Rewards of Merit.

It speaks well for the rising generation of North York when their school work is highly spoken of in foreign countries. The following public schools in that inspectorate have each received a medal and a diploma for work exhibited by the pupils at the colonial and Indian Exhibition held in London, England in 1886. viz., Newmarket, Sharon, Laskay, Pottageville and Carrville. The tenfeel proud of such noticeable commendation.

Court Cases.

There was quite an interesting time at the Court held in the village on Saturday. It was about five o'clock before His Honor. Judge Morgan got through with the list on the docket. If swearing diametrically op-posite to each other means taking a false oath, there is every reason to believe that some of the witnesses placed themselves in an unenviable position before the public. But it is only charitable to believe that there are many cases where statements are made in direct opposition to each other and yet the parties making them believe what they say to be true. The lawyers and judges must have a curious opinion of mankind in

Cut the grass.

We are glad to notice that several people are cutting the grass along the streets in tront of their premises. It would be a good thing if all of it could be cut sometime during the season as when it dies in the fall it becomes putrid, and the odor emitted is not productive of good health. If those people in the village who keep a horse or a cow would look sharply after the grass in the cor-poration they could winter their stock cheap

Something New.

Outsiders frequently wonder where the railroads obtain proper return for some of the ingenious but costly methods adopted in advertising their lines. One of the latest to attract our attention is a nicely bound 64 page book entitled, "What to Do," contain-ing description and the correct rules of a arge number of games suitable for parlor of lawn, which has been issued by the Passen ger department of the St. Paul, Minneapolis & Manitoba Railway, and will, we under-stand, be forwarded postpaid, upon receipt of 8 cents by C. H. Watren, General Passen-ger Agent, at St. Paul. It is a book that would ornament almost any table and inter est both old and young.

Pic-Nic and Entertainment.

A Sabbath School Pic-Nic in connection with the Methodist Sunday School, Headford, will be held on the beautiful grounds of Mr. S. Agar, on Wednesday, June 22, 1887. Agricultural Meeting.

The directors of the Agricultural Society met in the Palmer House last Saturday aft ernoon. The committee were able to report a reduction in the liabilities of about \$176 since last meeting. As the Village Council had agreed to forego their claim of \$40 for rent of Park for the Fair on the 24th of May the following gentlemen very kindly made liberal donations, viz. :-James Russell, \$27.50; Peter Patterson, \$10; Thomas Boynton, \$21.00; Edward Sanderson, \$8.00; Wm. Trench, \$13.00; J. Palmer, \$8.00; T. Palmer, \$10.00; J. Sisley, \$2.50; Ladies' Aid of the Methodist Church, \$5.50; Robt. Marsh, \$25.00. A committee consisting of Messrs. T. Boynton and R. Marsh was appointed to wait on the Council of Markham Township in view of receiving a grant from that body. Messrs. Wm. Trench and I. Crosby were also deputized to wait on the Vaughan Council on similar business. It is to be hoped the corporations will see their way clear to render some assistance to this branch of agricultural industry.

35,000 BOYS

-IN-

TORONTO, and more to follow-what an undertaking to supply them with CLOTH-ING. We don't do it all, but we sell our share. Our sales in this department double every year, till now, at the smallest calculation, we sell 10,000 Boys' Suits a year, and we fully expect that our sales this year will not fall short of 20,000 Suits. This seems a great deal, and some of you may reasonably doubt it-nevertheless we are prepared to prove our statements and show to the satisfaction of everyone that we do the largest trade in Boys' Clothing in Canada. Where do they all come tron? We'll try and tell you : -

Those little Sailor Suits at \$1:50, that we never have enough of, come from over the sea-they could not be produced in this country for less than \$3.50; then the little Halifax Tweed Suits at \$1.50 come from the same quarter, and those parents who have bought this line from us say that it is a real pleasure to have boys when they can be clothed so neatly and at such little cost. Again, England supplies those Corduroy Suits that never wear out, and remind old country people of their child-hood, playing about the green lanes of their native village. GERMANY is away ahead in plaited and fancy suits, and though their goods are not quite as substantial as those of Further and fancy suits, and though their goods are

not quite as substantial as those of English or Canadian manufacture, they excel in design and nobby styles. It is an extraordinary fact that amid the keenest competition English manufacturers have ever maintained the highest standard of durability in their fabrics—very often sacrificing style of quality—while the Germans seem to ht their entire energy into design and style, forgetting that people require a durable as well as a stylish garment. FRANCE sends us some of the finest ond prettiest suits, but the difficulty with

French Clothing is its enormous cost and unsuitable styles for Canadian trade. CANADA. Last, but not least, comes our own country, and let it be said to her

credit that like the mother country, England, the standard of quality is maintained in her cloth manufacturers.

