Hon. Alex. Morris, M.P.P.; Messrs. E. A. Meredith, LL.D.; B. Homer Dixon, Emilius Irving, Q C .; Geo. A. Cox, Wm. Gooderham, J. G. Scott, Q.C.; Jas J Foy, Q.C.; A B Lee, Wm. Elliot, James Maclennan, Q.C.; J. K. Keir, Q.C.; T. S. Stayner. Robt. Jaffray, Wm. Mulock, M.P.; and Wm. H. Beatty.

The new Board of Directors then met and re-elected the Hon Edward Blake, President, and Mr. E. A. Meredith, Vice-President.

Mrs Delaney has died, a victim of foul outrages, on the part of the Indians, and torture on the part of squaws. It is said that she was horribly ill-treated by the Indians, passed around from one band to another, and finally died from abuse. The squaws cut her into pieces. Mrs. Gowanlock is said to be owned by a buck, and to be still alive.

Mrs. Gowanlock and Mrs. Delaney, captured by the Indians at Frog Lake, are still prisoners. Mrs. Delaney had been bartered several times and it was thought that she would soon die. She was illtreated more than Mrs. Gowanlock, as Delaney was much disliked by the Indians. Another report says that John Pitchard had bought both women. It so, they are all right, as Pitchard is a Halfbreed, and opposed to the trouble, and has been a prisoner among the Indians.
