Mgr. D'herbomez, of British Columbia, who has been a guest of the authorities at the College of Ottawa for some days, has who will devote their time to missionary labour among the Indians. Most of the Rev. Fathers are from France, only three out of the ten being Canadians.

It appears to be definitely settled that fifty miles of the North West Central rail way will be built this year, probably in order to save the charter. It is rumoured that Mr. J. H. E. Secretan, woo recently visited Ottawa, has been appointed engineer of the line. Mr. Sproule is reported to have been awarded the contract for building the fifty miles.

The corner stone of the new synagogue for the Spanish and Portuguese congrega tion in the west end of the city of Montreal was laid on Thursday afternoon, of 22 ad inst., by Mr. Gersham Joseph, the representative of one of the oldest Jewish families in the city. The new synagogue will be in the Egyptian style of architecture, and will be one of the most handsome Jewish places of worship in North America.

coast, states that in his opinion the C. P. R. route for the mail service to Japan and the Suez canal route, its advantages being national rather than postal, but admitted that it would be of the utmost value as an alternative route in case of war or European complications.

The Mormons intend to obtain a foothold in the Canadian North West. Twelve families have settled in Southern Alberta, and it is thought that others will settle shortly near Medicine Hat. It is said that the Mormon rulers have been in correspondence with the Canadian Government on the subject and that the answers they received were not such as to prevent their endeavoring to effect their purpose. If the Latter Day Saints wish to establish any settlements in Canada they must leave behind them polygamy and all organised immorality.

Mr. Charles Maguire, shipping merchant of Quebec city, has been arrested on a capias of \$17,000. The firm of J. & W. Maguire, of which the prisoner is a member, failed for half a million dollars some time a co. It is alleged by the trustees of the es. the flames. tate that a few days before the failure Charles Maguire, then representing the firm in New York, purchased a ship for \$17,0 0 and drew on the firm here for the amount, at present. subsequently transferring it to a German Jew in New York, but notwithstanding that, the members of the firm in Quebec entered the ship amongst their assets. It is alleged that Charles refused any satisfaction. He only arrived a few days ago in Quebec, and proceedings for his arrest were taken at once. He is now held in default of \$17,000 bail.

A dispatch from San Francisco says: -The agents of the United States Transcontinent- | English and French fishermen in the North al roads are beginning to realise the fact that the Canadian Pacific railway is not entirely depending on the advantages given to it by Congress through the Inter-State Commerce bill. find was made in connection with the old pulled down. While the corner stone was being moved from its position a small lead casket with "1835" stamped on its face was noticed, with a number of ancient and modern coins lying on top of it. Amongst these half a million sterling and proved a failure, were coins of Spain, Portugal, Great Britain, is to be employed as a training ship for boys. Spanish coins which are supposed to have possessed by any power in the world. been brought out by Jewish colonists. They are in good state of preservation, although some of them are dated 300 years ago. On opening the casket a package wrapped in Bulgarian question, Count Kalnoky not conbellum was found, containing an inscription dated 1777. It showed that the first Jewish Congregation in Canada was formed in Montreal in that year. A number of copper plates were also found, and a copy of the Montreal Herald and Morning Courier of date June, 1835.

the late Imperial conference was the proposed trans Pacific cable between British Columbia and New Zealand and Australia. The strong representations made by the colonial delegates, headed by Mr. Sandford Fleming, who may be considered the father of the scheme, in favour of its adoption has led the Imperial authorities to thoroughly consider the matter of a survey. The Dominion Government has recently received an intimation that the British Government cannot undertake the cost of a special survey unless some guarantee is given that the cable will actually be laid. In view of this decision, Mr Fleming a few days ago waited on Minister Foster and urged that Canada should take the initiative in proposing to the other colonies the making of a survey, suggesting that the Dominion's proportion toward it should be the loan of a vessel. Mr. Foster was favourably impressed with the proposal, and if his colleagues are agreeable the Australasian Government will be asked to co-operate in the scheme.

A lawsuit which came to a conclusion in Atlanta, Ga., a few days ago involved the question of the ownership of not only a lot of mules, horses hogs and cattle, but of sixty slaves as well. The suit was instituted in the year 1859, but was never tried until this year. The value of the property in question was over \$50,000, and the suit was brought upon a written transfer of it signed Sept. 13, 1858. On the same day—(22nd | Also Rice's Canadian Salt. In the meantime the mules, horses, hogs and cattle had died, the negroes had been set free, every lawyer originally in China would save little in point of time over the case except one had died, men had grown grey waiting to testify, and children had been born and raised, after the case was brought, to sit upon it as jurors.

There was great excitement in Toledo last week owing to an immense oil conflagration in the Wood County oil fields. The fire was caused by an explosion in the Parker well No. 1, the greatest oil well in the world. The oil caught fire from the engine and rapidly spread to the other derricks and tanks. At the time of the explosion, without warning, a column of blue flame or smoke, shot up into the air at least a thousand feet, and extended over acres of ground. The heat was so intense that it was impossible to approach nearer than half a mile. It could be plainly felt two miles away, and the sight of the burning well was visible in Toledo, thirty miles distant, One of the drillers was caught in a whirlwind of smoke or flame and was so badly burned that no hopes were entertained of his recovery and other drillers it was feared had perished in
