### A Railway Horror.

One of the most terrible accidents on record happened on Thursday night last, Aug. 11th. An excursion train from Peoria, Illinois, bound for Niagara Falls, with over 900 passengers on board, went through a burning trestle. About 100 were instantly killed, many more have since died, and deaths are still occurring every day among the unfortunate victims. The train was made up of two engines, six sleeping cars, six day coaches and chair cars and three baggage cars, and at the time of the accident was running at the rate of nearly a mile a minute. There was no time to stop, as the train was within one hundred yards of the burning bridge before it was perceived by the engineer. The first engine went over in safety, and the engineer and firemen were unhurt. But the second engine went down, and instantly the deed of death was done. One coach was heaped upon another, and in the twinkling of an eye nearly one hundred people were launched into eternity.

For the best value in Black and Colored Cashmeres, Dress Goods, Linings, Trimmings, Buttons &c. go to the Concrete.

### Disfigured for Life.

Last Friday morning about nine o'clock, a dastardly trick was enacted on a young man named Louis Sievert, who, with his father, keeps a tobacco store under the Dominion Bank, on the corner of Yonge and King Streets. The young man was sitting behind the counter reading a paper when he got up to wait on, as he supposed, a customer. The stranger instantly threw a phial of vitriol in his face, some of which went into his eyes. The victim scrambled out of the store and called for assistance, and the police arrested a middle aged man who gave his name as Edward Graham. The latter denies the charge, and says he only happened to be going by the store when the young man rushed out. Sievert, however, has no doubt as to his identity. From later accounts it seems that the sight of the victim may be saved, but his face will be badly disfigured. No reason can be given for the deed, but it is thought by some the man must be crazy, and have a mania for vitriol throwing.

The fine arts and ladies' work will be exhibited in the new skating rink which has been secured for the occasion. This de a tment promises to be very large, and will be a great attraction. ### W. C. T. U. Excursion.

Last Friday was a day which will long be remembered by those who availed themselves of the opportunity of joining in the excursion gotten up by the W. C. T. U. of Ontario. The place selected for the meeting was the beautiful summer resort now known as Niagara-on-the-Lake.

At about 4.30 a. m., two large vans from Proctor's and Rupert's livery stables containing nearly forty excursionists from this village, started for Toronto, which was reached after a brisk drive of a little over two hours. Here that large and commodious steamer, The Chicora, was waiting to take them on board, and in less than half an hour was steaming out from Yonge St. wharf bound for the destination of the excursionists across Lake Ontario. The sail was a delightful one, the morning being extremely fine, and the waves just high enough to break the monotony of the water. The ancient town of Niagara was reached in about two hours and a half. At this place the party from Richmond Hill separated, about half remaining to listen to the temperance programme, which was to be given in the magnificent amphitheatre of the Canadian Chautauqua, and the remainder going on to visit the Niagara Falls. Addresses bearing on the cause of temperance were given by Mrs. Youmans, Mrs. Lathrop, Mayor Howland and others, all of which were interesting and instructive. Mrs. Lathrop, a lady from Michigan, seemed to captivate her hearers by her earnestness and wonderful eloquence. She is fast coming into prominence as a temperance worker, and will draw an immense crowd wherever she is known.

Those who concluded to pay a visit to the Falls proceeded up the Niagara River to Lewiston, where they took the train on the New York Central and Hudson River Railroad, reaching the great natural wonder a little before noon. The afternoon was spent in visiting the chief points of interest, and the pleasure-seekers were more than delighted with the sights. The chief places visited were Bath Island, Goat Island, Luna Island, Cave of the Winds, Terrapin Tower, Three Sister Islands, Horse-shoe Falls, American Falls, Hermit's Cascade, Prospect Park, New Suspension Bridge, Table Rock, Museum, &c., &c. Several took advantage of a trip on the Incline Railway and the Maid of the Mist, the latter making her voyage very close to the bottom of the Falls.

Space will not permit even of a short description of those broad, deep and turbulent waters, which, in voice of thunder, dash with irresistible force in foaming torrents over that mighty precipice. It would indeed be a wonder if thousands of people from all parts of the world did not yearly go and see for themselves these wonderful works of the Creator. The eye never tires in looking at the beauty and grandeur of the surroundings, such as the miniature rainbows which may be seen enamelling the brows of the cataracts, and the foaming waters which rise like clouds of spray.

After a five hour's stay the tourists made their way to the depot of the Michigan Central Railway, whence they proceeded to the dock of the Chicora where their friends were waiting their return. Another pleasant sail, followed by a somewhat tiresome drive up Yonge St., and the excursionists reached home shortly after midnight, all voting their sincere thanks to Mrs. Wiley and Mrs. Currier, who so zealously labored in promoting the undertaking, and bringing it to so successful an issue.

# 35,000 BOYS

—IN—

TORONTO, and more to follow—what an undertaking to supply them with CLOTHING. We don't do it all, but we sell our share. Our sales in this department double every year, till now, at the smallest calculation, we sell 10,000 Boys' Suits a year, and we fully expect that our sales this year will not fall short of 20,000 Suits. This seems a great deal, and some of you may reasonably doubt it—nevertheless we are prepared to prove our statements and show to the satisfaction of everyone that we do the largest trade in Boys' Clothing in Canada. Where do they all come from? We'll try and tell you:—

Those little Sailor Suits at \$1.50, that we never have enough of, come from over the sea—they could not be produced in this country for less than \$3.50; then the little Halifax Tweed Suits at \$1.50 come from the same quarter, and those parents who have bought this line from us say that it is a real pleasure to have boys when they can be clothed so neatly and at such little cost. Again, England supplies those Corduroy Suits that never wear out, and remind old country people of their childhood, playing about the green lanes of their native village.

GERMANY is away ahead in plaited and fancy suits, and though their goods are not quite as substantial as those of English or Canadian manufacture, they excel in design and nobby styles. It is an extraordinary fact that amid the keenest competition English manufacturers have ever maintained the highest standard of durability in their fabrics—very often sacrificing style of quality—while the Germans seem to put their entire energy into design and style, forgetting that people require a durable as well as a stylish garment.

FRANCE sends us some of the finest and prettiest suits, but the difficulty with French Clothing is its enormous cost and unsuitable styles for Canadian trade.

CANADA. Last, but not least, comes our own country, and let it be said to her credit that like the mother country, England, the standard of quality is maintained in her cloth manufacturers.

We make up thousands of suits ourselves, employing hundreds of hands—men and women throughout the surrounding country—paying out in wages from \$40,000 to \$50,000, and many a little cottage in the suburbs has been paid for out of the savings of our employees,—and now a word about prices.

- Boys' Blue Serge Suits, only 98c.
- Boys' Brown Serge Suits, only 98c.
- Boys' Halifax Tread Suits, only \$1.50.
- Boys' Sailor suits, only \$1.50.
- Boys' Corduroy suits, only \$2.50.