We make up thousands of suits ourselves, employing hundreds of hands-men and women throughout the surrounding country—paying out in wages from \$40,000 to \$50,000, and many a little cottage in the suburbs has been paid for out of the savings of our employees,—and now a word about prices.

A new Journal. We have received No. 1, Vol 1, of the Mur-rietta Transcript, a neat weekly paper pub-lished in Murrietta, California. In looking lished in Murrietta, California. In looking over its columns we came to the conclusion that Dr. C. E. Lawrence, a former High school boy of this village, is one of the prominent citizens of that town. On one page we see his card as physician and surgeon. In another place is an advertisement for his drug store, and knowing his style of composition we feel confident the leading article is written by the same Charlie Lawrence. He protures the Temecula Valley as a health resort for invalids, and recommends the baths at the Etua Hot Springs as invaluable for certain diseases. We are pleased to learn by this article that the writer is much improved in health since he went to that salubrious climate.

Immigrant Children.

Mr. John T. Middlemore, the founder of the Orphan Children's Emigration Charity, London, Ont., left Liverpool on the 10th inst in the S. S. Lake Ontario with a party of 50 girls and 100 boys between the ages of 3 and 20 years, who are brought out to this coun-try for adoption or hire, chiefly among farmers. They are expected to arrive at the Guthrie Home, usar the city, on or about the 23rd inst. This will be Mr. Middlemore's 15th annual visit to these shores with juvenile emigrants from Birmingham, England, since 1872. Already many applications ac-companied with good references have been made for the children expected to arrive, but more are required. Further particulars may be obtained by addressing Mr. H. Gibbens, ¹ ance and has proved himself a wise counselor Manager of the Guthrie Home, Loudon, Ont.

We have been handed a copy of the Pa cific Rural Press, a large 40 page journal printed in San Francisco, California. From it we clip the following believing it will be interesting to our readers to know that the son of one of our townsmen is so highly spoken of across the lines. Mr. Welsh may well be pardoned if he feels proud in having such a son. "The genius of government and opportunities for securing wealth, honor and advancement are fitly illustrated in the of the present Mayor of the city of Stockton. He was born in Dundee, Scotland, in the year 1845, and is now in the prime and vigor of manhood. At the age of 5 years his father and family emigrated to Canada, where he received a common-school education and afterward learned the trade of miller. In the year 1858, he came to Californis, and has followed milling continuously up to the pre-sent time. In 1882, the Crown Milling Company was formed, consisting of Schwonbacker Bros., Balfour, Gutheie & Co., and Mr. Welsh who has been the general manager of this immense plant, Although a quiet, unostentations citizen, and what may be termed a strictly business man, the solid men of Stockton brought him out and urged him to accept the position of Mayor. He was elected by a good majority in a closely contested election. His administration was conservative and characterized by a striot adherence to law, constitutional enactments and individual rights, unmiudful of spasmodic clamor or vituperative assaults. He was re-elceted and succeeded himself by the largest majo-rity ever given to a candidate for Mayor in the city of Stockton. At the present time he is president of the San Joaquin County Board of Trade and also of the Land Loan and Building Association of Stockton. Welsh is not prominently connected with fraternal societies, although he is a member of A. F. & A. M. and has always taken a deep interest in humanitarian projects for the assistance and advancement of his fellow-men. He has followed one line of business from boyhood, and has the reputation of being one of the most skilful in this lino on the Pacific Coast. His interesting family and the management of an immense business have occupied most of his time, until of late, being chosen executive head of the municipa-lity of the city of Stockton, he has given much thought and study to political economy
