You can get the best value in Raisins, Currants, Peels, Sugar and Tea at the Concrete.

Hard to Beat.

Eggs are generally sold by the dozen in this part of the country. Elgin Mills people, however, prefer selling by weight, and feed their hens wholesome food with that understanding. A few days ago Mr. R. French took the dimensions of one which measured 1 1/4 by 9/8 inches. We presume this is not a daily occurrence.

4lbs. of Good New Japan or Black Tea for \$ at Grennan's.

In all he has secured 57 first prizes, and a proportionate number of seconds and thirds. Besides the prizes he has been awarded 3 diplomas and several sweepstakes. His fine flock is a credit to this part of the country.

All Wool Blankets and Grey Flannels at the Concrete, cheapest in the trade.

Accident at Patterson.

Mabel, the youngest daughter of Mr. Hardy, Superintendent of the Patterson Works, Patterson, met with a painful accident on Monday last. It appears the little girl was in a chair, and by some means or other the chair tipped, and the occupant fell to the floor and broke her arm. A doctor was hastily summoned who set the limb, and the patient is now progressing as favorably as can be expected.

There will be sold by Mr. Salem Eckardt, Auctioneer, at the Eagle Hotel, Weston, on Tuesday, the 23rd of November, at one o'clock, p. m., the following valuable lands and premises in one parcel viz: The west halves of lots 18 and 19, in the 4th con. west of Yonge St. in the township of York, containing by admeasurement 200 acres of land, more or less. The land is of first-rate quality, of which about 110 acres are cleared and in a good state of cultivation, and about 90 acres of first-class pine and hardwood bush. The farm is well watered by a spring creek. For terms and particulars see large posters.

You can buy at the Concrete one dozen handled Tea Cups and Saucers for 80 cents, and one dozen nine inch plates for 80 cents.

Alarming.

At the last meeting of the Markham Council held on the 10th of this month, that body ordered the payment of over \$160 to persons whose sheep had been killed and worried by dogs. Commencing at Mr. R. Marsh's, about a mile south of this village, the canine race showed very little partiality for one man's mutton more than another, but destroyed those offensive animals belonging to W. Vandorburg, M. Vanderburg, Wm. Harding, T. Palmer, T. Dobson, G. Hooper and J. Kerswell. If the dogs were as destructive in all parts of the township as in the 1st Concession, the annual tax of \$1 would require to be raised. Though it is difficult to get a perfect remedy, the assessors should make every effort to assess those domestic creatures, from the yelping poodle up to a growling Newfoundland.

You can buy a splendid China Tea Set for \$4.75 at the Concrete.

Edgely Items.

Successful revival services are now being conducted by Rev. Mr. Pearen, in what is now known as the Toynline church. Over twenty persons have already professed to have found Christ, and a religious movement is abroad in the neighborhood which bids fair to be the means of the conversion of many others. It is thought that some side winds from the cyclone which Sam Jones has raised in Toronto have reached this place. Rev. Mr. Irwin has resigned his position as assistant to Mr. Pearen. His short residence among us endeared to him many friends. Mr. Burkholder is going to sell his hotel, and there is a probability of its being bought for a store. Two stores in this place would certainly make business boom. At the close of Friday night's service, the Edgely friends of the Rev. Mr. Irwin presented that gentleman with a purse containing a handsome sum of money, as a token of their esteem and friendship for him. The farmers around here are anxiously summing up the results of the N. P. rule, which was to have entered in a reign of high prices and to have bettered their condition generally. A decided feeling of uncertainty as to the future has now taken hold of them. A great many are nervously asking themselves whether they had not better change their plans of farming and engage in something more remunerative than grain growing, and we find them thinking seriously of rushing into the milk business, the growing and fattening of cattle, vegetable gardening, raising of small fruits, hens, and even bees. All are unanimously agreed that grain growing is now carried on at a considerable loss, and that some radical change must take place. Let us have some Farmers' Conventions to talk over these matters.

Hallelujah Siege.

Unusual excitement prevailed among the officers and members of the Salvation Army of this place last (Wednesday) evening. Recently a number of young men have joined their ranks, who, doubtless, will do credit to this singular band of worshippers. After marching through the town last evening they proceeded to the Masonic Hall, where numerous gospel testimonies and experiences were given by the new converts as well as by those of longer standing. About thirty occupied seats on the platform, all of whom took some part in the devotions. Captains McHardy, Goodwin and Lindsey were present and took a prominent part in the evening's programme. Captain Goodwin sang some beautiful pieces in good style, and her experience both before and after conversion was told in a touching manner. The hall was well filled, and with one or two exceptions the order was all that could be desired.

22 lbs. good Refined Sugar for one dollar at the Concrete.

Complimentary Supper at Patterson.

On Monday evening of last week the Teston Cornet Band were invited by Mr. James Thomson to partake of the good cheer which he had provided at his residence in their honor. About 8 o'clock the harmonious notes of the full band were heard reverberating through the village, when the uniformed musicians arrived, lighted by flaming torches. About fifty guests were soon after seated around Mr. Thomson's festive board, which was covered with a sumptuous collection, that would have warmed the soul of Epicturus himself. Among others who had accepted the courteous invitation of the entertainer were Dr. Gilmour, the popular nominee of the Reform party for this riding, and Mr. P. Patterson. When the guests had done full justice to the appetising burden of the table, an adjournment was made to the parlor, where the band contributed largely towards the entertainment of the company, by playing various instrumental selections, interspersed with vocal renderings by several of their talented members. Mr. Abraham Carley, in this connection sang some lively ditties in his inimitable style, provoking much merriment and applause with his quaint songs and facial contortions. At a late hour the affair was reluctantly brought to a termination with a parting number by the band, and everyone enthusiastically voted the entertainment an undoubted success.

The recently invented method of curing Teas in a perfectly cleanly and uniform manner, termed the Perfection Process, has produced a singularly agreeable and delicately flavored article, which has been named by its imported, Mr. Wm. Atkinson, Unity Tea. When the leaves of the tea-plant of fresh tender growth are cured, as Unity Tea has been cured and imported in Perfection Tea Cans, as Unity Tea is imported by W. Atkinson, thus giving a guarantee of perfect purity and perfect keeping qualities, we fail to see what more is to be desired in a household beverage. Give it a trial.
